**Glossary and acronyms**

**Contact us**
Outstanding corporate citizenship has three main components, and all are important priorities for Agilent. The first element is corporate governance—the practices that bring to life the highest standards of integrity and transparency. Our uncompromising integrity is core in all our dealings with customers and suppliers.

The second element of corporate citizenship is the role we play as an employer and community member. Our corporate citizenship efforts strengthen Agilent’s long-term competitiveness and help improve the viability of our many communities. We will continue to make these efforts a priority. The third component is a dedicated focus on sustainability in our products and operations. As a result, Agilent strives to honor our obligations to society by being an economic, intellectual, social, and sustainability leader in each nation and community in which we operate.

EMPLOYEE PHOTOGRAPHY
The photos in the collage represent employee submissions to the Agilent Eye Photo Contest. Agilent’s diversity and the innovation of its employees are key business strengths, and the competition provides all employees with the opportunity to showcase these strengths and share their perspectives and creativity with the entire Agilent community.
I am pleased to present Agilent Technologies’ 2013 Corporate Citizenship Report. This report demonstrates the commitment of our company, leaders and employees to the highest standards of social and environmental responsibility. Corporate citizenship has been a consistent value throughout Agilent’s 75-year heritage as an industry leader.

This year’s Corporate Citizenship and Responsibility Report provides details of our sustainability strategies and philanthropic efforts in 2013. I would particularly like to highlight the efforts we have made to ensure our social responsibility throughout Agilent’s supply chain:

• As a reflection of today’s global environment, we have updated Agilent’s Supplier Code of Conduct to ensure compliance with Environmental, Health, Safety and Social Responsibility guidelines throughout our supply chain.

• Agilent suppliers now must disclose to us whether any products, parts, components and materials provided contain conflict minerals from the Democratic Republic of Congo, in accordance with the Dodd-Frank Act for Wall Street Reform and Consumer Protection.

• Our Supplier Code also reflects the latest requirements from the United Nations Guiding Principles on Business and Human Rights.

Agilent’s focus on sustainability continues throughout the lifecycle of our innovative products. As we move forward into next year, Agilent is committed to provide even more detailed and transparent data reporting on our corporate citizenship initiatives, as we will be using the GRI 4.0 framework in 2015.

At the end of 2014, Agilent plans to separate into two publicly traded, industry-leading companies. Agilent Technologies will focus on life sciences, diagnostics and applied markets, while Keysight Technologies will focus on electronic measurement. As part of Keysight’s launch, we will ensure that the new company is all set to carry forward the rich history of Agilent’s corporate social responsibility.
Our approach to citizenship rests on a framework of values distinguished by uncompromising integrity and the highest standards of business ethics. Our values shape the way our products are designed and delivered, how our operations and supply chains are managed, and how we adapt to take on the tough social and environmental challenges of the 21st century.

**Uncompromising Integrity**
Adhere to the highest standards of business ethics; act with uncompromising integrity in all relationships with customers, suppliers, and employees.

**Speed**
Respond decisively and rapidly to customer and business needs.

**Focus**
Anticipate and satisfy customers with detailed attention to their needs.

**Accountability**
Make honest and consistent commitments and deliver as promised.

**Innovation and Contribution**
Provide quality and originality in our products, systems, and solutions.

**Trust, Respect, and Teamwork**
Foster an inclusive environment that demonstrates respect for individuals, their ideas, and contributions.
POLICIES

Environmental Policy
Agilent is committed to acting in an environmentally responsible manner. Learn more about our Environmental Policy at Agilent’s Environmental Policy.

Occupational Health and Safety Policy
Agilent is committed to health and safety practices and work environments that enable our people to work injury and illness-free. Learn more about our OHS Policy at Agilent’s OHS Policy.

Human Rights and Labor Policy
Agilent conducts business with uncompromising integrity and promotes human rights within the company’s sphere of influence. Learn more at Agilent’s Human Rights and Labor Policy.

Employee Volunteerism Policy
Agilent employees may use up to four hours of company time per month, with manager approval, to work on company supported or sponsored community activities. Learn more at Agilent’s Volunteer Policy.

Employee Diversity, Inclusion, Accessibility, and Work/Life Balance
Agilent applies a range of policies, programs, and practices to promote diversity, inclusion, accessibility, and work/life balance, including:
- Nondiscrimination policy
- Accessibility policy
- Education assistance program
- Employee assistance program
- Employee network group guidelines
- Balanced approach between campus recruiting and experienced hiring
- Harassment-free work environment
- Flexible and part-time work schedules when possible
Learn more at Employee Diversity and Inclusion.

Quality Policy
Agilent earns customer loyalty by providing products and services of the highest quality and greatest value. Learn more at Agilent Quality Policy.

Privacy Principles
Agilent is committed to respecting and protecting the privacy and personal information of customers, employees, and partners. Learn more at Agilent Privacy Statement.

Political Activities
Agilent contributes to dialogue and decision-making on public policies affecting the company, our employees, and operations. In 2013, Agilent provided no financial or in-kind contributions to political parties.

Anti-Corruption Policy
One of Agilent’s most important company assets is our reputation for ethical behavior, honesty, and fair dealing. Agilent’s anti-corruption policy incorporates the common elements of anti-corruption laws and regulations worldwide that apply to Agilent’s business. Learn more at Global Anti-Corruption Policy.
Agilent’s emphasis on sustainability is meant to ensure the actions we take today do not jeopardize future generations’ ability to realize their goals and dreams. We recognize that an effective sustainability strategy addresses the environmental, social, health and safety, product, supplier, and economic components of sustainability:

**Environmental**
- Drive continuous improvement in environmental sustainability through recycling, conservation of resources, prevention of pollution, product development, and promotion of environmental responsibility among our employees.
- Ensure our operations comply with applicable environmental regulations.
- Conduct our operations in a manner committed to the conservation of resources, prevention of pollution, and promotion of environmental responsibility.

**Social**
- Conduct our business with uncompromising integrity and promote human rights within the company’s sphere of influence.
- Ensure employee engagement in the success of the company.
- Be an economic, intellectual, and social asset to each nation and community in which we operate.

**Health and Safety**
- Create the health and safety practices and work environments that enable our people to work injury- and illness-free.
- Ensure our operations comply with relevant occupational health and safety regulations.

**Products**
- Ensure our products meet or exceed their published specifications.
- Ensure our products comply with relevant safety and environmental standards and regulations.

**Supplier**
- Inform suppliers and contractors of our environmental and social responsibility expectations. Require them to adopt management practices aligned with our expectations.
- Inform suppliers and contractors of our occupational health and safety expectations. Require them to adopt sound occupational health and safety management practices.

**Economic**
- Create economic value for our shareholders.
- Achieve our financial objectives in a sustainable and responsible manner.
In 2013, Agilent and the Agilent Technologies Foundation provided $13.9 million in university grants and equipment supporting science and technology research at the forefront of electronic and bio-analytic measurement technologies. In addition, $1.3 million in pre-university science-education grants supported programs reaching more than 6,000 educators and 600,000 students worldwide. Through employee match programs and other community investments, Agilent and the Foundation provided $1.9 million in donations. In total, Agilent and the Agilent Technologies Foundation invested more than $17 million in philanthropic cash and equipment in 2013.

For more information, see the Agilent Technologies Foundation financial statement for FY13.
STRATEGY AND ANALYSIS

DAVE WELDON, USA

PROFILE DISCLOSURES
1.1 STRATEGY AND ANALYSIS STATEMENT

This report describes Agilent’s relationship with the environment and society. It presents our strategies, objectives, and results around sustainability and social responsibility. We strive to be a leader in managing our environmental and social practices through our sustainability strategies and community investment efforts. Today, customers are demanding that companies demonstrate awareness and focus on environmental and corporate social responsibilities. Agilent’s Corporate Citizenship Report details our accomplishments at a corporate level as well as the generosity of the Agilent Technologies Foundation for fiscal year 2013. In presenting our environmental and social responsibility strategy, Agilent has used the Global Reporting Initiative (GRI) 3.1 format to provide greater transparency and accountability in our public disclosure of our corporate citizenship efforts.

1.2 DESCRIPTION OF KEY IMPACTS, RISKS, AND OPPORTUNITIES

Agilent is committed to conducting business in an ethical, socially responsible, and environmentally sustainable manner. Our citizenship objective is to be an economic, intellectual, and social asset to each nation and community in which we operate. Agilent’s community relations and giving programs and the Agilent Technologies Foundation are tangible examples of our commitment to exemplary corporate citizenship.

Agilent’s corporate citizenship commitment is consistent with our Environmental Policy and Human Rights and Labor Policy—all essential for continued business success. Agilent’s ISO 14001-certified companywide environmental management system is used to manage and drive continuous reduction of adverse environmental impacts.

ISO 14001

AGILENT IS AN ISO 14001 CERTIFIED COMPANY FOCUSED ON THE REDUCTION OF ADVERSE ENVIRONMENTAL IMPACTS.

PROFILE DISCLOSURES
#1
NO. 1 IN OVERALL TEST AND MEASUREMENT PRODUCTS, AS WELL AS IN GAS CHROMATOGRAPHS AND LIQUID CHROMATOGRAPHY/MASS SPECTROMETRY

*2.1 NAME OF THE ORGANIZATION*
Agilent Technologies Inc.

*2.2 PRIMARY BRANDS, PRODUCTS, AND/OR SERVICES*
Agilent’s singular focus on measurement helps scientists, researchers, and engineers address their toughest challenges with precision and confidence. Our products and services help to deliver the breakthroughs that make a measurable difference. The company’s 20,600 employees serve customers in more than 100 countries.

Agilent holds many product and market leadership positions, including first worldwide in overall test and measurement products as well as in gas chromatographs and liquid chromatography/mass spectrometry. We are also a leading test and measurement equipment supplier to the telecommunications industry. With a singular focus on measurement, we:

- Advance next-generation wireless communications.
- Help the military become more flexible, mobile, and reliable.
- Enable nondestructive subsurface electronic testing of semiconductor materials.
- Analyze the causes and cures for disease.
- Make the world more safe and secure from crime and drugs.
- Aid in the discovery and quality of medicines.
- Keep our air, water, soil, and food clean and safe.

