## NGS SAMPLE PREP POSSIBILITIES

The Measure of Confidence

### Agilent Scalable Automation Solutions

Agilent's solutions for NGS sample prep automation offer an open platform and modular design to scale automation as your NGS sample prep needs evolve.

This automation system provides:

- Flexibility to automate virtually any NGS reagent
- Performance to dramatically increase throughput and walk-away time
- Optimized SureSelect<sup>XT</sup> protocols to rapidly automate your NGS Sample Prep

Surpass the limitations of ordinary sample prep methods with the most complete and versatile system from Agilent.
