Conforms to US OSHA Hazard Communication 29CFR1910.1200

SAFETY DATA SHEET

QuikChange Lightning Multi Site-Directed Mutagenesis Kit, Part Number 210516

Section 1. Identification

1.1 Product identifier			
Product name	: QuikChange Lightning Multi Site-Directed Mutagenesis Kit, Part Number 210516		
Part no. (chemical kit)	: 210516	210516	
Part no.			
Validation date	: 11/21/2022		
1.2 Relevant identified uses	of the substance or mixture and uses advised	<u>against</u>	
Identified uses	 Analytical reagent. QuikSolution QuikChange Lightning Multi Enzyme 10X QuikChange Lightning Multi Buffer dNTP Mix Dpn I Enzyme QuikChange Multi Control Template QuikChange Multi Ctl. Primer Mix XL10-Gold Ultracompetent cells XL10-Gold 2-Mercaptoethanol pUC 18 DNA Control Plasmid 	500 μl 10 μl (10 reactions) 200 μl 10 μl 20 μl (10 reactions) 5 μl (250 ng 50 ng/μl) 5 μl (5 μl 100 ng/μl ea.) 500 μl 50 μl 10 μl (0.1 ng / μl)	
<u>1.3 Details of the supplier of</u> Supplier/Manufacturer	the safety data sheet Agilent Technologies, Inc. 5301 Stevens Creek Blvd Santa Clara, CA 95051, USA 800-227-9770		

<u>1.4 Emergency telephone number</u>

In case of emergency : CHEMTREC®: 1-800-424-9300

Section 2. Hazards identification

2.1 Classification of the sub	<u>stance or mixture</u>	
OSHA/HCS status	: QuikSolution QuikChange Lightning Multi Enzyme 10X QuikChange Lightning Multi Buffer dNTP Mix	This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen
XL1(D-Gold 2-Mercaptoethanol	tight clothing such as a collar, tie, belt or waistband. Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Chemical burns must be treated promptly by a physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
pUC	18 DNA Control Plasmid	Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms

Protection of first-aiders	: QuikSolution	No action shall be taken involving any personal risk
Trotection of mist-alders		or without suitable training. It may be dangerous to
		the person providing aid to give mouth-to-mouth resuscitation.
	QuikChange Lightning Multi	No action shall be taken involving any personal risk
	Enzyme	or without suitable training. It may be dangerous to
	,	the person providing aid to give mouth-to-mouth resuscitation.
	10X QuikChange Lightning Multi	No action shall be taken involving any personal risk
	Buffer	or without suitable training. It may be dangerous to
		the person providing aid to give mouth-to-mouth
		resuscitation.
	dNTP Mix	No action shall be taken involving any personal risk
		or without suitable training.
	Dpn I Enzyme	No action shall be taken involving any personal risk
		or without suitable training. It may be dangerous to
		the person providing aid to give mouth-to-mouth resuscitation.
	QuikChange Multi Control	No action shall be taken involving any personal risk
	Template	or without suitable training.
	QuikChange Multi Ctl. Primer Mix	No action shall be taken involving any personal risk or without suitable training.
	XL10-Gold Ultracompetent cells	No action shall be taken involving any personal risk
		or without suitable training. It may be dangerous to
		the person providing aid to give mouth-to-mouth
		resuscitation.
	XL10-Gold 2-Mercaptoethanol	No action shall be taken involving any personal risk
		or without suitable training. If it is suspected that
		fumes are still present, the rescuer should wear an
		appropriate mask or self-contained breathing
		apparatus. It may be dangerous to the person
		providing aid to give mouth-to-mouth resuscitation.
		Wash contaminated clothing thoroughly with water
		before removing it, or wear gloves.
	pUC 18 DNA Control Plasmid	No action shall be taken involving any personal risk
		or without suitable training.

