

SAFETY DATA SHEET

AG1 Competent Cells, Part Number 200232

Section 1. Identification

1.1 Product identifier

| | | |
|--------------------------------|-----------------------------------------------------------|-----------|
| Product name | : AG1 Competent Cells, Part Number 200232 | |
| Part No. (Chemical Kit) | : 200232 | |
| Part No. | : <input checked="" type="checkbox"/> AG1 competent cells | 200232-41 |
| | pUC 18 DNA Control Plasmid | 200231-42 |
| | Beta Mercaptoethanol | 210200-43 |
| Validation date | : 12/21/2017 | |

1.2 Relevant identified uses of the substance or mixture and uses advised against

| | | |
|----------------------|---------------------------------------------------------|------------------------|
| Material uses | : Analytical reagent. | |
| | <input checked="" type="checkbox"/> AG1 competent cells | 1 ml (5 x 0.2 ml) |
| | pUC 18 DNA Control Plasmid | 0.01 ml (0.1 ng/μl) |
| | Beta Mercaptoethanol | 0.025 ml (25 μl 1.42M) |

1.3 Details of the supplier of the safety data sheet

| | |
|------------------------------|-------------------------------------------------------------------------------------------------------|
| Supplier/Manufacturer | : Agilent Technologies, Inc. 5301 Stevens Creek Blvd Santa Clara, CA 95051, USA 800-227-9770 |
|------------------------------|-------------------------------------------------------------------------------------------------------|

1.4 Emergency telephone number

| | |
|-----------------------------|-----------------------------|
| In case of emergency | : CHEMTREC®: 1-800-424-9300 |
|-----------------------------|-----------------------------|

Section 2. Hazards identification

2.1 Classification of the substance or mixture

| | | |
|------------------------|-----------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| OSHA/HCS status | : <input checked="" type="checkbox"/> AG1 competent cells | This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. |
| | pUC 18 DNA Control Plasmid | This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). |
| | Beta Mercaptoethanol | This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). |

Classification of the substance or mixture

| | |
|-----------------------------------------------------------------|------------------------------|
| <input checked="" type="checkbox"/> AG1 competent cells H320 | EYE IRRITATION - Category 2B |
|-----------------------------------------------------------------|------------------------------|

| | |
|-----------------------------|------------------------------------------|
| Beta Mercaptoethanol | |
| H312 | ACUTE TOXICITY (dermal) - Category 4 |
| H332 | ACUTE TOXICITY (inhalation) - Category 4 |
| H315 | SKIN IRRITATION - Category 2 |
| H318 | SERIOUS EYE DAMAGE - Category 1 |
| H317 | SKIN SENSITIZATION - Category 1 |

Section 2. Hazards identification

Ingredients of unknown toxicity : AG1 competent cells

Percentage of the mixture consisting of ingredient (s) of unknown dermal toxicity: 1 - 10%
Percentage of the mixture consisting of ingredient (s) of unknown inhalation toxicity: 10 - 30%

2.2 GHS label elements

Hazard pictograms : Beta Mercaptoethanol

Signal word : AG1 competent cells
pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

Warning
No signal word.
Danger

Hazard statements : AG1 competent cells
pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

H320 - Causes eye irritation.
No known significant effects or critical hazards.
H312 + H332 - Harmful in contact with skin or if inhaled.
H318 - Causes serious eye damage.
H315 - Causes skin irritation.
H317 - May cause an allergic skin reaction.

Precautionary statements

Prevention : AG1 competent cells
pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

P264 - Wash hands thoroughly after handling.
Not applicable.
P280 - Wear protective gloves. Wear eye or face protection. Wear protective clothing.
P271 - Use only outdoors or in a well-ventilated area.
P261 - Avoid breathing vapor.
P264 - Wash hands thoroughly after handling.
P272 (OSHA) - Contaminated work clothing must not be allowed out of the workplace.

Response : AG1 competent cells

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313 - If eye irritation persists: Get medical attention.
Not applicable.

pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

P304 + P340 + P312 - IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or physician if you feel unwell.
P302 + P352 + P312 + P363 - IF ON SKIN: Wash with plenty of soap and water. Call a POISON CENTER or physician if you feel unwell. Wash contaminated clothing before reuse.
P333 + P313 - If skin irritation or rash occurs: Get medical attention.
P305 + P351 + P338 + P310 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or physician.

