

# SAFETY DATA SHEET

BacterioMatch II Screening Reporter Competent Cells, Part Number 200190

## Section 1. Identification

**Product identifier** : BacterioMatch II Screening Reporter Competent Cells, Part Number 200190  
**Part No. (Chemical Kit)** : 200190  
**Part No.** :  
     pUC 18 DNA Control Plasmid 200231-42  
     BacterioMatch II Screening Reporter competent cells 200190-41  
     2-mercaptoethanol 200190-43

### Relevant identified uses of the substance or mixture and uses advised against

Analytical reagent.

pUC 18 DNA Control Plasmid 0.01 ml (0.1 ng/μl)  
 BacterioMatch II Screening Reporter competent cells 2 ml (6 x 0.5 ml)  
 2-mercaptoethanol 0.075 ml

**Supplier/Manufacturer** : Agilent Technologies Australia Pty Ltd  
 679 Springvale Road  
 Mulgrave  
 Victoria 3170, Australia  
 1800 802 402

**Emergency telephone number (with hours of operation)** : CHEMTREC®: +(61)-290372994

## Section 2. Hazard(s) identification

### Classification of the substance or mixture

#### 2-mercaptoethanol

H312 ACUTE TOXICITY (dermal) - Category 4  
 H332 ACUTE TOXICITY (inhalation) - Category 4  
 H315 SKIN CORROSION/IRRITATION - Category 2  
 H318 SERIOUS EYE DAMAGE/EYE IRRITATION - Category 1  
 H317 SKIN SENSITISATION - Category 1  
 H412 LONG-TERM (CHRONIC) AQUATIC HAZARD - Category 3

pBacterioMatch II Screening Reporter competent cells  
 Percentage of the mixture consisting of ingredient(s) of unknown dermal toxicity: 1 - 10%  
 Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: 10 - 30%

### GHS label elements

**Hazard pictograms** : 2-mercaptoethanol

**Signal word** :  
 pUC 18 DNA Control Plasmid No signal word.  
 BacterioMatch II Screening Reporter competent cells No signal word.  
 2-mercaptoethanol DANGER

## Section 2. Hazard(s) identification

<b>Hazard statements</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No known significant effects or critical hazards. No known significant effects or critical hazards.  H312 + H332 - Harmful in contact with skin or if inhaled. H318 - Causes serious eye damage. H315 - Causes skin irritation. H317 - May cause an allergic skin reaction. H412 - Harmful to aquatic life with long lasting effects.
<b>Precautionary statements</b>		
<b>Prevention</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	Not applicable. Not applicable.  P280 - Wear protective gloves. Wear eye or face protection. Wear protective clothing. P271 - Use only outdoors or in a well-ventilated area. P273 - Avoid release to the environment. P261 - Avoid breathing vapour. P264 - Wash hands thoroughly after handling. P272 - Contaminated work clothing should not be allowed out of the workplace.
<b>Response</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	Not applicable. Not applicable.  P304 + P340 + P312 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. P302 + P352 + P312 + P362 + P363 - IF ON SKIN: Wash with plenty of soap and water. Call a POISON CENTER or physician if you feel unwell. Take off contaminated clothing. Wash contaminated clothing before reuse. P333 + P313 - If skin irritation or rash occurs: Get medical attention. P305 + P351 + P338 + P310 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or physician.
<b>Storage</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	Not applicable. Not applicable.  Not applicable.
<b>Disposal</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	Not applicable. Not applicable.  P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.
<b>Supplemental label elements</b>		
<b>Additional warning phrases</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	Not applicable. Not applicable.  Not applicable.
<b>Other hazards which do not result in classification</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	None known. None known.  None known.