More information about Agilent product, brand, and services: [Agilent Products and Services](#).

*2.3 OPERATIONAL STRUCTURE OF THE ORGANIZATION, INCLUDING MAIN DIVISIONS, OPERATING COMPANIES, SUBSIDIARIES, AND JOINT VENTURES*
Agilent offers the broadest range of innovative measurement solutions in the industry. The company’s four businesses—Chemical Analysis, Life Sciences, Diagnostics and Genomics, and Electronic Measurement—provide customers with products and services that make a real difference in the lives of people everywhere. And at Agilent Research Laboratories we conduct research that anticipates customer needs and produces breakthroughs that power growth.

*2.4 LOCATION OF ORGANIZATION’S HEADQUARTERS*
Agilent Technologies Inc.
5301 Stevens Creek Boulevard
Santa Clara, CA 95051
Phone: (408) 553-2424

*2.5 NUMBER OF COUNTRIES WHERE THE ORGANIZATION OPERATES, AND NAMES OF COUNTRIES WITH EITHER MAJOR OPERATIONS OR THAT ARE SPECIFICALLY RELEVANT TO THE SUSTAINABILITY ISSUES COVERED IN THE REPORT*
Our primary research and development and manufacturing sites are in California, Colorado, and Delaware in the U.S., and in Australia, China, Germany, India, Italy, Japan, Malaysia, Singapore, and the United Kingdom.
RANKED 66
IN 2013 GLOBAL 100 BEST CORPORATE CITIZENS LIST

2.6
NATURE OF OWNERSHIP AND LEGAL FORM
Agilent is listed on the New York Stock Exchange and our ticker symbol is “A.”

2.7
MARKETS SERVED (INCLUDING GEOGRAPHIC BREAKDOWN, SECTORS SERVED, AND TYPES OF CUSTOMERS/BENEFICIARIES)
Agilent holds many product and market leadership positions, including first worldwide in overall test and measurement products, as well as in gas chromatographs and liquid chromatography/mass spectrometry. We are also a leading test and measurement equipment supplier to the telecommunications industry.

More information about Agilent presence, sectors and customers served is available at Agilent Company Information.

2.8
SCALE OF THE REPORTING ORGANIZATION
The company’s 20,600 employees serve customers in more than 100 countries. Agilent had net revenues of $6.8 billion in fiscal 2013.

2.9
SIGNIFICANT CHANGES DURING THE REPORTING PERIOD REGARDING SIZE, STRUCTURE, OR OWNERSHIP
On September 19, 2013 Agilent announced plans to separate into two industry-leading public companies, one in life sciences, diagnostics and applied markets (LDA) that will retain the Agilent name, and the other comprised of the electronic measurement businesses (EM) that will have a new name—Keysight Technologies.

Bill Sullivan will be president and CEO of Agilent. Ron Nersesian will assume those roles for Keysight Technologies. The separation is targeted to be completed by the end of calendar 2014.

More information about the company separation plans are available at Organization Announcements.

2.10
AWARDS RECEIVED IN THE REPORTING PERIOD
Agilent received the following awards and recognition during the reporting period:

1. Ranked No. 30 in Glassdoor’s/Forbes 2013 Employees Choice Award.
2. Ranked 66 on the 2013 “100 Best Corporate Citizens” list produced by Corporate Responsibility magazine.
3. Frost & Sullivan has recognized Agilent with its prestigious Company of the Year award for radio-frequency test equipment.
12. Agilent was recognized as a leader in corporate citizenship by CR magazine.

13. Agilent was named a leader in Information Technology in the 100 Best Corporate Citizens list.

Technology and product innovation awards can be found at [Agilent 2013 Technology and Product Awards](#).

4. Agilent has been named one of eight winners of the Best Employer in Malaysia award for 2013 by human resources consulting firm Aon Hewitt. Agilent was also singled out as Best Employer for Women, an award introduced just this year.

5. Agilent’s Order Fulfillment & Supply Chain organization has won the Global Value Chain award, one of Frost & Sullivan’s 2013 Manufacturing Leadership 100 Awards.

8. Agilent has been ranked No. 9 on Glassdoor’s the Top 25 Companies for Work-Life Balance.

9. Agilent’s Santa Rosa site has been named a winner in the Best Places to Work in the North Bay Area.

10. Agilent Santa Rosa site also achieved the Top Manufacturers Awards 2013, in the Community category. Included in Agilent’s nomination was its support for local education, health and human services, and environmental organizations through volunteerism, sponsorships and grants.

11. Named to Dow Jones Sustainability Index 2013 achieving top scores in the Innovation Management, Environmental Policy, and Environmental Reporting categories among the other companies in the Life Sciences Tools & Services industry sector.
3.1 Reporting Period

3.2 Date of Most Recent Previous Report

3.3 Reporting Cycle

3.4 Contact Point for Questions

3.5 Process for Defining Report Content

3.6 Boundary of the Report

3.7 Specific Limitations on the Scope or Boundary of the Report

3.8 Basis for Reporting on Joint Ventures, Subsidiaries, Leased Facilities, Outsourced Operations, and Other Entities

3.9 Data Measurement Techniques

3.10 Explanation of the Effect of Any Re-Statements of Information Provided in Earlier Reports

3.11 Significant Changes from Previous Reporting

3.12 Standard Disclosures

3.13 Policy and Current Practice With Regard to Seeking External Assurance for the Report
3.5 PROCESS FOR DEFINING REPORT CONTENT
We considered the 2006 Global Reporting Initiative (GRI) Sustainability Reporting Guidelines v3.1 (G3.1) available at GRI Reporting when developing this report. We self-declare that this report aligns with GRI Application Level A+.

3.6 BOUNDARY OF THE REPORT (E.G., COUNTRIES, DIVISIONS, SUBSIDIARIES, LEASED FACILITIES, JOINT VENTURES, SUPPLIERS)
The quantitative data in this report has been summarized into three regions: Asia Pacific, Europe, and Americas. The environmental data for 2013 covers the following locations (includes manufacturing sites that are ISO 14001-certified some time during the year and sites greater than 200,000 square feet):

**Asia Pacific**
- China: Beijing, Shanghai, Chengdu
- Japan: Hachioji
- Malaysia: Penang
- Singapore: Yishun
- India: Manesar

**Europe**
- Germany: Boeblingen, Waldbronn
- UK: Oxford
- Italy: Torino

3.7 STATE ANY SPECIFIC LIMITATIONS ON THE SCOPE OR BOUNDARY OF THE REPORT
All financial data is reported in U.S. dollars. Water and waste data does not include information from Agilent’s suppliers.

3.8 BASIS FOR REPORTING ON JOINT VENTURES, SUBSIDIARIES, LEASED FACILITIES, OUTSOURCED OPERATIONS, AND OTHER ENTITIES THAT CAN SIGNIFICANTLY AFFECT COMPARABILITY FROM PERIOD TO PERIOD AND/OR BETWEEN ORGANIZATIONS
We report on our subsidiaries and affiliates where we have direct operational control, unless otherwise noted. Significant year-over-year changes are denoted. Where possible, we also report with units that provide for consistent reporting, such as per square foot rather than per building or per site.
3.12 TABLE IDENTIFYING THE LOCATION OF THE STANDARD DISCLOSURES IN THE REPORT

Please refer to pages 2–5 of the report.

3.13 POLICY AND CURRENT PRACTICE WITH REGARD TO SEEKING EXTERNAL ASSURANCE FOR THE REPORT

Reasonable Assurance statement by DEKRA for Agilent’s EHSSR and ODC programs.

- This statement attests that DEKRA Certification can provide reasonable assurance the claims regarding environmental, health, safety and social responsibility (EHS&SR), as they relate to Agilent-identified suppliers, found in this Agilent Corporate Citizenship Report 2013, are correct. In 2013 DEKRA performed audits of Agilent-identified suppliers in Malaysia, the People’s Republic of China, the Republic of China, the Philippines, Mexico and the United States. These suppliers were found to be in compliance with, or have provided corrective actions to become compliant with, Agilent’s stated EHS&SR program, including but not limited to: policies regarding worker safety, environmental safety, Ozone Depleting Compounds (ODC) and the strictly forbid and prevent any and all acts of human trafficking or slavery as those terms are used in the California Transparency in Supply Chains Act of 2010, California Civil Code, section 1714.43. Additional sites were audited for compliance to Restriction of Hazardous Substances Directive (RoHS) 2002/95/EC.

- The Agilent Technologies Foundation financial information has also been attested by an independent auditor: Nichols, Rick and Company.

4.1 GOVERNANCE STRUCTURE OF THE ORGANIZATION, INCLUDING COMMITTEES UNDER THE HIGHEST GOVERNANCE BODY RESPONSIBLE FOR SPECIFIC TASKS, SUCH AS SETTING STRATEGY OR ORGANIZATIONAL OVERSIGHT

Agilent is led by a chief executive officer and overseen by a board of directors. The current four committees of the board are Audit & Finance; Compensation; Executive; and Nominating & Corporate Governance. The board selects the chief executive officer in accordance with the company’s bylaws and other applicable policies.

Investor Relations

4.2 INDICATE WHETHER THE CHAIR OF THE HIGHEST GOVERNANCE BODY IS ALSO AN EXECUTIVE OFFICER

James G. Cullen is non-executive chairman of the board of directors.

Agilent Board of Directors

4.3 FOR ORGANIZATIONS THAT HAVE A UNITARY BOARD STRUCTURE, STATE THE NUMBER AND GENDER OF MEMBERS OF THE HIGHEST GOVERNANCE BODY THAT ARE INDEPENDENT AND/OR NON-EXECUTIVE MEMBERS

In 2013, Agilent had nine board members, eight of whom were independent directors. For more details please refer to our Corporate Website.