Storage : AG1 competent cells
pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

Not applicable.
Not applicable.
Not applicable.

Section 2. Hazards identification

| | | |
|-----------------------------------------|-----------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Disposal | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | Not applicable. Not applicable. P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations. |
| Supplemental label elements | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | None known. None known. None known. |
| 2.3 Other hazards | | |
| Hazards not otherwise classified | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | None known. None known. None known. |

Section 3. Composition/information on ingredients

| | | |
|--------------------------|-----------------------------------------------------------------------------|-------------------------------|
| Substance/mixture | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | Mixture Mixture Mixture |
|--------------------------|-----------------------------------------------------------------------------|-------------------------------|

| Ingredient name | % | CAS number |
|-----------------------------|-----------|------------|
| AG1 competent cells | | |
| Glycerol | ≥10 - ≤25 | 56-81-5 |
| Dimethyl sulfoxide | ≤10 | 67-68-5 |
| Potassium chloride | ≤3 | 7447-40-7 |
| Beta Mercaptoethanol | | |
| 2-Mercaptoethanol | ≤12 | 60-24-2 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

4.1 Description of necessary first aid measures

| | | |
|--------------------|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye contact | : AG1 competent cells | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. If irritation persists, get medical attention. |
| | pUC 18 DNA Control Plasmid | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
| | Beta Mercaptoethanol | Get medical attention immediately. Call a poison center or physician. Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Chemical burns must be treated promptly by a physician. |

Section 4. First aid measures

| | | |
|---------------------|-----------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation | :  AG1 competent cells | Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |
| | pUC 18 DNA Control Plasmid | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| | Beta Mercaptoethanol | Get medical attention immediately. Call a poison center or physician. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |
| Skin contact | :  AG1 competent cells | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse. |
| | pUC 18 DNA Control Plasmid | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |
| | Beta Mercaptoethanol | Get medical attention immediately. Call a poison center or physician. Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Chemical burns must be treated promptly by a physician. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse. |
| Ingestion | :  AG1 competent cells | Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if |

Section 4. First aid measures

pUC 18 DNA Control Plasmid

Beta Mercaptoethanol

adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Chemical burns must be treated promptly by a physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

4.2 Most important symptoms/effects, acute and delayed

Potential acute health effects

| | | |
|---------------------|-----------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye contact | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | Causes eye irritation. No known significant effects or critical hazards. Causes serious eye damage. |
| Inhalation | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No known significant effects or critical hazards. No known significant effects or critical hazards. Harmful if inhaled. |
| Skin contact | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No known significant effects or critical hazards. No known significant effects or critical hazards. Harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction. |
| Ingestion | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards. |

Over-exposure signs/symptoms

| | | |
|--------------------|---------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye contact | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | Adverse symptoms may include the following: irritation watering redness No specific data. Adverse symptoms may include the following: pain watering redness |
|--------------------|---------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Section 4. First aid measures

| | | |
|---------------------|-----------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No specific data. No specific data. No specific data. |
| Skin contact | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No specific data. No specific data. Adverse symptoms may include the following: pain or irritation redness blistering may occur |
| Ingestion | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No specific data. No specific data. Adverse symptoms may include the following: stomach pains |

4.3 Indication of immediate medical attention and special treatment needed, if necessary

| | | |
|-----------------------------------|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Notes to physician | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
| Specific treatments | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No specific treatment. No specific treatment. No specific treatment. |
| Protection of first-aiders | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. No action shall be taken involving any personal risk or without suitable training. No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

Section 5. Fire-fighting measures

5.1 Extinguishing media

| | | |
|---------------------------------------|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | Use an extinguishing agent suitable for the surrounding fire. Use an extinguishing agent suitable for the surrounding fire. Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | None known. None known. None known. |

Section 5. Fire-fighting measures

5.2 Special hazards arising from the substance or mixture

Specific hazards arising from the chemical

: AG1 competent cells
pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

In a fire or if heated, a pressure increase will occur and the container may burst.
In a fire or if heated, a pressure increase will occur and the container may burst.
In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products

: AG1 competent cells

pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

Decomposition products may include the following materials:
carbon dioxide
carbon monoxide
sulfur oxides
halogenated compounds
metal oxide/oxides
No specific data.
Decomposition products may include the following materials:
carbon dioxide
carbon monoxide
sulfur oxides

