STRATEGY AND ANALYSIS
1.1 Strategy and analysis statement .......................................................13
1.2 Description of key impacts, risks, and opportunities .........................13

ORGANIZATIONAL PROFILE
2.1 Name of the organization ................................................................15
2.2 Primary brands, products, and/or services .........................................15
2.3 Operational structure of the organization, including main divisions, operating companies, subsidiaries, and joint ventures ..........15
2.4 Location of organization’s headquarters ............................................15
2.5 Number of countries where the organization operates, and names of countries with either major operations or that are specifically relevant to the sustainability issues covered in the report .................................................................15
2.6 Nature of ownership and legal form ..................................................15
2.7 Markets served (including geographic breakdown, sectors served, and types of customers/beneficiaries) ..................................................16
2.8 Scale of the reporting organization ....................................................16
2.9 Significant changes during the reporting period regarding size, structure, or ownership .................................................................16
2.10 Awards received in the reporting period ............................................16

REPORT PARAMETERS
3.1 Reporting period for information provided .........................................18
3.2 Date of most recent previous report ..................................................18
3.3 Reporting cycle (annual, biennial, etc.) ................................................18
3.4 Contact point for questions regarding the report or its contents .......18
3.5 Process for defining report content ....................................................18
3.6 Boundary of the report (e.g., countries, divisions, subsidiaries, leased facilities, joint ventures, suppliers) ..............................18
3.7 State any specific limitations on the scope or boundary of the report ...........................................................................................................18
3.8 Basis for reporting on joint ventures, subsidiaries, leased facilities, outsourced operations, and other entities that can significantly affect comparability from period to period and/or between organizations ..................................................18
3.9 Data measurement techniques and the bases of calculations, including assumptions and techniques underlying estimations applied to the compilation of the Indicators and other information in the report ...........................................................................................................19
3.10 Explanation of the effect of any re-statements of information provided in earlier reports, and the reasons for such re-statement (e.g., mergers/acquisitions, change of base years/periods, nature of business, measurement methods) ..................................................19
3.11 Significant changes from previous reporting periods in the scope, boundary, or measurement methods applied in the report ...........................................................................................................19
3.12 Table identifying the location of the Standard Disclosures in the report ...........................................................................................................19
3.13 Policy and current practice with regard to seeking external assurance for the report ...........................................................................................................19

GOVERNANCE, COMMITMENTS AND ENGAGEMENT
4.1 Governance structure of the organization, including committees under the highest governance body responsible for specific tasks, such as setting strategy or organizational oversight ..................................................21
4.2 Indicate whether the chair of the highest governance body is also an executive officer .................................................................21
4.3 For organizations that have a unitary board structure, state the number and gender of members of the highest governance body that are independent and/or non-executive members ...........................................................................................................21
4.4 Mechanisms for shareholders and employees to provide recommendations or direction to the highest governance body .................................................................21
4.5 Linkage between compensation for members of the highest governance body, senior managers, and executives (including departure arrangements), and the organization’s performance (including social and environmental performance) ...........................................................................................................22
4.6 Processes in place for the highest governance body to ensure conflicts of interest are avoided .................................................................22
4.7 Process for determining the composition, qualifications, and expertise of the members of the highest governance body and its committees, including any consideration of gender and other indicators of diversity ...........................................................................................................22
4.8 Internally developed statements of mission or values, codes of conduct, and principles relevant to economic, environmental, and social performance and the status of their implementation ...........................................................................................................22
4.9 Procedures of the highest governance body for overseeing the organization’s identification and management of economic, environmental, and social performance, including relevant risks and opportunities, and adherence or compliance with internationally agreed standards, codes of conduct, and principles ...........................................................................................................22
# TABLE OF CONTENTS

| 4.10 | Processes for evaluating the highest governance body’s own performance, particularly with respect to economic, environmental, and social performance | 22 |
| 4.11 | Explanation of whether and how the precautionary approach or principle is addressed by the organization | 23 |
| 4.12 | Externally developed economic, environmental, and social charters, principles, or other initiatives to which the organization subscribes or endorses | 23 |
| 4.13 | Memberships in associations (such as industry associations) and/or national/international advocacy organizations in which the organization has positions in governance bodies; Participates in projects or committees; Provides substantive funding beyond routine membership dues; or Views membership as strategic | 23 |
| 4.14 | List of stakeholder groups engaged by the organization | 24 |
| 4.15 | Basis for identification and selection of stakeholders with whom to engage | 24 |
| 4.16 | Approaches to stakeholder engagement, including frequency of engagement by type and by stakeholder group | 24 |
| 4.17 | Key topics and concerns that have been raised through stakeholder engagement, and how the organization has responded to these concerns, including through its reporting | 24 |

## ECONOMIC PERFORMANCE

| DMA | Disclosure on Management Approach | 26 |
| EC1 | Direct economic value generated and distributed, including revenues, operating costs, employee compensation, donations and other community investments, retained earnings, and payments to capital providers and governments | 26 |
| EC2 | Financial implications and other risks and opportunities for the organization’s activities due to climate change | 26 |
| EC3 | Coverage of the organization’s defined benefit plan obligations | 26 |
| EC4 | Significant financial assistance received from government | 27 |
| EC5 | Range of ratios of standard entry-level wage by gender compared to local minimum wage at significant locations of operation | 27 |
| EC6 | Policy, practices, and proportion of spending on locally-based suppliers at significant locations of operation | 27 |
| EC7 | Procedures for local hiring and proportion of senior management hired from the local community at significant locations of operation | 27 |
| EC8 | Development and impact of infrastructure investments and services provided primarily for public benefit through commercial, in-kind, or pro bono engagement | 28 |
| EC9 | Understanding and describing significant indirect economic impacts, including the extent of impacts | 28 |

## ENVIRONMENTAL

<p>| DMA | Disclosure on Management Approach | 30 |
| EN1 | Material used by weight or volume | 30 |
| EN2 | Percentage of materials used that are recycled input material | 30 |
| EN3 | Direct energy consumption by primary energy source | 30 |
| EN4 | Indirect energy consumption by primary source | 31 |
| EN5 | Energy saved due to conservation and efficiency improvements | 31 |
| EN6 | Initiatives to provide energy-efficient or renewable energy based products and services, and reductions in energy requirements as a result of these initiatives | 31 |
| EN7 | Initiatives to reduce indirect energy consumption and reductions achieved | 32 |
| EN8 | Total water withdrawal by source | 32 |
| EN9 | Percentage and total volume of water recycled and reused | 32 |
| EN10 | Location and size of land owned, leased, managed in, or adjacent to, protected areas and areas of high biodiversity value outside protected areas | 33 |
| EN11 | Description of significant impacts of activities, products, and services on biodiversity in protected areas and areas of high biodiversity value outside protected areas | 33 |
| EN12 | Initiatives to reduce indirect energy consumption and reductions achieved | 34 |
| EN13 | Development and impact of infrastructure investments and services provided primarily for public benefit through commercial, in-kind, or pro bono engagement | 34 |
| EN14 | Strategies, current actions, and future plans for managing impacts on biodiversity | 33 |
| EN15 | Number of iucn red list species and national conservation list species with habitats in areas affected by operations, by level of extinction risk | 33 |
| EN16 | Total direct and indirect greenhouse gas emissions by weight | 33 |
| EN17 | Other relevant indirect greenhouse gas emissions by weight | 34 |
| EN18 | Initiatives to reduce greenhouse gas emissions and reductions achieved | 34 |
| EN19 | Emissions of ozone-depleting substances by weight | 35 |
| EN20 | Nox, sox, and other significant air emissions by type and weight | 35 |
| EN21 | Total water discharge by quality and destination | 35 |
| TABLE OF CONTENTS                                                                 |
|--------------------------------------------------------------------------------|--------------------------------------------------------------------------------|
| <strong>EN22</strong> Total weight of waste by type and disposal method .......................... | <strong>HR1</strong> Percentage and total number of significant investment agreements and contracts that include human rights clauses or that have undergone human rights screening ............................................. |
| <strong>EN23</strong> Total number and volume of significant spills ............................... | <strong>HR2</strong> Percentage of significant suppliers, contractors, and other business partners that have undergone human rights screening and actions taken ................................................................. |
| <strong>EN24</strong> Weight of transported, imported, exported, or treated waste deemed hazardous under the terms of the Basel Convention annex i, ii, iii, and viii, and percentage of transported waste shipped internationally ........................................ | <strong>HR3</strong> Total hours of employee training on policies and procedures concerning aspects of human rights that are relevant to operations, including the percentage of employees trained ................................................. |

Outstanding corporate citizenship has three main components, and all are important priorities for Agilent. The first element is corporate governance—the practices that bring to life the highest standards of integrity and transparency. Our uncompromising integrity is core in all our dealings with customers and suppliers.

The second element of corporate citizenship is the role we play as an employer and community member. Our corporate citizenship efforts strengthen Agilent’s long-term competitiveness and help improve the viability of our many communities. We will continue to make these efforts a priority. The third component is a dedicated focus on sustainability in our products and operations. As a result, Agilent strives to honor our obligations to society by being an economic, intellectual, social, and sustainability leader in each nation and community in which we operate.
Agilent Technologies’ 2012 Corporate Citizenship Report demonstrates the commitment of our company, leaders, and employees to the highest standards of social and environmental responsibility. We are proud to recognize corporate citizenship as a fundamental value throughout Agilent’s long, almost 75-year heritage as an industry leader.

Agilent’s Corporate Citizenship and Responsibility Report provides details of our sustainability strategies and philanthropic efforts in 2012. I would like to highlight just a few of our accomplishments from the past year.

For the first time, we conducted a greenhouse gases “hot spot” analysis throughout our indirect supply chain. Our goal is to increase Agilent’s use of suppliers who are environmental leaders in their respective categories. This is one step in our long journey to lower Agilent’s carbon footprint and reduce our companywide greenhouse gas emissions.

We have updated Agilent’s supplier code of conduct to ensure compliance with Environmental, Health, Safety, and Social Responsibility guidelines throughout our supply chain. Suppliers are now accountable for ensuring that their subcontractors also comply with EHSSR guidelines, with responsibility for taking corrective action as necessary.

