# SAFETY DATA SHEET

Agilent RNA 6000 Pico Ladder, Part Number 5067-1535

## **Section 1. Identification**

Product identifier : Agilent RNA 6000 Pico Ladder, Part Number 5067-1535

Part no. (chemical kit) : 5067-1535

Part no. : <u>RNA 6000 Pico Ladder</u> <u>G2938-80039</u>

RNA Pico Ladder Not available.

Relevant identified uses of the substance or mixture and uses advised against

Identified uses : Malytical reagent.

For research use only.

RNA Pico Ladder 1 x 0.01 ml

**Uses advised against**: Not for use in diagnostic procedures.

**Supplier/Manufacturer**: Agilent Technologies Australia Pty Ltd

679 Springvale Road

Mulgrave

Victoria 3170, Australia

1800 802 402

**Emergency telephone** number (with hours of

operation)

: CHEMTREC®: +(61)-290372994

## Section 2. Hazard(s) identification

#### Classification of the substance or mixture

Not classified.

#### **GHS label elements**

Signal word : RNA Pico Ladder No signal word.

Hazard statements : RNA Pico Ladder No known significant effects or critical hazards.

**Precautionary statements** 

Prevention: RNA Pico LadderNot applicable.Response: RNA Pico LadderNot applicable.Storage: RNA Pico LadderNot applicable.Disposal: RNA Pico LadderNot applicable.

Supplemental label elements

Additional warning : RNA Pico Ladder Not applicable.

phrases

Other hazards which do not : RNA Pico Ladder None known.

result in classification

# Section 3. Composition and ingredient information

Substance/mixture : RNA Pico Ladder Mixture

## **CAS** number/other identifiers

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Date of issue/Date of revision : 30/01/2024 Date of previous issue : 11/11/2020 Version : 8 1/8

# Section 3. Composition and ingredient information

The total concentration of ingredients in this product, reported or not in this section, is 100%.

## Section 4. First aid measures

**Description of necessary first aid measures** 

Eye contact : NA Pico Ladder Immediately flush eyes with plenty of water,

occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get

medical attention if irritation occurs.

Inhalation : RNA Pico Ladder Remove victim to fresh air and keep at rest in a

position comfortable for breathing. Get medical

attention if symptoms occur.

**Skin contact**: RNA Pico Ladder Flush contaminated skin with plenty of water.

Remove contaminated clothing and shoes. Get

medical attention if symptoms occur.

Ingestion : NA Pico Ladder Wash out mouth with water. If material has been

swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical

personnel. Get medical attention if symptoms occur.

## Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact : RNA Pico Ladder No known significant effects or critical hazards.

Inhalation : RNA Pico Ladder No known significant effects or critical hazards.

Skin contact : RNA Pico Ladder No known significant effects or critical hazards.

Ingestion : RNA Pico Ladder No known significant effects or critical hazards.

Over-exposure signs/symptoms

Eye contact:RNA Pico LadderNo specific data.Inhalation:RNA Pico LadderNo specific data.Skin contact:RNA Pico LadderNo specific data.Ingestion:RNA Pico LadderNo specific data.

#### Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician : RNA Pico Ladder Treat symptomatically. Contact poison treatment

specialist immediately if large quantities have been

ingested or inhaled.

Specific treatments : RNA Pico Ladder No specific treatment.

Protection of first-aiders : No action shall be taken involving any personal risk

or without suitable training.

#### See toxicological information (Section 11)

## Section 5. Firefighting measures

**Extinguishing media** 

Suitable extinguishing : NA Pico Ladder Use an extinguishing agent suitable for the

surrounding fire.

Unsuitable extinguishing : RNA Pico Ladder None known.

media

media

Specific hazards arising : RNA Pico Ladder In a fire or if heated, a pressure increase will occur

from the chemical and the container may burst.

Hazardous thermal : NA Pico Ladder No specific data. decomposition products

Date of issue/Date of revision : 30/01/2024 Date of previous issue : 11/11/2020 Version : 8 2/8

Agilent RNA 6000 Pico Ladder, Part Number 5067-1535

# Section 5. Firefighting measures

**Special protective actions** : RNA Pico Ladder

for fire-fighters

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or

without suitable training.

**Special protective** equipment for fire-fighters : RNA Pico Ladder

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency

personnel

: RNA Pico Ladder

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.

For emergency responders : RNA Pico Ladder

If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

**Environmental precautions** : RNA Pico Ladder Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways,

soil or air).

Methods and material for containment and cleaning up

Methods for cleaning up : RNA Pico Ladder Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

# Section 7. Handling and storage

**Precautions for safe handling** 

RNA Pico Ladder Protective measures Put on appropriate personal protective equipment (see Section 8).

**Advice on general** occupational hygiene : RNA Pico Ladder Eating, drinking and smoking should be prohibited in

areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : RNA Pico Ladder

including any incompatibilities Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid

Date of issue/Date of revision : 30/01/2024 : 11/11/2020 3/8 Date of previous issue Version: 8

## Section 7. Handling and storage

environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls and personal protection

#### **Control parameters**

Occupational exposure limits

None.