5.3 Advice for firefighters

Special protective actions for fire-fighters

: AG1 competent cells

pUC 18 DNA Control Plasmid

Beta Mercaptoethanol

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters

: AG1 competent cells

pUC 18 DNA Control Plasmid

Beta Mercaptoethanol

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Section 6. Accidental release measures

| | | |
|--------------------------------------|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| For non-emergency personnel | : AG1 competent cells | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| | pUC 18 DNA Control Plasmid | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. |
| | Beta Mercaptoethanol | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Do not breathe vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| For emergency responders | : AG1 competent cells | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| | pUC 18 DNA Control Plasmid | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| | Beta Mercaptoethanol | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| 6.2 Environmental precautions | : AG1 competent cells | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| | pUC 18 DNA Control Plasmid | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| | Beta Mercaptoethanol | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |

6.3 Methods and materials for containment and cleaning up

Section 6. Accidental release measures

| | | |
|--------------------------------|----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Methods for cleaning up | : AG1 competent cells | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| | pUC 18 DNA Control Plasmid | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| | Beta Mercaptoethanol | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |

Section 7. Handling and storage

7.1 Precautions for safe handling

| | | |
|-----------------------------------------------|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Protective measures | : AG1 competent cells | Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |
| | pUC 18 DNA Control Plasmid | Put on appropriate personal protective equipment (see Section 8). |
| | Beta Mercaptoethanol | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |
| Advice on general occupational hygiene | : AG1 competent cells | Potentially biohazardous material. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| | pUC 18 DNA Control Plasmid | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |

Section 7. Handling and storage

Beta Mercaptoethanol

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

: AG1 competent cells

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

pUC 18 DNA Control Plasmid

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Beta Mercaptoethanol

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits |
|----------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| AG1 competent cells Glycerol Dimethyl sulfoxide Potassium chloride Beta Mercaptoethanol 2-Mercaptoethanol | OSHA PEL 1989 (United States, 3/1989). TWA: 5 mg/m ³ 8 hours. Form: Respirable fraction TWA: 10 mg/m ³ 8 hours. Form: Total dust OSHA PEL (United States, 6/2016). TWA: 5 mg/m ³ 8 hours. Form: Respirable fraction TWA: 15 mg/m ³ 8 hours. Form: Total dust AIHA WEEL (United States, 10/2011). TWA: 250 ppm 8 hours. None. AIHA WEEL (United States, 10/2011). Absorbed through skin. TWA: 0.2 ppm 8 hours. |

8.2 Exposure controls

Appropriate engineering controls

- : If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Environmental exposure controls

- : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures

- : Handle as biohazard material (Biosafety level 1). Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection

- : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles and/or face shield. If inhalation hazards exist, a full-face respirator may be required instead.

Skin protection

Hand protection

- : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

Body protection

- : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Section 8. Exposure controls/personal protection

- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

| Lower and upper explosive (flammable) limits | : AG1 competent cells | Not available. |
| | pUC 18 DNA Control Plasmid | Not available. |
| | Beta Mercaptoethanol | Not available. |
| Vapor pressure | : AG1 competent cells | Not available. |
| | pUC 18 DNA Control Plasmid | Not available. |
| | Beta Mercaptoethanol | Not available. |
| Vapor density | : AG1 competent cells | Not available. |
| | pUC 18 DNA Control Plasmid | Not available. |
| | Beta Mercaptoethanol | Not available. |
| Relative density | : AG1 competent cells | Not available. |
| | pUC 18 DNA Control Plasmid | Not available. |
| | Beta Mercaptoethanol | Not available. |

Section 9. Physical and chemical properties

| | | | |
|-----------------------------------------------|---|----------------------------|----------------------------------------------------------------------|
| Solubility | : | AG1 competent cells | Soluble in the following materials: cold water and hot water. |
| | | pUC 18 DNA Control Plasmid | Easily soluble in the following materials: cold water and hot water. |
| | | Beta Mercaptoethanol | Easily soluble in the following materials: cold water and hot water. |
| Partition coefficient: n-octanol/water | : | AG1 competent cells | Not available. |
| | | pUC 18 DNA Control Plasmid | Not available. |
| | | Beta Mercaptoethanol | Not available. |
| Auto-ignition temperature | : | AG1 competent cells | Not available. |
| | | pUC 18 DNA Control Plasmid | Not available. |
| | | Beta Mercaptoethanol | Not available. |
| Decomposition temperature | : | AG1 competent cells | Not available. |
| | | pUC 18 DNA Control Plasmid | Not available. |
| | | Beta Mercaptoethanol | Not available. |
| Viscosity | : | AG1 competent cells | Not available. |
| | | pUC 18 DNA Control Plasmid | Not available. |
| | | Beta Mercaptoethanol | Not available. |