4.4 MECHANISMS FOR SHAREHOLDERS AND EMPLOYEES TO PROVIDE RECOMMENDATIONS OR DIRECTION TO THE HIGHEST GOVERNANCE BODY

Agilent engages with a wide range of stakeholders on issues that affect the company’s operations. During business planning, Agilent considers external charters, principles, and guidelines. We also participate in industry and trade groups at local, regional, state, national, and international levels to address emerging issues, develop industry-wide approaches to environmental and social challenges, and cooperate with governments, non-governmental organizations, and other stakeholders on common concerns. Our stakeholders include:

• Customers
• Employees
• Investors
• Suppliers
• Government agencies
• Communities
• Neighbors
• Non-governmental organizations

We engage with our stakeholders through consultations, surveys, ad-hoc feedback, and reviews:

• Through our Agilent Customer Satisfaction program, we survey customers who interact with various touch points across our businesses and regions, and we provide continual updates to our management.

• Our Agilent Market Survey provides a measure of our customers’ loyalty compared to the loyalty of our competitors’ customers. The results are used to identify opportunities for growth and areas where additional business investments are warranted.

• The Agilent Leadership Audit is an annual or semi-annual survey that allows Agilent employees to provide feedback on leadership effectiveness within their workgroup. The Leadership Audit is focused on the critical few leadership practices that are central to executing the coming year’s business results. Audit results are compared with external best-in-class benchmarks to ensure we are performing at the top in our industry.

• On a quarterly basis at most of Agilent’s sites, employee sessions are held to share business updates and country-specific affairs, as well as to address employee-requested topics.

• We regularly meet and communicate with our investors and other members of the financial community. This includes one-on-one meetings, quarterly financial-results conference calls, Agilent Analyst Meetings, and our annual shareholder meeting.

• We require our suppliers to adhere to our Supplier Code of Conduct, and we work with suppliers to address environmental and social issues that are identified in their operations.
GOVERNANCE, COMMITMENTS, AND ENGAGEMENT

- We have ongoing relationships with regulators at local, regional, and national levels regarding operational areas such as Environmental Health and Safety (EHS) and product environmental and safety compliance. These feedback mechanisms provide Agilent with information to help improve our environmental, social, and economic performance. For example, Agilent Workplace Services monitors global issues and reviews external inquiries to help identify areas where we could further improve our EHS performance and programs. Similarly, Corporate Relations uses the input it receives to help guide our community programs, such as volunteerism and grants.

4.6 PROCESSES IN PLACE FOR THE HIGHEST GOVERNANCE BODY TO ENSURE CONFLICTS OF INTEREST ARE AVOIDED

Agilent’s board of directors is bound by a code of ethics which specifically details requirements for avoidance of conflict of interest. “...Each board member must ensure that other existing and anticipated future commitments do not materially interfere with the members’ service as director. As long as you remain an Agilent director, you must avoid situations where your loyalties may be divided between Agilent’s interests and your own. Agilent expects you to avoid even the appearance of a conflict of interest. If you are an independent director, additional restrictions apply as noted in the Agilent Technologies Corporate Governance Standards.”

For more information on process to avoid conflict of interest go to Investor Relations.

4.7 PROCESS FOR DETERMINING THE COMPOSITION, QUALIFICATIONS, AND EXPERTISE OF THE MEMBERS OF THE HIGHEST GOVERNANCE BODY AND ITS COMMITTEES, INCLUDING ANY CONSIDERATION OF GENDER AND OTHER INDICATORS OF DIVERSITY

The Nominating & Corporate Governance Committee is responsible for identifying and screening new candidates for board membership and for overseeing the evaluation of board members.

4.8 INTERNALLY DEVELOPED STATEMENTS OF MISSION OR VALUES, CODES OF CONDUCT, AND PRINCIPLES RELEVANT TO ECONOMIC, ENVIRONMENTAL, AND SOCIAL PERFORMANCE AND THE STATUS OF THEIR IMPLEMENTATION

Agilent’s value of uncompromising integrity is critical to our open and transparent disclosure of information. We encourage regular communication with investors and other stakeholders on our financial performance. We hold annual shareholder meetings to provide updates on our company strategy and financial performance. We also report our performance through quarterly conference calls and an annual report. Financial information including U.S. Securities and Exchange Commission filings, proxy statements, and earnings announcements are available at Investor Relations.

Agilent is committed to the highest standard of corporate governance, business conduct, and ethics. Our Amended and Restated Corporate Governance Standards, the charters of our Audit and Finance Committee, Compensation Committee, Executive Committee, and Nominating/Corporate Governance Committee, as well as our Standards of Business Conduct, are available at www.investor.agilent.com under “Corporate Governance.”

Agilent recognizes ISO 26000 as the reference document that provides guidance on social responsibility. Agilent aligns with ISO 26000 standards as part of our social responsibility practices. As such, Agilent’s economic-related practices and processes align with ISO core subjects: Organizational Governance 6.2 and Fair Operating Practices 6.6.
GOVERNANCE, COMMITMENTS, AND ENGAGEMENT

4.11 EXPLANATION OF WHETHER AND HOW THE PRECAUTIONARY APPROACH OR PRINCIPLE IS ADDRESSED BY THE ORGANIZATION

Agilent’s approach to risk management is largely decentralized, supported by the belief that those closest to risk can manage the risk most effectively. This approach also highlights the fact that risk management expertise exists throughout the enterprise. Agilent Global Risk Management is the corporate function chartered to promote prudent risk management practice through direct engagement with the business and selected infrastructure organizations, using tools and processes to facilitate that practice globally. This function is also responsible for developing and implementing risk financing strategies for operational exposure while minimizing the company’s total cost of risk.

4.12 EXTERNALLY DEVELOPED ECONOMIC, ENVIRONMENTAL, AND SOCIAL CHARTERS, PRINCIPLES, OR OTHER INITIATIVES TO WHICH THE ORGANIZATION SUBSCRIBES OR ENDORSES

Many of Agilent’s policies and practices used in the operation of our business are consistent with internationally accepted charters and principles. Some of the guidelines, charters and principles that were considered by Agilent in developing our policies, position statements, EHSMS, and reporting structures are:

- California Supply Chain Transparency Act of 2010
- Conventions of the International Labour Organization (ILO)
- Custom Trade Partnership Program Against Terrorism
- Dodd-Frank Wall Street Reform and Consumer Protection Act
- ISO 13485:2003—Medical Devices Quality Management Systems
- Global Reporting Initiative—GRI 3.1 2006 sustainability reporting guidelines
- ISO 14001:2004—International standard for environmental management systems
- ISO 26000—Standard that provides guidance on social responsibility
- OHSAS 18001:1999—Standard for occupational health and safety management systems
- Procurement Strategy Council
- United Nations Guiding Principles on Business and Human Rights
- U.S. Foreign Corrupt Practices Act and those enacted under the OECD Convention on Combating Bribery of Foreign Public Officials in International Business Transactions.
- UK Bribery Act 2010
GOVERNANCE, COMMITMENTS, AND ENGAGEMENT

4.13 MEMBERSHIPS IN ASSOCIATIONS (SUCH AS INDUSTRY ASSOCIATIONS) AND/OR NATIONAL/INTERNATIONAL ADVOCACY ORGANIZATIONS IN WHICH THE ORGANIZATION: HAS POSITIONS IN GOVERNANCE BODIES; PARTICIPATES IN PROJECTS OR COMMITTEES; PROVIDES SUBSTANTIVE FUNDING BEYOND ROUTINE MEMBERSHIP DUES; OR VIEWS MEMBERSHIP AS STRATEGIC

Agilent participates in trade, industry, and professional organizations that are local, national, and global. Participation helps us achieve business and citizenship goals by enabling us to work with other companies on issues that affect our industry. Memberships also keep Agilent abreast of industry issues and best practices and provide vehicles through which we can contribute to and influence public policy. Examples of these memberships:

- American Electronics Association
- Boston College Center for Corporate Citizenship
- CALCE (Center for Advanced Life Cycle Engineering)
- Carbon Disclosure Project
- Confederation of Indian Industry
- Corporate Executive Board
- European Union Committee of the American Chamber of Commerce
- Global Business Travel Association
- Hackett Benchmarking Research
- iNEMI (National Electronics Manufacturers Initiative)
- Institute of Travel and Meetings (Europe)
- International Electronics Manufacturing Initiative

4.14 LIST OF STAKEHOLDER GROUPS ENGAGED BY THE ORGANIZATION

Agilent’s stakeholders include:

- Customers
- Employees
- Investors
- Suppliers
- Government agencies
- Communities
- Neighbors
- Non-governmental organizations
- Industry standard-setting organizations

These feedback mechanisms provide us with information to help improve our environmental, social, and economic performance. For example, Agilent Workplace Services monitors global issues and reviews external inquiries to help identify areas where we could further improve our EHS performance and programs. Similarly, Corporate Relations uses the input it receives to help guide our community programs, such as volunteerism and grants.

4.15 BASIS FOR IDENTIFICATION AND SELECTION OF STAKEHOLDERS WITH WHOM TO ENGAGE

Agilent engages with a wide range of stakeholders on issues that affect the company’s operations. During business planning, Agilent considers external charters, principles, and guidelines. We also participate in industry and trade groups at local, regional, state, national, and international levels to address emerging issues; develop industry-wide approaches to environmental and social challenges; and cooperate with governments, non-governmental organizations and other stakeholders on common concerns.
4.16
APPROACHES TO STAKEHOLDER ENGAGEMENT, INCLUDING FREQUENCY OF ENGAGEMENT BY TYPE AND BY STAKEHOLDER GROUP

We engage with our stakeholders through consultations, surveys, ad-hoc feedback and reviews:

Through our Agilent Customer Satisfaction program, we survey customers who interact with various touchpoints across our businesses and regions, and we provide continual updates to our management.

• Our Agilent Market Survey provides a measure of our customers’ loyalty compared with the loyalty of our competitors’ customers. The results are used to identify opportunities for growth and areas where additional business investments are warranted.

• The Agilent Leadership Audit is an annual or semi-annual survey that allows Agilent employees to provide feedback on leadership effectiveness within their workgroup. The Leadership Audit is focused on the critical few leadership practices that are central to executing the coming year’s business results. Audit results are compared with external best-in-class benchmarks to ensure we are performing at the top in our industry.

