# Section 1. Identification

**Product identifier**  : VariFlex N-Terminal SBP Vector Set, Part Number 240162  
**Part No. (Chemical Kit)**  : 240162  
**Part No.**  :
- pBEn-SBPa  
- pBEn-SBPb  
- pBEn-SBPC  

**Supplier/Manufacturer**  : Agilent Technologies Australia Pty Ltd  
679 Springvale Road  
Mulgrave  
Victoria 3170, Australia  
1800 802 402  

**Emergency telephone number (with hours of operation)**  : CHEMTREC®: (61)-290372994  

## Relevant identified uses of the substance or mixture and uses advised against

**Analytical reagent.**

## Section 2. Hazard(s) identification

### Classification of the substance or mixture

Not classified.

### GHS label elements

**Signal word**

- pBEn-SBPa : No signal word.  
- pBEn-SBPb : No signal word.  
- pBEn-SBPC : No signal word.  

**Hazard statements**

- pBEn-SBPa : No known significant effects or critical hazards.  
- pBEn-SBPb : No known significant effects or critical hazards.  
- pBEn-SBPC : No known significant effects or critical hazards.  

### Precautionary statements

**Prevention**

- pBEn-SBPa : Not applicable.  
- pBEn-SBPb : Not applicable.  
- pBEn-SBPC : Not applicable.  

**Response**

- pBEn-SBPa : Not applicable.  
- pBEn-SBPb : Not applicable.  
- pBEn-SBPC : Not applicable.  

**Storage**

- pBEn-SBPa : Not applicable.  
- pBEn-SBPb : Not applicable.  
- pBEn-SBPC : Not applicable.  

**Disposal**

- pBEn-SBPa : Not applicable.  
- pBEn-SBPb : Not applicable.  
- pBEn-SBPC : Not applicable.  

**Supplemental label elements**

- pBEn-SBPa : Not applicable.  
- pBEn-SBPb : Not applicable.  
- pBEn-SBPC : Not applicable.  

---

**Date of issue/Date of revision**  : 31/03/2017  
**Date of previous issue**  : 29/09/2015  
**Version**  : 4  
**1/13**
Section 2. Hazard(s) identification

Other hazards which do not result in classification:

- pBEn-SBPa: None known.
- pBEn-SBPb: None known.
- pBEn-SBPc: None known.

Section 3. Composition and ingredient information

<table>
<thead>
<tr>

</tbody>
</table>

CAS number/other identifiers

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

**Eye contact**:

- pBEn-SBPa: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
- pBEn-SBPb: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
- pBEn-SBPc: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

**Skin contact**:

- pBEn-SBPa: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
- pBEn-SBPb: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
- pBEn-SBPc: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

**Inhalation**:

- pBEn-SBPa: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
- pBEn-SBPb: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
- pBEn-SBPc: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

**Ingestion**:

- pBEn-SBPa: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
- pBEn-SBPb: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

</tr>
</tbody>
</table>
Section 6. Accidental release measures

pBEn-SBPc
No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.

For emergency responders:

pBEn-SBPa
If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

pBEn-SBPb
If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

pBEn-SBPc
If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions:

pBEn-SBPa
Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

pBEn-SBPb
Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

pBEn-SBPc
Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and material for containment and cleaning up

Methods for cleaning up:

pBEn-SBPa
Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

pBEn-SBPb
Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

pBEn-SBPc
Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Section 7. Handling and storage

Precautions for safe handling

**Protective measures**
- Put on appropriate personal protective equipment (see Section 8).
- Put on appropriate personal protective equipment (see Section 8).
- Put on appropriate personal protective equipment (see Section 8).

**Advice on general occupational hygiene**
- Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
- Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
- Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

**Conditions for safe storage, including any incompatibilities**
- Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.
- Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.
- Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.
Section 8. Exposure controls and personal protection

Control parameters

Occupational exposure limits
None.

Appropriate engineering controls
: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures
: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection

Hand protection
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection
: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

Appearance

Physical state
: pBEn-SBPa Liquid.
  pBEn-SB Pb Liquid.
  pBEn-SBPc Liquid.

Section 11. Toxicological information

**Information on toxicological effects**

**Acute toxicity**
Not available.

**Irritation/Corrosion**
Not available.

**Sensitisation**
Not available.

**Mutagenicity**
Not available.

**Carcinogenicity**
Not available.

**Reproductive toxicity**
Not available.

**Teratogenicity**
Not available.

**Specific target organ toxicity (single exposure)**
Not available.

**Specific target organ toxicity (repeated exposure)**
Not available.

**Aspiration hazard**
Not available.
Section 11. Toxicological information

Information on likely routes of exposure:

- **Inhalation**
  - pBEn-SBPa: No known significant effects or critical hazards.
  - pBEn-SBPb: No known significant effects or critical hazards.
  - pBEn-SBPc: No known significant effects or critical hazards.

- **Ingestion**
  - pBEn-SBPa: No known significant effects or critical hazards.
  - pBEn-SBPb: No known significant effects or critical hazards.
  - pBEn-SBPc: No known significant effects or critical hazards.

- **Skin contact**
  - pBEn-SBPa: No known significant effects or critical hazards.
  - pBEn-SBPb: No known significant effects or critical hazards.
  - pBEn-SBPc: No known significant effects or critical hazards.

