

# Save 15% on coverage

— No matter what name is on your instrument.

Agilent Multi-Vendor Services

## Keep all your instruments performing at their peak.

Agilent delivers the same world-class service on other vendors' systems as we do on our own.

**Experience:** Agilent is the multi-vendor service provider for 12 of the top 15 pharmaceutical companies.

**Expertise:** Engineers are certified through hands-on training with original equipment from leading manufacturers.

**Response:** Proven logistics network gets engineers to you quickly and ensures repair parts arrive on time.

**Parts:** Multi-million dollar inventory of service parts means no delays in maintenance and repair.

**Protocols:** Reliable service protocols and checklists—including our multi-vendor Enterprise Edition Compliance—assure consistent, high-quality service every time

## Make the switch and save 15%—easily!

Just add your non-Agilent LC, GC and MS systems to your existing service agreement and save 15% on Agilent Multi-Vendor Service coverage on those non-Agilent systems.
