QUANT-MY-WAY: SIMPLIFY AND PERSONALIZE YOUR MASSHUNTER QUANTITATIVE ANALYSIS EXPERIENCE

A Faster Route to Insight

What is Quant-My-Way?

Quant-My-Way is a set of tools to designed to assist you in exposing only the capabilities of interest so you can create your own streamlined version of MassHunter Quantitative Analysis for each of your specific assay(s). You can customize the new Ribbon with just the actions you need, and you can hide as much or as little as your assay requires.

Customize your Ribbon with only the features you need.
With Quant-My-Way, you can choose what features of MassHunter Quantitative Analysis are displayed.

As part of Quant-My-Way, the user interface has been updated and streamlined. Of course, MassHunter Quantitative Analysis will continue to contain all the features you already know and love.

If you prefer the look and feel of earlier versions of MassHunter Quantitative Analysis, you can easily switch to the classic view.

The familiar navigation, colors and icons from earlier versions of MassHunter Quantitative Analysis will continue to be available.

Updated and Streamlined User Interface

Faster, easier, and more productive MS analysis from Agilent MassHunter