I am especially pleased to report that Agilent’s Electronic Measurement Group now has more than 2,000 products designed to be compliant with the European Union’s Restriction of Hazardous Substances directive. This is four years ahead of the 2017 regulatory deadline for test and measurement products.

Agilent now includes a corporate citizenship overview in all new employee orientation, ensuring that social and environmental responsibility will continue to be a part of our culture moving forward. We are proud to support our customers, investors, and communities in making our world a better, healthier, and more sustainable place to live.

A MESSAGE FROM BILL SULLIVAN, CEO, AGILENT TECHNOLOGIES
VALUES

Our approach to citizenship rests on a framework of values distinguished by uncompromising integrity and the highest standards of business ethics. Our values shape the way our products are designed and delivered, how our operations and supply chains are managed, and how we adapt to take on the tough social and environmental challenges of the 21st century.

Innovation and Contribution
Provide quality and originality in our products, systems, and solutions.

Trust, Respect, and Teamwork
Foster an inclusive environment that demonstrates respect for individuals, their ideas, and contributions.

Uncompromising Integrity
Adhere to the highest standards of business ethics; act with uncompromising integrity in all relationships with customers, suppliers, and employees.

Speed
Respond decisively and rapidly to customer and business needs.

Focus
Anticipate and satisfy customers with detailed attention to their needs.

Accountability
Make honest and consistent commitments and deliver as promised.
POLICIES

Environmental Policy
Agilent is committed to acting in an environmentally responsible manner. Learn more about our Environmental Policy at Agilent’s Environmental Policy.

Occupational Health and Safety Policy
Agilent is committed to health and safety practices and work environments that enable our people to work injury and illness-free. Learn more about our OHS Policy at Agilent’s OHS Policy.

Human Rights and Labor Policy
Agilent conducts business with uncompromising integrity and promotes human rights within the company’s sphere of influence. Learn more at Agilent’s Human Rights and Labor Policy.

Employee Volunteerism Policy
Agilent employees may use up to four hours of company time per month, with manager approval, to work on company supported or sponsored community activities. Learn more at Agilent’s Volunteer Policy.

Employee Diversity, Inclusion, Accessibility, and Work/Life Balance
Agilent applies a range of policies, programs, and practices to promote diversity, inclusion, accessibility, and work/life balance, including:
• Nondiscrimination policy
• Accessibility policy
• Education assistance program
• Employee assistance program
• Employee network group guidelines
• Balanced approach between campus recruiting and experienced hiring
• Harassment-free work environment
• Flexible and part-time work schedules when possible
Learn more at Employee Diversity and Inclusion.

Supplier Code of Conduct
Our Supplier Code of Conduct states that we will not establish or maintain a business relationship with a supplier if we believe that its practices violate local laws or basic international principles relating to human rights, anti-corruption, bribery, labor standards, or environmental protection. We expect our suppliers, and their suppliers, to adhere to environmental and social responsibility principles that are similar to those valued in Agilent.

Quality Policy
Agilent earns customer loyalty by providing products and services of the highest quality and greatest value. Learn more at Agilent Quality Policy.

Privacy Principles
Agilent is committed to respecting and protecting the privacy and personal information of customers, employees, and partners. Learn more at Agilent Privacy Statement.

Political Activities
Agilent contributes to dialogue and decision-making on public policies affecting the company, our employees, and operations. In 2012, Agilent provided no financial or in-kind contributions to political parties.
Agilent’s emphasis on sustainability is meant to ensure the actions we take today do not jeopardize future generations’ ability to realize their goals and dreams. We recognize that an effective sustainability strategy addresses the environmental, social, health and safety, product, supplier, and economic components of sustainability:

**Environmental**
- Drive continuous improvement in environmental sustainability through recycling, conservation of resources, prevention of pollution, product development, and promotion of environmental responsibility among our employees.
- Ensure our operations comply with applicable environmental regulations.
- Conduct our operations in a manner committed to the conservation of resources, prevention of pollution, and promotion of environmental responsibility.

**Social**
- Conduct our business with uncompromising integrity and promote human rights within the company’s sphere of influence.
- Ensure employee engagement in the success of the company.
- Be an economic, intellectual, and social asset to each nation and community in which we operate.

**Health and Safety**
- Create the health and safety practices and work environments that enable our people to work injury- and illness-free.
- Ensure our operations comply with relevant occupational health and safety regulations.

**Products**
- Ensure our products meet or exceed their published specifications.
- Ensure our products comply with relevant safety and environmental standards and regulations.

**Supplier**
- Inform suppliers and contractors of our environmental and social responsibility expectations. Require them to adopt management practices aligned with our expectations.
- Inform suppliers and contractors of our occupational health and safety expectations. Require them to adopt sound occupational health and safety management practices.

**Economic**
- Create economic value for our shareholders.
- Achieve our financial objectives in a sustainable and responsible manner.
In 2012, Agilent and the Agilent Technologies Foundation provided $8.2 million in university grants and equipment supporting science and technology research at the forefront of electronic and bio-analytic measurement technologies. In addition, $1.1 million in pre-university science-education grants supported programs reaching more than 6,000 educators and 600,000 students worldwide. Through employee match programs and other community investments, Agilent and the foundation provided $1.5 million in donations. In total, Agilent and the Agilent Technologies Foundation invested more than $10 million in philanthropic cash and equipment in 2012.

STRATEGY AND ANALYSIS

1.1 STRATEGY AND ANALYSIS STATEMENT

1.2 DESCRIPTION OF KEY IMPACTS, RISKS, AND OPPORTUNITIES
1.1 STRATEGY AND ANALYSIS STATEMENT

This report describes Agilent’s relationship with the environment and society. It presents our strategies, objectives, and results around sustainability and social responsibility. We strive to be a leader in managing our environmental and social practices through our sustainability strategies and community investment efforts. Today, customers are demanding that companies demonstrate awareness and focus on environmental and corporate social responsibilities. Agilent’s Corporate Citizenship Report details our accomplishments at a corporate level as well as the generosity of the Agilent Technologies Foundation for fiscal year 2012. In presenting our environmental and social responsibility strategy, Agilent has used the Global Reporting Initiative (GRI) 3.1 format to provide greater transparency and accountability in our public disclosure of our corporate citizenship efforts.

1.2 DESCRIPTION OF KEY IMPACTS, RISKS, AND OPPORTUNITIES

Agilent is committed to conducting business in an ethical, socially responsible, and environmentally sustainable manner. Our citizenship objective is to be an economic, intellectual, and social asset to each nation and community in which we operate. Agilent’s community relations and giving programs and the Agilent Technologies Foundation are tangible examples of our commitment to exemplary corporate citizenship.

Agilent’s corporate citizenship commitment is consistent with our Environmental Policy and Human Rights and Labor Policy—all essential for continued business success. Agilent’s ISO 14001-certified companywide environmental management system is used to manage and drive continuous reduction of adverse environmental impacts.
# ORGANIZATIONAL PROFILE

## 2.1 NAME OF THE ORGANIZATION
Agilent Technologies Inc.

## 2.2 PRIMARY BRANDS, PRODUCTS, AND/OR SERVICES
Agilent’s singular focus on measurement helps scientists, researchers, and engineers address their toughest challenges with precision and confidence. Our products and services help to deliver the breakthroughs that make a measurable difference. The company’s 19,220 employees serve customers in more than 100 countries.

Agilent holds many product and market leadership positions, including first worldwide in overall test and measurement products as well as in gas chromatographs and liquid chromatography/mass spectrometry. We are also a leading test and measurement equipment supplier to the telecommunications industry. With a singular focus on measurement, we:

- Advance next-generation wireless communications.
- Help the military become more flexible, mobile, and reliable.
- Enable nondestructive subsurface electronic testing of semiconductor materials.
- Analyze the causes and cures for disease.
- Make the world more safe and secure from crime and drugs.
- Aid in the discovery and quality of medicines.
- Keep our air, water, soil, and food clean and safe.

More information about Agilent product, brand, and services: Agilent Products and Services

## 2.3 OPERATIONAL STRUCTURE OF THE ORGANIZATION, INCLUDING MAIN DIVISIONS, OPERATING COMPANIES, SUBSIDIARIES, AND JOINT VENTURES
Agilent offers the broadest range of innovative measurement solutions in the industry. The company’s four businesses—Chemical Analysis, Life Sciences, Diagnostics and Genomics, and Electronic Measurement—provide customers with products and services that make a real difference in the lives of people everywhere. And at Agilent Research Laboratories we conduct research that anticipates customer needs and produces breakthroughs that power growth.

## 2.4 LOCATION OF ORGANIZATION’S HEADQUARTERS
Agilent Technologies Inc.
5301 Stevens Creek Boulevard
Santa Clara, CA 95051
Phone: (408) 553-2424

## 2.5 NUMBER OF COUNTRIES WHERE THE ORGANIZATION OPERATES, AND NAMES OF COUNTRIES WITH EITHER MAJOR OPERATIONS OR THAT ARE SPECIFICALLY RELEVANT TO THE SUSTAINABILITY ISSUES COVERED IN THE REPORT.
Our primary research and development and manufacturing sites are in California, Colorado, and Delaware in the U.S., and in Australia, China, Germany, India, Italy, Japan, Malaysia, Singapore, and the United Kingdom.

## 2.6 NATURE OF OWNERSHIP AND LEGAL FORM
Agilent is listed on the New York Stock Exchange and our ticker symbol is “A.”
2.7 MARKETS SERVED (INCLUDING GEOGRAPHIC BREAKDOWN, SECTORS SERVED, AND TYPES OF CUSTOMERS/BENEFICIARIES)

Agilent holds many product and market leadership positions, including first worldwide in overall test and measurement products, as well as in gas chromatographs and liquid chromatography/mass spectrometry. We are also a leading test and measurement equipment supplier to the telecommunications industry.

More information about Agilent presence, sectors and customers served is available at [Agilent Company Information](#).

2.8 SCALE OF THE REPORTING ORGANIZATION

The company’s 19,220 employees serve customers in more than 100 countries. Agilent had net revenues of $6.9 billion in fiscal 2012.

2.9 SIGNIFICANT CHANGES DURING THE REPORTING PERIOD REGARDING SIZE, STRUCTURE, OR OWNERSHIP

On June 21, 2012, Agilent acquired Dako, and on Sept. 12, 2012, the company created a fourth business group called Diagnostics and Genomics Group. DGG comprises Agilent’s Genomics Solutions Division and Dako.

