

# FAQs: Agilent Cannabis and Hemp HPLC Contest

## 1. How do I enter the contest?

Read the contest rules and complete the application form by answering the questions that pertain to your entry category (cultivator, processor, or testing lab).

## 2. What happens after the year is up?

The instrument will be taken back at no costs, or you will have the option to purchase the system.

- **Do I have the option to buy it at a discounted rate after the one year is up?** Yes, or anytime before that.
- **Am I eligible for financing at that point?** Financing options are available and subject to approved credit.
- **Do I have to purchase it?** No, you do not have to purchase it once the year is up.

## 3. Is the winner allowed to publish the results they obtain using the instrument?

Yes, you are allowed to make use of the data as your lab deems fit.

## 4. Who is NOT eligible for the contest?

Government employees, public universities, healthcare workers, Agilent employees, Agilent channel partners are not eligible to win the contest. If you are entering from a *private* university, you can enter as a testing lab.

## 5. What does "use of an instrument" entail? Is the instrument at the Agilent site or delivered to the winner's lab?

The use of the instrument comes with everything as if you had purchased it, except you get to keep it for one year instead of indefinitely. The instrument will be delivered to the address recorded in the application so please ensure to mark down your facilities actual operations address.

## 6. Will I be supplied with the needed accessories to run the instrument?

An Agilent potency kit and standards will be included with the instrument. Consult with Agilent to confirm other general laboratory supplies and site preparation needed.

## 7. Is service provided during the one year?

All of our instruments come with a one-year warranty and free technical support over the phone.

## 8. Can the applicant be a student?

No, unless you are representing a principle investigator who deals with cannabis research. In that case, the name of the applicant should be the PI, not the student. You must be a private university, entering under the testing lab option.

Agilent products and solutions are intended to be used for cannabis quality control and safety testing in laboratories where such use is permitted under state/country law.