Section 10. Stability and reactivity

| | | | |
|------------------------------------------------|---|----------------------------|--------------------------------------------------------------------------------------------|
| 10.1 Reactivity | : | AG1 competent cells | No specific test data related to reactivity available for this product or its ingredients. |
| | | pUC 18 DNA Control Plasmid | No specific test data related to reactivity available for this product or its ingredients. |
| | | Beta Mercaptoethanol | No specific test data related to reactivity available for this product or its ingredients. |
| 10.2 Chemical stability | : | AG1 competent cells | The product is stable. |
| | | pUC 18 DNA Control Plasmid | The product is stable. |
| | | Beta Mercaptoethanol | The product is stable. |
| 10.3 Possibility of hazardous reactions | : | AG1 competent cells | Under normal conditions of storage and use, hazardous reactions will not occur. |
| | | pUC 18 DNA Control Plasmid | Under normal conditions of storage and use, hazardous reactions will not occur. |
| | | Beta Mercaptoethanol | Under normal conditions of storage and use, hazardous reactions will not occur. |
| 10.4 Conditions to avoid | : | AG1 competent cells | No specific data. |
| | | pUC 18 DNA Control Plasmid | No specific data. |
| | | Beta Mercaptoethanol | No specific data. |
| 10.5 Incompatible materials | : | AG1 competent cells | May react or be incompatible with oxidizing materials. |
| | | pUC 18 DNA Control Plasmid | May react or be incompatible with oxidizing materials. |
| | | Beta Mercaptoethanol | May react or be incompatible with oxidizing materials. |

Section 10. Stability and reactivity

| | | |
|----------------------------------------------|------------------------------|------------------------------------------------------------------------------------------------------|
| 10.6 Hazardous decomposition products | : AG1 competent cells | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |
| | pUC 18 DNA Control Plasmid | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |
| | Beta Mercaptoethanol | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

Section 11. Toxicological information

11.1 Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
|-----------------------------|-------------|---------|-------------|----------|
| AG1 competent cells | | | | |
| Glycerol | LD50 Oral | Rat | 12600 mg/kg | - |
| Dimethyl sulfoxide | LD50 Dermal | Rat | 40000 mg/kg | - |
| | LD50 Oral | Rat | 14500 mg/kg | - |
| Potassium chloride | LD50 Oral | Rat | 2600 mg/kg | - |
| Beta Mercaptoethanol | | | | |
| 2-Mercaptoethanol | LD50 Dermal | Rabbit | 200 mg/kg | - |
| | LD50 Oral | Rat | 244 mg/kg | - |

Irritation/Corrosion

| Product/ingredient name | Result | Species | Score | Exposure | Observation |
|-----------------------------|------------------------|---------|-------|-------------------------|-------------|
| AG1 competent cells | | | | | |
| Glycerol | Eyes - Mild irritant | Rabbit | - | 24 hours 500 milligrams | - |
| | Skin - Mild irritant | Rabbit | - | 24 hours 500 milligrams | - |
| Dimethyl sulfoxide | Eyes - Mild irritant | Rabbit | - | 24 hours 500 milligrams | - |
| | Eyes - Mild irritant | Rabbit | - | 100 milligrams | - |
| | Skin - Mild irritant | Rabbit | - | 24 hours 500 milligrams | - |
| | Skin - Mild irritant | Rabbit | - | 100 milligrams | - |
| Potassium chloride | Eyes - Mild irritant | Rabbit | - | 24 hours 500 milligrams | - |
| Beta Mercaptoethanol | | | | | |
| 2-Mercaptoethanol | Eyes - Severe irritant | Rabbit | - | 2 milligrams | - |

Sensitization

Not available.

Mutagenicity

Not available.

Carcinogenicity

Not available.

Reproductive toxicity

Not available.

Section 11. Toxicological information

Teratogenicity

Not available.