More information about the Dako acquisition is available at [Agilent Newsroom](#).

2.10 AWARDS RECEIVED IN THE REPORTING PERIOD

Agilent received the following awards and recognition during the reporting period:

1. Ranked No. 3 in Glassdoor’s Top 25 Best Companies for Work Life Balance
2. Ranked No. 82 in Forbes’ Top 100 Innovative Companies in 2012
3. Named to Dow Jones Sustainability Index 2012/13
4. Ranked No. 11 on the Best Place to Work list in India (out of 550 companies)
5. Ranked No. 26 on the Newsweek Green Rankings
6. Davos 100 Global Most Sustainable Companies 2012
7. Agilent’s Santa Rosa, Calif., site selected in North Bay Business Journal as “Best Place to Work”

Technology and product innovation awards can be found at [Agilent 2012 Technology and Product Awards](#).

REPORT PARAMETERS

3.1 REPORTING PERIOD FOR INFORMATION PROVIDED
This report is based on a combination of quantitative and qualitative data relating to our environmental and social performance during fiscal year 2012 (Nov. 1, 2011, to Oct. 31, 2012). The data is recorded on a companywide basis unless otherwise indicated.

3.2 DATE OF MOST RECENT PREVIOUS REPORT
This is the 12th Corporate Citizenship Report (formally known as Environmental and Social Responsibility Report) produced by Agilent. Previous reports are available at Archived Agilent CCR.

3.3 REPORTING CYCLE (ANNUAL, BIENNIAL, ETC.)
Agilent publishes its Corporate Citizenship Report annually.

3.4 CONTACT POINT FOR QUESTIONS REGARDING THE REPORT OR ITS CONTENTS
For questions or comments regarding Agilent’s 2012 Corporate Citizenship Report, please contact us at corporate.citizenship@agilent.com

3.5 PROCESS FOR DEFINING REPORT CONTENT
We considered the 2006 Global Reporting Initiative (GRI) Sustainability Reporting Guidelines v3.1 (G3.1) available at GRI Reporting when developing this report. We self-declare that this report aligns with GRI Application Level A+.

3.6 BOUNDARY OF THE REPORT (E.G., COUNTRIES, DIVISIONS, SUBSIDIARIES, LEASED FACILITIES, JOINT VENTURES, SUPPLIERS)
The quantitative data in this report has been summarized into three regions: Asia Pacific, Europe, and Americas. The environmental data for 2012 covers the following locations (includes manufacturing sites that are ISO 14001-certified and sites greater than 200,000 square feet):

**Asia Pacific**
- China: Beijing, Shanghai, Chengdu
- Japan: Hachioji
- Malaysia: Penang
- Singapore: Yishun
- India: Manesar

**Europe**
- Germany: Boeblingen, Waldbronn
- UK: Oxford
- Italy: Torino

**Americas**
- U.S.: Santa Clara, Calif.; Santa Rosa, Calif.; Folsom, Calif.; Colorado Springs, Colo.; Boulder, Colo.; Newport, Del.; Little Falls, Del.; Cedar Creek, Texas

Agilent has 26 sites worldwide spread over 7,732,970 square feet. For this report’s purpose we are reporting environment data for 19 sites that are ISO 14001-certified and are greater than 200,000 square feet in size, which cover 98 percent of total area.

3.7 STATE ANY SPECIFIC LIMITATIONS ON THE SCOPE OR BOUNDARY OF THE REPORT
All financial data is reported in U.S. dollars. Water and waste data does not include information from Agilent’s suppliers.

3.8 BASIS FOR REPORTING ON JOINT VENTURES, SUBSIDIARIES, LEASED FACILITIES, OUTSOURCED OPERATIONS, AND OTHER ENTITIES THAT CAN SIGNIFICANTLY AFFECT COMPARABILITY FROM PERIOD TO PERIOD AND/OR BETWEEN ORGANIZATIONS
We report on our subsidiaries and affiliates where we have direct operational control, unless otherwise noted. Significant year-over-year changes are denoted. Where possible, we also report with units that provide for consistent reporting, such as per square foot rather than per building or per site.
3.12 TABLE IDENTIFYING THE LOCATION OF THE STANDARD DISCLOSURES IN THE REPORT

Please refer to pages 2–4 of the report.

3.13 POLICY AND CURRENT PRACTICE WITH REGARD TO SEEKING EXTERNAL ASSURANCE FOR THE REPORT.

- Reasonable Assurance statement by DEKRA for Agilent’s EHSSR and ODC programs

This statement attests that DEKRA certification can provide reasonable assurance that the claims regarding environmental, health, safety, and social responsibility (EHSSR), as they relate to Agilent-identified suppliers, found in this Agilent Corporate Citizenship Report 2012 are correct. In 2012, DEKRA performed audits of Agilent-identified suppliers in Malaysia, the People’s Republic of China, the Republic of China, the Philippines, Mexico, and the United States. These suppliers were found to be in compliance with, or have provided corrective actions to become compliant with, Agilent’s stated EHS&SR program, including but not limited to: policies regarding worker safety, environmental safety, Ozone Depleting Compounds (ODC), and those that strictly forbid and prevent any and all acts of human trafficking or slavery as those terms are used in the California Transparency in Supply Chains Act of 2010, California Civil Code, section 1714.43.

- Agilent energy, greenhouse gas emission, waste, and water data attested by external auditor TruCost in accordance with AA100AS (2008) type 2 moderate-level assurance. Detailed TruCost assurance statement is available at the CCR 2012 website.

- The Agilent Technologies Foundation financial information has also been attested by an independent auditor: Nichols, Rick and Company.

3.10 EXPLANATION OF THE EFFECT OF ANY RE-STATEMENTS OF INFORMATION PROVIDED IN EARLIER REPORTS, AND THE REASONS FOR SUCH RE-STATEMENT (E.G., MERGERS/ACQUISITIONS, CHANGE OF BASE YEARS/PERIODS, NATURE OF BUSINESS, MEASUREMENT METHODS)

We have not made any material financial restatements from the prior year to this year.

3.11 SIGNIFICANT CHANGES FROM PREVIOUS REPORTING PERIODS IN THE SCOPE, BOUNDARY, OR MEASUREMENT METHODS APPLIED IN THE REPORT

There are no significant changes in scope, boundary, and measurement methods in Agilent’s 2012 Corporate Citizenship Report from previous reporting periods except that we are reporting environment data for three more sites: Manesar, India; Torino, Italy, and Oxford, UK.
GOVERNANCE, COMMITMENTS AND ENGAGEMENT

CHRISTIAN KIEFER, GERMANY

PROFILE DISCLOSURES
Governance, Commitments, and Engagement

4.1 Governance Structure of the Organization, including Committees under the Highest Governance Body Responsible for Specific Tasks, such as Setting Strategy or Organizational Oversight

Agilent is led by a chief executive officer and overseen by a board of directors. The current four committees of the board are Audit & Finance; Compensation; Executive; and Nominating & Corporate Governance. The board selects the chief executive officer in accordance with the company’s bylaws and other applicable policies.

Investor Relations

4.2 Indicate Whether the Chair of the Highest Governance Body is Also an Executive Officer

James G. Cullen is non-executive chairman of the board of directors.

Agilent Board of Directors

4.3 For Organizations that have a Unitary Board Structure, State the Number and Gender of Members of the Highest Governance Body that are Independent and/or Non-Executive Members

In 2012, Agilent had nine board members, eight of whom were independent directors. For more details please refer to our corporate website.

Agilent has adopted the standards for director independence in compliance with the NYSE’s corporate governance listing standards. To be considered independent, the board must determine that a director has no material relationship with the company other than in his or her capacity as a director.

4.4 Mechanisms for Shareholders and Employees to Provide Recommendations or Direction to the Highest Governance Body

Agilent engages with a wide range of stakeholders on issues that affect the company’s operations. During business planning, Agilent considers external charters, principles, and guidelines. We also participate in industry and trade groups at local, regional, state, national, and international levels to address emerging issues, develop industry-wide approaches to environmental and social challenges, and cooperate with governments, non-governmental organizations, and other stakeholders on common concerns. Our stakeholders include:

- Customers
- Employees
- Investors
- Suppliers
- Government agencies
- Communities
- Neighbors
- Non-governmental organizations

We engage with our stakeholders through consultations, surveys, ad-hoc feedback, and reviews:

- Through our Agilent Customer Satisfaction program, we survey customers who interact with various touch points across our businesses and regions, and we provide continual updates to our management.
- Our Agilent Market Survey provides a measure of our customers’ loyalty compared to the loyalty of our competitors’ customers. The results are used to identify opportunities for growth and areas where additional business investments are warranted.

- The Agilent Leadership Audit is an annual or semi-annual survey that allows Agilent employees to provide feedback on leadership effectiveness within their workgroup. The Leadership Audit is focused on the critical few leadership practices that are central to executing the coming year’s business results. Audit results are compared with external best-in-class benchmarks to ensure we are performing at the top in our industry.

- On a quarterly basis at most of Agilent’s sites, employee sessions are held to share business updates and country-specific affairs, as well as to address employee-requested topics.

- We regularly meet and communicate with our investors and other members of the financial community. This includes one-on-one meetings, quarterly financial-results conference calls, Agilent Analyst Meetings and our annual shareholder meeting.

- We require our suppliers to adhere to our Supplier Environmental Social Responsibility (ESR) Code of Conduct, and we work with suppliers to address environmental and social issues that are identified in their operations.

- We have ongoing relationships with regulators at local, regional, and national levels regarding operational areas such as Environmental Health and Safety (EHS) and product environmental and safety compliance.

- These feedback mechanisms provide Agilent with information to help improve our environmental, social, and economic performance. For example, Agilent Workplace Services monitors global issues and reviews
external inquiries to help identify areas where we could further improve our EHS performance and programs. Similarly, Corporate Relations uses the input it receives to help guide our community programs, such as volunteerism and grants.

4.5 LINKAGE BETWEEN COMPENSATION FOR MEMBERS OF THE HIGHEST GOVERNANCE BODY, SENIOR MANAGERS, AND EXECUTIVES (INCLUDING DEPARTURE ARRANGEMENTS), AND THE ORGANIZATION’S PERFORMANCE (INCLUDING SOCIAL AND ENVIRONMENTAL PERFORMANCE)

Various policies that govern Agilent board and executive compensation can be accessed from our corporate website for Investor Relations.

