OpenLAB ECM provides the most comprehensive solution to store, access and protect data from your Cary 8454 and 8453 UV-Vis spectrophotometers as well as data from any other sources. OpenLAB ECM has been the tool of choice for many of the top pharmaceutical companies to satisfy the ALCOA+ standards of data integrity set by US FDA 21 CFR Part 11 and EU Annex 11: attributable, legible, contemporaneous, original and accurate.

Benefits of OpenLAB ECM Compliance Pack for UV-Vis Chemstation:
This optional software add-on provides secure record keeping and data archiving features along with the necessary controls for system access, user role administration, data transfer and audit trails.

Efficient Data Storage and Retrieval
- Centralized storage, backup and recovery for UV-Visible ChemStation data files as well as any other data
- Reduced system administration (one system vs. multiple workstations)

Security
- Robust access protection with full access control at the system level and content structure level
- Ensure that only the right people have access to the right information

Data Integrity and Traceability
- Maintain file revisions
- Comprehensive audit trails for both system and application

Electronic signatures
- Electronically sign and lock results within UV-Visible ChemStation
- Use ECM E-signature features
Connect your data to your team
How would you like to have instantaneous access to all the data you produce in your lab? OpenLAB ECM enables a secure connected organization where data is instantly accessible to the appropriate team members improving the flow of data in your laboratory. Experience the freedom and peace of mind of having all the data you need, organized and secured in a central location.

Agilent CrossLAB services – helping your lab perform at its best every day
Agilent CrossLab service experts deliver valuable insights and keep your instruments running at peak performance with minimal downtime. We offer solutions and service agreements that include application consulting, repair, preventative maintenance, compliance verification, education, and a host of other services tailored to meet your needs.

OpenLAB ECM supports a range of analytical data systems including UV-Visible ChemStation.