## Section 3. Composition and ingredient information

**Substance/mixture** : pUC 18 DNA Control Plasmid Mixture  
 BacterioMatch II Screening Mixture  
 Reporter competent cells  
 2-mercaptoethanol Mixture

### CAS number/other identifiers

Ingredient name	% (w/w)	CAS number
<b>BacterioMatch II Screening Reporter competent cells</b>		
Glycerol	≥10 - ≤30	56-81-5
Dimethyl sulfoxide	≤10	67-68-5
Sucrose	≤10	57-50-1
<b>2-mercaptoethanol</b>		
2-Mercaptoethanol	≤12	60-24-2

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

### Description of necessary first aid measures

**Eye contact** : pUC 18 DNA Control Plasmid Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

BacterioMatch II Screening Reporter competent cells Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

2-mercaptoethanol Get medical attention immediately. Call a poison center or physician. Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Chemical burns must be treated promptly by a physician.

**Inhalation** : pUC 18 DNA Control Plasmid Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

BacterioMatch II Screening Reporter competent cells Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

2-mercaptoethanol Get medical attention immediately. Call a poison center or physician. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## Section 4. First aid measures

<b>Skin contact</b>	:	pUC 18 DNA Control Plasmid	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
		BacterioMatch II Screening Reporter competent cells	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
		2-mercaptoethanol	Get medical attention immediately. Call a poison center or physician. Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Chemical burns must be treated promptly by a physician. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.
<b>Ingestion</b>	:	pUC 18 DNA Control Plasmid	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
		BacterioMatch II Screening Reporter competent cells	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
		2-mercaptoethanol	Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Chemical burns must be treated promptly by a physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

<b>Eye contact</b>	:	pUC 18 DNA Control Plasmid	No known significant effects or critical hazards.
		BacterioMatch II Screening Reporter competent cells	No known significant effects or critical hazards.
		2-mercaptoethanol	Causes serious eye damage.
<b>Inhalation</b>	:	pUC 18 DNA Control Plasmid	No known significant effects or critical hazards.
		BacterioMatch II Screening Reporter competent cells	No known significant effects or critical hazards.
		2-mercaptoethanol	Harmful if inhaled.

## Section 4. First aid measures

<b>Skin contact</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No known significant effects or critical hazards. No known significant effects or critical hazards.  Harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction.
<b>Ingestion</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No known significant effects or critical hazards. No known significant effects or critical hazards.  No known significant effects or critical hazards.
<b><u>Over-exposure signs/symptoms</u></b>		
<b>Eye contact</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No specific data. No specific data.  Adverse symptoms may include the following: pain watering redness
<b>Inhalation</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No specific data. No specific data.  No specific data.
<b>Skin contact</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No specific data. No specific data.  Adverse symptoms may include the following: pain or irritation redness blistering may occur
<b>Ingestion</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No specific data. No specific data.  Adverse symptoms may include the following: stomach pains

### **Indication of immediate medical attention and special treatment needed, if necessary**

<b>Notes to physician</b>	: pUC 18 DNA Control Plasmid  BacterioMatch II Screening Reporter competent cells  2-mercaptoethanol	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
<b>Specific treatments</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No specific treatment. No specific treatment.  No specific treatment.
<b>Protection of first-aiders</b>	: pUC 18 DNA Control Plasmid  BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No action shall be taken involving any personal risk or without suitable training. No action shall be taken involving any personal risk or without suitable training. No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

## Section 4. First aid measures

See toxicological information (Section 11)

## Section 5. Firefighting measures

### Extinguishing media

**Suitable extinguishing media** : pUC 18 DNA Control Plasmid Use an extinguishing agent suitable for the surrounding fire.  
 BacterioMatch II Screening Reporter competent cells Use an extinguishing agent suitable for the surrounding fire.  
 2-mercaptoethanol Use an extinguishing agent suitable for the surrounding fire.

**Unsuitable extinguishing media** : pUC 18 DNA Control Plasmid None known.  
 BacterioMatch II Screening Reporter competent cells None known.  
 2-mercaptoethanol None known.