• On a quarterly basis at most of Agilent’s sites, employee sessions are held to share business updates and country-specific affairs, as well as to address employee-requested topics.

4.17
KEY TOPICS AND CONCERNS THAT HAVE BEEN RAISED THROUGH STAKEHOLDER ENGAGEMENT, AND HOW THE ORGANIZATION HAS RESPONDED TO THESE CONCERNS, INCLUDING THROUGH ITS REPORTING

Stakeholder feedback mechanisms provide Agilent with information to help improve our environmental, social, and economic performance. For example, Agilent Workplace Services monitors global issues and reviews external inquiries to help identify areas where we could further improve our EHS performance and programs. Similarly, Corporate Relations uses the input it receives to help guide our community programs, such as volunteerism and grants.

PERFORMANCE INDICATORS
new life sciences and diagnostics segment was formed by the combination of the life sciences business plus the diagnostics and genomics business. Following this reorganization, Agilent has three business segments comprised of the life sciences and diagnostics business, the chemical analysis business and the electronic measurement business.

For more information, go to the Agilent 2013 Annual Report.

EC2
FINANCIAL IMPLICATIONS AND OTHER RISKS AND OPPORTUNITIES FOR THE ORGANIZATION’S ACTIVITIES DUE TO CLIMATE CHANGE

Agilent had no financial implications or other risks and opportunities due to climate change.

EC3
COVERAGE OF THE ORGANIZATION’S DEFINED BENEFIT PLAN OBLIGATIONS

Agilent’s defined benefit plans are fully funded at or above required levels:

• We contributed $30 million, $30 million and $33 million to our U.S. defined benefit plans in 2013, 2012, and 2011, respectively.
• We contributed $89 million, $54 million and $59 million to our non-U.S. defined benefit plans in 2013, 2012, and 2011, respectively.
ECONOMIC PERFORMANCE

AGILENT HAD REVENUE OF $6.8 BILLION IN FY13.

$6.8 BILLION

- We contributed $1 million to our U.S. post-retirement benefit plans in 2013 and did not contribute to our US post-retirement benefits plans in 2012 or 2011.
- Our non-U.S. defined benefit plans are generally funded ratably throughout the year.
- Total contributions in 2013 were $120 million, or 43 percent more than 2012.
- Total contributions in 2012 were $84 million, or 9 percent less than in 2011.

Our annual contributions are highly dependent on the relative performance of our assets versus our projected liabilities, among other factors. We expect to contribute approximately $101 million to our U.S. and non-U.S. defined benefit plans and $2 million to our U.S. post-retirement benefit plans during 2014.

EC4
SIGNIFICANT FINANCIAL ASSISTANCE RECEIVED FROM GOVERNMENT

Agilent received no financial assistance from any government agency in fiscal 2013.

EC5
RANGE OF RATIOS OF STANDARD ENTRY-LEVEL WAGE BY GENDER COMPARED TO LOCAL MINIMUM WAGE AT SIGNIFICANT LOCATIONS OF OPERATION

Agilent provides competitive levels of compensation above minimum wage requirements.

EC6
POLICY, PRACTICES, AND PROPORTION OF SPENDING ON LOCALLY-BASED SUPPLIERS AT SIGNIFICANT LOCATIONS OF OPERATION

Diversity and inclusion are Agilent’s core values and as such extend down through our supply chain. Agilent has a proactive Supplier Diversity program which focuses on the procurement of materials, components, equipment, supplies, and services from Small Diverse Businesses. We use a specific methodology when sourcing suppliers that includes the evaluation and inclusion of small diversified suppliers with in our supply chain.

EC7
PROCEDURES FOR LOCAL HIRING AND PROPORTION OF SENIOR MANAGEMENT HIRED FROM THE LOCAL COMMUNITY AT SIGNIFICANT LOCATIONS OF OPERATION

Hiring top talent around the globe helps ensure that Agilent maintains its leadership position. To attract and retain talent, Agilent provides everything from forward-thinking workplace design to community involvement to total compensation packages that rank with the leaders in the high-technology and life science industries. We understand the value—to our business, our employees, and our communities—of an inclusive environment that respects and celebrates unique perspectives and life experiences. Our policies and strategies create a pipeline of diverse skills and viewpoints, ensuring that our rich cultural diversity is leveraged for our competitive advantage. Agilent actively recruits top talent from underrepresented groups around the world, and works to build an inclusive environment that develops and retains employees.
ECONOMIC PERFORMANCE

EC8
DEVELOPMENT AND IMPACT OF INFRASTRUCTURE INVESTMENTS AND SERVICES PROVIDED PRIMARILY FOR PUBLIC BENEFIT THROUGH COMMERCIAL, IN-KIND, OR PRO BONO ENGAGEMENT

In fiscal 2013, through our businesses, employee programs, and foundation, our philanthropic efforts totaled over $17 million.

Agilent and the Agilent Technologies Foundation’s philanthropic investments in university research totaled $6,691,912.

Agilent donated approximately $7,179,277 in equipment to universities.

Agilent and the Agilent Technologies Foundation invested $1,289,426 in science education, reaching approximately 600,000 students and 6,000 teachers worldwide.

Approximately 25 percent of Agilent employees around the world volunteered approximately 50,000 hours in our communities.

For more information about Agilent Technologies Foundation’s giving, see the 2013 Audited Financial Statements.

Because of our longstanding commitment to our communities, we have a wide range of programs that provide feedback on community needs, and therefore we do not conduct a community assessment.

EC9
UNDERSTANDING AND DESCRIBING SIGNIFICANT INDIRECT ECONOMIC IMPACTS, INCLUDING THE EXTENT OF IMPACTS

Agilent Technologies is committed to conducting business in an ethical, socially responsible, and environmentally sustainable manner. Our citizenship objective is to be an economic, intellectual, and social asset to each nation and community in which we operate. As part of our Corporate Social Responsibility mandate, we are focused primarily on science education in communities where Agilent has a presence.

At a global level, we partner with United Way, which identifies local CSR projects, conducts due diligence, and supports the implementation of the initiative on an ongoing basis. Apart from this, there are several independent programs across countries that are supported by the Agilent Technologies Foundation.

For more information, go to Community Relations.

$17M
THROUGH OUR BUSINESSES, EMPLOYEE PROGRAMS AND FOUNDATION, AGILENT’S PHILANTHROPIC EFFORTS TOTALED OVER $17 MILLION IN FY13
ENVIRONMENTAL PERFORMANCE

Agilent has developed an Environmental Compliance Framework to sustain and facilitate compliant product design, development, production, refurbishment, and support. When a customer no longer requires an Agilent product, we have implemented several options for reuse, remanufacture, or take-back based on the product type and customer location to ensure the product is properly managed. Additional information on our environmental and social performance may be found at Agilent’s Commitment to Environment and Social Responsibility.

Agilent recognizes ISO 26000 as a reference document that provides guidance on social responsibility. Agilent aligns with ISO 26000 standards as part of our social responsibility practices. As such, Agilent’s environmental policies, programs, and procedures align with ISO core subjects: Environment 6.5 and Organizational Governance 6.2.

Agilent Supplier Code of Conduct

Agilent is committed to designing, manufacturing, and distributing environmentally responsible products. Environmental aspects are considered in the design, manufacture, distribution, use, obsolescence, disposal, recovery, and reuse of Agilent products. Our aim is to minimize environmental impact of our products and operations by conforming to applicable regulations.

### Initiatives to Provide Energy-Efficient or Renewable Energy-Based Products and Services, and Reductions in Energy Requirements as a Result of These Initiatives

Agilent is working on improving the energy efficiency of selected products/product families compared to the predecessor models. Product families selected included instruments with high energy consumption.

Agilent has worked on assessing energy efficiency of several types of products by using customer base metrics. By identifying energy-using features, we are able to increase energy efficiency of our products. During the past several years, Agilent has moved toward product energy efficiency in several product lines. Most of the energy savings are due to two key factors:

- The increased type and volume of tests that can be conducted, thus increasing tests per watt.
- Enhanced existing product features, thus bringing more measurement capabilities to the same product footprint.
Agilent’s concentration on handheld and portable instruments places a focus on energy efficiency:

- Next-generation products are using key new technology that greatly improves performance per watt of power supply.
- Portable products put significant design efforts into power management to achieve power, heat, and battery life targets.
- Industry and regulatory requirements on the power supplies for our portable products have also increased power supply efficiency.

**INITIATIVES TO REDUCE INDIRECT ENERGY CONSUMPTION AND REDUCTIONS ACHIEVED**

Energy and water conservation initiatives were implemented worldwide across Agilent. These initiatives include capital and operational improvements that range from constructing new energy-efficient facilities; decommissioning underutilized and less efficient buildings and spaces; re-commissioning existing building systems for current uses; and optimizing equipment operations. Our combined efforts helped us exceed our FY13 energy conservation goal.

A new energy-efficient data center was constructed at Agilent’s Colorado Springs campus, increasing the data handling capacity while reducing energy consumption. The campus also refurbished its buildings’ heating, ventilation, and air-conditioning systems. The buildings now adjust to the heating and cooling demands based on changes in occupancy while still maintaining comfort and safety standards. Collectively, these initiatives reduce energy consumption by 4.3 million kWh and emissions by 2,240 tons CO₂-equivalent. In addition, a portion of the campus’s landscaping was transformed into xeriscaping to decrease the amount of water used to irrigate the area.

The Agilent China campus in Chengdu retrofitted its cooling tower system, improved water-level controls in its fire prevention basin, and upgraded lighting. The need for make-up water in the cooling system was reduced by recirculating the water being used. Laser level sensors were added to the fire prevention basins to maintain water levels while eliminating overflow. Evacuation signs, which are illuminated 24 x 7, were replaced with LED versions.

Energy efficiency was designed into a new R&D building constructed at Agilent’s Mulgrave campus in Australia. Above-standard lighting efficiency was achieved by using LED and T5 fixtures. Occupancy sensors were also installed to control the lighting. Overall, the lighting design and control conserves 127,899 kWh of electricity consumption annually compared with using T8 fixtures without lighting controls, and it avoids 109 tons CO₂ equivalent emissions. In addition, the potential heat gain of the building was reduced by adding a veil to the façade, which reduces energy consumed to cool the interior space.

