

SAFETY DATA SHEET

Seahorse XF Palmitate-BSA FAO Substrate, Part Number 102720-100

Section 1. Identification

1.1 Product identifier

Product name : Seahorse XF Palmitate-BSA FAO Substrate, Part Number 102720-100
Part No. (Chemical Kit) : 102720-100
Part No. : Palmitate-BSA Conjugate Not available.
 BSA Control Not available.
Validation date : 5/31/2017

1.2 Relevant identified uses of the substance or mixture and uses advised against

Material uses : For research use only. Not for use in diagnostic procedures (RUO).
 Palmitate-BSA Conjugate 3 x 2 mL
 BSA Control 3 x 2 mL

1.3 Details of the supplier of the safety data sheet

Supplier/Manufacturer : Agilent Technologies, Inc.
 5301 Stevens Creek Blvd
 Santa Clara, CA 95051, USA
 800-227-9770

1.4 Emergency telephone number

In case of emergency : CHEMTREC®: 1-800-424-9300

Section 2. Hazards identification

2.1 Classification of the substance or mixture

OSHA/HCS status : Palmitate-BSA Conjugate While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.
 BSA Control While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Classification of the substance or mixture

Not classified.

Ingredients of unknown toxicity : Palmitate-BSA Conjugate Percentage of the mixture consisting of ingredient (s) of unknown dermal toxicity: 1 - 10%
 Percentage of the mixture consisting of ingredient (s) of unknown inhalation toxicity: 1 - 10%
 Percentage of the mixture consisting of ingredient (s) of unknown oral toxicity: 1 - 10%
 BSA Control Percentage of the mixture consisting of ingredient (s) of unknown dermal toxicity: 1 - 10%
 Percentage of the mixture consisting of ingredient (s) of unknown inhalation toxicity: 1 - 10%
 Percentage of the mixture consisting of ingredient (s) of unknown oral toxicity: 1 - 10%

Section 2. Hazards identification

(s) of unknown oral toxicity: 1 - 10%

2.2 GHS label elements

Signal word	: Palmitate-BSA Conjugate BSA Control	No signal word. No signal word.
Hazard statements	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.
Precautionary statements		
Prevention	: Palmitate-BSA Conjugate BSA Control	Not applicable. Not applicable.
Response	: Palmitate-BSA Conjugate BSA Control	Not applicable. Not applicable.
Storage	: Palmitate-BSA Conjugate BSA Control	Not applicable. Not applicable.
Disposal	: Palmitate-BSA Conjugate BSA Control	Not applicable. Not applicable.
Supplemental label elements	: Palmitate-BSA Conjugate BSA Control	None known. None known.

2.3 Other hazards

Hazards not otherwise classified	: Palmitate-BSA Conjugate BSA Control	None known. None known.
---	--	----------------------------

Section 3. Composition/information on ingredients

Substance/mixture	: Palmitate-BSA Conjugate BSA Control	Mixture Mixture
--------------------------	--	--------------------

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

4.1 Description of necessary first aid measures

Eye contact	: Palmitate-BSA Conjugate BSA Control	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Palmitate-BSA Conjugate BSA Control	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

Section 4. First aid measures

Skin contact	: Palmitate-BSA Conjugate BSA Control	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: Palmitate-BSA Conjugate BSA Control	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

4.2 Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.
Inhalation	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.
Skin contact	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.
Ingestion	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.

Over-exposure signs/symptoms

Eye contact	: Palmitate-BSA Conjugate BSA Control	No specific data. No specific data.
Inhalation	: Palmitate-BSA Conjugate BSA Control	No specific data. No specific data.
Skin contact	: Palmitate-BSA Conjugate BSA Control	No specific data. No specific data.
Ingestion	: Palmitate-BSA Conjugate BSA Control	No specific data. No specific data.

4.3 Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: Palmitate-BSA Conjugate BSA Control	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: Palmitate-BSA Conjugate BSA Control	No specific treatment. No specific treatment.
Protection of first-aiders	: Palmitate-BSA Conjugate BSA Control	No action shall be taken involving any personal risk or without suitable training. No action shall be taken involving any personal risk or without suitable training.

Section 4. First aid measures

See toxicological information (Section 11)

Section 5. Fire-fighting measures

5.1 Extinguishing media

Suitable extinguishing media	: Palmitate-BSA Conjugate BSA Control	Use an extinguishing agent suitable for the surrounding fire. Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: Palmitate-BSA Conjugate BSA Control	None known. None known.