### Specific hazards arising from the chemical

: pUC 18 DNA Control Plasmid In a fire or if heated, a pressure increase will occur and the container may burst.  
 BacterioMatch II Screening Reporter competent cells In a fire or if heated, a pressure increase will occur and the container may burst.  
 2-mercaptoethanol In a fire or if heated, a pressure increase will occur and the container may burst. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

### Hazardous thermal decomposition products

: pUC 18 DNA Control Plasmid No specific data.  
 BacterioMatch II Screening Reporter competent cells Decomposition products may include the following materials:  
 carbon dioxide  
 carbon monoxide  
 sulfur oxides  
 halogenated compounds  
 metal oxide/oxides  
 2-mercaptoethanol Decomposition products may include the following materials:  
 carbon dioxide  
 carbon monoxide  
 sulfur oxides

### Special protective actions for fire-fighters

: pUC 18 DNA Control Plasmid Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.  
 BacterioMatch II Screening Reporter competent cells Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.  
 2-mercaptoethanol Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

### Special protective equipment for fire-fighters

: pUC 18 DNA Control Plasmid Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.  
 BacterioMatch II Screening Reporter competent cells Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 5. Firefighting measures

2-mercaptoethanol

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

#### For non-emergency personnel

- : pUC 18 DNA Control Plasmid No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
- BacterioMatch II Screening Reporter competent cells No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
- 2-mercaptoethanol No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Do not breathe vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

#### For emergency responders

- : pUC 18 DNA Control Plasmid If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
- BacterioMatch II Screening Reporter competent cells If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
- 2-mercaptoethanol If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

#### Environmental precautions

- : pUC 18 DNA Control Plasmid Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- BacterioMatch II Screening Reporter competent cells Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- 2-mercaptoethanol Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.

### Methods and material for containment and cleaning up

## Section 6. Accidental release measures

<b>Methods for cleaning up</b>	: pUC 18 DNA Control Plasmid	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	BacterioMatch II Screening Reporter competent cells	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	2-mercaptoethanol	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

## Section 7. Handling and storage

### Precautions for safe handling

<b>Protective measures</b>	: pUC 18 DNA Control Plasmid	Put on appropriate personal protective equipment (see Section 8).
	BacterioMatch II Screening Reporter competent cells	Put on appropriate personal protective equipment (see Section 8).
	2-mercaptoethanol	Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not breathe vapour or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
<b>Advice on general occupational hygiene</b>	: pUC 18 DNA Control Plasmid	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
	BacterioMatch II Screening Reporter competent cells	Potentially biohazardous material. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
	2-mercaptoethanol	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

## Section 7. Handling and storage

**Conditions for safe storage, including any incompatibilities**

**pUC 18 DNA Control Plasmid** Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

**BacterioMatch II Screening Reporter competent cells** Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

**2-mercaptoethanol** Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls and personal protection

**Control parameters**

**Occupational exposure limits**

Ingredient name	Exposure limits
<p><b>BacterioMatch II Screening Reporter competent cells</b></p> <p>Glycerol</p> <p>Dimethyl sulfoxide</p> <p>Sucrose</p>	<p><b>Safe Work Australia (Australia, 1/2014).</b> TWA: 10 mg/m<sup>3</sup> 8 hours.</p> <p><b>DFG MAC-values list (Germany, 7/2015).</b> <b>Absorbed through skin.</b> PEAK: 320 mg/m<sup>3</sup>, 4 times per shift, 15 minutes. TWA: 160 mg/m<sup>3</sup> 8 hours. PEAK: 100 ppm, 4 times per shift, 15 minutes. TWA: 50 ppm 8 hours.</p> <p><b>Safe Work Australia (Australia, 1/2014).</b> TWA: 10 mg/m<sup>3</sup> 8 hours.</p>

**Appropriate engineering controls**

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

**Environmental exposure controls**

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Section 8. Exposure controls and personal protection

### Individual protection measures

- Hygiene measures** : Handle as biohazard material (Biosafety level 1). Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles and/or face shield. If inhalation hazards exist, a full-face respirator may be required instead.
- Skin protection**
- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

