From Insight to Outcome

Agilent University Course Calendar

2026 Edition – UK and Ireland

Maximize the return on your Agilent instrument investments with Agilent training

Maximizing instrument utilization and throughput are high priorities for most labs. But insufficient training and inexperienced new hires are pulling in the opposite direction. Maybe you've seen the signs:

– Frequent errors and rework

– Repeated calls to support lines

– Under-utilized new features and capabilities

– Low throughput and productivity

– Frequent instrument downtime

Agilent University training is a quick and affordable remedy, helping you develop a confident, productive staff, and keeping your lab running at peak performance.

Agilent University has hundreds of courses, covering a broad range of topics and experience levels. You're certain to find skill-enhancing courses for everyone in your lab, in a delivery format to meet your needs.

See all courses (Classroom)

See all courses (vILT)

Agilent

Agilent University

Agilent can support you with classroom training as well as with digital solutions which avoid the need for travel, while still improving efficiency and productivity in the laboratory and reducing instrument downtime.

Classroom training

Hands-on, classroom training maximizes skill development with applied learning.

Virtual instructor-led training (vILT)

Combines the benefits of live training with the convenience of online education.

Training at your site

Bring the classroom training to your lab. You can request training courses delivered in-person at your site with an Agilent expert.

Self-paced online courses/ePass

ePass lets you access 600+ hours of self-paced online courses, including practical software demonstrations with Cloud Labs.

To get started with no commitment test our free courses:

Terms and conditions, cancellation and rescheduling

All course schedules and course fees are subject to change without prior notice. A confirmation email will be sent two weeks before class commencement.

Cancellation or rescheduling must be made at least 10 working days prior to start of the course to avoid a 50% billing fee to attendee. A late cancellation notification or non-attendance will result in full billing. Agilent reserves the right to cancel any course 10 working days prior where minimum enrollment is not met. The purchase of non-refundable airline tickets is NOT recommended due to possible class cancellations.

Credits and currencies

Now you can plan and budget your training requirement with Agilent University Training Credits that enable you to assign training funds without having to choose specific dates, locations, or topics.

Agilent University Training Credits give you an ideal way to manage your training budget and ensure essential learning.

They provide ultimate flexibility: can be used for all Agilent University Classroom Courses, Virtual Instructor-led Trainings and self-paced Online Courses.

The current conversion factor for 1 Training Credit (TC) can be found here:
