## YOUR IDEAL MATCH

The Measure of Confidence

Agilent Parts Finder Tool and GC Column Selection Tool

**No more  
guesswork!**

The Agilent  
Parts Finder  
Tool uses clear  
visual cues to  
help you identify  
parts based on  
their location  
within a specific  
instrument.

**Satisfaction  
GUARANTEED!**

### Quickly locate and order the Agilent supplies you need with our Parts Finder Tool

Now you can spend less time searching for essential GC parts – and more time searching for analytical answers.

This intuitive wizard features an image-based search and inventory for quick identification of supplies for your Agilent GC instruments.

- Select GC supplies in seconds
- Quickly locate hard to find part numbers and build a list of favorites
- Print your parts list or save it to a file

Try it now at [agilent.com/chem/partsfinder](http://agilent.com/chem/partsfinder)

**Agilent Technologies**

Agilent offers the world's widest range of innovative GC columns with over 3700 part numbers – and our GC Column Selection Tool makes it easier than ever to select the right column for your application.

## Which Agilent J&W GC column is right for you? Find out in seconds with our GC Column Selection Tool

Why waste time searching through catalogs and websites? Let the chromatography experts help you select the right GC column – right from your computer or Smartphone – so you can minimize downtime and get back to your analysis faster.

And to make it even easier, we give you three ways to search:

1. By method
2. By column phase, length, id, and film thickness
3. By Agilent or non-Agilent part number

More than just essential products... reliable results!

With the highest inertness, lowest bleed levels, and the tightest column-to-column reproducibility, Agilent J&W GC Capillary columns perform better than any columns on the market.
