

AGILENT CROSSLAB LABORATORY BUSINESS INTELLIGENCE

Analyze. Strategize. Optimize.

Optimized Laboratory Operations

Today's world of globalization, standardization, and consolidation are bringing increased competition and commoditization. These dynamics bring greater urgency for optimization in two key areas—productivity and costs. Optimization opportunities are out there but many go unrealized, overlooked, or untouched because data is difficult to access or interpret.

Agilent's Laboratory Business Intelligence (LBI) brings clarity to this data to:

- Maximize instrument utilization
- Optimize service spend
- Technology/
Life cycle plans

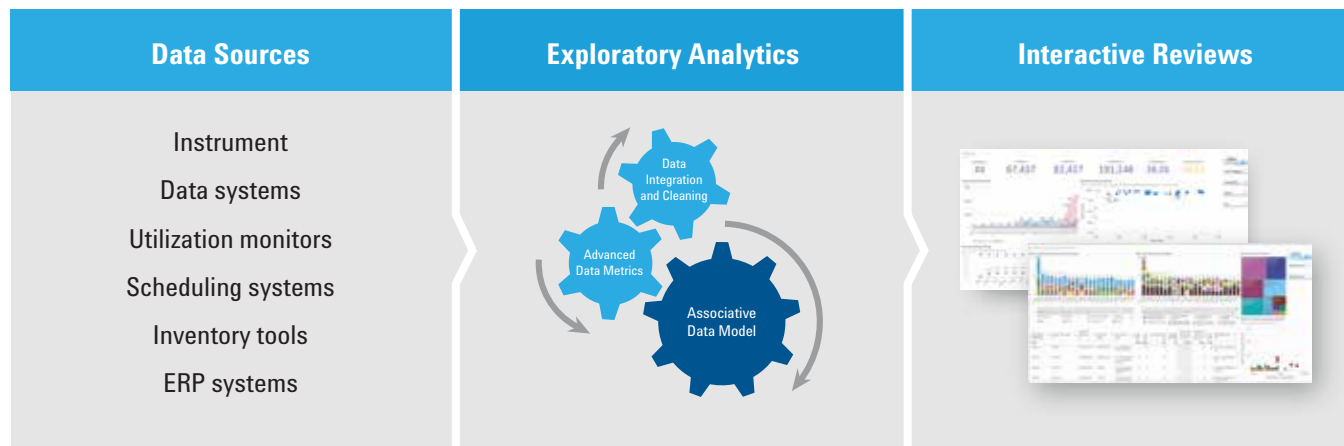

Agilent CrossLab

From Insight to Outcome

Agilent Technologies

The Lab Business Intelligence Service

Agilent's Laboratory Operations Specialists leverage LBI's analytics to give a lab, department, or enterprise-wide view of operations. Working with you, these specialists leverage a library of interactive templates that enable exploration of the data to address your unique business needs.

Agilent's Laboratory Business Intelligence provides the insights needed for your desired outcomes. These insights include:

- Lab Turnaround and Cycle Times
- Instrument Utilization
- Service and Support Optimization
- Lab Equipment Reliability
- Soft and Hard Cost Savings

Analytics from LBI can help you improve the performance of your instrument assets and optimize your laboratory operations. Contact your Agilent representative to find out more about Agilent's Laboratory Business Intelligence service.

Serving Laboratories Worldwide

For more than 50 years, Agilent has pioneered technologies and techniques that define how analysis is performed in laboratories today. Beyond its industry-leading analytical instruments, consumables, workflow solutions, and software, Agilent also provides CrossLab Enterprise Services and supplies to ensure success and help you achieve overall laboratory operational excellence.
