

# YOU CAN'T AFFORD NOT TO **BUY AGILENT** GC SYSTEMS

**Proven GC and GC/MSD solutions to update your lab's capabilities**

At Agilent, we are committed to developing innovations that enable you to generate the reliable results you need to be successful. For over 50 years, Agilent has led the way in GC and GC/MSD innovation, delivering solutions that generate better, more reproducible results—run after run, day after day.

By moving to the latest technology from Agilent you can generate the reproducible results you need to be successful, while minimizing costly downtime. What's more, now is the perfect time to upgrade, with special pricing on an Agilent 7890B GC, Agilent 7820 GC, or Agilent 5977B GC/MSD when you trade-in your non-Agilent GC or GC/MSD.\*

Why wait? Benefit from the latest advances in reliability, productivity, and sensitivity today.

### **Agilent 7890B GC**

The 7890B GC has everything you need to boost productivity, protect our environment through better resource management, and generate data with confidence.

### **Agilent 7820 GC**

The 7820 GC is designed to optimize routine performance, while minimizing complexity, for affordable long-term reliability.

### **Agilent 5977B GC/MSD**

The Agilent 5977 GC/MSD is designed to increase your productivity and confidence, with improved sensitivity, performance, and workflow efficiency.

**Contact Agilent to take advantage of limited-time offers to replace your non-Agilent GC or GC/MSD instruments.**

### **Upgrade to the latest technology quickly, easily, and cost effectively with Agilent CrossLab Transition Services**

New lab equipment represents a substantial investment, and lab managers want their staff to get the highest possible productivity from that investment.

You can trust Agilent CrossLab Transition Services to help you seamlessly integrate your new equipment into your lab's operation. Together, we can develop and execute a customized transition for your methods, workflows, and data. We will also bring your technicians up to speed quickly on the features and functionality of the new instruments and software.

### **Take your data, and your data system, forward**

Agilent has taken a step forward with state-of-the-art software. Our OpenLab chromatography data systems are compatible with your existing methods and data, enabling you to take full advantage of the advanced features built into our chromatographs. What's more, our reporting software is drag-and-drop simple and provides time-saving steps in your analysis, interpretation, and reporting workflows.

With Agilent's value promise we guarantee you at least 10 years of use of your Agilent GC from the date of purchase, or we will credit you with the residual value of the system toward an equivalent model.

No matter how you use GC, a proven Agilent GC solution stands ready to make a difference in your results. Find out more at:
