Storage/Assay/Collection Plates

Storage/Assay/Collection Microplates Overview

Agilent supplies collection and storage assay microplates for a wide range of reaction chemistries, biological assays, low storage temperatures, and filtrate collection applications. These microplates are molded with medical-grade, chemical-resistant polymers and are available in 24-, 48-, 96-, or 384-well configurations of variable volumes. Agilent also supplies mat seals and lids for these microplates.

Cell Culture & Imaging Plates

Cell Culture & Imaging Microplates Overview

Agilent offers a new microplate product line to support cell culture and imaging. These high-quality polystyrene products provide superb optical clarity and comply with ANSI standards for compatibility with automated processing systems. TC surface treatment enhances cell attachment while the included lid maintains a sterile growth environment with low risk of cross-contamination. The product designs feature easy stacking, alphanumeric well IDs and well chimneys with corresponding condensation rings on the lid.

Reservoirs

Reservoir Microplates Overview

Agilent polypropylene reservoir microplates are available for a wide range of automated liquid handlers and handheld pipettors. These reservoir microplates are molded using high-quality, chemical-resistant polymers to ANSI/SLAS standard footprints, with optimized base geometries to minimize dead volumes. They are available with 1 to 24 cavities per reservoir plate, container heights between 19 and 44 mm, and with clear or black lids. These reservoirs are recommended for both method scale-up and scale-down applications as well as for creating design of experiments (DoE) arrays.

Universal Microplate Lids

Microplate Lid Overview

Agilent supplies universal lids for microplates, available in clear or black polystyrene resin.

Table 4 Lid design options

Characteristic	Available options
Color	Clear, Black

Clear and Black Polystyrene Microplate Lids

Part Number	Description	Qty/Case
200856-100	Lid, universal, clear polystyrene	100
200858-100	Lid, universal, black polystyrene	100
202497-100	Lid, universal, clear polystyrene, irradiated	100
204757-100	Lid, universal, clear polystyrene, 5/pk, sample pack of 200856-100	5

Plate Seals

Plate Seal Overview

Custom cap mats are available for sealing Agilent 24-, 48-, and 96-square well microplates. The mats are molded in Santoprene, a chemical-resistant thermoplastic elastomer.

Table 5 Lid design options

Characteristic	Available options
Well number	24, 48, 96
Well shape	Rectangle, Square
Well configuration	Solid, Pierceable

24-well Santoprene Plate Seals

4R/6C Rectangular Shape	mm	
	Seal dimension: 122.38 × 80.41	
	Seal height: 4.27	
	Well center spacing: 18.00 × 18.00	
Part Number	Description	Qty/Case
201164-100	Plate seal/mat, pierceable, 24-well, Santoprene for 10 mL well storage plate volumes	100

48-well Santoprene Plate Seals

8R/6C Rectangular Shape		mm
		Seal dimension:
		122.38 × 80.41
		Seal height:
		4.27
		Well center spacing:
		18.00 × 9.00
Part Number	Description	Qty/Case
201156-100	Plate seal/mat, solid, 48-well, Santoprene, for 7.5 mL and 5 mL well storage plate volumes	100

96-well Santoprene Plate Seals

8R/12C Rectangular Shape		mm	
		Seal dimension:	122.38 × 80.41
		Seal height:	4.27
		Well center spacing:	9.00 × 9.00
Part Number	Description	Qty/Case	
201158-100	Plate seal/mat, pierceable, 96-well, Santoprene, for 2 mL well storage plate volumes	100	

Plate Seals
 96-well Santoprene Plate Seals

8R/12C Rectangular Shape		mm	
		Seal dimension:	122.38 × 80.41
		Seal height:	4.27
		Well center spacing:	9.00 × 9.00
Part Number	Description	Qty/Case	
201160-100	Plate seal/mat, solid, 96-well, Santoprene, for 2 mL well storage plate volumes	100
