|--|---------------------|
| ABLE K electroporation competent cells | 5 x 0.1 ml          |
| pUC 18 DNA Control Plasmid             | 0.01 ml (0.1 ng/µl) |

- Supplier/Manufacturer** : Agilent Technologies Australia Pty Ltd  
 679 Springvale Road  
 Mulgrave  
 Victoria 3170, Australia  
 1800 802 402

- Emergency telephone number (with hours of operation)** : CHEMTREC®: +(61)-290372994

## Section 2. Hazard(s) identification

**Classification of the substance or mixture**

Not classified.

- |  |  |
|--|--|
| ABLE K electroporation competent cells | Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: 10 - 30% |
|--|--|

GHS label elements

- |                          |   |  |   |
|--------------------------|---|--|---|
| <b>Signal word</b>       | : | ABLE K electroporation competent cells | No signal word.                                   |
|                          |   | pUC 18 DNA Control Plasmid             | No signal word.                                   |
| <b>Hazard statements</b> | : | ABLE K electroporation competent cells | No known significant effects or critical hazards. |
|                          |   | pUC 18 DNA Control Plasmid             | No known significant effects or critical hazards. |

Precautionary statements

- |                   |   |  |                 |
|-------------------|---|--|-----------------|
| <b>Prevention</b> | : | ABLE K electroporation competent cells | Not applicable. |
|                   |   | pUC 18 DNA Control Plasmid             | Not applicable. |
| <b>Response</b>   | : | ABLE K electroporation competent cells | Not applicable. |
|                   |   | pUC 18 DNA Control Plasmid             | Not applicable. |
| <b>Storage</b>    | : | ABLE K electroporation competent cells | Not applicable. |
|                   |   | pUC 18 DNA Control Plasmid             | Not applicable. |
| <b>Disposal</b>   | : | ABLE K electroporation competent cells | Not applicable. |
|                   |   | pUC 18 DNA Control Plasmid             | Not applicable. |

**Supplemental label elements**

- |                                   |   |  |                 |
|-----------------------------------|---|--|-----------------|
| <b>Additional warning phrases</b> | : | ABLE K electroporation competent cells | Not applicable. |
|                                   |   | pUC 18 DNA Control Plasmid             | Not applicable. |

## Section 2. Hazard(s) identification

**Other hazards which do not result in classification** :  ABLE K electroporation competent cells None known.  
 pUC 18 DNA Control Plasmid None known.

## Section 3. Composition and ingredient information

**Substance/mixture** :  ABLE K electroporation competent cells Mixture  
 pUC 18 DNA Control Plasmid Mixture

### CAS number/other identifiers

Ingredient name	% (w/w)	CAS number
<input checked="" type="checkbox"/> ABLE K electroporation competent cells		
Glycerol	≤10	56-81-5

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

### Description of necessary first aid measures

**Eye contact** :  ABLE K electroporation competent cells Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.  
 pUC 18 DNA Control Plasmid Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

**Inhalation** :  ABLE K electroporation competent cells Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.  
 pUC 18 DNA Control Plasmid Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

**Skin contact** :  ABLE K electroporation competent cells Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.  
 pUC 18 DNA Control Plasmid Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

**Ingestion** :  ABLE K electroporation competent cells Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.  
 pUC 18 DNA Control Plasmid Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

### Most important symptoms/effects, acute and delayed

## Section 4. First aid measures

### Potential acute health effects

<b>Eye contact</b>	: ABLE K electroporation competent cells	No known significant effects or critical hazards.
	pUC 18 DNA Control Plasmid	No known significant effects or critical hazards.
<b>Inhalation</b>	: ABLE K electroporation competent cells	No known significant effects or critical hazards.
	pUC 18 DNA Control Plasmid	No known significant effects or critical hazards.
<b>Skin contact</b>	: ABLE K electroporation competent cells	No known significant effects or critical hazards.
	pUC 18 DNA Control Plasmid	No known significant effects or critical hazards.
<b>Ingestion</b>	: ABLE K electroporation competent cells	No known significant effects or critical hazards.
	pUC 18 DNA Control Plasmid	No known significant effects or critical hazards.

### Over-exposure signs/symptoms

<b>Eye contact</b>	: ABLE K electroporation competent cells	No specific data.
	pUC 18 DNA Control Plasmid	No specific data.
<b>Inhalation</b>	: ABLE K electroporation competent cells	No specific data.
	pUC 18 DNA Control Plasmid	No specific data.
<b>Skin contact</b>	: ABLE K electroporation competent cells	No specific data.
	pUC 18 DNA Control Plasmid	No specific data.
<b>Ingestion</b>	: ABLE K electroporation competent cells	No specific data.
	pUC 18 DNA Control Plasmid	No specific data.

