SAFETY DATA SHEET

pBC KS (-) Phagemid, Part Number 212218

Section 1. Identification

Product identifier : pBC KS (-) Phagemid, Part Number 212218
Part no. (chemical kit) : 212218
Part no. : pBC KS (-) Phagemid 212218-51
XL1-Blue MRF' E.coli Strain 200301-81

Supplier/Manufacturer : Agilent Technologies Australia Pty Ltd
679 Springvale Road
Mulgrave
Victoria 3170, Australia
1800 802 402

Emergency telephone number (with hours of operation) : CHEMTREC®: +(61)-290372994

Relevant identified uses of the substance or mixture and uses advised against

Material uses : Analytical reagent.

- pBC KS (-) Phagemid 0.02 ml
- XL1-Blue MRF' E.coli Strain 0.5 ml

Section 2. Hazard(s) identification

Classification of the substance or mixture

Not classified.

<table>
<thead>
<tr>
<th>Ingredient</th>
<th>Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity</th>
</tr>
</thead>
<tbody>
<tr>
<td>XL1-Blue MRF' E.coli Strain</td>
<td>10 - 30%</td>
</tr>
</tbody>
</table>

GHS label elements

Signal word : pBC KS (-) Phagemid
XL1-Blue MRF' E.coli Strain
No signal word.

Hazard statements : pBC KS (-) Phagemid
XL1-Blue MRF' E.coli Strain
No known significant effects or critical hazards.

Precautionary statements

Prevention : pBC KS (-) Phagemid
XL1-Blue MRF' E.coli Strain
Not applicable.

Response : pBC KS (-) Phagemid
XL1-Blue MRF' E.coli Strain
Not applicable.

Storage : pBC KS (-) Phagemid
XL1-Blue MRF' E.coli Strain
Not applicable.

Disposal : pBC KS (-) Phagemid
XL1-Blue MRF' E.coli Strain
Not applicable.

Supplemental label elements

Additional warning phrases : pBC KS (-) Phagemid
XL1-Blue MRF' E.coli Strain
Not applicable.

Other hazards which do not result in classification : pBC KS (-) Phagemid
XL1-Blue MRF' E.coli Strain
None known.

Date of issue/Date of revision : 31/08/2018
Date of previous issue : 23/06/2017
Version : 5

</tbody>
</table>

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

**Description of necessary first aid measures**

**Eye contact**
- pBC KS (-) Phagemid: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
- XL1-Blue MRF’ E.coli Strain: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

**Inhalation**
- pBC KS (-) Phagemid: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
- XL1-Blue MRF’ E.coli Strain: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

**Skin contact**
- pBC KS (-) Phagemid: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
- XL1-Blue MRF’ E.coli Strain: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

**Ingestion**
- pBC KS (-) Phagemid: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
- XL1-Blue MRF’ E.coli Strain: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

**Most important symptoms/effects, acute and delayed**

**Potential acute health effects**

- **Eye contact**: pBC KS (-) Phagemid: No known significant effects or critical hazards.
- XL1-Blue MRF’ E.coli Strain: No known significant effects or critical hazards.

- **Inhalation**: pBC KS (-) Phagemid: No known significant effects or critical hazards.
- XL1-Blue MRF’ E.coli Strain: No known significant effects or critical hazards.

- **Skin contact**: pBC KS (-) Phagemid: No known significant effects or critical hazards.
- XL1-Blue MRF’ E.coli Strain: No known significant effects or critical hazards.
Section 4. First aid measures

Ingestion:
- **pBC KS (-) Phagemid**
- **XL1-Blue MRF’ E.coli Strain**
  - No known significant effects or critical hazards.

Over-exposure signs/symptoms:
- **Eye contact**:
  - **pBC KS (-) Phagemid**
  - No specific data.
  - **XL1-Blue MRF’ E.coli Strain**
  - No specific data.

- **Inhalation**:
  - **pBC KS (-) Phagemid**
  - No specific data.
  - **XL1-Blue MRF’ E.coli Strain**
  - No specific data.

- **Skin contact**:
  - **pBC KS (-) Phagemid**
  - No specific data.
  - **XL1-Blue MRF’ E.coli Strain**
  - No specific data.

- **Ingestion**:
  - **pBC KS (-) Phagemid**
  - No specific data.
  - **XL1-Blue MRF’ E.coli Strain**
  - No specific data.

Notes to physician:
- **pBC KS (-) Phagemid**
  - Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- **XL1-Blue MRF’ E.coli Strain**
  - Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific treatments:
- **pBC KS (-) Phagemid**
  - No specific treatment.
- **XL1-Blue MRF’ E.coli Strain**
  - No specific treatment.

Protection of first-aiders:
- **pBC KS (-) Phagemid**
  - No action shall be taken involving any personal risk or without suitable training.
- **XL1-Blue MRF’ E.coli Strain**
  - No action shall be taken involving any personal risk or without suitable training.

Indication of immediate medical attention and special treatment needed, if necessary

See toxicological information (Section 11)

Section 5. Firefighting measures

Extinguishing media:

**Suitable extinguishing media**
- **pBC KS (-) Phagemid**
  - Use an extinguishing agent suitable for the surrounding fire.
- **XL1-Blue MRF’ E.coli Strain**
  - Use an extinguishing agent suitable for the surrounding fire.

