SAFETY DATA SHEET
TG1 Electroporation-Competent Cells, Part Number 200123

Section 1. Identification

Product identifier : TG1 Electroporation-Competent Cells, Part Number 200123
Part No. (Chemical Kit) : 200123
Part No. : TG1 electroporation-competent cells 200123-41
pUC 18 DNA Control Plasmid 200231-42

Relevant identified uses of the substance or mixture and uses advised against
Analytical reagent.
TG1 electroporation-competent cells 0.1 ml
pUC 18 DNA Control Plasmid 0.01 ml (0.1 ng/µl)

Supplier/Manufacturer : Agilent Technologies Australia Pty Ltd
679 Springvale Road
Mulgrave
Victoria 3170, Australia
1800 802 402

Emergency telephone number (with hours of operation) : CHEMTREC®: +(61)-290372994

Section 2. Hazard(s) identification

Classification of the substance or mixture
Not classified.

TG1 electroporation-competent cells Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: 10 - 30%

GHS label elements

Signal word : No signal word.
pUC 18 DNA Control Plasmid No signal word.

Hazard statements : TG1 electroporation-competent cells No known significant effects or critical hazards.
pUC 18 DNA Control Plasmid No known significant effects or critical hazards.

Precautionary statements

Prevention : Not applicable.

Response : Not applicable.

Storage : Not applicable.

Disposal : Not applicable.

Supplemental label elements

Additional warning phrases : Not applicable.
Section 2. Hazard(s) identification

Other hazards which do not result in classification:

- TG1 electroporation-competent cells: None known.
- pUC 18 DNA Control Plasmid: None known.

Section 3. Composition and ingredient information

Substance/mixture:

- TG1 electroporation-competent cells: Mixture
- pUC 18 DNA Control Plasmid: Mixture

CAS number/other identifiers:

<table>
<thead>
<tr>
<th>Ingredient name</th>
<th>CAS number</th>
<th>% (w/w)</th>
</tr>
</thead>
<tbody>
<tr>
<td>TG1 electroporation-competent cells</td>
<td>56-81-5</td>
<td></td>
</tr>
<tr>
<td>Glycerol</td>
<td>≤10</td>
<td></td>
</tr>
</tbody>
</table>

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures:

Eye contact:

- TG1 electroporation-competent cells
- pUC 18 DNA Control Plasmid

Inhalation:

- TG1 electroporation-competent cells
- pUC 18 DNA Control Plasmid

Skin contact:

- TG1 electroporation-competent cells
- pUC 18 DNA Control Plasmid

Ingestion:

- TG1 electroporation-competent cells
- pUC 18 DNA Control Plasmid

Most important symptoms/effects, acute and delayed:

- Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Date of issue/Date of revision: 29/12/2017 Date of previous issue: 27/10/2015 Version: 4
Section 4. First aid measures

Potential acute health effects

Eye contact: TG1 electroporation-competent cells No known significant effects or critical hazards.
Skin contact: TG1 electroporation-competent cells No known significant effects or critical hazards.
Ingestion: TG1 electroporation-competent cells No known significant effects or critical hazards.
Inhalation: TG1 electroporation-competent cells No known significant effects or critical hazards.

Over-exposure signs/symptoms

Eye contact: TG1 electroporation-competent cells No specific data.
Skin contact: TG1 electroporation-competent cells No specific data.
Ingestion: TG1 electroporation-competent cells No specific data.
Inhalation: TG1 electroporation-competent cells No specific data.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician: TG1 electroporation-competent cells Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Skin contact: TG1 electroporation-competent cells Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Ingestion: TG1 electroporation-competent cells No specific data.
Inhalation: TG1 electroporation-competent cells No specific data.

Specific treatments:

Protection of first-aiders: TG1 electroporation-competent cells No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Firefighting measures

Extinguishing media

Suitable extinguishing media: TG1 electroporation-competent cells Use an extinguishing agent suitable for the surrounding fire.
Skin contact: TG1 electroporation-competent cells Use an extinguishing agent suitable for the surrounding fire.
Ingestion: TG1 electroporation-competent cells No specific data.
Inhalation: TG1 electroporation-competent cells No specific data.

