

# AS GUARANTEED SUPPORT COMES TO AND END YOUR HAVE CHOICES

The Measure of Confidence

## Varian 800/1000/2000 FTIR Systems - End of Guaranteed Support

Now is the time to plan so you can maintain the productivity and reliability in your lab even as your instrument reaches End of Guaranteed Support (EGS). By planning to transition, you will minimize the effect of unavailable parts and unexpected downtime. You will be moving to the latest state-of-the-art technology, increasing your competitiveness and driving down costs. You have several choices for transitioning: choose to upgrade your instrument or extend the life of your old instrument.

### UPGRADE CHOICES

#### Replace your instrument

Take advantage of the compact, lightweight Agilent Cary 630 FTIR spectrometer

The Agilent Cary 630 FTIR is innovative, intuitive, and reliable, providing superior quantitative and qualitative information for routine analysis of solids, liquids, and gases.

The unique design of the Cary 630 accessories ensures superior energy throughput enabling faster data collection, lower noise and superior data quality.

Coupled with the easy-to-use MicroLab software, the compact Agilent Cary 630 FTIR will give you accurate results — fast.

Agilent can make the transition to a new system as easy as possible, with attractive financial offerings on instrument retirement and replacement programs.

You can find more about the Agilent Cary 630 FTIR at [www.agilent.com/chem/cary630](http://www.agilent.com/chem/cary630)

### EXTENSION CHOICES

#### Asset Maximization Services Portfolio

Asset Max (labor only)

Asset Max Plus (labor & parts)

Preventative Maintenance

Operation Qualification

- These service agreement contracts provide continual services and maintenance for your instrument.
- While the Agilent Service Guarantee is not part of the agreement, you will still get access to high quality Agilent parts for as long as our existing supply lasts.

#### On-Demand Services

- Purchase services on a time-and-materials basis without a contract agreement (dependent on geographical location).
- Contact us for more information.

Agilent Technologies

## Cary 630 FTIR - obtain quality answers, fast

The Agilent FTIR portfolio is unrivaled, innovative, and reliable. From dedicated portable analyzers for maximum flexibility, to bench-top instruments offering the highest analytical performance. There is an instrument to suit every need.

The Agilent Cary 630 FTIR provides the best-in-class solution for routine analysis. With the versatility of its multiple sampling interfaces without compromising on performance, it provides you the scope to simplify your analysis with this small but mighty system.

## Regardless of your choice, Agilent is committed to helping you

We provide additional support services to keep you ahead of the curve in managing instrument lifetime.

Customer education for customers who want classroom or on-site training to maximize their instrument productivity

Relocation services to move the existing instrumentation

Instrument lifecycle consulting to assess efficiencies within your current laboratory and plan future purchases that fit your needs and budget

## A proven partner in your success

At Agilent, we're constantly looking for ways to optimize your lab's performance. It's a strategic approach led by years of analysis expertise and enhanced by constant communication every step of the way.

Along with unrivaled technical support and educational resources, we'll continue to offer a comprehensive array of instruments, supplies and services, each rigorously designed, tested and manufactured to the industry's highest standards. As always, the Agilent name is your assurance of unequalled dependability, reliability, ease of use and enhanced productivity.

Through the years, you've trusted Agilent Technologies to provide you with the instrumentation, supplies and support you've needed to keep your lab running at peak performance. We're here to help you choose the best transition plan. For more details, contact your local Agilent instrument and service representatives.