4.6 PROCESSES IN PLACE FOR THE HIGHEST GOVERNANCE BODY TO ENSURE CONFLICTS OF INTEREST ARE AVOIDED

Agilent’s board of directors is bound by a code of ethics which specifically details requirements for avoidance of conflict of interest. “…Each board member must ensure that other existing and anticipated future commitments do not materially interfere with the members’ service as director. As long as you remain an Agilent director, you must avoid situations where your loyalties may be divided between Agilent’s interests and your own. Agilent expects you to avoid even the appearance of a conflict of interest. If you are an independent director, additional restrictions apply as noted in the Agilent Technologies Corporate Governance Standards.”

For more information on process to avoid conflict of interest go to Investor Relations.

4.7 PROCESS FOR DETERMINING THE COMPOSITION, QUALIFICATIONS, AND EXPERTISE OF THE MEMBERS OF THE HIGHEST GOVERNANCE BODY AND ITS COMMITTEES, INCLUDING ANY CONSIDERATION OF GENDER AND OTHER INDICATORS OF DIVERSITY

The Nominating & Corporate Governance Committee is responsible for identifying and screening new candidates for board membership and for overseeing the evaluation of board members.

4.8 INTERNALLY DEVELOPED STATEMENTS OF MISSION OR VALUES, CODES OF CONDUCT, AND PRINCIPLES RELEVANT TO ECONOMIC, ENVIRONMENTAL, AND SOCIAL PERFORMANCE AND THE STATUS OF THEIR IMPLEMENTATION

Agilent’s value of uncompromising integrity is critical to our open and transparent disclosure of information. We encourage regular communication with investors and other stakeholders on our financial performance. We hold annual shareholder meetings to provide updates on our company strategy and financial performance. We also report our performance through quarterly conference calls and an annual report. Financial information including U.S. Securities and Exchange Commission filings, proxy statements, and earnings announcements are available at Agilent Investor Relations.

Agilent is committed to the highest standard of corporate governance, business conduct, and ethics. Our Amended and Restated Corporate Governance Standards, the charters of our Audit and Finance Committee, Compensation Committee, Executive Committee, and Nominating/Corporate Governance Committee, as well as our Standards of Business Conduct, are available at www.investor.agilent.com under “Corporate Governance.”

Agilent recognizes ISO 26000 as the reference document that provides guidance on social responsibility. Agilent aligns with ISO 26000 standards as part of our social responsibility practices. As such, Agilent’s economic-related practices and processes align with ISO Core subjects: Organizational Governance 6.2 and Fair Operating Practices 6.6.

4.9 PROCEDURES OF THE HIGHEST GOVERNANCE BODY FOR OVERSEEING THE ORGANIZATION’S IDENTIFICATION AND MANAGEMENT OF ECONOMIC, ENVIRONMENTAL, AND SOCIAL PERFORMANCE, INCLUDING RELEVANT RISKS AND OPPORTUNITIES, AND ADHERENCE OR COMPLIANCE WITH INTERNATIONALLY AGREED STANDARDS, CODES OF CONDUCT, AND PRINCIPLES

Our board of directors meets regularly to discuss matters relevant to Agilent’s business. The board has access to the company’s management as well as outside legal counsel, consultants, and auditors. Members of Agilent’s management team routinely attend board and committee meetings to provide briefings on specific topics.

4.10 PROCESSES FOR EVALUATING THE HIGHEST GOVERNANCE BODY’S OWN PERFORMANCE, PARTICULARLY WITH RESPECT TO ECONOMIC, ENVIRONMENTAL, AND SOCIAL PERFORMANCE

Agilent’s Nominating/Corporate Governance Committee Charter includes responsibility of evaluation of board members.
GOVERNANCE, COMMITMENTS, AND ENGAGEMENT

4.11 EXPLANATION OF WHETHER AND HOW THE PRECAUTIONARY APPROACH OR PRINCIPLE IS ADDRESSED BY THE ORGANIZATION

Agilent’s approach to risk management is largely decentralized, supported by the belief that those closest to risk can manage the risk most effectively. This approach also highlights the fact that risk management expertise exists throughout the enterprise. Agilent Global Risk Management is the corporate function chartered to promote prudent risk management practice through direct engagement with the business and selected infrastructure organizations, using tools and processes to facilitate that practice globally. This function is also responsible for developing and implementing risk financing strategies for operational exposure while minimizing the company’s total cost of risk.

4.12 EXTERNALLY DEVELOPED ECONOMIC, ENVIRONMENTAL, AND SOCIAL ChARTERS, PRINCIPLES, OR OTHER INITIATIVES TO WHICH THE ORGANIZATION SUBSCRIBES OR ENDORSES

Many of Agilent’s policies and practices used in the operation of our business are consistent with internationally accepted charters and principles. Some of the guidelines, charters and principles that were considered by Agilent in developing our policies, position statements, EHSMS, and reporting structures are:

- California Supply Chain Transparency Act of 2010
- Conventions of the International Labour Organization (ILO)
- Custom Trade Partnership Program Against Terrorism
- Global Reporting Initiative—GRI 3.1 2006 sustainability reporting guidelines
- ISO 14001:2004—International standard for environmental management systems
- ISO 26000—Standard that provides guidance on social responsibility
- OHSAS 18001:1999—Standard for occupational health and safety management systems
- Procurement Strategy Council
- U.S. Foreign Corrupt Practices Act and those enacted under the OECD Convention on Combating Bribery of Foreign Public Officials in International Business Transactions.
- UK Bribery Act 2010

4.13 MEMBERSHIPS IN ASSOCIATIONS (SUCH AS INDUSTRY ASSOCIATIONS) AND/OR NATIONAL/INTERNATIONAL ADVOCACY ORGANIZATIONS IN WHICH THE ORGANIZATION: HAS POSITIONS IN GOVERNANCE BODIES; PARTICIPATES IN PROJECTS OR COMMITTEES; PROVIDES SUBSTANTIVE FUNDING BEYOND ROUTINE MEMBERSHIP DUES; OR VIEWS MEMBERSHIP AS STRATEGIC

Agilent participates in trade, industry, and professional organizations that are local, national, and global. Participation helps us achieve business and citizenship goals by enabling us to work with other companies on issues that affect our industry. Memberships also keep Agilent abreast of industry issues and best practices and provide vehicles through which we can contribute to and influence public policy. Examples of these memberships:

- American Electronics Association
- Boston College Center for Corporate Citizenship
- CALCE (Center for Advanced Life Cycle Engineering)
- Carbon Disclosure Project
- Confederation of Indian Industry
- Corporate Executive Board
- European Union Committee of the American Chamber of Commerce
- Global Business Travel Association
- Hackett Benchmarking Research
- iNEMI (National Electronics Manufacturers Initiative)
- Institute of Travel and Meetings (Europe)
- International Electronics Manufacturing Initiative
- Japan Electric Measuring Instruments Manufacturers Association
- National Association of Software and Services Companies
- Procurement Strategy Council
- Silicon Valley Leadership Group
- United States—Association of Southeast Asian Nations Business Council
4.14
LIST OF STAKEHOLDER GROUPS ENGAGED BY THE ORGANIZATION

Agilent’s stakeholders include:

- Customers
- Employees
- Investors
- Suppliers
- Government agencies
- Communities
- Neighbors
- Non-governmental organizations
- Industry standard-setting organizations

These feedback mechanisms provide us with information to help improve our environmental, social, and economic performance. For example, Agilent Workplace Services monitors global issues and reviews external inquiries to help identify areas where we could further improve our EHS performance and programs. Similarly, Corporate Relations uses the input it receives to help guide our community programs, such as volunteerism and grants.

4.15
BASIS FOR IDENTIFICATION AND SELECTION OF STAKEHOLDERS WITH WHOM TO ENGAGE

Agilent engages with a wide range of stakeholders on issues that affect the company’s operations. During business planning, Agilent considers external charters, principles, and guidelines. We also participate in industry and trade groups at local, regional, state, national, and international levels to address emerging issues; develop industry-wide approaches to environmental and social challenges; and cooperate with governments, non-governmental organizations and other stakeholders on common concerns.

4.16
APPROACHES TO STAKEHOLDER ENGAGEMENT, INCLUDING FREQUENCY OF ENGAGEMENT BY TYPE AND BY STAKEHOLDER GROUP

We engage with our stakeholders through consultations, surveys, ad-hoc feedback and reviews:

- Our Agilent Market Survey provides a measure of our customers’ loyalty compared with the loyalty of our competitors’ customers. The results are used to identify opportunities for growth and areas where additional business investments are warranted.

- The Agilent Leadership Audit is an annual or semi-annual survey that allows Agilent employees to provide feedback on leadership effectiveness within their workgroup. The Leadership Audit is focused on the critical few leadership practices that are central to executing the coming year’s business results. Audit results are compared with external best-in-class benchmarks to ensure we are performing at the top in our industry.

- On a quarterly basis at most of Agilent’s sites, employee sessions are held to share business updates and country-specific affairs, as well as to address employee-requested topics.

- We regularly meet and communicate with our investors and other members of the financial community. This includes one-on-one meetings, quarterly financial-results conference calls, Agilent Analyst Meetings, and our annual shareholder meeting.

- We require our suppliers to adhere to our Supplier Environmental Social Responsibility (ESR) Code of Conduct, and we work with suppliers to address environmental and social issues that are identified in their operations.

- We have ongoing relationships with regulators at local, regional, and national levels regarding operational areas such as Environmental Health and Safety (EHS) and product environmental and safety compliance.