An innovative humidification system was implemented in one of the buildings at Agilent’s Waldbronn facility in Germany. The site capitalized on the narrow characteristics of the building to simultaneously reduce energy and water consumption through the use of a decentralized humidification system. The system maintains humidity levels through micro-fine atomization without compressed air, steam or ultrasound. This effort conserves 228,165 kWh of energy as well as 3,900 gallons of water annually.
ENVIRONMENTAL PERFORMANCE

Our net energy conservation for FY13 (for sites included in this report) was 3.22% percent (using FY12 total energy spend as a baseline).

**EN8**
TOTAL WATER WITHDRAWAL BY SOURCE

- Total volume of water from water utilities (1,000 m³) = 1,194.175
- Wastewater purchased from other organizations includes 58,685 m³ of “NEWater,” purchased at the Singapore site which is reclaimed water produced by the local water board. It consists of wastewater that has gone through water-treatment processes including purification and UV technology. This amount is included in the “water withdrawn” totals below.
- Water withdrawn from water utilities per region
  - (1,000 m³):
  - Asia Pacific—667.285
  - Europe—44.431
  - USA—482.459

**EN9**
WATER SOURCES SIGNIFICANTLY AFFECTED BY WITHDRAWAL OF WATER

Most of our manufacturing sites’ water comes directly from the city water supply. However, the following sites draw some water from the local aquifer: Manesar, India; Torino, Italy; Hachioji, Japan; Santa Rosa, USA. Of those sites, Manesar, India is the only site considered to have a water source potentially affected by withdrawal of water. Water withdrawal at Manasar was 39.270 m³ during FY13.

**EN10**
PERCENTAGE AND TOTAL VOLUME OF WATER RECYCLED AND REUSED

The only site that currently uses recycled water is Santa Rosa, USA, which has an onsite wastewater treatment facility. During the reporting period, the Santa Rosa site recycled 75.22 (1,000m³) water, or 37% of the total annual consumption of the site.

**EN11**
LOCATION AND SIZE OF LAND OWNED, LEASED, MANAGED IN, OR ADJACENT TO, PROTECTED AREAS AND AREAS OF HIGH BIODIVERSITY VALUE OUTSIDE PROTECTED AREAS

| How the method of disposal has been determined. | Hazardous waste disposal methods—treated, incinerated, land filled & recycled.  
Non-hazardous waste disposal methods—recycled, land filled & incinerated. |

Notes:
1 Total waste produced is calculated by adding total chemical waste and total solid waste tonnage. Total waste calculated based on calendar year (January 2013 – December 2013).
2 Chemical waste refers to chemical materials designated for final disposition that exhibit characteristic that is hazardous or dangerous per local regulatory requirements. This refers to materials that are shipped offsite for treatment, recycling, incineration, and landfill; and excludes electronic waste.

3 Solid waste refers to waste that is not included in chemical waste or excess electronic equipment (e.g., garbage/trash, paper, cardboard, glass, and furniture and construction debris).

Electronic equipment is personal computers, computer monitors, miscellaneous electronic test & manufacturing equipment, obsolete electronic equipment, telephones, and spare or unused products from manufacturing.

Electronic equipment—reused: electronic equipment sold or given to third party organizations such as charitable organizations or used equipment resellers. Agilent cannot guarantee that this equipment is re-used or resold. Agilent requires that equipment resellers dispose of any unsold electronic equipment according to state and local legal requirements.

Electronic equipment—recycled: electronic equipment that is sent directly to an electronic recycler with the intent of recycling the equipment’s components, sub-components, or material (e.g., precious metals). Agilent requires that recyclers dispose of all electronic equipment, components, and subcomponents according to state and local legal requirements.

EN25
IDENTITY, SIZE, PROTECTED STATUS, AND BIODIVERSITY VALUE OF WATER BODIES AND RELATED HABITATS SIGNIFICANTLY AFFECTED BY THE REPORTING ORGANIZATION’S DISCHARGES OF WATER AND RUNOFF

No value of water bodies and related habitats are impacted by any discharges of water or runoff by Agilent’s operations.

EN26
INITIATIVES TO MITIGATE ENVIRONMENTAL IMPACTS OF PRODUCTS AND SERVICES, AND EXTENT OF IMPACT MITIGATION

Initiatives to mitigate the most significant environmental impacts of products/service groups:

- Agilent continued to make significant progress toward complying with EU Restriction of Hazardous Substances (RoHS). Agilent’s Electronic Measurement Group (EMG) now has more than 2,000 products designed to be compliant with EU RoHS and Agilent’s Life Sciences and Diagnostics and Chemical Analysis Groups have now introduced their first product designed for RoHS compliance. These achievements are three years ahead of the 2017 regulatory deadline for Test and Measurement products. This effort has had positive implications on Agilent’s materials use, regulatory compliance, waste impacts and customer satisfaction.

EN23
TOTAL NUMBER AND VOLUME OF SIGNIFICANT SPILLS

In FY13 there were no significant spills.

EN24
WEIGHT OF TRANSPORTED, IMPORTED, EXPORTED, OR TREATED WASTE DEEMED HAZARDOUS UNDER THE TERMS OF THE BASEL CONVENTION ANNEX I, II, III, AND VIII, AND PERCENTAGE OF TRANSPORTED WASTE SHIPPED INTERNATIONALLY

Not applicable. Currently we do not have any trans-boundary waste shipment, under the Basel Convention.
ENVIROMENTAL PERFORMANCE

• Agilent’s supplier code of conduct ensures compliance with Environmental, Health, Safety, and Social Responsibility guidelines throughout our supply chain. Our suppliers are also accountable for ensuring that their subcontractors also comply with Agilent’s EHSSR guidelines, with responsibility for taking corrective action as necessary.

• Agilent includes a corporate citizenship overview in all new employee orientation, ensuring that social and environmental responsibility will continue to be a part of our culture moving forward.

• Agilent implemented due diligence practices following the EICC standard to meet requirements of the Dodd-Frank Wall Street Reform and Consumer Protection Act commonly known as conflict minerals. Our actions will result in meeting annual reporting requirements to the Securities Exchange Commission. Agilent’s supplier code of conduct was updated to include the expectation that “Suppliers shall take reasonable measures to ensure products, parts, components and materials supplied to Agilent are “DRC (Democratic Republic of Congo) conflict free” as that term is used under Section 1502 of the Dodd-Frank Act.

• Agilent continued its robust communication of our General Specification for the Environment (gSE) with its strategic suppliers. This effort enables Agilent and its suppliers to comply with major environmental regulations on material use, product packaging, and labeling. The most significant change in this revision is the incorporation of new requirements resulting from the European REACh regulation additions regarding substances of very high concern and regulations on F-Gases.

• Agilent established targets to reduce water consumption by 10 percent in the next 3 years to reduce impact on environment and natural resources.

EN27
PERCENTAGE OF PRODUCTS SOLD AND THEIR PACKAGING MATERIALS THAT ARE RECLAIMED BY CATEGORY

• Agilent’s Remarketing Solutions Division is dedicated to recovering older instruments for the purpose of resale. For a certain segment of our customers (start-ups, academics, etc.), these pre-owned instruments offer a competitively priced alternative to buying a new instrument. As a company, we are using fewer environmental resources to manufacture new products to meet this customer demand. For More Detail, Premium Refurbished Instruments.

• Agilent offers a variety of trade-in programs specifically designed to help customers safely dispose of or recycle used instrumentation. The program is currently deployed in several countries, with expansion of these programs being considered wherever possible.

EN28
MONETARY VALUE OF SIGNIFICANT FINES AND TOTAL NUMBER OF NON-MONETARY SANCTIONS FOR NON-COMPLIANCE WITH ENVIRONMENTAL LAWS AND REGULATIONS

• In FY13, Agilent reported a total of 29 alleged regulation compliance violations. However, only one incident resulted in a monetary fine ($802). This occurred at the Shanghai, China site.

**LA3 BENEFITS PROVIDED TO FULL-TIME EMPLOYEES THAT ARE NOT PROVIDED TO TEMPORARY OR PART-TIME EMPLOYEES, BY MAJOR OPERATIONS**

Agilent aims to deliver a rewards portfolio that is competitive with high technology and life science companies, representative of the diverse industries and markets within which Agilent operates.

Our rewards are offered to eligible employees and comply with local legal requirements.

Our Total Pay program includes base pay; variable pay, such as the Agilent Results Bonus and Individual Performance Bonus; and sales incentive compensation. Pay is differentiated based on company and individual performance.

Benefits such as health and welfare benefits, retirement plans, and time off provide a foundation to support employee well-being and financial security.

Equity programs align employee and shareholder interests. Programs include an Employee Stock Purchase Plan and long-term incentives such as restricted stock units.

**LA4 PERCENTAGE OF EMPLOYEES COVERED BY COLLECTIVE BARGAINING AGREEMENTS**

Agilent meets all applicable laws, regulations, and standards where we do business.
LA5
MINIMUM NOTICE PERIOD(S) REGARDING SIGNIFICANT
OPERATIONAL CHANGES, INCLUDING WHETHER IT IS
SPECIFIED IN COLLECTIVE AGREEMENTS

Agilent meets all applicable laws, regulations, and
standards where we do business.

LA6
PERCENTAGE OF TOTAL WORKFORCE REPRESENTED IN
FORMAL JOINT MANAGEMENT-WORKER HEALTH AND
SAFETY COMMITTEES THAT HELP MONITOR AND ADVISE
ON OCCUPATIONAL HEALTH AND SAFETY PROGRAMS

Health and Safety committees are an integral part of
EHS processes at our sites and help drive continuous
improvement in support of Agilent’s ISO certifications and
Environmental, Health, and Safety Management System.

LA7
RATES OF INJURY, OCCUPATIONAL DISEASES, LOST DAYS,
AND ABSENTEEISM, AND NUMBER OF WORK-RELATED
FATALITIES BY REGION AND GENDER

In Agilent’s Environmental Health and Safety function,
we believe that people who feel good, do good.
EHS programs are committed to creating safe work
environments, providing training, and engaging our
employees in health-promotion activities so that they
can work injury- and illness-free.