5.2 Special hazards arising from the substance or mixture

Specific hazards arising from the chemical	: Palmitate-BSA Conjugate BSA Control	In a fire or if heated, a pressure increase will occur and the container may burst. In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: Palmitate-BSA Conjugate BSA Control	Decomposition products may include the following materials: carbon dioxide carbon monoxide Decomposition products may include the following materials: carbon dioxide carbon monoxide

5.3 Advice for firefighters

Special protective actions for fire-fighters	: Palmitate-BSA Conjugate BSA Control	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Palmitate-BSA Conjugate BSA Control	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	: Palmitate-BSA Conjugate BSA Control	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. No action shall be taken involving any personal risk or without suitable training. Evacuate
------------------------------------	--	--

Section 6. Accidental release measures

<p>For emergency responders : Palmitate-BSA Conjugate</p> <p style="text-align: center;">BSA Control</p>	<p>surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.</p> <p>If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".</p> <p>If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".</p>
<p>6.2 Environmental precautions : Palmitate-BSA Conjugate</p> <p style="text-align: center;">BSA Control</p>	<p>Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).</p> <p>Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).</p>
<p>6.3 Methods and materials for containment and cleaning up</p> <p>Methods for cleaning up : Palmitate-BSA Conjugate</p> <p style="text-align: center;">BSA Control</p>	<p>Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.</p> <p>Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.</p>

Section 7. Handling and storage

7.1 Precautions for safe handling

<p>Protective measures : Palmitate-BSA Conjugate</p> <p style="text-align: center;">BSA Control</p>	<p>Put on appropriate personal protective equipment (see Section 8).</p> <p>Put on appropriate personal protective equipment (see Section 8).</p>
<p>Advice on general occupational hygiene : Palmitate-BSA Conjugate</p> <p style="text-align: center;">BSA Control</p>	<p>Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.</p> <p>Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment</p>

Section 7. Handling and storage

before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

: Palmitate-BSA Conjugate

Store between the following temperatures: 2 to 8°C (35.6 to 46.4°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

BSA Control

Store between the following temperatures: 2 to 8°C (35.6 to 46.4°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

7.3 Specific end use(s)

Recommendations

: Palmitate-BSA Conjugate
BSA Control

Industrial applications, Professional applications.
Industrial applications, Professional applications.

Industrial sector specific solutions

: Palmitate-BSA Conjugate
BSA Control

Not applicable.
Not applicable.

Section 8. Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

Ingredient name	Exposure limits
None.	

8.2 Exposure controls

Appropriate engineering controls

: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Section 8. Exposure controls/personal protection

- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
- Skin protection**
- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance

Physical state	: Palmitate-BSA Conjugate BSA Control	Liquid. Liquid.
Color	: Palmitate-BSA Conjugate BSA Control	Not available. Not available.
Odor	: Palmitate-BSA Conjugate BSA Control	Not available. Not available.
Odor threshold	: Palmitate-BSA Conjugate BSA Control	Not available. Not available.
pH	: Palmitate-BSA Conjugate BSA Control	Not available. Not available.
Melting point	: Palmitate-BSA Conjugate BSA Control	0°C (32°F) 0°C (32°F)
Boiling point	: Palmitate-BSA Conjugate BSA Control	100°C (212°F) 100°C (212°F)
Flash point	: Palmitate-BSA Conjugate BSA Control	Not available. Not available.
Evaporation rate	: Palmitate-BSA Conjugate BSA Control	Not available. Not available.
Flammability (solid, gas)	: Palmitate-BSA Conjugate BSA Control	Not applicable. Not applicable.
Lower and upper explosive (flammable) limits	: Palmitate-BSA Conjugate BSA Control	Not available. Not available.
Vapor pressure	: Palmitate-BSA Conjugate BSA Control	Not available. Not available.
Vapor density	:	

Section 9. Physical and chemical properties

	Palmitate-BSA Conjugate	Not available.
	BSA Control	Not available.
Relative density	: Palmitate-BSA Conjugate	Not available.
	BSA Control	Not available.
Solubility	: Palmitate-BSA Conjugate	Easily soluble in the following materials: cold water and hot water.
	BSA Control	Easily soluble in the following materials: cold water and hot water.
Partition coefficient: n-octanol/water	: Palmitate-BSA Conjugate	Not available.
	BSA Control	Not available.
Auto-ignition temperature	: Palmitate-BSA Conjugate	Not available.
	BSA Control	Not available.
Decomposition temperature	: Palmitate-BSA Conjugate	Not available.
	BSA Control	Not available.
Viscosity	: Palmitate-BSA Conjugate	Not available.
	BSA Control	Not available.