4.17
KEY TOPICS AND CONCERNS THAT HAVE BEEN RAISED THROUGH STAKEHOLDER ENGAGEMENT, AND HOW THE ORGANIZATION HAS RESPONDED TO THESE CONCERNS, INCLUDING THROUGH ITS REPORTING

Stakeholder feedback mechanisms provide Agilent with information to help improve our environmental, social, and economic performance. For example, Agilent Workplace Services monitors global issues and reviews external inquiries to help identify areas where we could further improve our EHS performance and programs. Similarly, Corporate Relations uses the input it receives to help guide our community programs, such as volunteerism and grants.
EC1
DIRECT ECONOMIC VALUE GENERATED AND DISTRIBUTED, INCLUDING REVENUES, OPERATING COSTS, EMPLOYEE COMPENSATION, DONATIONS AND OTHER COMMUNITY INVESTMENTS, RETAINED EARNINGS, AND PAYMENTS TO CAPITAL PROVIDERS AND GOVERNMENTS

In Agilent’s fiscal 2012, annual revenues of $6.9 billion represented an increase of 3.5 percent over fiscal 2011. By maintaining a disciplined operating model, the company controlled expenses and delivered significant increases in our operating profits, gross margins, and earnings per share.

By maintaining strong free cash flow, we further strengthened our balance sheet. This strength allowed us to renew our commitment to enhancing shareholder value through share repurchases and a quarterly dividend. The first dividend was announced in January 2012.

For more information, go to the Agilent 2012 Annual Report.

EC2
FINANCIAL IMPLICATIONS AND OTHER RISKS AND OPPORTUNITIES FOR THE ORGANIZATION’S ACTIVITIES DUE TO CLIMATE CHANGE

Agilent had no financial implications or other risks and opportunities due to climate change.

EC3
COVERAGE OF THE ORGANIZATION’S DEFINED BENEFIT PLAN OBLIGATIONS

Agilent’s defined benefit plans are fully funded at or above required levels:

- We contributed $30 million, $33 million and $30 million to our U.S. defined benefit plans in 2012, 2011, and 2010, respectively.
- We contributed $54 million, $59 million and $47 million to our non-U.S. defined benefit plans in 2012, 2011, and 2010, respectively.
- We did not contribute to our U.S. post-retirement benefit plans in 2012 or 2011 and contributed $1 million in 2010.
- Our non-U.S. defined benefit plans are generally funded ratably throughout the year.
- Total contributions in 2012 were $84 million, or 9 percent less than 2011.
- Total contributions in 2011 were $14 million, or 18 percent more than in 2010.

Our annual contributions are highly dependent on the relative performance of our assets versus our projected liabilities, among other factors. We expect to contribute approximately $84 million to our U.S. and non-U.S. defined benefit plans and $2 million to our U.S. post-retirement benefit plans during 2013.
Agilent had revenue of $6.9 billion in FY12—a 3.5 percent increase over FY11.

This effort has positive implications on materials use, regulatory compliance, supplier satisfaction, customer satisfaction, and employee satisfaction.

Hiring top talent around the globe helps ensure that Agilent maintains its leadership position. To attract and retain talent, Agilent provides everything from forward-thinking workplace design to community involvement to total compensation packages that rank with the leaders in the high-technology and life science industries. We understand the value—to our business, our employees, and our communities—of an inclusive environment that respects and celebrates unique perspectives and life experiences. Our policies and strategies create a pipeline of diverse skills and viewpoints, ensuring that our rich cultural diversity is leveraged for our competitive advantage. Agilent actively recruits top talent from underrepresented groups around the world, and works to build an inclusive environment that develops and retains employees.
Agilent Technologies is committed to conducting business in an ethical, socially responsible, and environmentally sustainable manner. Our citizenship objective is to be an economic, intellectual, and social asset to each nation and community in which we operate. As part of our Corporate Social Responsibility mandate, we are focused primarily on science education in communities where Agilent has a presence.

At a global level, we partner with United Way, which identifies local CSR projects, conducts due diligence, and supports the implementation of the initiative on an ongoing basis. Apart from this, there are several independent programs across countries that are supported by the Agilent Technologies Foundation.

For more information, go to Community Relations.

Because of our longstanding commitment to our communities, we have a wide range of programs that provide feedback on community needs, and we did not do a community assessment.

DMA EN
DISCLOSURE ON MANAGEMENT APPROACH EN

Agilent is committed to conducting its business in an ethical, socially responsible, and environmentally sustainable manner by reporting performance and ensuring that production and operations meet or exceed relevant environmental legislation and regulations. We operate under a company-wide environmental, health and safety management system (EHSMS) that applies to our design, development, manufacturing, distribution, and sales and service operations worldwide. Agilent has demonstrated its effectiveness in managing environmental impact by maintaining an ISO 14001 registration of our Environmental Health and Safety Management System (EHSMS). EHSMS is a tool to drive continual improvement in environmental performance and pursuit of sustainability. We expect our suppliers to adhere to the same standard of environmental and social responsibility that we maintain, and our Supplier Environmental and Social Responsibility Code of Conduct requires suppliers to adopt sound environmental, health, and safety management practices.

Agilent Supplier Code of Conduct

Agilent is committed to designing, manufacturing, and distributing environmentally responsible products. Environmental aspects are considered in the design, manufacture, distribution, use, obsolescence, disposal, recovery, and reuse of Agilent products. Our aim is to minimize environmental impact of our products and operations by conforming to applicable regulations. Agilent has developed an Environmental Compliance Framework to sustain and facilitate compliant product design, development, production, refurbishment, and support. When a customer no longer requires an Agilent product, we have implemented several options for reuse, remanufacture, or take-back based on the product type and customer location to ensure the product is properly managed. Additional information on our environmental and social performance may be found at Agilent’s Commitment to Environment and Social Responsibility.

Agilent recognizes ISO 26000 as a reference document that provides guidance on social responsibility. Agilent aligns with ISO 26000 standards as part of our social responsibility practices. As such, Agilent’s environmental policies, programs, and procedures align with ISO Core subjects: Environment 6.5 and Organizational Governance 6.2.

EN1 MATERIAL USED BY WEIGHT OR VOLUME

Currently we are unable to report material used by weight or volume; we expect to report this information in 2014. We will report cost of material consumption until we are able to report material usage by weight or volume.

EN6
INITIATIVES TO PROVIDE ENERGY-EFFICIENT OR RENEWABLE ENERGY BASED PRODUCTS AND SERVICES, AND REDUCTIONS IN ENERGY REQUIREMENTS AS A RESULT OF THESE INITIATIVES

Agilent has worked on assessing energy efficiency of several types of products by using customer base metrics. By identifying energy-using features, we are able to increase energy efficiency of our products. During the past several years, Agilent has moved toward product energy efficiency in several product lines. Most of the energy savings are due to four key factors:

- The increased type and volume of tests that can be conducted, thus increasing tests per watt.
- Enhanced existing product features, thus bringing more measurement capabilities to the same product footprint.
- Increased offering of handheld products.
- Our design focus on measurement speed and accuracy, along with more advanced equipment, results in more measurement per watt-hour.
Agilent’s concentration on handheld and portable instruments places a focus on energy efficiency:

- Next-generation products are using key new technology that greatly improves performance per watt of power supply.
- Portable products put significant design efforts into power management to achieve power, heat, and battery life targets.
- Industry and regulatory requirements on the power supplies for our portable products have also increased power supply efficiency.

**EN7**

**INITIATIVES TO REDUCE INDIRECT ENERGY CONSUMPTION AND REDUCTIONS ACHIEVED**

Agilent has a broad spectrum of initiatives ranging from capital spending for energy conservation projects and solar power to operational practices and employee action. For example, prior to delivery to employees, our IT service provider configures PCs and laptops with fully enabled, energy-saving settings. Operationally, we conserve energy by closely managing office heating/cooling and lighting, developing energy-efficient building design and operating standards, and sharing best practices among sites. We also have a corporate energy conservation manager on staff and dedicated staff from our facilities maintenance company, whose primary role is to support the site facilities staff in identifying, implementing, and validating energy-saving opportunities.

We completed several energy-conservation infrastructure projects as well as operational improvements in 2012. Our net energy conservation for FY12 (for sites included in this report) was 4 percent (using FY11 total energy spend as a baseline).

**EN8**

**TOTAL WATER WITHDRAWAL BY SOURCE**

- Total volume of water from water utilities (1000 m3) = 1269.427
- No wastewater from other organizations
- Water withdrawn from water utilities per region
  - (1000 m3):
    - Asia Pacific—595.645
    - Europe—210.842
    - USA—462.940

Most of our manufacturing sites’ water comes directly from the city water supply. However, the following sites draw some water from the local aquifer: Manesar, India; Torino, Italy; Hachioji, Japan; Santa Rosa, U.S.

**EN10**

**PERCENTAGE AND TOTAL VOLUME OF WATER RECYCLED AND REUSED**

The only site that currently uses recycled water is Santa Rosa, U.S., which has an onsite wastewater treatment facility. During the reporting period, the Santa Rosa site recycled 62.66 (1000m3) water, or 38 percent of the total annual consumption of the site. The Singapore
site purchases “NEWater,” which is reclaimed water produced by the local water board. It consists of treated wastewater that has gone through water-treatment processes including purification and UV technology.

**EN11**

**LOCATION AND SIZE OF LAND OWNED, LEASED, MANAGED IN, OR ADJACENT TO, PROTECTED AREAS AND AREAS OF HIGH BIODIVERSITY VALUE OUTSIDE PROTECTED AREAS.**

</tbody>
</table>

Agilent is actively reducing emission of harmful gases by adapting its employee fleet and travel programs to minimize air pollutants.

In 2009 Agilent’s fleet vehicles moved from a V6 engine to a V4, and we continue to use this smaller engine today for better environmental results. In 2012 Ford, Agilent’s North America fleet car provider, redesigned the I4 engine—80 percent of the fleet—resulting in an 11 percent decrease in fuel consumption. Agilent used Ford as a vendor for many reasons, one of which is its commitment to using sustainable, recycled, and renewal materials. Another is its end-of-life process, which is helping to use 85 percent of the vehicle as recyclable waste.

In the future Agilent will continue to provide the needed tool-of-trade cars for field personnel while maximizing fuel and emission savings. We do have some hybrid cars in our fleet pools but do not find it economical to provide them in bulk, as we keep cars for only one year to keep the fleets updated with the most efficient cars. ROI for hybrid investment is a three- to five-year return or more.