Agilent EHS records and investigates work-related
injuries and illnesses to identify root causes and apply
appropriate corrective and preventive actions. Agilent’s
recordkeeping process aligns with the U.S. OSHA Injury/
Illness Recordkeeping regulations and reports on
Occupational Recordable (IR) and Lost Work Day Case
(LWDCR) rates. Both metrics (IR and LWDCR) have
remained relatively stable over the past five years and
continue to benchmark favorably relative to Agilent
competitors and industry leaders.

Agilent Occupational (IR) Rate Globally 2013–0.47;
Regionally AM–1.06; AP–0.02; EU 0.34.

See graph for Global IR rates.

Agilent Occupational (LWDCR) Rate Globally 2013–0.12;
Regionally AM–0.25; AP–0.01; EU 0.12.

See graph for Global LWDCR rates.

Agilent Global LWDCR Data 2002-2013

LA8
EDUCATION, TRAINING, COUNSELING, PREVENTION,
AND RISK-CONTROL PROGRAMS IN PLACE TO ASSIST
WORKFORCE MEMBERS, THEIR FAMILIES, OR COMMUNITY
MEMBERS REGARDING SERIOUS DISEASES

Agilent provides a number of programs and educational
opportunities aimed at managing serious diseases and
medical situations both personally and with family and
community members. Agilent EHS standards maintain
employee exposure levels for harmful agents in the
workplace well below regulatory requirements. Agilent Workplace Services has both Emergency Action and Disaster Recovery Plans that address serious medical events or disease outbreaks (e.g., pandemic events).

The Agilent Human Resources and Benefits organizations provide comprehensive health care plans to employee and family members to assist in managing their personal medical needs. These plans include counseling services and risk-based health coaching.

LA9
HEALTH AND SAFETY TOPICS COVERED IN FORMAL AGREEMENTS WITH TRADE UNIONS

As required at a country level, Health and Safety topics are included for discussion with local worker councils or trade unions.

LA10
AVERAGE HOURS OF TRAINING PER YEAR PER EMPLOYEE BY GENDER AND BY EMPLOYEE CATEGORY

To encourage learning occurring anywhere, anytime for our globally distributed workforce, we continue to make available self-paced e-learning 24 hours a day/seven days a week. In 2013, approximately 98 percent of employees took advantage of this capability. Some of the major development programs offered via self-paced e-learning are our annual Standards of Business Conduct program and our beSecure series focusing on security and risk awareness. Other major programs include our Environment, Safety, and Compliance series; our Product and Technology series for our customer-facing employees; and our New Employee Safety & Security Orientation video.

LA11
PROGRAMS FOR SKILLS MANAGEMENT AND LIFELONG LEARNING THAT SUPPORT THE CONTINUED EMPLOYABILITY OF EMPLOYEES AND ASSIST THEM IN MANAGING CAREER ENDINGS

Agilent understands that the collective skills of our employees are critical to our success. Toward that end, Agilent is deeply committed to providing an environment where employees can expand their knowledge, develop new skills, and contribute their best work.

Research has suggested that the most valuable development occurs when learning is applied on the job, solving real business problems. The following three approaches to employee development are used effectively at Agilent and are provided based on business need:

- **Work Assignments:** Challenging jobs, special assignments, project initiatives, and job rotations.
- **Learning from Others:** Coaching, mentoring, and networking with internal and external people with experience or expertise.
- **Training:** Specific technical and business skill development provided internally by Agilent or externally by qualified educational institutions via a classroom, online, or self-study format.

LA12

LA14
RATIO OF BASIC SALARY AND REMUNERATION OF WOMEN TO MEN BY EMPLOYEE CATEGORY, BY SIGNIFICANT LOCATIONS OF OPERATION

The following data indicates the salary ratio of men to women by employee category. The ratios shown were calculated by determining the comparative ratio (compa-ratio) of men and women in each employee category and dividing the average compa-ratio for men by the average compa-ratio for women. Compa-ratio indicates an individual’s pay position versus the mid-point of the pay range for their job. Using compa-ratio enables us to compare pay position across varying types of jobs and markets. Within Agilent, three major employee categories are Individual Contributor A (ICA; typically non-exempt), Individual Contributor B (ICB; typically exempt), and People Manager (PM).

<table>

LA15
RETURN TO WORK AND RETENTION RATES AFTER PARENTAL LEAVE, BY GENDER

Agilent offers parental leave benefits and provides a broad range of programs and activities to help employees manage commitments in their work and personal life. By offering programs that can be used to address a wide range of needs, Agilent hopes to provide employees with the flexibility and opportunity to select and use services and solutions that they prefer.

- **Flexible Work Arrangements**: Some Agilent employees use alternatives to traditional Monday-through-Friday work arrangements. These include part-time, telecommuting, job-shares, and variable work schedules.
- **Flexibility Practices**: Agilent is proud of its heritage of providing flexible work hours for employees. Agilent’s Flexible Time Off (FTO) program lets employees use paid time off for vacation, personal business, and illness.
- **Dependent Care Resource and Referral**: Agilent provides a variety of resource and referral services for employees who have dependent care responsibilities for children, elders, people with disabilities, and others. Our goal is to help employees handle dependent care responsibilities so they can achieve their business objectives while they are at work. Centralized programs and information aim to provide support to all of Agilent. Local entities may choose to make additional dependent care investments in locations where community-based services are inadequate and business objectives are impacted.
- **MagellanAssist (U.S.)**: Agilent offers data sheets—available worldwide—providing information on a broad range of work/life challenges plus consulting and written materials.
- **Mother’s Room**: Some Agilent facilities offer a “mother’s room” to support new moms returning to work, and the nursing needs of their babies.
- **Quiet Room**: Some Agilent facilities offer a “quiet room” to support employees who need a break, respite, or quiet time.
SOCIAL: HUMAN RIGHTS

PERFORMANCE INDICATORS

KEAN-GEI 001, MALAYSIA
Social Responsibility: Seven Core Subjects

Holistic Approach

- 6.8 Community Involvement & Development
- 6.3 Human Rights
- 6.7 Consumer Issues
- 6.2 Organizational Governance
- 6.4 Labor Practices
- 6.6 Fair Operating Practices
- 6.5 The Environment

Interdependence

Our commitment to Human Rights extends through our supply chain. Agilent expects its suppliers to adhere to a high standard of environmental and social responsibility values, as outlined in our Supplier Environmental and Social Responsibility (ESR) Code of Conduct. Agilent’s Code of Conduct requires suppliers to adopt sound environmental, health, and safety management practices and incorporates eight International Labor Organization (ILO) Conventions that have been identified as fundamental to the rights of human beings at work. Agilent has programs in place to monitor and verify our suppliers’ conformance with the Supplier Code of Conduct.

Agilent recognizes ISO 26000 as a reference document that provides guidance on social responsibility. Agilent aligns with ISO 26000 standards as part of our social responsibility practices. As such, Agilent’s Human Rights policies and practices align with ISO core subjects: Human rights 6.3 and Labour Practices 6.4 and Fair Operating Practices 6.6

HR1
PERCENTAGE AND TOTAL NUMBER OF SIGNIFICANT INVESTMENT AGREEMENTS AND CONTRACTS THAT INCLUDE HUMAN RIGHTS CLAUSES OR THAT HAVE UNDERGONE HUMAN RIGHTS SCREENING.

One hundred percent of Agilent’s purchase order agreements include human rights clauses and require that suppliers comply with Agilent’s Supplier Environmental and Social Responsibility (ESR) Code of Conduct.

HR2
PERCENTAGE OF SIGNIFICANT SUPPLIERS, CONTRACTORS, AND OTHER BUSINESS PARTNERS THAT HAVE UNDERGONE HUMAN RIGHTS SCREENING AND ACTIONS TAKEN

One hundred percent of Agilent’s supplier contracts include a reference to Third Party Audits. Agilent has the right to audit all suppliers for compliance with the Agilent Supplier Code of Conduct. We employ an independent third party to audit and evaluate our suppliers’ compliance with our Supplier Code of Conduct, including monitoring each supplier’s compliance with all applicable labor laws governing forced labor, slavery, and human trafficking, as set forth in the California Transparency in Supply Chains Act of 2010. Agilent also requires that its suppliers comply with human rights obligations throughout their operations (including but not limited to the operations of their own suppliers and any permitted sub-contractors) in accordance with the UN Guiding Principles on Business and Human Rights (the “UN Guiding Principles”).

Accountability Standards on Human Rights: Agilent has a zero tolerance policy for violations.

Agilent CTISCA Statement

Agilent has an established Supplier Environmental, Health, Safety, and Social Responsibility (EHSSR) program as well as a Supplier Code of Conduct which applies to all suppliers.

Agilent Supplier Code of Conduct

Agilent conducts random onsite surveys of suppliers for compliance with Agilent’s Supplier Code of Conduct. In cases where there are issues with adherence to Agilent’s supplier expectations, corrective actions are implemented and monitored by Agilent’s third-party auditor DEKRA. In 2013 DEKRA performed 19 onsite audits of Agilent-identified suppliers in Malaysia, China, South Korea, Mexico, and the United States. These sites were found to be in compliance with, or have been provided corrective actions to become compliant with, Agilent’s stated EHSSR program.
All corrective actions were completed in FY13.

**HR3**
**TOTAL HOURS OF EMPLOYEE TRAINING ON POLICIES AND PROCEDURES CONCERNING ASPECTS OF HUMAN RIGHTS THAT ARE RELEVANT TO OPERATIONS, INCLUDING THE PERCENTAGE OF EMPLOYEES TRAINED**

All Agilent employees participate in the annual required training in Standards of Business Conduct with customers, suppliers, and employees.

All procurement professionals, as part of Standards of Business Conduct training, are requested to take additional online training on Environmental, Health, Safety, and Social responsibility which covers Human Rights.