### Appearance

- Physical state** : pUC 18 DNA Control Plasmid Liquid.  
BacterioMatch II Screening Liquid.  
Reporter competent cells  
2-mercaptoethanol Liquid.
- Colour** : pUC 18 DNA Control Plasmid Not available.  
BacterioMatch II Screening Not available.  
Reporter competent cells  
2-mercaptoethanol Not available.
- Odour** : pUC 18 DNA Control Plasmid Not available.  
BacterioMatch II Screening Not available.  
Reporter competent cells  
2-mercaptoethanol Not available.
- Odour threshold** : pUC 18 DNA Control Plasmid Not available.  
BacterioMatch II Screening Not available.  
Reporter competent cells  
2-mercaptoethanol Not available.
- pH** : pUC 18 DNA Control Plasmid 7.5  
BacterioMatch II Screening 6.4  
Reporter competent cells  
2-mercaptoethanol Not available.

## Section 9. Physical and chemical properties

<b>Melting point</b>	:	pUC 18 DNA Control Plasmid	0°C (32°F)
		BacterioMatch II Screening	Not available.
		Reporter competent cells	
		2-mercaptoethanol	Not available.
<b>Boiling point</b>	:	pUC 18 DNA Control Plasmid	100°C (212°F)
		BacterioMatch II Screening	Not available.
		Reporter competent cells	
		2-mercaptoethanol	Not available.
<b>Flash point</b>	:	pUC 18 DNA Control Plasmid	Not available.
		BacterioMatch II Screening	Not available.
		Reporter competent cells	
		2-mercaptoethanol	Not available.
<b>Evaporation rate</b>	:	pUC 18 DNA Control Plasmid	Not available.

		2-mercaptoethanol	Not available.
<b>Viscosity</b>	:	pUC 18 DNA Control Plasmid	Not available.
		BacterioMatch II Screening	Not available.
		Reporter competent cells	
		2-mercaptoethanol	Not available.

## Section 10. Stability and reactivity

<b>Reactivity</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No specific test data related to reactivity available for this product or its ingredients. No specific test data related to reactivity available for this product or its ingredients. No specific test data related to reactivity available for this product or its ingredients.
<b>Chemical stability</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	The product is stable. The product is stable. The product is stable.
<b>Possibility of hazardous reactions</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	Under normal conditions of storage and use, hazardous reactions will not occur. Under normal conditions of storage and use, hazardous reactions will not occur. Under normal conditions of storage and use, hazardous reactions will not occur.
<b>Conditions to avoid</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No specific data. No specific data. No specific data.
<b>Incompatible materials</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	May react or be incompatible with oxidising materials. May react or be incompatible with oxidising materials. May react or be incompatible with oxidising materials.
<b>Hazardous decomposition products</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	Under normal conditions of storage and use, hazardous decomposition products should not be produced. Under normal conditions of storage and use, hazardous decomposition products should not be produced. Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
<b>BacterioMatch II Screening Reporter competent cells</b>				
Glycerol	LD50 Oral	Rat	12600 mg/kg	-
Dimethyl sulfoxide	LD50 Dermal	Rat	40000 mg/kg	-
	LD50 Oral	Rat	14500 mg/kg	-
Sucrose	LD50 Oral	Rat	29700 mg/kg	-
<b>2-mercaptoethanol</b>				
2-Mercaptoethanol	LD50 Dermal	Rabbit	200 mg/kg	-
	LD50 Oral	Rat	244 mg/kg	-

#### Irritation/Corrosion

## Section 11. Toxicological information

Product/ingredient name	Result	Species	Score	Exposure	Observation
BacterioMatch II Screening Reporter competent cells Glycerol	Eyes - Mild irritant	Rabbit	-	24 hours 500 milligrams	-
	Skin - Mild irritant	Rabbit	-	24 hours 500 milligrams	-
Dimethyl sulfoxide	Eyes - Mild irritant	Rabbit	-	24 hours 500 milligrams	-
	Eyes - Mild irritant	Rabbit	-	100 milligrams	-
	Skin - Mild irritant	Rabbit	-	24 hours 500 milligrams	-
	Skin - Mild irritant	Rabbit	-	100 milligrams	-
2-mercaptoethanol 2-Mercaptoethanol	Eyes - Severe irritant	Rabbit	-	2 milligrams	-

### Sensitisation

Not available.