### Notes:

1 For FY 12 data emissions refer to EN 16 table.

#### Type of Fuel—Green House Gases Emission

- Electricity (Metric Kilo Tonnes CO₂e)
- Natural Gas Metric Kilo Tonnes CO₂e
- Light Fuel Oil/Kerosene (Metric Kilo Tonnes CO₂e)
- Propane (Metric Kilo Tonnes CO₂e)

ENVIRONMENTAL PERFORMANCE

EN26 INITIATIVES TO MITIGATE ENVIRONMENTAL IMPACTS OF PRODUCTS AND SERVICES, AND EXTENT OF IMPACT MITIGATION

Initiatives to mitigate the most significant environmental impacts of products/service groups:

- Agilent continued to make significant progress toward complying with EU Restriction of Hazardous Substances (RoHS). Agilent’s Electronic Measurement Group (EMG) now has more than 2,000 products designed to be compliant with Eu RoHS four years ahead of the 2017 regulatory deadline for Test and Measurement products. This effort has had positive implications on Agilent’s materials use, regulatory compliance, waste impacts and customer satisfaction.

EN23 TOTAL NUMBER AND VOLUME OF SIGNIFICANT SPILLS

Agilent had one significant chemical spill during the reporting period. It was a 30-gallon sulfuric acid spill at an Agilent site’s waste-treatment plant. It resulted in a serious injury and the shutdown of the operation for more than eight hours. The spill was contained within the building; no sulfuric acid escaped the waste-treatment plant.

EN24 WEIGHT OF TRANSPORTED, IMPORTED, EXPORTED, OR TREATED WASTE DEEMED HAZARDOUS UNDER THE TERMS OF THE BASEL CONVENTION ANNEX I, II, III, AND VIII, AND PERCENTAGE OF TRANSPORTED WASTE SHIPPED INTERNATIONALLY

Not applicable. Currently we do not have any transboundary waste shipment, under the Basel Convention.

EN25 IDENTITY, SIZE, PROTECTED STATUS, AND BIODIVERSITY VALUE OF WATER BODIES AND RELATED HABITATS SIGNIFICANTLY AFFECTED BY THE REPORTING ORGANIZATION’S DISCHARGES OF WATER AND RUNOFF

No value of water bodies and related habitats are impacted by any discharges of water or runoff by Agilent’s operations.

Notes:

1 Total waste produced is calculated by adding total chemical waste and total solid waste tonnage. Total waste calculated based on calendar year (January 2012 – December 2012).

2 Chemical waste refers to chemical materials designated for final disposition that exhibit characteristic that is hazardous or dangerous per local regulatory requirements. This refers to materials that are shipped offsite for treatment, recycling, incineration, and landfill; and excludes electronic waste.

3 Solid waste refers to waste that is not included in chemical waste or excess electronic equipment (e.g., garbage/trash, paper, cardboard, glass, and furniture and construction debris).

Electronic Equipment is personal computers, computer monitors, misc electronic test & manufacturing equipment, obsolete electronic equipment, telephones, and spare or unused products from manufacturing.

Electronic equipment - reused: electronic equipment sold or given to third party organizations such as charitable organizations or used equipment resellers. Agilent cannot guarantee that this equipment is re-used or resold. Agilent requires that equipment resellers dispose of any unsold electronic equipment according to state and local legal requirements.

Electronic equipment—recycled: electronic equipment that is sent directly to an electronic recycler with the intent of recycling the equipment’s components, sub-components, or material (e.g., precious metals). Agilent requires that recyclers dispose of all electronic equipment, components, and subcomponents according to state and local legal requirements.
• Agilent continued its robust communication of our General Specification for the Environment (GSE) with its strategic suppliers, resulting in greater than 95 percent response rate. This effort enables Agilent and its suppliers to comply with major environmental regulations on material use, product packaging, and labeling.

• Agilent established targets to reduce water consumption by 10 percent in the next 3 years to reduce impact on environment and natural resources.

EN27
PERCENTAGE OF PRODUCTS SOLD AND THEIR PACKAGING MATERIALS THAT ARE RECLAIMED BY CATEGORY

• Agilent’s material management practices are based on the principle of Reduce, Reuse, and Recycle for products sold and packaging material utilized. For example, during the reporting period, at one operation we started to replace foam packaging to recyclable PET (polyethylene terephthalate) cell packaging for Gas Chromatography columns. As a result, packaging material weight was reduced on average by approximately 20 percent. At another manufacturing location, we began utilizing the High Recycled Content (HRC) foam for packaging, resulting in positive environmental impact and material/freight savings. The HRC foam is constructed using up to 65 percent recycled PE material. The conventional foam used previously could only use up to 15 percent recycled PE material. At the same time, the robust construction of the HRC foam has allowed us to protect the product using less material, thus reducing the overall packaging size by more than 30 percent. By using recycled content in the HRC foam, we are benefiting the environment by reducing the amount of material that enters the waste stream. Agilent also deployed a Migration of Support strategy that recycles instruments from trade-in programs to continue legacy support for mature equipment that customers want to maintain. This strategy minimizes our environmental impact of building new components while continuing to provide support on older technology.

• Agilent’s Remarketing Solutions Division is dedicated to recovering older instruments for the purpose of resale. For a certain segment of our customers (start-ups, academics, etc.), these pre-owned instruments offer a competitively priced alternative to buying a new instrument. As a company, we are using fewer environmental resources to manufacture new products to meet this customer demand.

• Agilent offers a variety of trade-in programs specifically designed to help customers safely dispose of or recycle used instrumentation. The program is currently deployed in several countries, with expansion of these programs being considered wherever possible.

• During the reporting period, Agilent also donated reclaimed products to academic institutions. Agilent gave 171 pieces of electronic measurement equipment to Sonoma State University, and 78 similar items were donated to the University of California, Davis.

EN28
MONETARY VALUE OF SIGNIFICANT FINES AND TOTAL NUMBER OF NON-MONETARY SANCTIONS FOR NON-COMPLIANCE WITH ENVIRONMENTAL LAWS AND REGULATIONS

• In FY12, Agilent reported a total of 36 alleged regulation compliance violations. However, only one incident resulted in a monetary fine ($6,800). This occurred at the Manesar, India site.

Benefits provided to full-time employees that are not provided to temporary or part-time employees, by major operations

Agilent aims to deliver a rewards portfolio that is competitive with high technology and life science companies, representative of the diverse industries and markets within which Agilent operates.

Our rewards are offered to eligible employees and comply with local legal requirements.

Our Total Pay program includes base pay, variable pay, such as the Agilent Results Bonus and Individual Performance Bonus, and sales incentive compensation. Pay is differentiated based on company and individual performance.

Benefits such as health and welfare benefits, retirement plans and time off provide a foundation to support employee well-being and financial security.

Equity programs align employee and shareholder interests. Programs include an Employee Stock Purchase Plan and long-term incentives such as restricted stock units.

Percentage of employees covered by collective bargaining agreements

Agilent meets all applicable laws, regulations, and standards where we do business.
LA5
MINIMUM NOTICE PERIOD(S) REGARDING SIGNIFICANT OPERATIONAL CHANGES, INCLUDING WHETHER IT IS SPECIFIED IN COLLECTIVE AGREEMENTS

Agilent meets all applicable laws, regulations, and standards where we do business.

LA6
PERCENTAGE OF TOTAL WORKFORCE REPRESENTED IN FORMAL JOINT MANAGEMENT-WORKER HEALTH AND SAFETY COMMITTEES THAT HELP MONITOR AND ADVISE ON OCCUPATIONAL HEALTH AND SAFETY PROGRAMS

Health and Safety committees are an integral part of EHS processes at our sites and help drive continuous improvement in support of Agilent’s ISO certifications and Environmental, Health, and Safety Management System.

LA7
RATES OF INJURY, OCCUPATIONAL DISEASES, LOST DAYS, AND ABSENTEEISM, AND NUMBER OF WORK-RELATED FATALITIES BY REGION AND GENDER

In Agilent’s Environmental Health and Safety function, we believe that people who feel good, do good. EHS programs are committed to creating safe work environments, providing training, and engaging our employees in health-promotion activities so that they can work injury- and illness-free.

Agilent EHS records and investigates work-related injuries and illnesses to identify root causes and apply appropriate corrective and preventive actions. Agilent’s recordkeeping process aligns with the U.S. OSHA Injury/Illness Recordkeeping regulations and reports on Occupational Recordable (IR) and Lost Work Day Case (LWDCR) rates. Both metrics (IR and LWDCR) have remained relatively stable over the past five years and continue to benchmark favorably relative to Agilent competitors and industry leaders.

Agilent Occupational (IR) Rate Globally 2012–0.47; Regionally AM–.96; AP–.04; EU 0.46.

See graph for Global IR rates.

Agilent Occupational (LWDCR) Rate Globally 2012–0.1; Regionally AM–0.12; AP–0.01; EU 0.27.

See graph for Global LWDCR rates.

Agilent Global LWDCR Data 2002-2012

LA8
EDUCATION, TRAINING, COUNSELING, PREVENTION, AND RISK-CONTROL PROGRAMS IN PLACE TO ASSIST WORKFORCE MEMBERS, THEIR FAMILIES, OR COMMUNITY MEMBERS REGARDING SERIOUS DISEASES

Agilent provides a number of programs and educational opportunities aimed at managing serious diseases and medical situations both personally and with family and community members. Agilent EHS standards maintain employee exposure levels for harmful agents in the
workplace well below regulatory requirements. Agilent Workplace Services has both Emergency Action and Disaster Recovery Plans that address serious medical events or disease outbreaks (e.g., pandemic events). The Agilent Human Resources and Benefits organizations provide comprehensive health care plans to employee and family members to assist in managing their personal medical needs. These plans include counseling services and risk-based health coaching.

LA9
HEALTH AND SAFETY TOPICS COVERED IN FORMAL AGREEMENTS WITH TRADE UNIONS

As required at a country level, Health and Safety topics are included for discussion with local worker councils or trade unions.

LA10
AVERAGE HOURS OF TRAINING PER YEAR PER EMPLOYEE BY GENDER AND BY EMPLOYEE CATEGORY

To encourage learning occurring anywhere, anytime for our globally distributed workforce, we continue to make available self-paced e-learning 24 hours a day/seven days a week. In 2012, approximately 84 percent of employees took advantage of this capability. Some of the major development programs offered via self-paced e-learning are our beSecure series focusing on security and risk awareness; our Standards of Business Conduct and our Customer Entertainment & Travel series; our Environment, Safety and Compliance series; and our Product and Technology series for our customer-facing employees.

