

Agilent University ePass

Enhance essential lab skills with unlimited access to self-paced, online training

Learn anytime, anywhere—for one low price

Improve knowledge and boost job-ready skills with troubleshooting, maintenance, and advanced methodology courses with Agilent University

Learn in-demand techniques and operations for Chromatography, Mass Spectrometry, Spectroscopy, Sample Prep, and more—designed specifically for Agilent instruments, by Agilent experts.

- Over 600 hours of expert-led training, delivered in over 500 unique courses
- Courses can be taken as individual modules or in sequence from over two dozen Learning Paths. Learning Paths are designed as helpful guides for mastering techniques and operations of specific instrument platforms
- Apply best practices and practical demonstration with Cloud Labs. These innovative online trainings include lab exercises that run data analysis software in your browser, reinforcing concepts with applied learning
- Agilent University ePass is available as a 3-month or 12-month subscription*
- Self-paced, online courses are primarily delivered in English
