

SAFETY DATA SHEET

Seahorse XF Mito Fuel Flex Test Kit, Part Number 103260-100

Section 1. Identification

1.1 Product identifier

Product name : Seahorse XF Mito Fuel Flex Test Kit, Part Number 103260-100
Part No. (Chemical Kit) : 103260-100
Part No. : Etomoxir Not available.
 BPTES Not available.
 UK5099 Not available.
Validation date : 11/20/2017

1.2 Relevant identified uses of the substance or mixture and uses advised against

Material uses : For research use only. Not for use in diagnostic procedures (RUO).
 Etomoxir 6 x 0.379 mg
 BPTES 6 x 17.083 mg
 UK5099 6 x 17.360 mg

1.3 Details of the supplier of the safety data sheet

Supplier/Manufacturer : Agilent Technologies, Inc.
 5301 Stevens Creek Blvd
 Santa Clara, CA 95051, USA
 800-227-9770

1.4 Emergency telephone number

In case of emergency : CHEMTREC®: 1-800-424-9300

Section 2. Hazards identification

2.1 Classification of the substance or mixture

OSHA/HCS status : Etomoxir This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.
 BPTES While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.
 UK5099 While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Classification of the substance or mixture

Etomoxir
 Comb. Dusts H301 COMBUSTIBLE DUSTS
 ACUTE TOXICITY (oral) - Category 3
Ingredients of unknown toxicity : BPTES Percentage of the mixture consisting of ingredient (s) of unknown inhalation toxicity: 1 - 10%
 UK5099 Percentage of the mixture consisting of ingredient (s) of unknown inhalation toxicity: 1 - 10%

Section 2. Hazards identification

2.2 GHS label elements

Hazard pictograms : Etomoxir

Signal word : Etomoxir
BPTES
UK5099

Danger
No signal word.
No signal word.

Hazard statements : Etomoxir

BPTES
UK5099

No Code(s) - May form combustible dust concentrations in air.
H301 - Toxic if swallowed.
No known significant effects or critical hazards.
No known significant effects or critical hazards.

Precautionary statements

Prevention : Etomoxir

BPTES
UK5099

P270 - Do not eat, drink or smoke when using this product.
P264 - Wash hands thoroughly after handling.
Not applicable.
Not applicable.

Response : Etomoxir

BPTES
UK5099

P301 + P310 + P330 - IF SWALLOWED:
Immediately call a POISON CENTER or physician.
Rinse mouth.
Not applicable.
Not applicable.

Storage : Etomoxir
BPTES
UK5099

P405 - Store locked up.
Not applicable.
Not applicable.

Disposal : Etomoxir

BPTES
UK5099

P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.
Not applicable.
Not applicable.

Supplemental label elements : Etomoxir

BPTES
UK5099

Keep container tightly closed. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Prevent dust accumulation.
None known.
None known.

2.3 Other hazards

Hazards not otherwise classified : Etomoxir
BPTES
UK5099

None known.
None known.
None known.

Section 3. Composition/information on ingredients

Substance/mixture : Etomoxir
BPTES
UK5099

Substance
Mixture
Mixture

Section 3. Composition/information on ingredients

Ingredient name	%	CAS number
Etomoxir (R)-(+)-2-[6-(4-Chlorophenoxy)hexyl]-oxirane-2-carboxylic acid sodium salt	100	828934-41-4
BPTES Sodium chloride	≤3	7647-14-5
UK5099 Sodium chloride	≤3	7647-14-5

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

4.1 Description of necessary first aid measures

Eye contact	: Etomoxir	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.
	BPTES	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
	UK5099	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Etomoxir	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
	BPTES	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
	UK5099	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

Section 4. First aid measures

Skin contact	: Etomoxir	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.
	BPTES	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
	UK5099	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: Etomoxir	Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
	BPTES	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	UK5099	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

4.2 Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact	: Etomoxir	Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the eyes.
	BPTES	No known significant effects or critical hazards.
	UK5099	No known significant effects or critical hazards.
Inhalation	: Etomoxir	Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat and lungs.
	BPTES	No known significant effects or critical hazards.
	UK5099	No known significant effects or critical hazards.
Skin contact	: Etomoxir	No known significant effects or critical hazards.
	BPTES	No known significant effects or critical hazards.
	UK5099	No known significant effects or critical hazards.

Section 4. First aid measures

Ingestion	: Etomoxir BPTES UK5099	Toxic if swallowed. No known significant effects or critical hazards. No known significant effects or critical hazards.
<u>Over-exposure signs/symptoms</u>		
Eye contact	: Etomoxir BPTES UK5099	Adverse symptoms may include the following: irritation redness No specific data. No specific data.
Inhalation	: Etomoxir BPTES UK5099	Adverse symptoms may include the following: respiratory tract irritation coughing No specific data. No specific data.
Skin contact	: Etomoxir BPTES UK5099	No specific data. No specific data. No specific data.
Ingestion	: Etomoxir BPTES UK5099	No specific data. No specific data. No specific data.