LA11
PROGRAMS FOR SKILLS MANAGEMENT AND LIFELONG LEARNING THAT SUPPORT THE CONTINUED EMPLOYABILITY OF EMPLOYEES AND ASSIST THEM IN MANAGING CAREER ENDINGS

Agilent understands that the collective skills of our employees are critical to our success. Toward that end, Agilent is deeply committed to providing an environment where employees can expand their knowledge, develop new skills, and contribute their best work.

Research has suggested that the most valuable development occurs when learning is applied on the job, solving real business problems. The following three approaches to employee development are used effectively at Agilent and are provided based on business need:

Work Assignments: Challenging jobs, special assignments, project initiatives, and job rotations.

Learning from Others: Coaching, mentoring, and networking with internal and external people with experience or expertise.

Training: Specific technical and business skill development provided internally by Agilent or externally by qualified educational institutions via a classroom, online, or self-study format.

LA14
RATIO OF BASIC SALARY AND REMUNERATION OF WOMEN TO MEN BY EMPLOYEE CATEGORY, BY SIGNIFICANT LOCATIONS OF OPERATION

The following data indicates the salary ratio of men to women by employee category. The ratios shown were calculated by determining the comparative ratio (compa-ratio) of men and women in each employee category and dividing the average compa-ratio for men by the average compa-ratio for women. Compa-ratio indicates an individual’s pay position versus the mid-point of the pay range for their job. Using compa-ratio enables us to compare pay position across varying types of jobs and markets. Within Agilent, three major employee categories are Individual Contributor A (ICA; typically non-exempt), Individual Contributor B (ICB; typically exempt), and People Manager (PM).

LA15
RETURN TO WORK AND RETENTION RATES AFTER PARENTAL LEAVE, BY GENDER

Agilent offers parental leave benefits and provides a broad range of programs and activities to help employees manage commitments in their work and personal life. By offering programs that can be used to address a wide range of needs, Agilent hopes to provide employees with the flexibility and opportunity to select and use services and solutions that they prefer.

- **Flexible Work Arrangements**: Some Agilent employees use alternatives to traditional Monday-through-Friday work arrangements. These include part-time, telecommuting, job-shares, and variable work schedules.
- **Flexibility Practices**: Agilent is proud of its heritage of providing flexible work hours for employees. Agilent’s Flexible Time Off (FTO) program lets employees use paid time off for vacation, personal business, and illness.
- **Dependent Care Resource and Referral**: Agilent provides a variety of resource and referral services for employees who have dependent care responsibilities for children, elders, people with disabilities, and others. Our goal is to help employees handle dependent care responsibilities so they can achieve their business objectives while they are at work. Centralized programs and information aim to provide support to all of Agilent. Local entities may choose to make additional dependent care investments in locations where community-based services are inadequate and business objectives are impacted.
  - **MagellanAssist (U.S.)**: Offers data sheets—available worldwide—providing information on a broad range of work/life challenges plus consulting and written materials.
  - **Mother’s Room**: Some Agilent facilities offer a “mother’s room” to support new moms returning to work, and the nursing needs of their babies.
  - **Quiet Room**: Some Agilent facilities offer a “quiet room” to support employees who need a break, respite, or quiet time.

Agilent is proud of its record of uncompromising integrity and the measures it takes to uphold the highest standards of conduct among its employees, business partners, and suppliers around human rights.

Agilent conducts its business with uncompromising integrity and promotes human rights within the company’s sphere of influence. The company publically displays Human Rights and Labor Policy.

Our commitment to Human Rights extends through our supply chain. Agilent expects its suppliers to adhere to a high standard of environmental and social responsibility values, as outlined in our Supplier Environmental and Social Responsibility (ESR) Code of Conduct. Agilent’s Code of Conduct requires suppliers to adopt sound environmental, health, and safety management practices and incorporates eight International Labor Organization (ILO) Conventions that have been identified as fundamental to the rights of human beings at work. Agilent has programs in place to monitor our suppliers’ conformance with the Supplier Code of Conduct.

Agilent recognizes ISO 26000 as a reference document that provides guidance on social responsibility. Agilent aligns with ISO 26000 standards as part of our social responsibility practices. As such, Agilent’s Human Rights policies and practices align with ISO Core subjects: Human rights 6.3 and Labour Practices 6.4 and Fair Operating Practices 6.6

HR1
PERCENTAGE AND TOTAL NUMBER OF SIGNIFICANT INVESTMENT AGREEMENTS AND CONTRACTS THAT INCLUDE HUMAN RIGHTS CLAUSES OR THAT HAVE UNDERGONE HUMAN RIGHTS SCREENING.

One hundred percent of Agilent’s purchase order agreements include human rights clauses and require that suppliers comply with Agilent’s Supplier Environmental and Social Responsibility (ESR) Code of Conduct.

HR2
PERCENTAGE OF SIGNIFICANT SUPPLIERS, CONTRACTORS, AND OTHER BUSINESS PARTNERS THAT HAVE UNDERGONE HUMAN RIGHTS SCREENING AND ACTIONS TAKEN

One hundred percent of Agilent’s supplier contracts include a reference to Third-Party Audits. Agilent has the right to audit all suppliers for compliance with the Agilent Supplier Code of Conduct. We employ an independent third party to audit and evaluate our suppliers’ compliance with our Supplier Code of Conduct, including monitoring each supplier’s compliance with all applicable labor laws governing forced labor, slavery, and human trafficking, as set forth in the California Transparency in Supply Chains Act of 2010.

Accountability Standards on Human Rights: Agilent has a zero tolerance policy for violations.

Agilent CTISCA Statement

Agilent has an established Supplier Environmental, Health, Safety, and Social Responsibility program as well as a Supplier Code of Conduct which applies to all suppliers.

Agilent Supplier Code of Conduct

Agilent conducts random onsite surveys of suppliers for compliance with Agilent’s Supplier Code of Conduct. In cases where there are issues with adherence to Agilent’s supplier expectations, corrective actions are implemented and monitored by Agilent’s third-party auditor DEKRA. In 2012 DEKRA performed 18 onsite audits of Agilent-identified suppliers in Malaysia, China, South Korea, Mexico, and the United States. These sites were found to be in compliance with, or have been provided corrective actions to become compliant with, Agilent’s stated EHSSR program.

All corrective actions were completed in FY12.
SOCIAL: HUMAN RIGHTS

HR3
TOTAL HOURS OF EMPLOYEE TRAINING ON POLICIES AND PROCEDURES CONCERNING ASPECTS OF HUMAN RIGHTS THAT ARE RELEVANT TO OPERATIONS, INCLUDING THE PERCENTAGE OF EMPLOYEES TRAINED

All Agilent employees participate in the annual required training in Standards of Business Conduct with customers, suppliers, and employees.

All procurement professionals, as part of Standards of Business Conduct training, are requested to take additional online training on Environmental, Health, Safety, and Social responsibility which covers Human Rights.

HR4
TOTAL NUMBER OF INCIDENTS OF DISCRIMINATION AND CORRECTIVE ACTIONS TAKEN

Agilent Technologies Human Rights and Labor Policy
Agilent acknowledges and respects the fundamental principles contained in the Universal Declaration of Human Rights. Our core values and culture reflect a commitment to ethical business practices and good corporate citizenship. Our policies and practices require Agilent to conduct its business with uncompromising integrity and to promote human rights within the company’s sphere of influence.

Freely-chosen Employment: Agilent supports the elimination of all forms of forced, bonded, or involuntary prison labor.

No Child Labor: Agilent condemns all forms of exploitation of children. Agilent will not recruit child labor and supports the elimination of exploitive child labor.

Minimum Wages: Agilent will compensate our employees with wages and benefits that meet or exceed the legally required minimum.

Working Hours: Agilent will not require employees to work more than the maximum hours of daily labor set by local laws.

No Discrimination: Agilent supports and upholds the elimination of discriminatory practices with respect to employment and occupation, and promotes and embraces diversity in all aspects of its business operations. Our policies prohibit discrimination based on race, color, age, gender, sexual orientation, gender identity and expression, ethnicity, religion, or disability.

No Harsh or Inhumane Treatment: Agilent prohibits physical abuse, harassment, or the threat of either. Agilent will provide a safe and healthy working environment for all of its employees.

Freedom of Association: Agilent respects the rights of employees to organize in labor unions in accordance with local laws and established practice, if desired.

Ethical Business Conduct: Agilent’s Standards of Business Conduct requires that business be conducted with honesty, and reflects high ethical standards that are the basis for achieving our goals. The standards establish clear guidelines for how we do business and establish accountability. All employees are expected to comply with these standards.

Agilent Technologies Supplier Environmental and Social Responsibility Code of Conduct: Agilent’s suppliers are required to support and promote the fundamental human rights referenced in this document.

Agilent’s policies, values, organization, and business management systems apply across all our global businesses. They are designed to:

- Reduce our negative impacts on the environment
- Protect the occupational health and safety interests of our employees
- Ensure customer requirements are met
- Enhance our value to our communities
- Ensure the highest levels of quality in our products and services
- Increase our competitiveness
- Create a consistent approach across business groups, where applicable
- Meet the expectations of our stakeholders
- Conduct business in an ethical manner
- Agilent considers external charters, principles, and guidelines that have been developed through multi-stakeholder processes to guide our business activities. We also participate in a variety of intra- and cross-industry forums to address emerging issues, develop industry-wide approaches to social and environmental challenges, and cooperate with governments, non-governmental organizations (NGOs), and other stakeholders on common concerns.

As part of our Corporate Citizen Objectives, Agilent strives to be an economic, intellectual and social asset to each nation and community where we conduct business. Agilent has been consciously, and strongly committed to community involvement through many initiatives—Agilent Technologies Foundation, Agilent Giving, and other signature programs aimed at giving back to the community.

**Agilent in Communities**

**Agilent Corporate Brochure**

Agilent recognizes ISO 26000 as a reference document that provides guidance on social responsibility. Agilent aligns with ISO 26000 standards as part of our social responsibility practices. As such, Agilent’s Social and Community initiatives align with ISO Core subjects: Organizational Governance 6.2, Fair Operating Practices 6.6 and Community Involvement and Development 6.8

**SO1**

PERCENTAGE OF OPERATIONS WITH IMPLEMENTED LOCAL COMMUNITY ENGAGEMENT, IMPACT ASSESSMENTS, AND DEVELOPMENT PROGRAMS

Volunteerism is a key element of our core values and the cornerstone of our corporate citizenship efforts.