**Unsuitable extinguishing media**
- **pBC KS (-) Phagemid**
  - None known.
- **XL1-Blue MRF’ E.coli Strain**
  - None known.

Specific hazards arising from the chemical:
- **pBC KS (-) Phagemid**
  - In a fire or if heated, a pressure increase will occur and the container may burst.
- **XL1-Blue MRF’ E.coli Strain**
  - In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products:
- **pBC KS (-) Phagemid**
  - No specific data.
  - Decomposition products may include the following materials:
    - carbon dioxide
    - carbon monoxide
    - halogenated compounds
    - metal oxide/oxides

Special protective actions for fire-fighters:
- **pBC KS (-) Phagemid**
  - Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
- **XL1-Blue MRF’ E.coli Strain**
  - Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Section 5. Firefighting measures

Special protective equipment for fire-fighters

- **pBC KS (-) Phagemid**: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

- **XL1-Blue MRF’ E.coli Strain**: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

- **pBC KS (-) Phagemid**: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.

- **XL1-Blue MRF’ E.coli Strain**: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.

For emergency responders

- **pBC KS (-) Phagemid**: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

- **XL1-Blue MRF’ E.coli Strain**: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions

- **pBC KS (-) Phagemid**: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

- **XL1-Blue MRF’ E.coli Strain**: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and material for containment and cleaning up

Methods for cleaning up

- **pBC KS (-) Phagemid**: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

- **XL1-Blue MRF’ E.coli Strain**: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Section 7. Handling and storage

Precautions for safe handling

**Protective measures**
- pBC KS (-) Phagemid: Put on appropriate personal protective equipment (see Section 8).
- XL1-Blue MRF’ E.coli Strain: Put on appropriate personal protective equipment (see Section 8).

**Advice on general occupational hygiene**
- pBC KS (-) Phagemid: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
- XL1-Blue MRF’ E.coli Strain: Potentially biohazardous material. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

**Conditions for safe storage, including any incompatibilities**
- pBC KS (-) Phagemid: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.
- XL1-Blue MRF’ E.coli Strain: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls and personal protection

**Control parameters**

**Occupational exposure limits**

<table>
<thead>
<tr>
<th>Ingredient name</th>
<th>Exposure limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>XL1-Blue MRF’ E.coli Strain</td>
<td>Safe Work Australia (Australia, 1/2014). TWA: 10 mg/m³ 8 hours.</td>
</tr>
<tr>
<td>Glycerol</td>
<td></td>
</tr>
</tbody>
</table>

**Appropriate engineering controls**: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

**Environmental exposure controls**: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.
Section 8. Exposure controls and personal protection

Individual protection measures

Hygiene measures: Handle as biohazard material (Biosafety level 1). Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection
Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

Appearance

Physical state: pBC KS (-) Phagemid Liquid.
XL1-Blue MRF’E.coli Strain Liquid.

Colour: pBC KS (-) Phagemid Not available.
XL1-Blue MRF’E.coli Strain Not available.

Odour: pBC KS (-) Phagemid Not available.
XL1-Blue MRF’E.coli Strain Not available.

Odour threshold: pBC KS (-) Phagemid Not available.
XL1-Blue MRF’E.coli Strain Not available.

pH: pBC KS (-) Phagemid 7.5
XL1-Blue MRF’E.coli Strain 7

Melting point: pBC KS (-) Phagemid 0°C (32°F)
XL1-Blue MRF’E.coli Strain Not available.

Boiling point: pBC KS (-) Phagemid 100°C (212°F)
XL1-Blue MRF’E.coli Strain Not available.

Flash point: pBC KS (-) Phagemid Not available.
XL1-Blue MRF’E.coli Strain Not available.

Evaporation rate: pBC KS (-) Phagemid Not available.
XL1-Blue MRF’E.coli Strain Not available.

Flammability (solid, gas): pBC KS (-) Phagemid Not applicable.
XL1-Blue MRF’E.coli Strain Not applicable.

Lower and upper explosive (flammable) limits: pBC KS (-) Phagemid Not available.
XL1-Blue MRF’E.coli Strain Not available.

Vapour pressure: pBC KS (-) Phagemid Not available.
XL1-Blue MRF’E.coli Strain Not available.

Vapour density: pBC KS (-) Phagemid Not available.
XL1-Blue MRF’E.coli Strain Not available.

Mobility in soil

Soil/water partition coefficient (Koc): Not available.
Section 12. Ecological information

Other adverse effects: No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

ADG / IMDG / IATA: Not regulated as Dangerous Goods according to the ADG Code.

Special precautions for user: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of Marpol and the IBC Code: Not available.

Section 15. Regulatory information

Standard Uniform Schedule of Medicine and Poisons
Not regulated.

Model Work Health and Safety Regulations - Scheduled Substances
No listed substance

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals
Not listed.

Montreal Protocol (Annexes A, B, C, E)
Not listed.

Stockholm Convention on Persistent Organic Pollutants
Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)
Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals
Not listed.

Inventory list

Australia: All components are listed or exempted.
Canada: All components are listed or exempted.
China: All components are listed or exempted.
Europe: All components are listed or exempted.
Japan: Japan inventory (ENCS): All components are listed or exempted.
Japan inventory (ISHL): All components are listed or exempted.
Malaysia: Not determined.
New Zealand: All components are listed or exempted.
