Section 1. Identification

1.1 Product identifier
Product name : pDual Expression Vector - 20 micrograms, Part Number 214501
Part no. (chemical kit) : 214501
Part no. : pDual expression vector 214501-51
XL1-Blue E. coli Strain 200268-81
Validation date : 9/25/2018

1.2 Relevant identified uses of the substance or mixture and uses advised against
Material uses : Analytical reagent.
- pDual expression vector 0.02 ml
- XL1-Blue E. coli Strain 0.5 ml

1.3 Details of the supplier of the safety data sheet
Supplier/Manufacturer : Agilent Technologies, Inc.
5301 Stevens Creek Blvd
Santa Clara, CA 95051, USA
800-227-9770

1.4 Emergency telephone number
In case of emergency : CHEMTREC®: 1-800-424-9300

Section 2. Hazards identification

2.1 Classification of the substance or mixture
OSHA/HCS status : pDual expression vector
- XL1-Blue E. coli Strain
While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Classification of the substance or mixture
XL1-Blue E. coli Strain
H319 \text{EYE IRRITATION - Category 2A}

Ingredients of unknown toxicity : XL1-Blue E. coli Strain
Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: 10 - 30%

2.2 GHS label elements
Hazard pictograms : XL1-Blue E. coli Strain

Signal word : No signal word.
Warning

Hazard statements : No known significant effects or critical hazards.
H319 - Causes serious eye irritation.

Date of issue : 09/25/2018
Section 2. Hazards identification

**Precautionary statements**

**Prevention**
- pDual expression vector: Not applicable.
- XL1-Blue E. coli Strain: P280 - Wear eye or face protection.
  P264 - Wash hands thoroughly after handling.

**Response**
- pDual expression vector: Not applicable.
- XL1-Blue E. coli Strain: P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
  P337 + P313 - If eye irritation persists: Get medical attention.

**Storage**
- pDual expression vector: Not applicable.
- XL1-Blue E. coli Strain: Not applicable.

**Disposal**
- pDual expression vector: Not applicable.
- XL1-Blue E. coli Strain: Not applicable.

**Supplemental label elements**
- pDual expression vector: None known.
- XL1-Blue E. coli Strain: None known.

2.3 Other hazards

**Hazards not otherwise classified**
- pDual expression vector: None known.
- XL1-Blue E. coli Strain: None known.

Section 3. Composition/information on ingredients

**Substance/mixture**
- pDual expression vector: Mixture
- XL1-Blue E. coli Strain: Mixture

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

4.1 Description of necessary first aid measures

**Eye contact**
- pDual expression vector: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
- XL1-Blue E. coli Strain: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.

**Date of issue:** 09/25/2018
Section 4. First aid measures

Ingestion:
- pDual expression vector
- XL1-Blue E. coli Strain

Over-exposure signs/symptoms:
- Eye contact:
  - pDual expression vector
  - XL1-Blue E. coli Strain
  - No specific data.

- Inhalation:
  - pDual expression vector
  - XL1-Blue E. coli Strain
  - No specific data.

- Skin contact:
  - pDual expression vector
  - XL1-Blue E. coli Strain
  - No specific data.

- Ingestion:
  - pDual expression vector
  - XL1-Blue E. coli Strain
  - No specific data.

4.3 Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician:
- pDual expression vector
- XL1-Blue E. coli Strain
  - Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific treatments:
- pDual expression vector
- XL1-Blue E. coli Strain
  - No specific treatment.

Protection of first-aiders:
- pDual expression vector
- XL1-Blue E. coli Strain
  - No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

5.1 Extinguishing media

Suitable extinguishing media:
- pDual expression vector
- XL1-Blue E. coli Strain
  - Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media:
- pDual expression vector
- XL1-Blue E. coli Strain
  - None known.

5.2 Special hazards arising from the substance or mixture

Specific hazards arising from the chemical:
- pDual expression vector
- XL1-Blue E. coli Strain
  - In a fire or if heated, a pressure increase will occur and the container may burst.

