Intended Use Statement (ROW outside of US, EU, CA and AU)

Alissa Interpret | Research
Alissa Interpret | Research software is intended for variant storage, visualization, and annotation using public, commercial and customer internal data sources. It allows end users to set up pipelines to perform or automate the triage and classification of genetic variants. It provides features for recording variant assessments and the drafting of variant analysis reports. The integration capabilities allow for the automated exchange of variant and report information with external software systems.

For Research Use Only. Not for use in diagnostic procedures.
