

QUANTIFY WITH CONFIDENCE HIGHER PRODUCTIVITY FOR LC/MS ANALYSIS

The Measure of Confidence

Introducing Agilent StreamSelect LC/MS Solution

Get the capacity of 2 LC/MS systems from a single mass spectrometer. The Agilent StreamSelect LC/MS solution increases your productivity by enabling parallel, staggered, and dual-channel LC flow into one mass spectrometer, with uncompromised data quality and robustness.

The easy-to-use StreamSelect LC/MS system employs Agilent StreamSelect software to control the timing of injections and analysis windows, for an integrated, single-vendor solution that delivers:

- Increased productivity – up to 2x greater throughput than standard LC/MS systems
- Excellent quantitative performance – with the proven reliability of Agilent instrumentation
- Lower cost of ownership – increased uptime and reduced support and sample cleanup costs