Potential acute health effects:

- **Eye contact**
  - pBEn-SBPa: No known significant effects or critical hazards.
  - pBEn-SBPb: No known significant effects or critical hazards.
  - pBEn-SBPc: No known significant effects or critical hazards.

- **Inhalation**
  - pBEn-SBPa: No known significant effects or critical hazards.
  - pBEn-SBPb: No known significant effects or critical hazards.
  - pBEn-SBPc: No known significant effects or critical hazards.

- **Skin contact**
  - pBEn-SBPa: No known significant effects or critical hazards.
  - pBEn-SBPb: No known significant effects or critical hazards.
  - pBEn-SBPc: No known significant effects or critical hazards.

- **Ingestion**
  - pBEn-SBPa: No known significant effects or critical hazards.
  - pBEn-SBPb: No known significant effects or critical hazards.
  - pBEn-SBPc: No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics:

- **Eye contact**
  - pBEn-SBPa: No specific data.
  - pBEn-SBPb: No specific data.
  - pBEn-SBPc: No specific data.

- **Inhalation**
  - pBEn-SBPa: No specific data.
  - pBEn-SBPb: No specific data.
  - pBEn-SBPc: No specific data.

- **Skin contact**
  - pBEn-SBPa: No specific data.
  - pBEn-SBPb: No specific data.
  - pBEn-SBPc: No specific data.

- **Ingestion**
  - pBEn-SBPa: No specific data.
  - pBEn-SBPb: No specific data.
  - pBEn-SBPc: No specific data.

Delayed and immediate effects as well as chronic effects from short and long-term exposure:

**Short term exposure**

- **Potential immediate effects**: Not available.
- **Potential delayed effects**: Not available.

**Long term exposure**

- **Potential immediate effects**: Not available.
- **Potential delayed effects**: Not available.

**Potential chronic health effects**

Not available.

- **General**
  - pBEn-SBPa: No known significant effects or critical hazards.
  - pBEn-SBPb: No known significant effects or critical hazards.
  - pBEn-SBPc: No known significant effects or critical hazards.

- **Carcinogenicity**
  - pBEn-SBPa: No known significant effects or critical hazards.
  - pBEn-SBPb: No known significant effects or critical hazards.
  - pBEn-SBPc: No known significant effects or critical hazards.

- **Mutagenicity**
  - pBEn-SBPa: No known significant effects or critical hazards.
  - pBEn-SBPb: No known significant effects or critical hazards.
  - pBEn-SBPc: No known significant effects or critical hazards.

- **Teratogenicity**
  - pBEn-SBPa: No known significant effects or critical hazards.
  - pBEn-SBPb: No known significant effects or critical hazards.
  - pBEn-SBPc: No known significant effects or critical hazards.
Section 11. Toxicological information

### Developmental effects
- **pBEn-SBPa**: No known significant effects or critical hazards.
- **pBEn-SBPb**: No known significant effects or critical hazards.
- **pBEn-SBPc**: No known significant effects or critical hazards.

### Fertility effects
- **pBEn-SBPa**: No known significant effects or critical hazards.
- **pBEn-SBPb**: No known significant effects or critical hazards.
- **pBEn-SBPc**: No known significant effects or critical hazards.

**Numerical measures of toxicity**
- **Acute toxicity estimates**: Not available.

Section 12. Ecological information

### Toxicity
Not available.

### Persistence and degradability
Not available.

### Bioaccumulative potential
Not available.

### Mobility in soil
- **Soil/water partition coefficient (K_{OC})**: Not available.

### Other adverse effects
- **Not available.**

Section 13. Disposal considerations

### Disposal methods
The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

### Regulatory information
- **ADG / IMDG / IATA**: Not regulated as Dangerous Goods according to the ADG Code.

### Special precautions for user
- **Transport within user's premises**: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

### Transport in bulk according to Annex II of Marpol and the IBC Code
- **Not available.**
Section 15. Regulatory information

**Standard Uniform Schedule of Medicine and Poisons**
Not regulated.

**Model Work Health and Safety Regulations - Scheduled Substances**
No listed substance

**Australia inventory (AICS)**: All components are listed or exempted.

**International regulations**

- **Chemical Weapon Convention List Schedules I, II & III Chemicals**
  Not listed.

- **Montreal Protocol (Annexes A, B, C, E)**
  Not listed.

- **Stockholm Convention on Persistent Organic Pollutants**
  Not listed.

- **Rotterdam Convention on Prior Informed Consent (PIC)**
  Not listed.

- **UNECE Aarhus Protocol on POPs and Heavy Metals**
  Not listed.

**International lists**

**National inventory**

- **Canada**: All components are listed or exempted.
- **China**: All components are listed or exempted.
- **Europe**: All components are listed or exempted.
- **Japan**: Japan inventory (ENCS): All components are listed or exempted.
  Japan inventory (ISHL): All components are listed or exempted.
- **Malaysia**: Not determined.
- **New Zealand**: All components are listed or exempted.
- **Philippines**: All components are listed or exempted.
- **Republic of Korea**: All components are listed or exempted.
- **Taiwan**: All components are listed or exempted.
- **Turkey**: Not determined.
- **United States**: All components are listed or exempted.

Section 16. Any other relevant information

**History**

- **Date of issue/Date of revision**: 31/03/2017
