

# MINIMIZE THE STRESS OF REGULATORY COMPLIANCE

Agilent  
**CrossLab**  
From Insight to Outcome

## Agilent CrossLab Compliance Consulting Services

### Focus on your science and meet tough regulatory demands

Compliance tasks—which are critical to the success of labs operating in the regulatory space—are complex, costly, and time consuming.

You can more efficiently minimize your regulatory risk—and stay current with industry standards and best practices—by partnering with Agilent for your important compliance activities. Our compliance consulting services for Agilent and non-Agilent data systems enable your lab to:

- **Improve operational productivity:** Agilent CrossLab experts help coordinate and complete your compliance activities
- **Increase throughput:** No need to add extra people to your payroll
- **Standardize and harmonize protocols:** CrossLab supports consistency around the world through a global network of experienced compliance professionals
- **Manage workload spikes:** Augment your staff with Agilent compliance expertise as needed

### Our experienced personnel provide knowledgeable insights on:

- Computer system validation (CSV)
- Audits/assessments
- Custom procedure writing
- Compliance training/education
- Method validation
- Cleaning validation
- Process validation

Contact your Agilent representative today, and put 40 years of vital, actionable insights behind your regulatory compliance efforts.
