Now, whenever you visit the Agilent online store, you’ll experience the power of purchasing made easy. It’s been completely redesigned with faster page loading, quicker transaction process, optimized search capabilities, and a new user-friendly interface. The result: confidence in knowing that you’ll always be making your online purchases as efficiently as possible – leaving you more time to focus on your analyses.

Here’s what’s new:

• Instant savings on purchases through special offers and current promotions.

• Quickly find what you need with enhanced searching by product name, specific part number, or use of navigation rollover menu bars.

• You can also add to your cart directly from your search results with just one click. You can even perform a single website-wide search, rather than being restricted to the online store.

• Experience easy, one-click access to update your cart or shipping/billing information. Plus, you’ll find an easy order review and confirm page, and one-click access to your order status page, which now includes an improved viewing capability.

• Enter and save shipping and billing information, reducing time spent on future purchases. You’ll also get instant access to account details, including shipping, billing, and ordering information.