See toxicological information (Section 11)

5.1 Extinguishing media		
Suitable extinguishing media	 QuikSolution QuikChange Lightning Multi Enzyme 10X QuikChange Lightning Multi Buffer dNTP Mix Dpn I Enzyme QuikChange Multi Control Template QuikChange Multi Ctl. Primer M XL10-Gold Ultracompetent cells XL10-Gold 2-Mercaptoethanol pUC 18 DNA Control Plasmid 	 surrounding fire. Use an extinguishing agent suitable for the surrounding fire. Use an extinguishing agent suitable for the surrounding fire. Use an extinguishing agent suitable for the surrounding fire. Mix Use an extinguishing agent suitable for the surrounding fire.
	puc 18 DNA Control Plasmid	surrounding fire.
Unsuitable extinguishing media	: QuikSolution QuikChange Lightning Multi Enzyme	Do not use water jet. None known.
	10X QuikChange Lightning Mul Buffer dNTP Mix Dpn I Enzyme QuikChange Multi Control Template QuikChange Multi Ctl. Primer M XL10-Gold Ultracompetent cells XL10-Gold 2-Mercaptoethanol pUC 18 DNA Control Plasmid	None known. None known. None known.
5.2 Special hazards arising	from the substance or mixture	
Specific hazards arising from the chemical	: ØuikSolution	Combustible liquid. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. The vapor/gas is heavier than air and will spread along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back.
	QuikChange Lightning Multi Enzyme 10X QuikChange Lightning Mul Buffer	 In a fire or if heated, a pressure increase will occur and the container may burst. In a fire or if heated, a pressure increase will occur and the container may burst. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
	dNTP Mix	In a fire or if heated, a pressure increase will occur and the container may burst.
	Dpn I Enzyme	In a fire or if heated, a pressure increase will occur and the container may burst.
	QuikChange Multi Control Template QuikChange Multi Ctl. Primer N	In a fire or if heated, a pressure increase will occur and the container may burst.

Section 5. The-figh	ling measures	
	XL10-Gold Ultracompetent cells	and the container may burst. In a fire or if heated, a pressure increase will occur and the container may burst.
	XL10-Gold 2-Mercaptoethanol	In a fire or if heated, a pressure increase will occur and the container may burst. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
	pUC 18 DNA Control Plasmid	In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: QuikSolution	Decomposition products may include the following materials: carbon dioxide carbon monoxide sulfur oxides
	QuikChange Lightning Multi Enzyme	Decomposition products may include the following materials: carbon dioxide carbon monoxide
	10X QuikChange Lightning Multi Buffer	Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides sulfur oxides halogenated compounds metal oxide/oxides
	dNTP Mix	Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides phosphorus oxides
	Dpn I Enzyme	Decomposition products may include the following materials: carbon dioxide carbon monoxide halogenated compounds metal oxide/oxides
	QuikChange Multi Control	No specific data.
	Template QuikChange Multi Ctl. Primer Mix XL10-Gold Ultracompetent cells	No specific data. Decomposition products may include the following materials: carbon dioxide carbon monoxide sulfur oxides
	XL10-Gold 2-Mercaptoethanol	halogenated compounds metal oxide/oxides Decomposition products may include the following materials: carbon dioxide carbon monoxide sulfur oxides halogenated compounds
	pUC 18 DNA Control Plasmid	metal oxide/oxides No specific data.

5.3 Advice for firefighters		
Special protective actions for fire-fighters	: QuikSolution	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water
	QuikChange Lightning Multi Enzyme	spray to keep fire-exposed containers cool. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without auitable training.
	10X QuikChange Lightning Multi Buffer	without suitable training. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	dNTP Mix	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	Dpn I Enzyme	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	QuikChange Multi Control Template	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	QuikChange Multi Ctl. Primer Mix	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	XL10-Gold Ultracompetent cells	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	XL10-Gold 2-Mercaptoethanol	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	pUC 18 DNA Control Plasmid	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: QuikSolution	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive
	QuikChange Lightning Multi Enzyme	pressure mode. Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	10X QuikChange Lightning Multi Buffer	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
6.3 Methods and materials for o	containment and cleaning up	
Methods for cleaning up :	QuikSolution	Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water- soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	QuikChange Lightning Multi Enzyme	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	10X QuikChange Lightning Multi Buffer	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	dNTP Mix	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	Dpn I Enzyme	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	QuikChange Multi Control Template	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste

