Section 1. Identification

1.1 Product identifier
Product name: pCMV-Script Vector, Part Number 212220
Part no. (chemical kit): 212220
Part no.:
  pCMV-Script vector: 212220-51
  XL1-Blue MRF’ E.coli Strain: 200301-81
Validation date: 3/26/2018

1.2 Relevant identified uses of the substance or mixture and uses advised against
Material uses:
  pCMV-Script vector: 0.02 ml (20 µg  1 µg/µl)
  XL1-Blue MRF’ E.coli Strain: 0.5 ml

1.3 Details of the supplier of the safety data sheet
Supplier/Manufacturer: Agilent Technologies, Inc.
5301 Stevens Creek Blvd
Santa Clara, CA 95051, USA
800-227-9770

1.4 Emergency telephone number
In case of emergency: CHEMTREC®: 1-800-424-9300

Section 2. Hazards identification

2.1 Classification of the substance or mixture
OSHA/HCS status:
  pCMV-Script vector
  XL1-Blue MRF’ E.coli Strain
While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

XL1-Blue MRF’ E.coli Strain
This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

Classification of the substance or mixture

XL1-Blue MRF’ E.coli Strain
H319
Ingredients of unknown toxicity:
  XL1-Blue MRF’ E.coli Strain
Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: 10 - 30%

2.2 GHS label elements
Hazard pictograms:
  XL1-Blue MRF’ E.coli Strain
Signal word:
  pCMV-Script vector
  XL1-Blue MRF’ E.coli Strain
No signal word.
  Warning
Hazard statements:
  pCMV-Script vector
  XL1-Blue MRF’ E.coli Strain
No known significant effects or critical hazards.
  H319 - Causes serious eye irritation.

Date of issue: 03/26/2018
Section 2. Hazards identification

Precautionary statements

Prevention: pCMV-Script vector Not applicable.
XL1-Blue MRF’ E.coli Strain

Response: pCMV-Script vector Not applicable.
XL1-Blue MRF’ E.coli Strain

XL1-Blue MRF’ E.coli Strain
P280 - Wear eye or face protection.
P264 - Wash hands thoroughly after handling.

Storage: pCMV-Script vector Not applicable.
XL1-Blue MRF’ E.coli Strain

Disposal: pCMV-Script vector Not applicable.
XL1-Blue MRF’ E.coli Strain

Supplemental label elements: pCMV-Script vector None known.
XL1-Blue MRF’ E.coli Strain

2.3 Other hazards

Hazards not otherwise classified: pCMV-Script vector None known.
XL1-Blue MRF’ E.coli Strain

Section 3. Composition/information on ingredients

Substance/mixture: pCMV-Script vector Mixture
XL1-Blue MRF’ E.coli Strain Mixture

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

4.1 Description of necessary first aid measures

Eye contact: pCMV-Script vector

XL1-Blue MRF’ E.coli Strain

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
Section 4. First aid measures

Inhalation  
- pCMV-Script vector  
  Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
- XL1-Blue MRF’ E.coli Strain  
  Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Skin contact  
- pCMV-Script vector  
  Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
- XL1-Blue MRF’ E.coli Strain  
  Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.

Ingestion  
- pCMV-Script vector  
  Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
- XL1-Blue MRF’ E.coli Strain  
  Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

4.2 Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact  
- pCMV-Script vector  
  No known significant effects or critical hazards.
- XL1-Blue MRF’ E.coli Strain  
  Causes serious eye irritation.

Inhalation  
- pCMV-Script vector  
  No known significant effects or critical hazards.
- XL1-Blue MRF’ E.coli Strain  
  No known significant effects or critical hazards.

Skin contact  
- pCMV-Script vector  
  No known significant effects or critical hazards.
- XL1-Blue MRF’ E.coli Strain  
  No known significant effects or critical hazards.
Section 4. First aid measures

**Ingestion**: No known significant effects or critical hazards.

**Over-exposure signs/symptoms**

- **Eye contact**: No specific data.
  - XL1-Blue MRF' E.coli Strain: Adverse symptoms may include the following: pain or irritation, watering, redness.

- **Inhalation**: No specific data.
- **Skin contact**: No specific data.
- **Ingestion**: No specific data.

**4.3 Indication of immediate medical attention and special treatment needed, if necessary**

- **Notes to physician**: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
  - XL1-Blue MRF' E.coli Strain: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

- **Specific treatments**: No specific treatment.
  - XL1-Blue MRF' E.coli Strain: No specific treatment.

