

From inspiration to innovation.

Introducing ^{Agilent} **CrossLab** It's Agilent quality across your lab.

The Measure of Confidence

Agilent Technologies

Put Agilent innovation to work across your lab.

Imagine if you had Agilent's innovation for many of the analytical instruments in your lab regardless of manufacturer – it would change the way you work.

Agilent CrossLab is a growing portfolio of supplies critical to instrument performance and productivity. Supplies are manufactured to perform seamlessly with a variety of analytical instruments in your lab, regardless of make or model, including:

- **PerkinElmer**
- **Thermo Scientific**
- **Bruker**
- **Shimadzu**
- **Varian***
(*Now a Bruker GC product.)
- **And more coming soon**

See how Agilent CrossLab can support your instruments and order your supplies.

Agilent
CrossLab

The growing portfolio includes autosampler syringes, autosampler vials and closures, inlet septa, inlet liners, liner O-rings, capillary column ferrules, column nuts and other chromatography supplies. Agilent is more than supplies. When you choose Agilent CrossLab, you know you'll get:

- **Over 40 years of chromatography expertise and ongoing innovation**
- **Optimal performance for both routine and challenging applications**
- **Novel products and easy-to-use packaging for improved productivity**
- **Dependable worldwide product availability and delivery**
- **Convenience of consolidated purchasing**

Explore the expanding portfolio and order your supplies. Visit agilent.com/chem/CrossLab

Innovative Ultra Inert Deactivation Technology for Inlet Liners.

Perform trace-level analysis with the utmost confidence. For analysis of challenging active analytes, count on Agilent CrossLab Ultra Inert inlet liners to ensure:

- **An inert GC flow path**
- **Better sensitivity and peak shapes for challenging active compounds**
- **The industry's highest and most consistent level of inertness for improved detection**
- **Minimal compound adsorption and superior reproducibility for more accurate quantification**

Learn more about our Ultra Inert surface deactivation.

Two tried-and-true partners in the fight against rework.

Agilent Bond Elut SPE – ensure accurate results right from the start.

- **Extraction solutions for the widest range of analytes and matrices**
- **Largest choice of formats and sorbents on the market today**
- **The most trusted name in SPE for over 30 years**

Agilent J&W Ultra Inert GC columns – perform trace-level analysis with the utmost confidence and complete your Ultra Inert flow path.

- **Raising industry standards for consistent column inertness and exceptionally low column bleed**
- **Lower detection limits and more accurate data for difficult analytes**
- **Columns tested with the most demanding Ultra Inert test probe mixture in the industry**
- **Performance summary sheet shipped with each column**