	disposal contractor.
QuikChange Multi Ctl. Primer Mix	Stop leak if without risk. Move containers from spill
	area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an
	inert dry material and place in an appropriate waste
	disposal container. Dispose of via a licensed waste
	disposal contractor.
XL10-Gold Ultracompetent cells	Stop leak if without risk. Move containers from spill
	area. Dilute with water and mop up if water-soluble.
	Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste
	disposal container. Dispose of via a licensed waste
	disposal contractor.
XL10-Gold 2-Mercaptoethanol	Stop leak if without risk. Move containers from spill
	area. Dilute with water and mop up if water-soluble.
	Alternatively, or if water-insoluble, absorb with an
	inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste
	disposal contractor.
pUC 18 DNA Control Plasmid	Stop leak if without risk. Move containers from spill
	area. Dilute with water and mop up if water-soluble.
	Alternatively, or if water-insoluble, absorb with an
	inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste
	disposal contractor.

7.1 Precautions for safe ha	andling	
Protective measures	: 🕅 uikSolution	Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Empty containers retain product residue and can be hazardous. Do not reuse container.
	QuikChange Lightning Multi Enzyme	Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
	10X QuikChange Lightning Multi Buffer	Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain
Date of issue : 11/21	/2022	23/53

		product residue and can be hazardous. Do not
		reuse container.
	dNTP Mix	Put on appropriate personal protective equipment (see Section 8).
	Dpn I Enzyme	Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do
		not reuse container.
	QuikChange Multi Control Template	Put on appropriate personal protective equipment (see Section 8).
	QuikChange Multi Ctl. Primer Mix	Put on appropriate personal protective equipment (see Section 8).
	XL10-Gold Ultracompetent cells	Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
	XL10-Gold 2-Mercaptoethanol pUC 18 DNA Control Plasmid	Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Avoid release to the environment. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. Put on appropriate personal protective equipment (see Section 8).
Advice on general : occupational hygiene	QuikSolution	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
	QuikChange Lightning Multi Enzyme	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
	10X QuikChange Lightning Multi Buffer	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face

dNTP Mix	before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove
Dpn I Enzyme	contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove
QuikChange Multi Control Template	contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment
QuikChange Multi Ctl. Primer Mix	before entering eating areas. See also Section 8 for additional information on hygiene measures. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment
XL10-Gold Ultracompetent cells	before entering eating areas. See also Section 8 for additional information on hygiene measures. Potentially biohazardous material. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional
XL10-Gold 2-Mercaptoethanol	information on hygiene measures. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8
pUC 18 DNA Control Plasmid	for additional information on hygiene measures. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any	: QuikSolution	Store in accordance with local regulations. Store in a segregated and approved area. Store in original
incompatibilities		container protected from direct sunlight in a dry,
		cool and well-ventilated area, away from
		incompatible materials (see Section 10) and food
		and drink. Eliminate all ignition sources. Separate
		from oxidizing materials. Keep container tightly
		closed and sealed until ready for use. Containers
		that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store
		in unlabeled containers. Use appropriate
		containment to avoid environmental contamination.
		See Section 10 for incompatible materials before
		handling or use.
	QuikChange Lightning Multi	Store in accordance with local regulations. Store in
	Enzyme	original container protected from direct sunlight in a
		dry, cool and well-ventilated area, away from
		incompatible materials (see Section 10) and food
		and drink. Keep container tightly closed and sealed until ready for use. Containers that have been
		opened must be carefully resealed and kept upright
		to prevent leakage. Do not store in unlabeled
		containers. Use appropriate containment to avoid
		environmental contamination. See Section 10 for
		incompatible materials before handling or use.
	10X QuikChange Lightning Multi	Store in accordance with local regulations. Store in
	Buffer	original container protected from direct sunlight in a
		dry, cool and well-ventilated area, away from
		incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed
		until ready for use. Containers that have been
		opened must be carefully resealed and kept upright
		to prevent leakage. Do not store in unlabeled
		containers. Use appropriate containment to avoid
		environmental contamination. See Section 10 for
		incompatible materials before handling or use.
	dNTP Mix	Store in accordance with local regulations. Store in
		original container protected from direct sunlight in a dry, cool and well-ventilated area, away from
		incompatible materials (see Section 10) and food
		and drink. Keep container tightly closed and sealed
		until ready for use. Containers that have been
		opened must be carefully resealed and kept upright
		to prevent leakage. Do not store in unlabeled
		containers. Use appropriate containment to avoid
		environmental contamination. See Section 10 for
	Dpn I Enzyme	incompatible materials before handling or use.
	ори и сидуше	Store in accordance with local regulations. Store in original container protected from direct sunlight in a
		dry, cool and well-ventilated area, away from
		incompatible materials (see Section 10) and food
		and drink. Keep container tightly closed and sealed
		until ready for use. Containers that have been
		opened must be carefully resealed and kept upright
		to prevent leakage. Do not store in unlabeled
		containers. Use appropriate containment to avoid
		environmental contamination. See Section 10 for
	QuikChange Multi Control	incompatible materials before handling or use.
	QuikChange Multi Control Template	Store in accordance with local regulations. Store in original container protected from direct sunlight in a

	dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.
QuikChange Multi Ctl. Primer Mix	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.
XL10-Gold Ultracompetent cells	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.
XL10-Gold 2-Mercaptoethanol	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.
pUC 18 DNA Control Plasmid	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

Ingredient name	Exposure limits
QuikSolution	
Dimethyl sulfoxide	OARS WEEL (United States, 1/2021). TWA: 250 ppm 8 hours.
QuikChange Lightning Multi Enzyme	
Glycerol	OSHA PEL 1989 (United States, 3/1989). TWA: 5 mg/m ³ 8 hours. Form: Respirable fraction TWA: 10 mg/m ³ 8 hours. Form: Total dust OSHA PEL (United States, 5/2018). TWA: 5 mg/m ³ 8 hours. Form: Respirable fraction TWA: 15 mg/m ³ 8 hours. Form: Total dust
Poly(oxy-1,2-ethanediyl), .alpha[(1,1,3,3-tetramethylbutyl)phenyl] omegahydroxy-	None.
10X QuikChange Lightning Multi Buffer	
Potassium chloride	None.
Ammonium sulphate	None.
Polyoxyethylene octyl phenyl ether	None.
Dpn I Enzyme	
Glycerol	OSHA PEL 1989 (United States, 3/1989). TWA: 5 mg/m ³ 8 hours. Form: Respirable fraction TWA: 10 mg/m ³ 8 hours. Form: Total dust
Date of issue : 11/21/2022	28/5

Section 8. Exposure controls/personal protection

TWA: 5 mg/m ³ 8 hours. Form: Respirable
fraction
TWA: 15 mg/m ³ 8 hours. Form: Total dust
OSHA PEL 1989 (United States, 3/1989).
TWA: 5 mg/m ³ 8 hours. Form: Respirable
fraction
TWA: 10 mg/m ³ 8 hours. Form: Total dust
OSHA PEL (United States, 5/2018).
TWA: 5 mg/m ³ 8 hours. Form: Respirable
fraction
TWA: 15 mg/m ³ 8 hours. Form: Total dust
OARS WEEL (United States, 1/2021).
TWA: 250 ppm 8 hours.
None.
OARS WEEL (United States, 1/2021).
Absorbed through skin.
TWA: 0.2 ppm 8 hours.

8.2 Exposure controls						
Appropriate engineering controls	:	If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.				
Environmental exposure controls	:	Emissions from ventilation or work process equipment should be checked to ensure hey comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.				
Individual protection measur	<u>es</u>					
Hygiene measures	:	Handle as biohazard material (Biosafety level 1). Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.				
Eye/face protection	:	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.				
Skin protection						
Hand protection	-	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.				

Section 8. Exposure controls/personal protection

-	
Body protection	 Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	 Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	 Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties and safety characteristics

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

	XL10-Gold Ultracompetent cells XL10-Gold 2-Mercaptoethanol pUC 18 DNA Control Plasmid	Not available. Not available. Not available.
Deuticle characteristics	POC TO DIA CONTO Plasmid	NUL available.
Particle characteristics		
Median particle size	: 🗖uikSolution	Not applicable.
	QuikChange Lightning Multi Enzyme	Not applicable.
	10X QuikChange Lightning Multi Buffer	Not applicable.
	dNTP Mix	Not applicable.
	Dpn I Enzyme	Not applicable.
	QuikChange Multi Control Template	Not applicable.
	QuikChange Multi Ctl. Primer Mix	Not applicable.
	XL10-Gold Ultracompetent cells	Not applicable.
	XL10-Gold 2-Mercaptoethanol	Not applicable.
	pUC 18 DNA Control Plasmid	Not applicable.