4.3 Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: Etomoxir BPTES UK5099	In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: Etomoxir BPTES UK5099	No specific treatment. No specific treatment. No specific treatment.
Protection of first-aiders	: Etomoxir BPTES UK5099	No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. No action shall be taken involving any personal risk or without suitable training. No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

5.1 Extinguishing media

Suitable extinguishing media	: Etomoxir BPTES UK5099	Use dry chemical powder. Use an extinguishing agent suitable for the surrounding fire. Use an extinguishing agent suitable for the surrounding fire.
-------------------------------------	-----------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------

Section 5. Fire-fighting measures

Unsuitable extinguishing media : Etomoxir
BPTES
UK5099

Avoid high pressure media which could cause the formation of a potentially explosible dust-air mixture.
None known.
None known.

5.2 Special hazards arising from the substance or mixture

Specific hazards arising from the chemical : Etomoxir
BPTES
UK5099

May form explosible dust-air mixture if dispersed.
No specific fire or explosion hazard.
No specific fire or explosion hazard.

Hazardous thermal decomposition products : Etomoxir
BPTES
UK5099

Decomposition products may include the following materials:
carbon dioxide
carbon monoxide
halogenated compounds
carbonyl halides
metal oxide/oxides
Decomposition products may include the following materials:
halogenated compounds
metal oxide/oxides
Decomposition products may include the following materials:
halogenated compounds
metal oxide/oxides

5.3 Advice for firefighters

Special protective actions for fire-fighters : Etomoxir
BPTES
UK5099

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters : Etomoxir
BPTES
UK5099

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	: Etomoxir	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Do not breathe dust. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
	BPTES	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
	UK5099	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders	: Etomoxir	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
	BPTES	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
	UK5099	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
6.2 Environmental precautions	: Etomoxir	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
	BPTES	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
	UK5099	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.3 Methods and materials for containment and cleaning up

Section 6. Accidental release measures

Methods for cleaning up	: Etomoxir	Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor.
	BPTES	Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.
	UK5099	Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

7.1 Precautions for safe handling

Protective measures	: Etomoxir	Put on appropriate personal protective equipment (see Section 8). Do not get in eyes or on skin or clothing. Do not breathe dust. Do not ingest. Avoid the creation of dust when handling and avoid all possible sources of ignition (spark or flame). Prevent dust accumulation. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Electrical equipment and lighting should be protected to appropriate standards to prevent dust coming into contact with hot surfaces, sparks or other ignition sources. Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material. Empty containers retain product residue and can be hazardous. Do not reuse container.
	BPTES	Put on appropriate personal protective equipment (see Section 8).
	UK5099	Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	: Etomoxir	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
	BPTES	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
	UK5099	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face

Section 7. Handling and storage

before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

: Etomoxir

Storage temperature: room temperature. Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

BPTES

Storage temperature: room temperature. Store in accordance with local regulations. Not applicable.

Section 8. Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

Ingredient name	Exposure limits
Etomoxir (R)-(+)-2-[6-(4-Chlorophenoxy)hexyl]-oxirane-2-carboxylic acid sodium salt	None.
BPTES Sodium chloride	None.
UK5099 Sodium chloride	None.

8.2 Exposure controls

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection

- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance

Physical state	: Etomoxir BPTES UK5099	Solid. [Powder.] Solid. Solid.
Color	: Etomoxir BPTES UK5099	White. White. White.
Odor	: Etomoxir BPTES UK5099	Not available. Odorless. Odorless.
Odor threshold	: Etomoxir BPTES UK5099	Not available. Not available. Not available.
pH	: Etomoxir BPTES UK5099	Not available. Not available. Not available.
Melting point	: Etomoxir BPTES UK5099	Not available. Not available. Not available.
Boiling point	: Etomoxir BPTES UK5099	Not available. Not available. Not available.
Flash point	: Etomoxir BPTES UK5099	Not available. Not available. Not available.
Evaporation rate	: Etomoxir BPTES UK5099	Not available. Not available. Not available.
Flammability (solid, gas)	: Etomoxir BPTES UK5099	Not available. Not available. Not available.
Lower and upper explosive (flammable) limits	: Etomoxir BPTES UK5099	Not available. Not available. Not available.
Vapor pressure	: Etomoxir BPTES UK5099	Not available. Not available. Not available.
Vapor density	: Etomoxir BPTES UK5099	Not available. Not available. Not available.
Relative density	: Etomoxir BPTES UK5099	Not available. Not available. Not available.
Solubility	: Etomoxir BPTES UK5099	Soluble in the following materials: cold water and hot water. Soluble in the following materials: cold water and hot water. Soluble in the following materials: cold water and hot water.
Partition coefficient: n-octanol/water	: Etomoxir BPTES UK5099	Not available. Not available. Not available.

