

5 Reasons to Upgrade to Agilent Intelligent GC and GC/MS Systems

1 Award-winning innovation that drives better business outcomes

8890 GC, 5977C GC/MSD

7010D triple quadrupole GC/MS

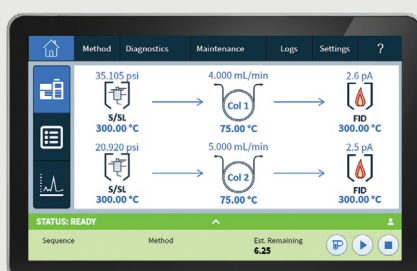

7250 GC/Q-TOF

2 Built-in GC Assist

Prevent common GC problems using automated, self-aware diagnostic, maintenance, and troubleshooting options.

View instrument status, run diagnostics, check maintenance logs, or view service videos—all from your mobile device—using remote connectivity and on-board help.

Minimize downtime associated with system contamination by using the GC Performance section of your analytical method to automate chromatography checks.

3 Sustainability

my green lab.
ACT Ecolabel

Agilent GC and GC/MS systems have achieved excellent ACT label results. ACT labels provide information about the environmental impact of manufacturing, use, and disposal.

5 Agilent Service Guarantee*

If we cannot fix an instrument covered by an Agilent service plan—regardless of manufacturer—we'll replace it with an Agilent equivalent instrument for free.

The people behind your service and support

Here's what sets CrossLab service engineers apart

10 years

Average instrument repair experience

96%

Parts available right away

Millions

Parts accessible at our worldwide logistics centers

85%

Repairs fixed during first visit

30,000

Technical training days

>1,850

Field service engineers worldwide

50+

Technology platforms covered

1–2 days

Typical turnaround time for priority service calls

[Explore service plans for increasing productivity](#)

*Conditions apply. Service plans are sold on instruments that are either new or in good working order. Agilent reserves the right to inspect instruments prior to covering with a plan.