### Indication of immediate medical attention and special treatment needed, if necessary

<b>Notes to physician</b>	: ABLE K electroporation competent cells	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
	pUC 18 DNA Control Plasmid	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
<b>Specific treatments</b>	: ABLE K electroporation competent cells	No specific treatment.
	pUC 18 DNA Control Plasmid	No specific treatment.
<b>Protection of first-aiders</b>	: ABLE K electroporation competent cells	No action shall be taken involving any personal risk or without suitable training.
	pUC 18 DNA Control Plasmid	No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

## Section 5. Firefighting measures

### Extinguishing media

<b>Suitable extinguishing media</b>	: ABLE K electroporation competent cells	Use an extinguishing agent suitable for the surrounding fire.
	pUC 18 DNA Control Plasmid	Use an extinguishing agent suitable for the surrounding fire.
<b>Unsuitable extinguishing media</b>	: ABLE K electroporation competent cells	None known.
	pUC 18 DNA Control Plasmid	None known.

## Section 5. Firefighting measures

<b>Specific hazards arising from the chemical</b>	: ABLE K electroporation competent cells pUC 18 DNA Control Plasmid	In a fire or if heated, a pressure increase will occur and the container may burst. In a fire or if heated, a pressure increase will occur and the container may burst.
<b>Hazardous thermal decomposition products</b>	: ABLE K electroporation competent cells  pUC 18 DNA Control Plasmid	Decomposition products may include the following materials: carbon dioxide carbon monoxide No specific data.
<b>Special protective actions for fire-fighters</b>	: ABLE K electroporation competent cells  pUC 18 DNA Control Plasmid	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
<b>Special protective equipment for fire-fighters</b>	: ABLE K electroporation competent cells  pUC 18 DNA Control Plasmid	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

<b>For non-emergency personnel</b>	: ABLE K electroporation competent cells  pUC 18 DNA Control Plasmid	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment. No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
<b>For emergency responders</b>	: ABLE K electroporation competent cells  pUC 18 DNA Control Plasmid	If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
<b>Environmental precautions</b>	: ABLE K electroporation competent cells  pUC 18 DNA Control Plasmid	Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## Section 6. Accidental release measures

### Methods and material for containment and cleaning up

<b>Methods for cleaning up</b>	: ABLE K electroporation competent cells	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	pUC 18 DNA Control Plasmid	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

## Section 7. Handling and storage

### Precautions for safe handling

<b>Protective measures</b>	: ABLE K electroporation competent cells	Put on appropriate personal protective equipment (see Section 8).
	pUC 18 DNA Control Plasmid	Put on appropriate personal protective equipment (see Section 8).
<b>Advice on general occupational hygiene</b>	: ABLE K electroporation competent cells	Potentially biohazardous material. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
	pUC 18 DNA Control Plasmid	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
<b>Conditions for safe storage, including any incompatibilities</b>	: ABLE K electroporation competent cells	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.
	pUC 18 DNA Control Plasmid	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls and personal protection

### Control parameters

#### Occupational exposure limits

Ingredient name	Exposure limits
ABLE K electroporation competent cells Glycerol	<b>Safe Work Australia (Australia, 1/2014).</b> TWA: 10 mg/m <sup>3</sup> 8 hours.

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### Individual protection measures

- Hygiene measures** : Handle as biohazard material (Biosafety level 1). Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
- Skin protection**
- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

### Appearance

- Physical state** :  ABLE K electroporation competent cells Liquid.  
 pUC 18 DNA Control Plasmid Liquid.
- Colour** :  ABLE K electroporation competent cells Not available.  
 pUC 18 DNA Control Plasmid Not available.
- Odour** :  ABLE K electroporation competent cells Not available.  
 pUC 18 DNA Control Plasmid Not available.
- Odour threshold** :  ABLE K electroporation competent cells Not available.  
 pUC 18 DNA Control Plasmid Not available.