#### **Biological exposure indices**

No exposure indices known.

# Appropriate engineering controls

**Environmental exposure** controls

- : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

#### **Individual protection measures**

**Hygiene measures** 

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.

Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eye/face protection** 

: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

#### **Skin protection**

**Hand protection** 

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

**Body protection** 

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection** 

Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

# Section 9. Physical and chemical properties and safety characteristics

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

#### **Appearance**

Physical state : RNA Pico Ladder Liquid.

Colour : RNA Pico Ladder Not available.

Odour : RNA Pico Ladder Not available.

Odour threshold : RNA Pico Ladder Not available.

pH : RNA Pico Ladder Not available.

## Section 11. Toxicological information

## Information on toxicological effects

#### **Acute toxicity**

Not available.

#### **Irritation/Corrosion**

Not available.

#### **Sensitisation**

Not available.

#### Mutagenicity

**Conclusion/Summary**: Not available.

**Carcinogenicity** 

**Conclusion/Summary**: Not available.

Reproductive toxicity

**Conclusion/Summary**: Not available.

**Teratogenicity** 

Conclusion/Summary: Not available.

Specific target organ toxicity (single exposure)

Not available.

#### Specific target organ toxicity (repeated exposure)

Not available.

#### **Aspiration hazard**

Not available.

Information on likely routes : RNA Pico Ladder Routes of entry anticipated: Oral, Dermal, Inhalation,

of exposure Eyes.

Potential acute health effects

Eye contact: RNA Pico LadderNo known significant effects or critical hazards.Inhalation: RNA Pico LadderNo known significant effects or critical hazards.Skin contact: RNA Pico LadderNo known significant effects or critical hazards.Ingestion: RNA Pico LadderNo known significant effects or critical hazards.

## Symptoms related to the physical, chemical and toxicological characteristics

Eye contact:RNA Pico LadderNo specific data.Inhalation:RNA Pico LadderNo specific data.Skin contact:RNA Pico LadderNo specific data.Ingestion:RNA Pico LadderNo specific data.

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

**Short term exposure** 

Potential immediate : Not available.

effects

Potential delayed effects : Not available.

Long term exposure

Potential immediate : Not available.

effects

Potential delayed effects : Not available.

Potential chronic health effects

General : RNA Pico Ladder No known significant effects or critical hazards.

Agilent RNA 6000 Pico Ladder, Part Number 5067-1535

## **Section 11. Toxicological information**

Carcinogenicity : RNA Pico Ladder No known significant effects or critical hazards. : RNA Pico Ladder Mutagenicity No known significant effects or critical hazards. Reproductive toxicity : RNA Pico Ladder No known significant effects or critical hazards.

**Numerical measures of toxicity Acute toxicity estimates** 

N/A

# **Section 12. Ecological information**

#### **Toxicity**

Not available.

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

Not available.

#### **Mobility in soil**

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects : No known significant effects or critical hazards.

# Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

upright and secure. Ensure that persons transporting the product know what to do in

## **Section 14. Transport information**

ADG / IMDG / IATA : Not regulated as Dangerous Goods according to the ADG Code .

Special precautions for user : Transport within user's premises: always transport in closed containers that are

the event of an accident or spillage.

Transport in bulk according : Not available.

to IMO instruments

Date of issue/Date of revision : 30/01/2024 : 11/11/2020 Version: 8 7/8 Date of previous issue

## Section 15. Regulatory information

## Standard for the Uniform Scheduling of Medicines and Poisons

Not regulated.

**Model Work Health and Safety Regulations - Scheduled Substances** 

No listed substance

#### International regulations

#### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### **Montreal Protocol**

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not listed.

## Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

#### **UNECE Aarhus Protocol on POPs and Heavy Metals**

Not listed.

#### **Inventory list**

Australia : Not determined.

New Zealand : MI components are listed or exempted.
United States : All components are active or exempted.

## Section 16. Any other relevant information

**History** 

Date of issue/Date of

revision

: 30/01/2024

Date of previous issue : 11/11/2020

Version : 8

Key to abbreviations : ADG = Australian Dangerous Goods

ADR = The European Agreement concerning the International Carriage of

Dangerous Goods by Road ATE = Acute Toxicity Estimate BCF = Bioconcentration Factor

GHS = Globally Harmonized System of Classification and Labelling of Chemicals

IATA = International Air Transport Association

IBC = Intermediate Bulk Container

IMDG = International Maritime Dangerous Goods

LogPow = logarithm of the octanol/water partition coefficient

MARPOL = International Convention for the Prevention of Pollution From Ships,

1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)

N/A = Not available

SUSMP = Standard Uniform Schedule of Medicine and Poisons

**UN = United Nations** 

#### Procedure used to derive the classification

Classification

Not classified.
