

LIVE WEBINAR

ADVANCES IN MICROPLATE TECHNOLOGY: TRENDS AND INNOVATIONS

Hosted by Lab Manager

WEBINAR DETAILS

Date: Thursday, September 28, 2017

Location: Your Desktop

Time: 12:00 – 1:30 p.m. EDT

Hosted by

Lab Manager[®]

As a key technology for life science research, microplate technologies are widely used in research, drug discovery, bioassay validation, QA /QC, and manufacturing processes in the biotechnology and pharmaceutical industries. Recently, there have been numerous improvements in microplate reader design, automated handling, and data integration. Join *Lab Manager's* panel of technical experts as they discuss the latest trends and innovations in microplate technology.

As an attendee, you will learn more about:

- Improvements in equipment functionality and design
- How to best invest in new microplate technology
- New and novel technologies and how they can be implemented