Date of issue: 09/25/2018
Section 5. Fire-fighting measures

5.3 Advice for firefighters

Special protective actions for fire-fighters
- pDual expression vector
- XL1-Blue E. coli Strain

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters
- pDual expression vector
- XL1-Blue E. coli Strain

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
- pDual expression vector
- XL1-Blue E. coli Strain

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

For emergency responders
- pDual expression vector
- XL1-Blue E. coli Strain

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Section 6. Accidental release measures

6.2 Environmental precautions

| pDual expression vector | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| XL1-Blue E. coli Strain | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |

6.3 Methods and materials for containment and cleaning up

| Methods for cleaning up | pDual expression vector | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| XL1-Blue E. coli Strain | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |

Section 7. Handling and storage

7.1 Precautions for safe handling

| Protective measures | pDual expression vector | Put on appropriate personal protective equipment (see Section 8). |
| XL1-Blue E. coli Strain | Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |

| Advice on general occupational hygiene | pDual expression vector | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| XL1-Blue E. coli Strain | Potentially biohazardous material. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |

7.2 Conditions for safe storage, including any incompatibilities

| : |  | |
| Date of issue | 09/25/2018 | 6/15 |
Section 7. Handling and storage

**pDual expression vector**
Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

**XL1-Blue E. coli Strain**
Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

### 7.3 Specific end use(s)

**Recommendations**
- **pDual expression vector**: Industrial applications, Professional applications.
- **XL1-Blue E. coli Strain**: Industrial applications, Professional applications.

**Industrial sector specific solutions**
- **pDual expression vector**: Not applicable.
- **XL1-Blue E. coli Strain**: Not applicable.

Section 8. Exposure controls/personal protection

#### 8.1 Control parameters

**Occupational exposure limits**

<table>
<thead>
<tr>
<th>Ingredient name</th>
<th>Exposure limits</th>
</tr>
</thead>

</tr>
</tbody>
</table>

**Sodium chloride**
None.

**Ingredient name**

**Exposure limits**

#### 8.2 Exposure controls

**Appropriate engineering controls**: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

**Environmental exposure controls**: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

**Individual protection measures**

Date of issue: 09/25/2018
Section 8. Exposure controls/personal protection

**Hygiene measures**: Handle as biohazard material (Biosafety level 1). Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eye/face protection**: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

**Skin protection**

**Hand protection**: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

**Body protection**: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Other skin protection**: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection**: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

### Section 10. Stability and reactivity

#### 10.1 Reactivity

- pDual expression vector: No specific test data related to reactivity available for this product or its ingredients.
- XL1-Blue E. coli Strain: No specific test data related to reactivity available for this product or its ingredients.

#### 10.2 Chemical stability

- pDual expression vector: The product is stable.
- XL1-Blue E. coli Strain: The product is stable.

#### 10.3 Possibility of hazardous reactions

- pDual expression vector: Under normal conditions of storage and use, hazardous reactions will not occur.
- XL1-Blue E. coli Strain: Under normal conditions of storage and use, hazardous reactions will not occur.

#### 10.4 Conditions to avoid

- pDual expression vector: No specific data.
- XL1-Blue E. coli Strain: No specific data.

#### 10.5 Incompatible materials

- pDual expression vector: May react or be incompatible with oxidizing materials.
- XL1-Blue E. coli Strain: May react or be incompatible with oxidizing materials.

#### 10.6 Hazardous decomposition products

- pDual expression vector: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
- XL1-Blue E. coli Strain: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

12.4 Mobility in soil

Soil/water partition coefficient (K<sub>oc</sub>): Not available.

12.5 Other adverse effects: No known significant effects or critical hazards.

Section 13. Disposal considerations

13.1 Waste treatment methods

Disposal methods: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
Section 13. Disposal considerations

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.

The information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

Section 14. Transport information

DOT / TDG / Mexico / IMDG / IATA: Not regulated.

Special precautions for user: Transport within user’s premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of MARPOL and the IBC Code: Not available.

Section 15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

U.S. Federal regulations

Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs): Not listed
Clean Air Act Section 602 Class I Substances: Not listed
Clean Air Act Section 602 Class II Substances: Not listed
DEA List I Chemicals (Precursor Chemicals): Not listed
DEA List II Chemicals (Essential Chemicals): Not listed
SARA 302/304
Composition/information on ingredients
No products were found.

SARA 304 RQ: Not applicable.
SARA 311/312
Classification: pDual expression vector XL1-Blue E. coli Strain