Specific target organ toxicity (single exposure)

| Name | Category | Route of exposure | Target organs |
|--------------------------------------------------|------------|-------------------|------------------------------|
| Beta Mercaptoethanol 2-Mercaptoethanol | Category 3 | Not applicable. | Respiratory tract irritation |

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on the likely routes of exposure

: **AG1** competent cells
pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

Routes of entry anticipated: Oral, Dermal, Inhalation.
Not available.
Routes of entry anticipated: Oral, Dermal, Inhalation.

Potential acute health effects

Eye contact

: **AG1** competent cells
pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

Causes eye irritation.
No known significant effects or critical hazards.
Causes serious eye damage.

Inhalation

: **AG1** competent cells
pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

No known significant effects or critical hazards.
No known significant effects or critical hazards.
Harmful if inhaled.

Skin contact

: **AG1** competent cells
pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

No known significant effects or critical hazards.
No known significant effects or critical hazards.
Harmful in contact with skin. Causes skin irritation.
May cause an allergic skin reaction.

Ingestion

: **AG1** competent cells
pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

No known significant effects or critical hazards.
No known significant effects or critical hazards.
No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact

: **AG1** competent cells

pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

Adverse symptoms may include the following:
irritation
watering
redness
No specific data.
Adverse symptoms may include the following:
pain
watering
redness

Inhalation

: **AG1** competent cells
pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

No specific data.
No specific data.
No specific data.

Skin contact

: **AG1** competent cells
pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

No specific data.
No specific data.
Adverse symptoms may include the following:
pain or irritation
redness
blistering may occur

Section 11. Toxicological information

| | | |
|------------------|-----------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|
| Ingestion | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No specific data. No specific data. Adverse symptoms may include the following: stomach pains |
|------------------|-----------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Long term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Potential chronic health effects

| | | |
|------------------------------|-----------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No known significant effects or critical hazards. No known significant effects or critical hazards. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
| Carcinogenicity | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards. |
| Mutagenicity | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards. |
| Teratogenicity | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards. |
| Developmental effects | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards. |
| Fertility effects | : AG1 competent cells pUC 18 DNA Control Plasmid Beta Mercaptoethanol | No known significant effects or critical hazards. No known significant effects or critical hazards. No known significant effects or critical hazards. |

Numerical measures of toxicity

Acute toxicity estimates

| Route | ATE value |
|------------------------------|----------------|
| AG1 competent cells Oral | 136842.1 mg/kg |
| Beta Mercaptoethanol Oral | 2440 mg/kg |
| Dermal | 2000 mg/kg |
| Inhalation (vapors) | 20 mg/l |

Section 12. Ecological information

12.1 Toxicity

| Product/ingredient name | Result | Species | Exposure |
|----------------------------|--------------------------------------|-------------------------------------------|----------|
| AG1 competent cells | | | |
| Glycerol | Acute LC50 54000 mg/l Fresh water | Fish - Oncorhynchus mykiss | 96 hours |
| Dimethyl sulfoxide | Acute LC50 25000 ppm Fresh water | Daphnia - Daphnia magna - Neonate | 48 hours |
| Potassium chloride | Acute LC50 34000000 µg/l Fresh water | Fish - Pimephales promelas | 96 hours |
| | Chronic NOEC 100 µl/L Marine water | Algae - Ulva lactuca | 72 hours |
| | Acute EC50 1337000 µg/l Fresh water | Algae - Navicula seminulum | 96 hours |
| | Acute EC50 9.24 g/L Fresh water | Algae - Desmodesmus subspicatus | 72 hours |
| | Acute EC50 141460 µg/l Fresh water | Daphnia - Daphnia magna | 48 hours |
| | Acute LC50 12.92 mg/l Fresh water | Crustaceans - Pseudosida ramosa - Neonate | 48 hours |
| | Acute LC50 880 mg/l Fresh water | Fish - Pimephales promelas | 96 hours |

12.2 Persistence and degradability

| Product/ingredient name | Test | Result | Dose | Inoculum |
|----------------------------|--------------------------------------------------|----------------|------|----------|
| AG1 competent cells | | | | |
| Glycerol | 301D Ready Biodegradability - Closed Bottle Test | 93 % - 30 days | - | - |

| Product/ingredient name | Aquatic half-life | Photolysis | Biodegradability |
|----------------------------|-------------------|------------|------------------|
| AG1 competent cells | | | |
| Potassium chloride | - | - | Readily |

12.3 Bioaccumulative potential

| Product/ingredient name | LogP _{ow} | BCF | Potential |
|-----------------------------|--------------------|------|-----------|
| AG1 competent cells | | | |
| Glycerol | -1.76 | - | low |
| Dimethyl sulfoxide | -1.35 | 3.16 | low |
| Potassium chloride | -0.46 | - | low |
| Beta Mercaptoethanol | | | |
| 2-Mercaptoethanol | -0.056 | - | low |

12.4 Mobility in soil

Soil/water partition coefficient (K_{oc}) : Not available.

