

# GET AN ADVANCED DEGREE IN LAB PERFORMANCE

The Measure of Confidence

## Agilent Customer Education

Whether you're working with new or existing instruments and software, there's almost always an opportunity to do something better. Agilent Customer Education can show you how.

### Improve the way you work

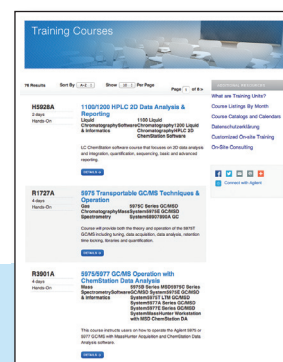

Agilent specializes in teaching lab technicians of all skill levels how to work better. We offer a wide range of training topics, resources, and methods. Learn online, in the classroom, or on-site in your own lab. All courses are developed by application and technology experts, offering you the very best methods to help improve your daily workflow. Productivity gains achieved through Agilent training often result in a rapid return on investment, leading to significant long-term value.

### A full portfolio of learning solutions

Agilent Customer Education lets you choose the learning method that offers the right level of topic depth and training convenience, with standard and customized solutions that include:

- Formal classroom training at an Agilent site
- Customized training at your site
- Application consulting in your laboratory
- Convenient online eSeminars
