More than a service promise.

Agilent Preventive Maintenance offers measurable value.

You need to keep instruments operational while controlling costs. So it might seem best to pay for service and repairs only if and when they're needed. But the fact is, protecting your laboratory with **Agilent Preventive Maintenance (PM)** can reduce the number of repairs, lower costs, and increase uptime – even with instruments from multiple suppliers. View the results from an extensive five-year study.

The Value of Preventive Maintenance
Review the summary findings of an extensive five-year study.

[SEE THE RESULTS](#)

Metric	Without PM	With PM
Time to Service	3.4x longer	3.4x faster
Number of Repairs	35% more	35% fewer
Cost of Repairs	41% higher	41% lower

Read our Agilent Preventive Maintenance [flyer](#) or the more-detailed PM [white paper](#) for results of the five-year study conducted by a third-party actuarial firm.