12.5 Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

13.1 Waste treatment methods

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.

The information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

Section 14. Transport information

DOT / TDG / Mexico / IMDG / IATA : Not regulated.

Special precautions for user : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of MARPOL and the IBC Code : Not available.

Section 15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

U.S. Federal regulations : TSCA 8(a) CDR Exempt/Partial exemption: Not determined
Clean Water Act (CWA) 311: Edetic acid

Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs) : Listed

Clean Air Act Section 602 Class I Substances : Not listed

Clean Air Act Section 602 Class II Substances : Not listed

DEA List I Chemicals (Precursor Chemicals) : Not listed

DEA List II Chemicals (Essential Chemicals) : Not listed

Section 15. Regulatory information

SARA 302/304

Composition/information on ingredients

No products were found.

SARA 304 RQ : Not applicable.

SARA 311/312

Classification : **AG1** competent cells
pUC 18 DNA Control Plasmid
Beta Mercaptoethanol

EYE IRRITATION - Category 2B
Not applicable.
ACUTE TOXICITY (dermal) - Category 4
ACUTE TOXICITY (inhalation) - Category 4
SKIN IRRITATION - Category 2
SERIOUS EYE DAMAGE - Category 1
SKIN SENSITIZATION - Category 1

Composition/information on ingredients

| Name | % | Classification |
|-----------------------------|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| AG1 competent cells | | |
| Glycerol | ≥10 - ≤25 | EYE IRRITATION - Category 2A |
| Dimethyl sulfoxide | ≤10 | FLAMMABLE LIQUIDS - Category 4 EYE IRRITATION - Category 2A |
| Potassium chloride | ≤3 | EYE IRRITATION - Category 2A |
| Beta Mercaptoethanol | | |
| 2-Mercaptoethanol | ≤12 | FLAMMABLE LIQUIDS - Category 4 ACUTE TOXICITY (oral) - Category 3 ACUTE TOXICITY (dermal) - Category 2 ACUTE TOXICITY (inhalation) - Category 2 SKIN IRRITATION - Category 2 SERIOUS EYE DAMAGE - Category 1 SKIN SENSITIZATION - Category 1 SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation) - Category 3 |

State regulations

Massachusetts : The following components are listed: SUCROSE DUST; GLYCERINE MIST; 2-MERCAPTOETHANOL

New York : None of the components are listed.

New Jersey : The following components are listed: DIMETHYL SULFOXIDE; METHANE, SULFINYLBI-; GLYCERIN; 1,2,3-PROPANETRIOL; THIOGLYCOL; 2-MERCAPTOETHANOL

Pennsylvania : The following components are listed: .ALPHA.-D-GLUCOPYRANOSIDE, .BETA.-D-FRUCTOFURANOSYL; 1,2,3-PROPANETRIOL; ETHANOL, 2-MERCAPTO-

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

Montreal Protocol (Annexes A, B, C, E)

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

Section 15. Regulatory information

Inventory list

| | |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Australia | : All components are listed or exempted. |
| Canada | : All components are listed or exempted. |
| China | : Not determined. |
| Europe | : All components are listed or exempted. |
| Japan | : Japan inventory (ENCS) : Not determined. Japan inventory (ISHL) : All components are listed or exempted. |
| Malaysia | : Not determined. |
| New Zealand | : Not determined. |
| Philippines | : Not determined. |
| Republic of Korea | : All components are listed or exempted. |
| Taiwan | : All components are listed or exempted. |
| Thailand | : <input checked="" type="checkbox"/> Not determined. |
| Turkey | : <input checked="" type="checkbox"/> Not determined. |
| United States | : All components are listed or exempted. |
| Viet Nam | : <input checked="" type="checkbox"/> Not determined. |