## Section 9. Physical and chemical properties

<b>pH</b>	:	ABLE K electroporation competent cells	Not available.
		pUC 18 DNA Control Plasmid	7.5
<b>Melting point</b>	:	ABLE K electroporation competent cells	Not available.
		pUC 18 DNA Control Plasmid	0°C (32°F)
<b>Boiling point</b>	:	ABLE K electroporation competent cells	Not available.
		pUC 18 DNA Control Plasmid	100°C (212°F)
<b>Flash point</b>	:	ABLE K electroporation competent cells	Not available.
		pUC 18 DNA Control Plasmid	Not available.
<b>Evaporation rate</b>	:	ABLE K electroporation competent cells	Not available.
		pUC 18 DNA Control Plasmid	Not available.
<b>Flammability (solid, gas)</b>	:	ABLE K electroporation competent cells	Not applicable.
		pUC 18 DNA Control Plasmid	Not applicable.
<b>Lower and upper explosive (flammable) limits</b>	:	ABLE K electroporation competent cells	Not available.
		pUC 18 DNA Control Plasmid	Not available.
<b>Vapour pressure</b>	:	ABLE K electroporation competent cells	Not available.
		pUC 18 DNA Control Plasmid	Not available.
<b>Vapour density</b>	:	ABLE K electroporation competent cells	Not available.
		pUC 18 DNA Control Plasmid	Not available.
<b>Relative density</b>	:	ABLE K electroporation competent cells	Not available.
		pUC 18 DNA Control Plasmid	Not available.
<b>Solubility</b>	:	ABLE K electroporation competent cells	Soluble in the following materials: cold water and hot water.
		pUC 18 DNA Control Plasmid	Easily soluble in the following materials: cold water and hot water.
<b>Partition coefficient: n-octanol/water</b>	:	ABLE K electroporation competent cells	Not available.
		pUC 18 DNA Control Plasmid	Not available.
<b>Auto-ignition temperature</b>	:	ABLE K electroporation competent cells	Not available.
		pUC 18 DNA Control Plasmid	Not available.
<b>Decomposition temperature</b>	:	ABLE K electroporation competent cells	Not available.
		pUC 18 DNA Control Plasmid	Not available.
<b>Viscosity</b>	:	ABLE K electroporation competent cells	Not available.
		pUC 18 DNA Control Plasmid	Not available.

## Section 10. Stability and reactivity

<b>Reactivity</b>	:	ABLE K electroporation competent cells	No specific test data related to reactivity available for this product or its ingredients.
		pUC 18 DNA Control Plasmid	No specific test data related to reactivity available for this product or its ingredients.
<b>Chemical stability</b>	:	ABLE K electroporation competent cells	The product is stable.
		pUC 18 DNA Control Plasmid	The product is stable.

## Section 10. Stability and reactivity

<b>Possibility of hazardous reactions</b>	: <input checked="" type="checkbox"/> ABLE K electroporation competent cells	Under normal conditions of storage and use, hazardous reactions will not occur.
	pUC 18 DNA Control Plasmid	Under normal conditions of storage and use, hazardous reactions will not occur.
<b>Conditions to avoid</b>	: <input checked="" type="checkbox"/> ABLE K electroporation competent cells	No specific data.
	pUC 18 DNA Control Plasmid	No specific data.
<b>Incompatible materials</b>	: <input checked="" type="checkbox"/> ABLE K electroporation competent cells	May react or be incompatible with oxidising materials.
	pUC 18 DNA Control Plasmid	May react or be incompatible with oxidising materials.
<b>Hazardous decomposition products</b>	: <input checked="" type="checkbox"/> ABLE K electroporation competent cells	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
	pUC 18 DNA Control Plasmid	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
ABLE K electroporation competent cells Glycerol	LD50 Oral	Rat	12600 mg/kg	-

#### Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
ABLE K electroporation competent cells Glycerol	Eyes - Mild irritant	Rabbit	-	24 hours 500 milligrams	-
	Skin - Mild irritant	Rabbit	-	24 hours 500 milligrams	-

#### Sensitisation

Not available.

#### Mutagenicity

Not available.

#### Carcinogenicity

Not available.

#### Reproductive toxicity

Not available.

#### Teratogenicity

Not available.

#### Specific target organ toxicity (single exposure)

Not available.

#### Specific target organ toxicity (repeated exposure)

Not available.

## Section 11. Toxicological information

### Aspiration hazard

Not available.

**Information on likely routes of exposure** : ABLE K electroporation competent cells Routes of entry anticipated: Oral, Dermal, Inhalation.  
pUC 18 DNA Control Plasmid Not available.

### Potential acute health effects

**Eye contact** : ABLE K electroporation competent cells No known significant effects or critical hazards.  
pUC 18 DNA Control Plasmid No known significant effects or critical hazards.

**Inhalation** : ABLE K electroporation competent cells No known significant effects or critical hazards.  
pUC 18 DNA Control Plasmid No known significant effects or critical hazards.

**Skin contact** : ABLE K electroporation competent cells No known significant effects or critical hazards.  
pUC 18 DNA Control Plasmid No known significant effects or critical hazards.

**Ingestion** : ABLE K electroporation competent cells No known significant effects or critical hazards.  
pUC 18 DNA Control Plasmid No known significant effects or critical hazards.

### Symptoms related to the physical, chemical and toxicological characteristics

**Eye contact** : ABLE K electroporation competent cells No specific data.  
pUC 18 DNA Control Plasmid No specific data.

