

# YOU CAN'T AFFORD NOT TO BUY AGILENT

Efficient LC solutions for any application and budget: Agilent InfinityLab LC Series systems

Through continuous innovation, Agilent has long set the standard for what labs need to succeed. Agilent's InfinityLab LC Series instruments can, for example, help you solve any of your liquid chromatography challenges with maximum efficiency.

**And here's some exciting news:** Now is the perfect time to invest in an InfinityLab LC Series instrument and take advantage of the latest advancements in liquid chromatography. For a limited time, you can benefit from exceptional price reductions.

## Discover the Agilent InfinityLab LC Series

STARTING  
AT  
¥16,000,000

### Agilent 1220 Infinity II LC

- Isocratic Pump
- Manual Injection
- UV detection
- Agilent OpenLAB CDS

STARTING  
AT  
¥32,500,000

### Agilent 1260 Infinity II LC

- Quaternary Pump
- Vialsampler
- Integrated Column Compartment
- UV Detection
- Agilent OpenLAB CDS

STARTING  
AT  
¥57,000,000

### Agilent 1290 Infinity II LC

- Flexible Pump
- Vialsampler
- Integrated Column Compartment
- UV Detection
- Agilent OpenLAB CDS

For all systems, installation services are included. Software packages are optional.

## InfinityLab columns and supplies

Agilent InfinityLab LC Series instruments are perfectly matched with InfinityLab columns and supplies. Add in Agilent OpenLAB software and Agilent CrossLab services for a complete LC solution that makes a real difference to your lab's operational efficiency.