Agilent’s annual Giving Campaign was broadened to allow employees more choices in their non-profit support. As a result, contributions were made in areas ranging from environment and conservation to education and literacy to arts and culture. One hundred percent of the Agilent sites participating in the giving campaign held community outreach programs.

All Agilent communities supported the annual Engineers Week, with a focus on girls in engineering. We provided support in hosting events and serving as organizers and presenters. Our worldwide communities are not only sites with large employee populations but also individuals in field locations.

SOCIAL: PRODUCT RESPONSIBILITIES

JOHN GUILFORD, UNITED STATES
Our breadth of disciplines and technologies enable unique and breakthrough advancements that often transcend traditional boundaries.

In FY2012:
Agilent continued to make significant investments in environmental data management collection, tools, applications, and processes to ensure our supply chain is free of restricted hazardous materials. Our Electronic Measurements Group achieved a significant milestone designing over 2,000 products for EU RoHS Compliance. In addition, Agilent is making the necessary investments to assess our supply chain for compliance with U.S. Conflict Minerals reporting requirements.

Agilent recognizes ISO 26000 as a reference document that provides guidance on social responsibility. Agilent aligns with ISO 26000 standards as part of our social responsibility practices. As such, Agilent’s Product Responsibility processes align with ISO Core subjects: Organizational Governance 6.2, Fair Operating Practices 6.6 and Consumer Issues 6.7.

PR1
LIFE CYCLE STAGES IN WHICH HEALTH AND SAFETY IMPACTS OF PRODUCTS AND SERVICES ARE ASSESSED FOR IMPROVEMENT AND PERCENTAGE OF SIGNIFICANT PRODUCTS AND SERVICES CATEGORIES SUBJECT TO PROCEDURES

Agilent’s quality and environmental policies mandate we provide products and services that meet legal and regulatory requirements, including applicable environmental, health, and safety standards. Agilent is committed to a continuous improvement of the environmental aspects and impacts of our products as demonstrated by Agilent’s ISO 14001 certificate, which is regularly audited by an external party.

Agilent is firmly committed to technology leadership, having long invested heavily in research and development. Agilent’s Business Management System (BMS) is designed to support our three business groups, Electronic Measurement Group (EMG), Chemical Analysis Group (CAG), and Life Sciences Group (LSG), so that Agilent products, services, and interactions consistently and effectively meet customer expectations and applicable regulatory requirements, and provide a mechanism for continual improvement.

The Agilent BMS provides a framework from which business groups and operations can make decisions appropriate to their specific business, customer, and geographic needs while ensuring that applicable minimum standards are met, and describes the minimum standards and the required processes for the business groups’ business management systems that are designed to conform to ISO 9001:2008. Each business group maintains a business management system to illustrate its specific required processes for meeting customer expectations and, where applicable, other standards such as ISO14001, ISO/IEC 17025, AS 9100, ISO 13485, or TL 9000. Agilent’s infrastructure organizations provide centrally managed, business critical services, and operate as internal service suppliers to the business groups.

Ensuring that our products and services are safe before they go to market is just one part of our responsibility to customers. We also make certain that customers have easy access to the information they want or need about those products and services. Please refer to the Agilent Quality Policy.

PR2
TOTAL NUMBER OF INCIDENTS OF NON-COMPLIANCE WITH REGULATIONS AND VOLUNTARY CODES CONCERNING HEALTH AND SAFETY IMPACTS AND SERVICES DURING THEIR LIFE CYCLE BY TYPE OF OUTCOMES

Agilent received no non-compliance notice for the reporting period.

PR3
TYPE OF PRODUCT AND SERVICE INFORMATION REQUIRED BY PROCEDURES AND PERCENTAGE OF SIGNIFICANT PRODUCTS AND SERVICES SUBJECT TO SUCH INFORMATION REQUIREMENTS

Agilent complies with required labeling for substance identification in our products in accordance with required regulations, and safe use guidance for products produced by Agilent. Ninety percent of Agilent products and services are covered and assessed for compliance with these guidelines. Annually Agilent communicates a materials specifications list called “General Specifications for Environment” to its suppliers to inform them of banned chemicals/materials that should not be included in material/parts/products bought by Agilent in order to comply with global regulations and minimize the environmental impact of its products and operations. Agilent also provides Material Safety Data Sheets with Agilent and third-party-provided chemicals supplied standalone or with products for safe use. Agilent and OEM products and battery labels include a waste container symbol for help in proper disposal. The company also operates an end-of-life customer returns system. In addition, Agilent provides end-of-life management options where legally required. Reuse programs are offered for selected Agilent products. The programs address the requirements posed by the
PERFORMANCE INDICATORS

European WEEE (Waste from Electrical & Electronic Equipment) Directive. Please see Agilent’s Take Back Program.

PR4
TOTAL NUMBER OF INCIDENTS OF NON-COMPLIANCE WITH REGULATIONS AND VOLUNTARY CODES CONCERNING PRODUCT AND SERVICE INFORMATION AND LABELING, BY TYPE OF OUTCOMES

Agilent had no incidents of non-compliance regarding products or non-compliance issues regarding labeling. In addition, Agilent did not have any non-compliance incidents for product-related claims during the reporting period.

PR5
PRACTICES RELATED TO CUSTOMER SATISFACTION, INCLUDING RESULTS OF SURVEYS MEASURING CUSTOMER SATISFACTION

Through our Agilent Customer Satisfaction program, we survey customers who interact with various touch-points across our businesses and regions, and we provide continual updates to our management. In addition, our Agilent Market Survey provides a measure of our customers’ loyalty compared with the loyalty of our competitors’ customers. The results are used to identify opportunities for growth and areas where additional business investments are warranted. Agilent is associated with trust, safety, and success due to its heritage, breadth of high-quality products, and long-standing reputation.

PR6
PROGRAM FOR ADHERENCE TO LAWS, STANDARDS, AND VOLUNTARY CODES RELATED TO MARKETING COMMUNICATIONS, INCLUDING ADVERTISING, PROMOTION AND SPONSORSHIP

Our brand is shaped by every experience customers, partners, shareholders, and constituents have with Agilent. Every action we take ensures that these experiences consistently build and reinforce Agilent as the world’s premier measurement company. Our internal Brand Identity System has a rigorous process for claim substantiation and is aligned with Federal Trade Commission and legal guidelines.

PR7
TOTAL NUMBER OF INCIDENTS OF NON-COMPLIANCE WITH REGULATIONS AND VOLUNTARY CODES CONCERNING MARKETING COMMUNICATIONS, INCLUDING ADVERTISING, PROMOTION AND SPONSORSHIP BY TYPE OF OUTCOMES

Agilent had no incidents of non-compliance during the reporting period.

PR8
TOTAL NUMBER OF SUBSTANTIAL COMPLAINTS REGARDING BREACHES OF CUSTOMER PRIVACY AND LOSSES OF DATA

Agilent is unaware of any complaints regarding breaches of customer privacy and loss of data. To demonstrate the importance of customer privacy, Agilent has entered into three voluntary data privacy programs: the U.S.-EU Safe Harbor, U.S.-Swiss Safe Harbor and TRUSte.

For more information, please see: Agilent Customer Privacy Statement.

PR9
MONETARY VALUE OF SIGNIFICANT FINES FOR NON-COMPLIANCE WITH LAWS AND REGULATIONS CONCERNING THE PROVISION AND USE OF PRODUCTS AND SERVICES

Agilent had no incidents of non-compliance regarding product, labeling, or non-compliance incidents for product related claims during the reporting period.
**Agilent After School** A hands-on science program targeted at children from the ages of 9 to 13 years and supported by Agilent employee volunteers.

**CO₂** Carbon dioxide A gaseous by-product of energy generation and energy use that is known to contribute to global warming.

**EHS** Environmental, health, and safety.

**EHSMS** Environmental, health, and safety management system.

**ESR** Environmental and Social Responsibility.

**Fiscal year** For Agilent, this is November 1 to October 31.

**FTC** Federal Trade Commission.

**Greenhouse gases** For the purpose of this report, greenhouse gases are the six gases listed in the Kyoto Protocol: carbon dioxide (CO₂); methane (CH₄); nitrous oxide (N₂O); hydro fluorocarbons (HFCs); perfluorocarbons (PFCs); and sulphur hexafluoride (SF₆).

**Gigajoule** 1 gigajoule = 277.78 kilowatt-hour.

**GRI** Global Reporting Initiative. An independent global institution that is developing a generally accepted framework for sustainability reporting. For more information go to [www.globalreporting.org](http://www.globalreporting.org).

**ILO** International Labour Organization. For more information, go to [www.ilo.org/global/index.htm](http://www.ilo.org/global/index.htm).

**Injury/illness rate** The calculation for the injury/illness rate is based on the number of recordable occupational injury/illness cases multiplied by 200,000 then divided by the hours worked for the same time period in which the injuries occurred. For example, if you had two injuries in a quarter and 50,000 hours worked, then the calculation would be: 2 x 200,000/50,000 = 8.0 injury/illness rate.

**ISO 14001** An international standard issued by the International Organization for Standardization (ISO) relating to environmental management systems.

**ISO 26000** A voluntary international standard providing guidance on social responsibility.

**Kiloton** 1 kiloton = 1,000 metric tons. 1 kiloton = 1,000,000 kilograms.

**Lost-workday case** Recordable cases involving lost workdays beyond date of injury (more serious injury/illness).

**Lost-workday case rate** The lost-workday case rate provides information on the number of occupational lost-workday injury/illness cases multiplied by 200,000, then divided by the hours worked for the same time period in which the injuries occurred. For example, if you had one lost-workday injury/illness case in a quarter and 50,000 hours worked, then the calculation would be: 1 x 200,000/50,000 = 4.0 lost-workday case rate.

**Megawatt hour** 1 megawatt hour = 1,000 kilowatt hours.

**Recordable injury/illness case** Occupational injury/illness involving medical treatment beyond first aid. Diagnosed occupational illness, or workdays lost beyond date of injury.

**RoHS** Restriction of Hazardous Substances.