Section 10. Stability and reactivity

10.1 Reactivity	: QuikSolution	No specific test data related to reactivity available
		for this product or its ingredients.
	QuikChange Lightning Multi	No specific test data related to reactivity available
	Enzyme	for this product or its ingredients.
	10X QuikChange Lightning Multi	No specific test data related to reactivity available
	Buffer	for this product or its ingredients.
	dNTP Mix	No specific test data related to reactivity available
		for this product or its ingredients.
	Dpn I Enzyme	No specific test data related to reactivity available
		for this product or its ingredients.
	QuikChange Multi Control	No specific test data related to reactivity available
	Template	for this product or its ingredients.
	QuikChange Multi Ctl. Primer Mix	No specific test data related to reactivity available
		for this product or its ingredients.
	XL10-Gold Ultracompetent cells	No specific test data related to reactivity available
		for this product or its ingredients.
	XL10-Gold 2-Mercaptoethanol	No specific test data related to reactivity available
		for this product or its ingredients.
	pUC 18 DNA Control Plasmid	No specific test data related to reactivity available
		for this product or its ingredients.
10.2 Chemical stability	: QuikSolution	The product is stable.
-	QuikChange Lightning Multi	The product is stable.
	Enzyme	
	10X QuikChange Lightning Multi Buffer	The product is stable.
	dNTP Mix	The product is stable.
	Dpn I Enzyme	The product is stable.
	QuikChange Multi Control Template	The product is stable.
	QuikChange Multi Ctl. Primer Mix	The product is stable.
	XL10-Gold Ultracompetent cells	The product is stable.
	XL10-Gold 2-Mercaptoethanol	The product is stable.
	pUC 18 DNA Control Plasmid	The product is stable.

12.4 Mobility in soil

Soil/water partition : Not available. coefficient (Koc)

Section 13. Disposal considerations

13.1 Waste treatment methods

Disposal methods The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.

The information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

Section 14. Transport information

DOT / TDG / Mexico / IMDG / : Not regulated. ΙΑΤΑ

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments

State regulations

Massachusetts	: The following components are listed: GLYCERINE MIST
New York	: None of the components are listed.
New Jersey	: The following components are listed: GLYCERIN; DIMETHYL SULFOXIDE
Pennsylvania	: The following components are listed: 1,2,3-PROPANETRIOL
California Prop. 65	

This product does not require a Safe Harbor warning under California Prop. 65.

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals Not listed.

Montreal Protocol

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC) Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

Inventory list

Australia	: Not determined.
Canada	: All components are listed or exempted.
China	: Not determined.

: Not determined.

Section 15. Regulatory information

Eurasian Economic Union	: Russian Federation inventory: All components are listed or exempted.
Japan	: Japan inventory (CSCL): Not determined. Japan inventory (ISHL): Not determined.
New Zealand	: Not determined.

Section 16. Other information

Procedure used to derive the classification

Classification	Justification
QuikSolution	
FLAMMABLE LIQUIDS - Category 4	On basis of test data
EYE IRRITATION - Category 2B	On basis of test data
QuikChange Lightning Multi Enzyme	
EYE IRRITATION - Category 2B	Calculation method
10X QuikChange Lightning Multi Buffer	
EYE IRRITATION - Category 2A	Calculation method
AQUATIC HAZARD (LONG-TERM) - Category 3	Calculation method
Dpn I Enzyme	
EYE IRRITATION - Category 2B	Calculation method
XL10-Gold Ultracompetent cells	
EYE IRRITATION - Category 2B	Calculation method
XL10-Gold 2-Mercaptoethanol	
SERIOUS EYE DAMAGE - Category 1	Calculation method
SKIN SENSITIZATION - Category 1	Calculation method
TOXIC TO REPRODUCTION - Category 2	Calculation method
SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2	Calculation method
AQUATIC HAZARD (LONG-TERM) - Category 3	Calculation method

History

motory	
Date of issue	: 11/21/2022