Section 10. Stability and reactivity

10.1 Reactivity	: Palmitate-BSA Conjugate	No specific test data related to reactivity available for this product or its ingredients.
	BSA Control	No specific test data related to reactivity available for this product or its ingredients.
10.2 Chemical stability	: Palmitate-BSA Conjugate	The product is stable.
	BSA Control	The product is stable.
10.3 Possibility of hazardous reactions	: Palmitate-BSA Conjugate	Under normal conditions of storage and use, hazardous reactions will not occur.
	BSA Control	Under normal conditions of storage and use, hazardous reactions will not occur.
10.4 Conditions to avoid	: Palmitate-BSA Conjugate	No specific data.
	BSA Control	No specific data.
10.5 Incompatible materials	: Palmitate-BSA Conjugate	May react or be incompatible with oxidizing materials.
	BSA Control	May react or be incompatible with oxidizing materials.
10.6 Hazardous decomposition products	: Palmitate-BSA Conjugate	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
	BSA Control	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

11.1 Information on toxicological effects

Acute toxicity

Not available.

Irritation/Corrosion

Not available.

Section 11. Toxicological information

Sensitization

Not available.

Mutagenicity

Not available.

Carcinogenicity

Not available.

Reproductive toxicity

Not available.

Teratogenicity

Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on the likely routes of exposure	: Palmitate-BSA Conjugate BSA Control	Not available. Not available.
---	--	----------------------------------

Potential acute health effects

Eye contact	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.
Inhalation	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.
Skin contact	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.
Ingestion	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: Palmitate-BSA Conjugate BSA Control	No specific data. No specific data.
Inhalation	: Palmitate-BSA Conjugate BSA Control	No specific data. No specific data.
Skin contact	: Palmitate-BSA Conjugate BSA Control	No specific data. No specific data.
Ingestion	: Palmitate-BSA Conjugate BSA Control	No specific data. No specific data.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Long term exposure

Section 11. Toxicological information

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Potential chronic health effects

General	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.
Carcinogenicity	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.
Mutagenicity	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.
Teratogenicity	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.
Developmental effects	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.
Fertility effects	: Palmitate-BSA Conjugate BSA Control	No known significant effects or critical hazards. No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Not available.

Other information : Palmitate-BSA Conjugate Not available.
BSA Control Not available.

Section 12. Ecological information

12.1 Toxicity

Not available.

12.2 Persistence and degradability

Not available.

12.3 Bioaccumulative potential

Not available.

12.4 Mobility in soil

Soil/water partition coefficient (K_{oc}) : Not available.

12.5 Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

13.1 Waste treatment methods

Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

RCRA classification :

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.

The information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

Section 14. Transport information

DOT / TDG / Mexico / IMDG / IATA : Not regulated.

Special precautions for user : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of MARPOL and the IBC Code : Not available.

Section 15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

U.S. Federal regulations : TSCA 8(a) CDR Exempt/Partial exemption: Not determined

Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs) : Not listed

Clean Air Act Section 602 Class I Substances : Not listed

Clean Air Act Section 602 Class II Substances : Not listed

DEA List I Chemicals (Precursor Chemicals) : Not listed

DEA List II Chemicals (Essential Chemicals) : Not listed

SARA 302/304

Composition/information on ingredients

Section 15. Regulatory information

No products were found.

SARA 304 RQ : Not applicable.

SARA 311/312

Classification : Palmitate-BSA Conjugate Not applicable.
BSA Control Not applicable.

Composition/information on ingredients

No products were found.

State regulations

Massachusetts : None of the components are listed.

New York : None of the components are listed.

New Jersey : None of the components are listed.

Pennsylvania : None of the components are listed.

California Prop. 65

Not available.

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

Montreal Protocol (Annexes A, B, C, E)

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

Inventory list

Australia : All components are listed or exempted.

Canada : All components are listed or exempted.

China : All components are listed or exempted.

Europe : All components are listed or exempted.

Japan : **Japan inventory (ENCS)**: All components are listed or exempted.
Japan inventory (ISHL): All components are listed or exempted.

Malaysia : Not determined.

New Zealand : All components are listed or exempted.

Philippines : Not determined.

Republic of Korea : Not determined.

Taiwan : All components are listed or exempted.

Thailand : Not determined.

Turkey : Not determined.

United States : All components are listed or exempted.

Viet Nam : Not determined.