Unsuitable extinguishing media:

Protection of first-aiders: TG1 electroporation-competent cells None known.

pUC 18 DNA Control Plasmid

Notes to physician:

Skin contact: pUC 18 DNA Control Plasmid No specific data.
Ingestion: pUC 18 DNA Control Plasmid No specific data.
Inhalation: pUC 18 DNA Control Plasmid No specific data.

Specific treatments:

Protection of first-aiders: pUC 18 DNA Control Plasmid No action shall be taken involving any personal risk or without suitable training.

Date of issue/Date of revision: 29/12/2017
Date of previous issue: 27/10/2015
Version: 4
Section 5. Firefighting measures

Specific hazards arising from the chemical:
- **TG1 electroporation-competent cells**
- **pUC 18 DNA Control Plasmid**

In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products:
- **TG1 electroporation-competent cells**
- **pUC 18 DNA Control Plasmid**

Decomposition products may include the following materials:
- Carbon dioxide
- Carbon monoxide

Special protective actions for fire-fighters:
- **TG1 electroporation-competent cells**
- **pUC 18 DNA Control Plasmid**

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters:
- **TG1 electroporation-competent cells**
- **pUC 18 DNA Control Plasmid**

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel:
- **TG1 electroporation-competent cells**
- **pUC 18 DNA Control Plasmid**

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spill material. Put on appropriate personal protective equipment.

For emergency responders:
- **TG1 electroporation-competent cells**
- **pUC 18 DNA Control Plasmid**

If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions:
- **TG1 electroporation-competent cells**
- **pUC 18 DNA Control Plasmid**

Avoid dispersal of spill material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
## Section 6. Accidental release measures

### Methods and material for containment and cleaning up

<table>
<thead>
<tr>
<th>Methods for cleaning up</th>
<th>TG1 electroporation-competent cells</th>
<th>Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.</th>
</tr>
</thead>

| Conditions for safe storage, including any incompatibilities | TG1 electroporation-competent cells | Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

</table>

Appropriate engineering controls: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection

Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

Appearance

Physical state: TG1 electroporation-competent cells Liquid, pUC 18 DNA Control Plasmid Liquid.

Colour: TG1 electroporation-competent cells Not available, pUC 18 DNA Control Plasmid Not available.

Odour: TG1 electroporation-competent cells Not available, pUC 18 DNA Control Plasmid Not available.

Odour threshold: TG1 electroporation-competent cells Not available, pUC 18 DNA Control Plasmid Not available.

pH: Not available.

</tbody>
</table>
Section 10. Stability and reactivity

Possibility of hazardous reactions:
- TG1 electroporation-competent cells
- pUC 18 DNA Control Plasmid
  Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid:
- TG1 electroporation-competent cells
- pUC 18 DNA Control Plasmid
  No specific data.

Incompatible materials:
- TG1 electroporation-competent cells
- pUC 18 DNA Control Plasmid
  May react or be incompatible with oxidising materials.

Hazardous decomposition products:
- TG1 electroporation-competent cells
- pUC 18 DNA Control Plasmid
  Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Aspiration hazard

Date of issue/Date of revision: 29/12/2017  Date of previous issue: 27/10/2015  Version: 4
Section 11. Toxicological information

Not available.

Information on likely routes of exposure:
- **TG1 electroporation-competent cells**
  - **pUC 18 DNA Control Plasmid**
  - Not available.

