Agilent columns and supplies - to help you get the results you need

For greater confidence in your chromatography results, optimize your whole system with quality Agilent columns, supplies, kits and accessories. All are designed, manufactured, and tested to rigorous Agilent specifications, under a quality system registered to ISO 9001. Why risk compromising your analytical results with anything less than genuine Agilent supplies?

Agilent manufactures GPC/SEC columns and standards for almost every polymer you want to identify or characterize, from broad molecular weight polystyrenes through polar and non-polar eluents to application specific columns, in organic and aqueous solvents.