Section 9. Physical and chemical properties

Auto-ignition temperature	: Etomoxir	Not available.
	BPTES	Not available.
	UK5099	Not available.
Decomposition temperature	: Etomoxir	Not available.
	BPTES	Not available.
	UK5099	Not available.
Viscosity	: Etomoxir	Not available.
	BPTES	Not available.
	UK5099	Not available.

Section 10. Stability and reactivity

10.1 Reactivity	: Etomoxir	No specific test data related to reactivity available for this product or its ingredients.
	BPTES	No specific test data related to reactivity available for this product or its ingredients.
	UK5099	No specific test data related to reactivity available for this product or its ingredients.
10.2 Chemical stability	: Etomoxir	The product is stable.
	BPTES	The product is stable.
	UK5099	The product is stable.
10.3 Possibility of hazardous reactions	: Etomoxir	Under normal conditions of storage and use, hazardous reactions will not occur.
	BPTES	Under normal conditions of storage and use, hazardous reactions will not occur.
	UK5099	Under normal conditions of storage and use, hazardous reactions will not occur.
10.4 Conditions to avoid	: Etomoxir	Avoid the creation of dust when handling and avoid all possible sources of ignition (spark or flame). Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material. Prevent dust accumulation.
	BPTES	No specific data.
	UK5099	No specific data.
10.5 Incompatible materials	: Etomoxir	Reactive or incompatible with the following materials: oxidizing materials
	BPTES	May react or be incompatible with oxidizing materials.
	UK5099	May react or be incompatible with oxidizing materials.
10.6 Hazardous decomposition products	: Etomoxir	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
	BPTES	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
	UK5099	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on the likely routes of exposure	: Etomoxir	Routes of entry anticipated: Oral, Dermal, Inhalation.
	BPTES	Routes of entry anticipated: Oral, Dermal, Inhalation.
	UK5099	Routes of entry anticipated: Oral, Dermal, Inhalation.
<u>Potential acute health effects</u>		
Eye contact	: Etomoxir	Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the eyes.
	BPTES	No known significant effects or critical hazards.
	UK5099	No known significant effects or critical hazards.
Inhalation	: Etomoxir	Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat and lungs.
	BPTES	No known significant effects or critical hazards.
	UK5099	No known significant effects or critical hazards.
Skin contact	: Etomoxir	No known significant effects or critical hazards.
	BPTES	No known significant effects or critical hazards.
	UK5099	No known significant effects or critical hazards.
Ingestion	: Etomoxir	Toxic if swallowed.
	BPTES	No known significant effects or critical hazards.
	UK5099	No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: Etomoxir	Adverse symptoms may include the following: irritation redness
	BPTES	No specific data.
	UK5099	No specific data.
Inhalation	: Etomoxir	Adverse symptoms may include the following: respiratory tract irritation coughing
	BPTES	No specific data.
	UK5099	No specific data.
Skin contact	: Etomoxir	No specific data.
	BPTES	No specific data.
	UK5099	No specific data.
Ingestion	: Etomoxir	No specific data.
	BPTES	No specific data.
	UK5099	No specific data.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Long term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Potential chronic health effects

Section 11. Toxicological information

General	: Etomoxir BPTES UK5099	Repeated or prolonged inhalation of dust may lead to chronic respiratory irritation. No known significant effects or critical hazards. No known significant effects or critical hazards.
Carcinogenicity	: Etomoxir BPTES UK5099	No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards.
Mutagenicity	: Etomoxir BPTES UK5099	No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards.
Teratogenicity	: Etomoxir BPTES UK5099	No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards.
Developmental effects	: Etomoxir BPTES UK5099	No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards.
Fertility effects	: Etomoxir BPTES UK5099	No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Route	ATE value
BPTES Oral	110120.2 mg/kg
UK5099 Oral	109889.8 mg/kg

