Agilent OpenLAB ELN User Group Meeting

May 27 – 28, 2015

Dear Invited Guest,

Agilent Technologies is pleased to invite you to the OpenLAB Electronic Lab Notebook (ELN) Software and Informatics Users Group meeting, hosted by **Dart Neuroscience and Agilent at Dart's San Diego facility**. We are hosting this "By Invitation Only" event as a means to introduce and share ideas with some of the brightest minds in the ELN community. Agilent is committed to supporting your long-term success with data management solutions to maximize lab productivity. This meeting is dedicated to OpenLAB ELN – it's present, it's future, and most importantly, sharing and solving challenges while gaining insight into how to better leverage ELN results, optimize workflows, and achieve ROI goals.

We've chosen the city of San Diego, California as it affords a spacious and inviting setting with first-rate amenities, amazing vistas, and unbeatable climate. This locale is the perfect setting for fostering an open environment with access to new ideas and a cross-pollination of best practices with industry peers as well as Agilent management and technical specialists.

Agenda Topics Sampling:

(Full agenda on back side)

- Linking OpenLAB ELN with OpenLAB ECM, custom corporate databases, and third-party analytics & reporting tools
- OpenLAB ELN for Analysis Request Management
- Global and Enterprise Deployment
- Upgrading your OpenLAB ELN system
- Virtualization of OpenLAB ELN servers
- Break-out and Networking Sessions
- OpenLAB ELN Roadmap
- Product Enhancement and Support Roundtables

Call for Papers

User presentations are central to the meeting. Please take this opportunity to share how OpenLAB ELN is used in your organization. Talks including but not limited to use of OpenLAB ELN's SDK, Business Process Manager BPM, Global Deployment, Going Paperless, OpenLAB ECM, and ROI Measurement are encouraged.

If you would like to present, please send an email with a brief abstract to: gloria.olivier@agilent.com