**HR4**
**TOTAL NUMBER OF INCIDENTS OF DISCRIMINATION AND CORRECTIVE ACTIONS TAKEN**

Agilent Technologies Human Rights and Labor Policy: Agilent acknowledges and respects the fundamental principles contained in the Universal Declaration of Human Rights. Our core values and culture reflect a commitment to ethical business practices and good corporate citizenship. Our policies and practices require Agilent to conduct its business with uncompromising integrity and to promote human rights within the company’s sphere of influence.

Freely-Chosen Employment: Agilent supports the elimination of all forms of forced, bonded, or involuntary prison labor.

No Child Labor: Agilent condemns all forms of exploitation of children. Agilent will not recruit child labor and supports the elimination of exploitive child labor.

Minimum Wages: Agilent will compensate our employees with wages and benefits that meet or exceed the legally required minimum.

Working Hours: Agilent will not require employees to work more than the maximum hours of daily labor set by local laws.

No Discrimination: Agilent supports and upholds the elimination of discriminatory practices with respect to employment and occupation, and promotes and embraces diversity in all aspects of its business operations. Our policies prohibit discrimination based on race, color, age, gender, sexual orientation, gender identity and expression, ethnicity, religion, or disability.

No Harsh or Inhumane Treatment: Agilent prohibits physical abuse, harassment, or the threat of either. Agilent will provide a safe and healthy working environment for all of its employees.

Freedom of Association: Agilent respects the rights of employees to organize in labor unions in accordance with local laws and established practice, if desired.

Ethical Business Conduct: Agilent’s Standards of Business Conduct requires that business be conducted with honesty, and reflects high ethical standards that are the basis for achieving our goals. The standards establish clear guidelines for how we do business and establish accountability. All employees are expected to comply with these standards.

Agilent Technologies Supplier Environmental and Social Responsibility Code of Conduct: Agilent’s suppliers are required to support and promote the fundamental human rights referenced in this document.

**Agilent Supplier Code of Conduct**
HR5
OPERATIONS AND SIGNIFICANT SUPPLIERS IDENTIFIED IN WHICH THE RIGHT TO EXERCISE FREEDOM OF ASSOCIATION AND COLLECTIVE BARGAINING MAY BE AT SIGNIFICANT RISK, AND ACTIONS TAKEN TO SUPPORT THESE RIGHTS

Agilent is unaware of any operations and significant suppliers identified in which the right to exercise freedom of association and collective bargaining may be at risk. 

Agilent endorses the concept and right to exercise freedom of association as Agilent subscribes to UN Declaration of Human Rights and Supplier Code of Conduct and complies with the California Supply Chain Transparency Act (CTISCA).

Agilent Human Rights and Labor Policy
Agilent Supplier Code of Conduct
Agilent CTISCA Statement

HR6
OPERATIONS AND SIGNIFICANT SUPPLIERS IDENTIFIED AS HAVING SIGNIFICANT RISK FOR INCIDENTS OF CHILD LABOR, AND MEASURES TAKEN TO CONTRIBUTE TO THE ELIMINATION OF CHILD LABOR

Agilent is unaware of any operations or suppliers identified as having significant risk for incidents of child labor.

Agilent has established a Supplier Environmental, Health, Safety and Social Responsibility program as well as a Supplier Code of Conduct. In addition, Agilent also requires supplier compliance to human rights throughout their operations (including but not limited to the operations of their own suppliers and any permitted sub-contractors) in accordance with the UN Guiding Principles on Business and Human Rights (the “UN Guiding Principles”).

Agilent CTISCA Statement

HR7
OPERATIONS AND SIGNIFICANT SUPPLIERS IDENTIFIED AS HAVING SIGNIFICANT RISK FOR INCIDENTS OF FORCED OR COMPULSORY LABOR, AND MEASURES TO CONTRIBUTE TO THE ELIMINATION OF ALL FORMS OF FORCED OR COMPULSORY LABOR

Agilent is unaware of any operations and significant suppliers having a significant risk for incidents of forced or compulsory labor.

Agilent has an established Supplier Environmental, Health, Safety and Social Responsibility program as well as a Supplier Code of Conduct which applies to all suppliers. In addition, Agilent complies with the California Supply Chain Transparency Act of 2010 and the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Agilent CTISCA Statement

HR8
PERCENTAGE OF SECURITY PERSONNEL TRAINED IN THE ORGANIZATION’S POLICIES OR PROCEDURES CONCERNING ASPECTS OF HUMAN RIGHTS THAT ARE RELEVANT TO OPERATIONS

Agilent has outsourced its security to a globally renowned company in this field. This external company trains its employees in human rights issues, especially in the area of use of force, and also addresses this subject in its security officer handbook.

HR9
TOTAL NUMBER OF INCIDENTS OF VIOLATIONS INVOLVING RIGHTS OF INDIGENOUS PEOPLE AND ACTION TAKEN

Agilent is unaware of any incidents.

HR10
PERCENTAGE AND TOTAL NUMBER OF OPERATIONS THAT HAVE BEEN SUBJECT TO HUMAN RIGHTS REVIEWS AND/OR IMPACT ASSESSMENTS

Agilent is unaware of any operations that have been subjected to human rights reviews or impact assessments.

HR11
NUMBER OF GRIEVANCES RELATED TO HUMAN RIGHTS FILED, ADDRESSED, AND RESOLVED THROUGH FORMAL GRIEVANCE MECHANISMS

Agilent is unaware of any grievances related to human rights filed through formal grievance mechanisms.

Agilent Environmental Expectations
Agilent conducts random onsite surveys of suppliers for compliance with Agilent’s Supplier Code of Conduct. In cases where there are issues with adherence to Agilent’s supplier expectations, corrective actions are implemented and monitored by Agilent’s third party auditor DEKRA. All corrective actions were completed in FY13.

PERFORMANCE INDICATORS
Agilent’s policies, values, organization, and business management systems apply across all our global businesses. They are designed to:

- Reduce our negative impacts on the environment
- Protect the occupational health and safety interests of our employees
- Ensure customer requirements are met
- Enhance our value to our communities
- Ensure the highest levels of quality in our products and services
- Increase our competitiveness

Agilent considers external charters, principles, and guidelines that have been developed through multi-stakeholder processes to guide our business activities. We also participate in a variety of intra- and cross-industry forums to address emerging issues, develop industry-wide approaches to social and environmental challenges, and cooperate with governments, non-governmental organizations (NGOs), and other stakeholders on common concerns.

As part of our Corporate Citizen Objectives, Agilent strives to be an economic, intellectual, and social asset to each nation and community where we conduct business. Agilent has been consciously and strongly committed to community involvement through many initiatives—Agilent Technologies Foundation, Agilent Giving, and other signature programs aimed at giving back to the community.

Agilent in Communities

Agilent Corporate Brochure

Agilent recognizes ISO 26000 as a reference document that provides guidance on social responsibility. Agilent aligns with ISO 26000 standards as part of our social responsibility practices. As such, Agilent’s Social and Community initiatives align with ISO core subjects: Organizational Governance 6.2, Fair Operating Practices 6.6, and Community Involvement and Development 6.8

Volunteerism is a key element of our core values and the cornerstone of our corporate citizenship efforts. Agilent’s annual Giving Campaign allows employees more choices in their non-profit support. As a result, contributions were made in areas ranging from environment and conservation to education and literacy to arts and culture. One hundred percent of the Agilent sites participating in the giving campaign held community outreach programs.

All Agilent communities supported the annual Engineers Week, with a focus on girls in engineering. We provided support in hosting events and serving as organizers and presenters. Our worldwide communities are not only sites with large employee populations but also individuals in field locations.

In 2013, Agilent Singapore debuted its global science-in-a-box program—Agilent After School—at the Singapore Science Festival, marking the first collaboration between the two organizations. Targeted at children aged 9 to 13 years, the program is one of Agilent’s Corporate Social Responsibility (CSR) initiatives that provide hands-on science enrichment activities on life, physical, and earth-science experiments.

Agilent Malaysia employees contributed more than 10,000 volunteer hours at the annual Penang International Science and Engineering Fair, the largest event of its kind in Malaysia.

EARTH DAY & WORLD ENVIRONMENT DAY EVENTS FOCUSED ON AGILENT’S COMMITMENT TO ENVIRONMENTALLY SUSTAINABLE OPERATIONS, AND ENCOURAGING EMPLOYEE ENGAGEMENT IN SUSTAINABLE PRACTICES ACROSS OUR WORLDWIDE SITES.

PERFORMANCE INDICATORS

SO2
PERCENTAGE AND TOTAL NUMBER OF BUSINESS UNITS ANALYZED FOR RISKS RELATED TO CORRUPTION

100 percent of all Agilent business units were analyzed for risks related to corruption during the reporting period.

SO3
PERCENTAGE OF EMPLOYEES TRAINED IN ORGANIZATION’S ANTI-CORRUPTION POLICIES AND PROCEDURES

100 percent of management and non-management employees were required to receive anti-corruption training during the reporting period.

SO4
ACTIONS TAKEN IN RESPONSE TO INCIDENTS OF CORRUPTION

Agilent has a formal process for investigating and resolving allegations of corruption should they occur.

SO5
PUBLIC POLICY POSITIONS AND PARTICIPATION IN PUBLIC POLICY DEVELOPMENT AND LOBBYING

Agilent positions statements are published at Agilent Position Statements. See also Agilent’s Corporate Governance.

SO6
TOTAL VALUE OF FINANCIAL AND IN-KIND CONTRIBUTIONS TO POLITICAL PARTIES, POLITICIANS, AND RELATED INSTITUTIONS BY COUNTRY

Agilent contributes to dialogue and decision-making on public policies affecting the company, our employees, and our operations. Specific questions about our political activities can be submitted via www.agilent.com/go/contactus

SO7
TOTAL NUMBER OF LEGAL ACTIONS FOR ANTI-COMPETITIVE BEHAVIOR, ANTITRUST, AND MONOPOLY PRACTICES AND THEIR OUTCOMES

Agilent policy forbids anti-competitive behavior, antitrust, and monopoly practices.

SO8
MONETARY VALUE OF SIGNIFICANT FINES AND TOTAL NUMBER OF NON-MONETARY SANCTIONS FOR NON-COMPLIANCE WITH LAWS AND REGULATIONS

Agilent has not received any significant fines associated to product non-compliance nor has Agilent been sanctioned for product non-compliance. In addition, Agilent has no dispute resolutions.