Section 12. Ecological information

12.1 Toxicity

Product/ingredient name	Result	Species	Exposure
BPTES Sodium chloride	Acute EC50 4.74 g/L Fresh water	Algae - Chlamydomonas reinhardtii	96 hours
	Acute EC50 519.6 mg/l Fresh water	Crustaceans - Cypris subglobosa	48 hours
	Acute EC50 402600 µg/l Fresh water	Daphnia - Daphnia magna	48 hours
	Acute IC50 6.87 g/L Fresh water	Aquatic plants - Lemna minor	96 hours
	Acute LC50 1000000 µg/l Fresh water	Fish - Morone saxatilis - Larvae	96 hours
	Chronic LC10 781 mg/l Fresh water	Crustaceans - Hyalella azteca - Juvenile (Fledgling, Hatchling, Weanling)	3 weeks
	Chronic NOEC 6 g/L Fresh water	Aquatic plants - Lemna minor	96 hours
UK5099 Sodium chloride	Chronic NOEC 0.314 g/L Fresh water	Daphnia - Daphnia pulex	21 days
	Chronic NOEC 100 mg/l Fresh water	Fish - Gambusia holbrooki - Adult	8 weeks
	Acute EC50 4.74 g/L Fresh water	Algae - Chlamydomonas reinhardtii	96 hours
	Acute EC50 519.6 mg/l Fresh water	Crustaceans - Cypris subglobosa	48 hours
	Acute EC50 402600 µg/l Fresh water	Daphnia - Daphnia magna	48 hours
Acute IC50 6.87 g/L Fresh water	Aquatic plants - Lemna minor	96 hours	

Section 12. Ecological information

	Acute LC50 1000000 µg/l Fresh water Chronic LC10 781 mg/l Fresh water	Fish - Morone saxatilis - Larvae Crustaceans - Hyalella azteca - Juvenile (Fledgling, Hatchling, Weanling)	96 hours 3 weeks
	Chronic NOEC 6 g/L Fresh water Chronic NOEC 0.314 g/L Fresh water Chronic NOEC 100 mg/l Fresh water	Aquatic plants - Lemna minor Daphnia - Daphnia pulex Fish - Gambusia holbrooki - Adult	96 hours 21 days 8 weeks

12.2 Persistence and degradability

Not available.

12.3 Bioaccumulative potential

Not available.

12.4 Mobility in soil

Soil/water partition coefficient (K_{oc}) : Not available.

12.5 Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

13.1 Waste treatment methods

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.

The information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

Section 14. Transport information

DOT / TDG / Mexico / IMDG / IATA : Not regulated.

Special precautions for user : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Section 14. Transport information

Transport in bulk according to Annex II of MARPOL and the IBC Code : Not available.

Section 15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

U.S. Federal regulations : TSCA 8(a) CDR Exempt/Partial exemption: Not determined
Clean Water Act (CWA) 311: Nitric acid, iron(3+) salt, nonahydrate

Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs) : Not listed

Clean Air Act Section 602 Class I Substances : Not listed

Clean Air Act Section 602 Class II Substances : Not listed

DEA List I Chemicals (Precursor Chemicals) : Not listed

DEA List II Chemicals (Essential Chemicals) : Not listed

SARA 302/304

Composition/information on ingredients

No products were found.

SARA 304 RQ : Not applicable.

SARA 311/312

Classification : Etomoxir
BPTES
UK5099
COMBUSTIBLE DUSTS
ACUTE TOXICITY (oral) - Category 3
Not applicable.
Not applicable.

Composition/information on ingredients

Name	%	Classification
Etomoxir (R)-(+)-2-[6-(4-Chlorophenoxy)hexyl]-oxirane-2-carboxylic acid sodium salt	100	COMBUSTIBLE DUSTS ACUTE TOXICITY (oral) - Category 3
BPTES Sodium chloride	≤3	EYE IRRITATION - Category 2A
UK5099 Sodium chloride	≤3	EYE IRRITATION - Category 2A

State regulations

Massachusetts : None of the components are listed.

New York : None of the components are listed.

New Jersey : None of the components are listed.

Pennsylvania : None of the components are listed.

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals

Section 15. Regulatory information

Not listed.

[Montreal Protocol \(Annexes A, B, C, E\)](#)

Not listed.

[Stockholm Convention on Persistent Organic Pollutants](#)

Not listed.

[Rotterdam Convention on Prior Informed Consent \(PIC\)](#)

Not listed.

[UNECE Aarhus Protocol on POPs and Heavy Metals](#)

Not listed.

[Inventory list](#)

Australia	: Not determined.
Canada	: Not determined.
China	: Not determined.
Europe	: Not determined.
Japan	: Japan inventory (ENCS) : Not determined. Japan inventory (ISHL) : Not determined.
Malaysia	: Not determined.
New Zealand	: Not determined.
Philippines	: Not determined.
Republic of Korea	: Not determined.
Taiwan	: Not determined.
Thailand	: Not determined.
Turkey	: Not determined.
United States	: Not determined.
Viet Nam	: Not determined.