### Mutagenicity

Not available.

### Carcinogenicity

Not available.

### Reproductive toxicity

Not available.

### Teratogenicity

Not available.

### Specific target organ toxicity (single exposure)

Name	Category	Route of exposure	Target organs
2-mercaptoethanol 2-Mercaptoethanol	Category 3	Not applicable.	Respiratory tract irritation

### Specific target organ toxicity (repeated exposure)

Not available.

### Aspiration hazard

Not available.

**Information on likely routes of exposure** : pUC 18 DNA Control Plasmid Not available.  
BacterioMatch II Screening Reporter competent cells Routes of entry anticipated: Oral, Dermal, Inhalation.  
2-mercaptoethanol Routes of entry anticipated: Oral, Dermal, Inhalation.

### Potential acute health effects

**Eye contact** : pUC 18 DNA Control Plasmid No known significant effects or critical hazards.  
BacterioMatch II Screening Reporter competent cells No known significant effects or critical hazards.  
2-mercaptoethanol Causes serious eye damage.

## Section 11. Toxicological information

<b>Inhalation</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No known significant effects or critical hazards. No known significant effects or critical hazards.  Harmful if inhaled.
<b>Skin contact</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No known significant effects or critical hazards. No known significant effects or critical hazards.  Harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction.
<b>Ingestion</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No known significant effects or critical hazards. No known significant effects or critical hazards.  No known significant effects or critical hazards.

### Symptoms related to the physical, chemical and toxicological characteristics

<b>Eye contact</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No specific data. No specific data.  Adverse symptoms may include the following: pain watering redness
<b>Inhalation</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No specific data. No specific data.  No specific data.
<b>Skin contact</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No specific data. No specific data.  Adverse symptoms may include the following: pain or irritation redness blistering may occur
<b>Ingestion</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No specific data. No specific data.  Adverse symptoms may include the following: stomach pains

### Delayed and immediate effects as well as chronic effects from short and long-term exposure

#### Short term exposure

**Potential immediate effects** : Not available.

**Potential delayed effects** : Not available.

#### Long term exposure

**Potential immediate effects** : Not available.

**Potential delayed effects** : Not available.

#### Potential chronic health effects

Not available.

**General** : pUC 18 DNA Control Plasmid  
BacterioMatch II Screening  
Reporter competent cells  
2-mercaptoethanol

No known significant effects or critical hazards.  
No known significant effects or critical hazards.  
  
Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

## Section 11. Toxicological information

<b>Carcinogenicity</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Mutagenicity</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Teratogenicity</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Developmental effects</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Fertility effects</b>	: pUC 18 DNA Control Plasmid BacterioMatch II Screening Reporter competent cells 2-mercaptoethanol	No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards.

### Numerical measures of toxicity

#### Acute toxicity estimates

Route	ATE value
<b>2-mercaptoethanol</b>	
Oral	2440 mg/kg
Dermal	2000 mg/kg
Inhalation (vapours)	20 mg/l

## Section 12. Ecological information

### Toxicity

Product/ingredient name	Result	Species	Exposure
<b>BacterioMatch II Screening Reporter competent cells</b> Glycerol Dimethyl sulfoxide	Acute LC50 54000 mg/l Fresh water Acute LC50 25000 ppm Fresh water Acute LC50 34000000 µg/l Fresh water Chronic NOEC 100 ul/L Marine water	Fish - Oncorhynchus mykiss Daphnia - Daphnia magna - Neonate Fish - Pimephales promelas Algae - Ulva lactuca	96 hours 48 hours 96 hours 72 hours