SO9
OPERATIONS WITH SIGNIFICANT POTENTIAL OR ACTUAL NEGATIVE IMPACTS ON LOCAL COMMUNITIES

Agilent did not experience any new event that significantly affected Agilent’s local communities.

SO10
PREVENTION AND MITIGATION MEASURES IMPLEMENTED IN OPERATIONS WITH SIGNIFICANT POTENTIAL OR ACTUAL NEGATIVE IMPACTS ON LOCAL COMMUNITIES

Agilent had no need to implement mitigation measures, as the company experienced no event that significantly impacted local communities.

FRANK PFUNDSTEIN, SWITZERLAND
Agilent’s Business Management System (BMS) is designed to support our three business groups, Electronic Measurement Group (EMG), Chemical Analysis Group (CAG), Life Sciences and Diagnostics Group (LDG), so that Agilent products, services, and interactions consistently and effectively meet customer expectations and applicable regulatory requirements, and provide a mechanism for continual improvement.

The Agilent BMS provides a framework from which business groups and operations can make decisions appropriate to their specific business, customer, and geographic needs while ensuring that applicable minimum standards are met, and describes the minimum standards and the required processes for the business groups’ business management systems that are designed to conform to ISO 9001:2008. Each business group maintains a business management system to illustrate its specific required processes for meeting customer expectations and, where applicable, other standards such as ISO14001, ISO/IEC 17025, AS 9100, ISO 13485, or TL 9000. Agilent’s infrastructure organizations provide centrally managed, business critical services, and operate as internal service suppliers to the business groups.

Ensuring that our products and services are safe before they go to market is just one part of our responsibility to customers. We also make certain that customers have easy access to the information they want or need about those products and services. Please refer to the Agilent Quality Policy.

Agilent is firmly committed to technology leadership, having long invested heavily in research and development.

Our breadth of disciplines and technologies enable unique and breakthrough advancements that often transcend traditional boundaries.

Agilent recognizes ISO 26000 as a reference document that provides guidance on social responsibility. Agilent aligns with ISO 26000 standards as part of our social responsibility practices. As such, Agilent’s Product Responsibility processes align with ISO core subjects: Organizational Governance 6.2, Fair Operating Practices 6.6, and Consumer Issues 6.7.

PR1
LIFE CYCLE STAGES IN WHICH HEALTH AND SAFETY IMPACTS OF PRODUCTS AND SERVICES ARE ASSESSED FOR IMPROVEMENT AND PERCENTAGE OF SIGNIFICANT PRODUCTS AND SERVICES CATEGORIES SUBJECT TO PROCEDURES

Agilent’s quality and environmental policies mandate we provide products and services that meet legal and regulatory requirements, including applicable environmental, health, and safety standards. Agilent is committed to a continuous improvement of the environmental aspects and impacts of our products as demonstrated by Agilent’s ISO 14001 certificate, which is regularly audited by an external party.

PR2
TOTAL NUMBER OF INCIDENTS OF NON-COMPLIANCE WITH REGULATIONS AND VOLUNTARY CODES CONCERNING HEALTH AND SAFETY IMPACTS AND SERVICES DURING THEIR LIFE CYCLE BY TYPE OF OUTCOMES

Agilent did not receive any regulatory non-compliance notices for the reporting period.

Agilent complies with required labeling for substance identification in our products in accordance with required regulations, and safe use guidance for products produced by Agilent. Ninety percent of Agilent products and services are covered and assessed for compliance with these guidelines. Annually Agilent communicates materials specifications through the “General Specifications for Environment” to its suppliers to inform them of banned chemicals/materials that should not be included in material/parts/products bought by Agilent to ensure compliance with global regulations and minimize the environmental impact of its products and operations. Agilent also provides Material Safety Data Sheets with Agilent and third-party-provided chemicals supplied standalone or with products for safe use. Agilent and OEM products and battery labels include a waste container symbol for help in proper disposal. The company also operates an end-of-life customer returns system. In addition, Agilent provides end-of-life management options where legally required. Reuse programs are offered for selected Agilent products. The programs address the requirements posed by the European WEEE (Waste from Electrical & Electronic Equipment) Directive. Please see Agilent’s Take Back Program.
SOCIAL: PRODUCT RESPONSIBILITIES

PR4
TOTAL NUMBER OF INCIDENTS OF NON-COMPLIANCE WITH REGULATIONS AND VOLUNTARY CODES CONCERNING PRODUCT AND SERVICE INFORMATION AND LABELING, BY TYPE OF OUTCOMES

Agilent had no incidents of non-compliance regarding products or non-compliance issues regarding labeling. In addition, Agilent did not have any non-compliance incidents for product-related claims during the reporting period.

PR5
PRACTICES RELATED TO CUSTOMER SATISFACTION, INCLUDING RESULTS OF SURVEYS MEASURING CUSTOMER SATISFACTION

Through our Agilent Customer Satisfaction program, we survey customers who interact with various touchpoints across our businesses and regions, and we provide continual updates to our management. In addition, our Agilent Market Survey provides a measure of our customers’ loyalty compared with the loyalty of our competitors’ customers. The results are used to identify opportunities for growth and areas where additional business investments are warranted. Agilent is associated with trust, safety, and success due to its heritage, breadth of high-quality products, and long-standing reputation.

PR6
PROGRAM FOR ADHERENCE TO LAWS, STANDARDS, AND VOLUNTARY CODES RELATED TO MARKETING COMMUNICATIONS, INCLUDING ADVERTISING, PROMOTION AND SPONSORSHIP

Our brand is shaped by every experience customers, partners, shareholders, and constituents have with Agilent. Every action we take ensures that these experiences consistently build and reinforce Agilent as the world’s premier measurement company. Our internal Brand Identity System has a rigorous process for claim substantiation and is aligned with Federal Trade Commission and legal guidelines.

PR7
TOTAL NUMBER OF INCIDENTS OF NON-COMPLIANCE WITH REGULATIONS AND VOLUNTARY CODES CONCERNING MARKETING COMMUNICATIONS, INCLUDING ADVERTISING, PROMOTION AND SPONSORSHIP, BY TYPE OF OUTCOMES

Agilent had no incidents of non-compliance during the reporting period.

PR8
TOTAL NUMBER OF SUBSTANTIAL COMPLAINTS REGARDING BREACHES OF CUSTOMER PRIVACY AND LOSSES OF DATA

Agilent is unaware of any complaints regarding breaches of customer privacy and loss of data. To demonstrate the importance of customer privacy, Agilent has entered into three voluntary data privacy programs: the U.S.-EU Safe Harbor, U.S.-Swiss Safe Harbor and TRUSTe.

For more information, please see: Agilent Customer Privacy Statement.

PR9
MONETARY VALUE OF SIGNIFICANT FINES FOR NON-COMPLIANCE WITH LAWS AND REGULATIONS CONCERNING THE PROVISION AND USE OF PRODUCTS AND SERVICES

Agilent had no incidents of non-compliance regarding product, labeling, or non-compliance incidents for product related claims during the reporting period.

THE AGILENT 4100 MICROWAVE PLASMA-ATOMIC EMISSION SPECTROPHOTOMETER PROVIDES COST-EFFECTIVE MEASUREMENT CAPABILITIES BY REPLACING EXPENSIVE AND HAZARDOUS GASES WITH ORDINARY COMPRESSED AIR.
GLOSSARY AND ACRONYMS

GARY HUGHES, USA
Agilent After School A hands-on science program targeted at children from the ages of 9 to 13 years and supported by Agilent employee volunteers.

CO₂ Carbon dioxide. A gaseous by-product of energy generation and energy use that is known to contribute to global warming.

EHS Environmental, health, and safety.

EHSMS Environmental, health, and safety management system.

ESR Environmental and Social Responsibility.

Fiscal year For Agilent, this is November 1 to October 31.

FTC Federal Trade Commission

Greenhouse gases For the purpose of this report, greenhouse gases are the six gases listed in the Kyoto Protocol: carbon dioxide (CO₂); methane (CH₄); nitrous oxide (N₂O); hydro fluorocarbons (HFCs); perfluorocarbons (PFCs); and sulphur hexafluoride (SF₆).

Gigajoule 1 gigajoule = 277.78 kilowatt-hour.

GRI Global Reporting Initiative. An independent global institution that is developing a generally accepted framework for sustainability reporting. For more information go to www.globalreporting.org.

GSE Agilent General Specification for the Environment at www.agilent.com/environment/GSE.pdf. Agilent’s general requirements for restricting or prohibiting certain substances in products manufactured for or delivered to Agilent.

ILO International Labour Organization. For more information, go to www.ilo.org/global/index.htm.

Injury/illness rate The calculation for the injury/illness rate is based on the number of recordable occupational injury/illness cases multiplied by 200,000 then divided by the hours worked for the same time period in which the injuries occurred. For example, if you had two injuries in a quarter and 50,000 hours worked, then the calculation would be: $2 \times 200,000 / 50,000 = 8.0$ injury/illness rate.

ISO 14001 An international standard issued by the International Organization for Standardization (ISO) relating to environmental management systems.

ISO 26000 A voluntary international standard providing guidance on social responsibility.

Kiloton 1 kiloton = 1,000 metric tons. 1 kiloton = 1,000,000 kilograms.

Lost-workday case Recordable cases involving lost workdays beyond date of injury (more serious injury/illness).

Lost-workday case rate The lost-workday case rate provides information on the number of occupational lost-workday injury/illness cases multiplied by 200,000, then divided by the hours worked for the same time period in which the injuries occurred. For example, if you had one lost-workday injury/illness case in a quarter and 50,000 hours worked, then the calculation would be: $1 \times 200,000 / 50,000 = 4.0$ lost-workday case rate.

Megawatt hour 1 megawatt hour = 1,000 kilowatt hours.

Recordable injury/illness case Occupational injury/illness involving medical treatment beyond first aid. Diagnosed occupational illness, or workdays lost beyond date of injury.

RoHS Restriction of Hazardous Substances