**Inhalation** : ABLE K electroporation competent cells No specific data.  
pUC 18 DNA Control Plasmid No specific data.

**Skin contact** : ABLE K electroporation competent cells No specific data.  
pUC 18 DNA Control Plasmid No specific data.

**Ingestion** : ABLE K electroporation competent cells No specific data.  
pUC 18 DNA Control Plasmid No specific data.

### Delayed and immediate effects as well as chronic effects from short and long-term exposure

#### Short term exposure

**Potential immediate effects** : Not available.

**Potential delayed effects** : Not available.

#### Long term exposure

**Potential immediate effects** : Not available.

**Potential delayed effects** : Not available.

### Potential chronic health effects

Not available.

**General** : ABLE K electroporation competent cells No known significant effects or critical hazards.  
pUC 18 DNA Control Plasmid No known significant effects or critical hazards.

**Carcinogenicity** : ABLE K electroporation competent cells No known significant effects or critical hazards.  
pUC 18 DNA Control Plasmid No known significant effects or critical hazards.

**Mutagenicity** : ABLE K electroporation competent cells No known significant effects or critical hazards.  
pUC 18 DNA Control Plasmid No known significant effects or critical hazards.

## Section 11. Toxicological information

- Teratogenicity** :  ABLE K electroporation competent cells No known significant effects or critical hazards.  
 pUC 18 DNA Control Plasmid No known significant effects or critical hazards.
- Developmental effects** :  ABLE K electroporation competent cells No known significant effects or critical hazards.  
 pUC 18 DNA Control Plasmid No known significant effects or critical hazards.
- Fertility effects** :  ABLE K electroporation competent cells No known significant effects or critical hazards.  
 pUC 18 DNA Control Plasmid No known significant effects or critical hazards.

### Numerical measures of toxicity

#### Acute toxicity estimates

Not available.

- Other information** :  ABLE K electroporation competent cells Not available.  
 pUC 18 DNA Control Plasmid Not available.

## Section 12. Ecological information

### Toxicity

Product/ingredient name	Result	Species	Exposure
<input checked="" type="checkbox"/> ABLE K electroporation competent cells Glycerol	Acute LC50 54000 mg/l Fresh water	Fish - Oncorhynchus mykiss	96 hours

### Persistence and degradability

Product/ingredient name	Test	Result	Dose	Inoculum
<input checked="" type="checkbox"/> ABLE K electroporation competent cells Glycerol	301D Ready Biodegradability - Closed Bottle Test	93 % - 30 days	-	-

### Bioaccumulative potential

Product/ingredient name	LogP <sub>ow</sub>	BCF	Potential
<input checked="" type="checkbox"/> ABLE K electroporation competent cells Glycerol	-1.76	-	low

### Mobility in soil

- Soil/water partition coefficient (K<sub>oc</sub>)** : Not available.

- Other adverse effects** : No known significant effects or critical hazards.

## Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

**ADG / IMDG / IATA** : Not regulated as Dangerous Goods according to the ADG Code .

**Special precautions for user** : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**Transport in bulk according to Annex II of Marpol and the IBC Code** : Not available.

## Section 15. Regulatory information

### Standard Uniform Schedule of Medicine and Poisons

Not regulated.

### Model Work Health and Safety Regulations - Scheduled Substances

No listed substance

### International regulations

#### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### Montreal Protocol (Annexes A, B, C, E)

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not listed.

#### Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

#### UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

### Inventory list

**Australia** : All components are listed or exempted.  
**Canada** : All components are listed or exempted.  
**China** : All components are listed or exempted.  
**Europe** : All components are listed or exempted.  
**Japan** : **Japan inventory (ENCS):** All components are listed or exempted.  
**Japan inventory (ISHL):** All components are listed or exempted.  
**Malaysia** : Not determined.  
**New Zealand** : All components are listed or exempted.  
**Philippines** : All components are listed or exempted.  
**Republic of Korea** : All components are listed or exempted.

## Section 15. Regulatory information

- Taiwan** : All components are listed or exempted.
- Thailand** :  Not determined.
- Turkey** :  Not determined.
- United States** : All components are listed or exempted.
- Viet Nam** :  Not determined.

## Section 16. Any other relevant information

### History

- Date of issue/Date of revision** : 27/11/2017
- Date of previous issue** : 24/08/2015.
- Version** : 5

### Key to abbreviations

- ADG = Australian Dangerous Goods
- ATE = Acute Toxicity Estimate
- BCF = Bioconcentration Factor
- GHS = Globally Harmonized System of Classification and Labelling of Chemicals
- IATA = International Air Transport Association
- IBC = Intermediate Bulk Container
- IMDG = International Maritime Dangerous Goods
- LogPow = logarithm of the octanol/water partition coefficient