### Persistence and degradability

Product/ingredient name	Test	Result	Dose	Inoculum
<b>BacterioMatch II Screening Reporter competent cells</b> Glycerol	301D Ready Biodegradability - Closed Bottle Test	93 % - 30 days	-	-

### Bioaccumulative potential

## Section 12. Ecological information

Product/ingredient name	LogP <sub>ow</sub>	BCF	Potential
<b>BacterioMatch II Screening Reporter competent cells</b>			
Glycerol	-1.76	-	low
Dimethyl sulfoxide	-1.35	3.16	low
Sucrose	-3.7	-	low
<b>2-mercaptoethanol</b>			
2-Mercaptoethanol	-0.056	-	low

### Mobility in soil

**Soil/water partition coefficient (K<sub>oc</sub>)** : Not available.

**Other adverse effects** : No known significant effects or critical hazards.

## Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

**ADG / IMDG / IATA** : Not regulated as Dangerous Goods according to the ADG Code .

**Special precautions for user** : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**Transport in bulk according to Annex II of Marpol and the IBC Code** : Not available.

## Section 15. Regulatory information

### Standard Uniform Schedule of Medicine and Poisons

6

### Model Work Health and Safety Regulations - Scheduled Substances

No listed substance

### International regulations

#### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### Montreal Protocol (Annexes A, B, C, E)

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

## Section 15. Regulatory information

Not listed.

### [Rotterdam Convention on Prior Informed Consent \(PIC\)](#)

Not listed.

### [UNECE Aarhus Protocol on POPs and Heavy Metals](#)

Not listed.

### [Inventory list](#)

<b>Australia</b>	: All components are listed or exempted.
<b>Canada</b>	: All components are listed or exempted.
<b>China</b>	: Not determined.
<b>Europe</b>	: All components are listed or exempted.
<b>Japan</b>	: <input checked="" type="checkbox"/> <b>Japan inventory (ENCS)</b> : Not determined. <b>Japan inventory (ISHL)</b> : All components are listed or exempted.
<b>Malaysia</b>	: Not determined.
<b>New Zealand</b>	: Not determined.
<b>Philippines</b>	: Not determined.
<b>Republic of Korea</b>	: All components are listed or exempted.
<b>Taiwan</b>	: All components are listed or exempted.
<b>Thailand</b>	: <input checked="" type="checkbox"/> Not determined.
<b>Turkey</b>	: <input checked="" type="checkbox"/> Not determined.
<b>United States</b>	: All components are listed or exempted.
<b>Viet Nam</b>	: <input checked="" type="checkbox"/> Not determined.

## Section 16. Any other relevant information

### [History](#)

**Date of issue/Date of revision** : 29/12/2017

**Date of previous issue** : 19/08/2015.

**Version** : 3

### [Key to abbreviations](#)

: ADG = Australian Dangerous Goods  
 ATE = Acute Toxicity Estimate  
 BCF = Bioconcentration Factor  
 GHS = Globally Harmonized System of Classification and Labelling of Chemicals  
 IATA = International Air Transport Association  
 IBC = Intermediate Bulk Container  
 IMDG = International Maritime Dangerous Goods  
 LogPow = logarithm of the octanol/water partition coefficient  
 MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)  
 NOHSC = National Occupational Health and Safety Commission  
 SUSMP = Standard Uniform Schedule of Medicine and Poisons  
 UN = United Nations

### [Procedure used to derive the classification](#)

Classification	Justification
<b>2-mercaptoethanol</b> Acute Tox. 4, H312 Acute Tox. 4, H332 Skin Irrit. 2, H315 Eye Dam. 1, H318 Skin Sens. 1, H317 Aquatic Chronic 3, H412	Calculation method Calculation method Calculation method Calculation method Calculation method Calculation method