Potential acute health effects:
- **Eye contact**
  - **TG1 electroporation-competent cells**
  - **pUC 18 DNA Control Plasmid**
  - No known significant effects or critical hazards.
- **Inhalation**
  - **TG1 electroporation-competent cells**
  - **pUC 18 DNA Control Plasmid**
  - No known significant effects or critical hazards.
- **Skin contact**
  - **TG1 electroporation-competent cells**
  - **pUC 18 DNA Control Plasmid**
  - No known significant effects or critical hazards.
- **Ingestion**
  - **TG1 electroporation-competent cells**
  - **pUC 18 DNA Control Plasmid**
  - No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics:
- **Eye contact**
  - **TG1 electroporation-competent cells**
  - **pUC 18 DNA Control Plasmid**
  - No specific data.
- **Inhalation**
  - **TG1 electroporation-competent cells**
  - **pUC 18 DNA Control Plasmid**
  - No specific data.
- **Skin contact**
  - **TG1 electroporation-competent cells**
  - **pUC 18 DNA Control Plasmid**
  - No specific data.
- **Ingestion**
  - **TG1 electroporation-competent cells**
  - **pUC 18 DNA Control Plasmid**
  - No specific data.

Delayed and immediate effects as well as chronic effects from short and long-term exposure:

**Short term exposure**
- **Potential immediate effects**: Not available.
- **Potential delayed effects**: Not available.

**Long term exposure**
- **Potential immediate effects**: Not available.
- **Potential delayed effects**: Not available.

Potential chronic health effects
- **General**: Not available.
- **Carcinogenicity**: Not available.
- **Mutagenicity**: Not available.
Section 11. Toxicological information

**Teratogenicity**

TG1 electroporation-competent cells
No known significant effects or critical hazards.

pUC 18 DNA Control Plasmid
No known significant effects or critical hazards.

**Developmental effects**

TG1 electroporation-competent cells
No known significant effects or critical hazards.

pUC 18 DNA Control Plasmid
No known significant effects or critical hazards.

**Fertility effects**

TG1 electroporation-competent cells
No known significant effects or critical hazards.

pUC 18 DNA Control Plasmid
No known significant effects or critical hazards.

**Numerical measures of toxicity**

**Acute toxicity estimates**

Not available.

**Mobility in soil**

**Soil/water partition coefficient (K<sub>oc</sub>)**

Not available.

**Other adverse effects**

No known significant effects or critical hazards.

Section 13. Disposal considerations

**Disposal methods**

The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and
Section 13. Disposal considerations

its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

ADG / IMDG / IATA : Not regulated as Dangerous Goods according to the ADG Code.

Special precautions for user : Transport within user’s premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of Marpol and the IBC Code : Not available.

Section 15. Regulatory information

Standard Uniform Schedule of Medicine and Poisons
Not regulated.

Model Work Health and Safety Regulations - Scheduled Substances
No listed substance

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals
Not listed.

Montreal Protocol (Annexes A, B, C, E)
Not listed.

Stockholm Convention on Persistent Organic Pollutants
Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)
Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals
Not listed.

Inventory list

Australia : All components are listed or exempted.
Canada : All components are listed or exempted.
China : All components are listed or exempted.
Europe : All components are listed or exempted.
Japan : Japan inventory (ENCS): All components are listed or exempted. Japan inventory (ISHL): All components are listed or exempted.
Malaysia : Not determined.
New Zealand : All components are listed or exempted.
Philippines : All components are listed or exempted.
Republic of Korea : All components are listed or exempted.
Taiwan : All components are listed or exempted.
Thailand : Not determined.
Turkey : Not determined.
United States : All components are listed or exempted.
Viet Nam : Not determined.
Section 16. Any other relevant information

History

Date of issue/Date of revision : 29/12/2017
Date of previous issue : 27/10/2015.
Version : 4

Key to abbreviations

: ADG = Australian Dangerous Goods
  ATE = Acute Toxicity Estimate
  BCF = Bioconcentration Factor
  GHS = Globally Harmonized System of Classification and Labelling of Chemicals
  IATA = International Air Transport Association
  IBC = Intermediate Bulk Container
  IMDG = International Maritime Dangerous Goods
  LogPow = logarithm of the octanol/water partition coefficient
  MARPOL = International Convention for the Prevention of Pollution From Ships,
  1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)
  NOHSC = National Occupational Health and Safety Commission
  SUSMP = Standard Uniform Schedule of Medicine and Poisons
  UN = United Nations