- **Protection of first-aiders**: No action shall be taken involving any personal risk or without suitable training.
  - XL1-Blue MRF' E.coli Strain: No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

**5.1 Extinguishing media**

- **Suitable extinguishing media**: Use an extinguishing agent suitable for the surrounding fire.
  - XL1-Blue MRF' E.coli Strain: Use an extinguishing agent suitable for the surrounding fire.

- **Unsuitable extinguishing media**: None known.
  - XL1-Blue MRF' E.coli Strain: None known.

**5.2 Special hazards arising from the substance or mixture**

- **Specific hazards arising from the chemical**: In a fire or if heated, a pressure increase will occur and the container may burst.
  - XL1-Blue MRF' E.coli Strain: In a fire or if heated, a pressure increase will occur and the container may burst.
Section 5. Fire-fighting measures

Hazardous thermal decomposition products:
- pCMV-Script vector
- XL1-Blue MRF’ E.coli Strain
  - No specific data.
  - Decomposition products may include the following materials:
    - carbon dioxide
    - carbon monoxide
    - halogenated compounds
    - metal oxide/oxides

5.3 Advice for firefighters

Special protective actions for fire-fighters:
- pCMV-Script vector
- XL1-Blue MRF’ E.coli Strain
  - Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters:
- pCMV-Script vector
- XL1-Blue MRF’ E.coli Strain
  - Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel:
- pCMV-Script vector
- XL1-Blue MRF’ E.coli Strain
  - No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

For emergency responders:
- pCMV-Script vector
- XL1-Blue MRF’ E.coli Strain
  - If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Date of issue: 03/26/2018
Section 6. Accidental release measures

6.2 Environmental precautions

- **pCMV-Script vector**
  - Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
  - Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

- **XL1-Blue MRF’ E.coli Strain**
  - Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
  - Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.3 Methods and materials for containment and cleaning up

- **Methods for cleaning up**
  - **pCMV-Script vector**
    - Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

- **XL1-Blue MRF’ E.coli Strain**
  - Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

7.1 Precautions for safe handling

- **Protective measures**
  - **pCMV-Script vector**
    - Put on appropriate personal protective equipment (see Section 8).
  - **XL1-Blue MRF’ E.coli Strain**
    - Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

- **Advice on general occupational hygiene**
  - **pCMV-Script vector**
    - Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
  - **XL1-Blue MRF’ E.coli Strain**
    - Potentially biohazardous material. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
**Section 7. Handling and storage**

**7.2 Conditions for safe storage, including any incompatibilities**

---

**pCMV-Script vector**
Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

**XL1-Blue MRF’ E.coli Strain**
Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

---

**7.3 Specific end use(s)**

---

**Recommendations**
- pCMV-Script vector: Industrial applications, Professional applications.
- XL1-Blue MRF’ E.coli Strain: Industrial applications, Professional applications.

**Industrial sector specific solutions**
- pCMV-Script vector: Not applicable.
- XL1-Blue MRF’ E.coli Strain: Not applicable.

---

**8.2 Exposure controls**

---

**Appropriate engineering controls**
- Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

**Environmental exposure controls**
- Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

---

**Individual protection measures**

---

**Date of issue:** 03/26/2018
Section 8. Exposure controls/personal protection

**Hygiene measures**: Handle as biohazard material (Biosafety level 1). Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eye/face protection**: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

**Skin protection**

**Hand protection**: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

**Body protection**: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Other skin protection**: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection**: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

**Easily soluble in the following materials: cold water and hot water.**

**Soluble in the following materials: cold water and hot water.**

**Section 10. Stability and reactivity**

**10.1 Reactivity**
- pCMV-Script vector: No specific test data related to reactivity available for this product or its ingredients.
- XL1-Blue MRF’ E.coli Strain: No specific test data related to reactivity available for this product or its ingredients.

**10.2 Chemical stability**
- pCMV-Script vector: The product is stable.
- XL1-Blue MRF’ E.coli Strain: The product is stable.

**10.3 Possibility of hazardous reactions**
- pCMV-Script vector: Under normal conditions of storage and use, hazardous reactions will not occur.
- XL1-Blue MRF’ E.coli Strain: Under normal conditions of storage and use, hazardous reactions will not occur.

**10.4 Conditions to avoid**
- pCMV-Script vector: No specific data.
- XL1-Blue MRF’ E.coli Strain: No specific data.

**10.5 Incompatible materials**
- pCMV-Script vector: May react or be incompatible with oxidizing materials.
- XL1-Blue MRF’ E.coli Strain: May react or be incompatible with oxidizing materials.

**10.6 Hazardous decomposition products**
- pCMV-Script vector: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
- XL1-Blue MRF’ E.coli Strain: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### Section 13. Disposal considerations

#### 13.1 Waste treatment methods

**Disposal methods:** The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
Section 13. Disposal considerations

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements. The information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.
