

SAFETY DATA SHEET

Agilent High Sensitivity DNA Reagents, Part Number 5067-4627

Section 1. Identification

Product identifier	: Agilent High Sensitivity DNA Reagents, Part Number 5067-4627
Part no. (chemical kit)	: 5067-4627
Part no.	: <u>High Sensitivity DNA Reagent Kit I</u> <u>G2938-85004</u> High Sensitivity DNA Markers Not available. High Sensitivity DNA Gel Matrix Not available. High Sensitivity DNA Dye Not available. High Sensitivity DNA Ladder Not available.
Material uses	: For Research Use Only. Not for use in diagnostic procedures. High Sensitivity DNA Markers 2 x 400 µl High Sensitivity DNA Gel Matrix 2 x 300 µl High Sensitivity DNA Dye 1 x 40 µl High Sensitivity DNA Ladder 1 x 20 µl
Supplier/Manufacturer	: Agilent Technologies, Inc. 5301 Stevens Creek Blvd Santa Clara, CA 95051, USA 800-227-9770
Emergency telephone number (with hours of operation)	: CHEMTREC®: 1-800-424-9300

Section 2. Hazard identification

Classification of the substance or mixture

High Sensitivity DNA Dye

H227 FLAMMABLE LIQUIDS - Category 4
 H320 EYE IRRITATION - Category 2B

GHS label elements

Signal word	: High Sensitivity DNA Markers No signal word. High Sensitivity DNA Gel Matrix No signal word. High Sensitivity DNA Dye Warning High Sensitivity DNA Ladder No signal word.
Hazard statements	: High Sensitivity DNA Markers No known significant effects or critical hazards. High Sensitivity DNA Gel Matrix No known significant effects or critical hazards. High Sensitivity DNA Dye H227 - Combustible liquid. H320 - Causes eye irritation. High Sensitivity DNA Ladder No known significant effects or critical hazards.

Precautionary statements

Prevention	: High Sensitivity DNA Markers Not applicable. High Sensitivity DNA Gel Matrix Not applicable. High Sensitivity DNA Dye P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. High Sensitivity DNA Ladder Not applicable.
-------------------	--

Section 2. Hazard identification

Response	:	<input checked="" type="checkbox"/> High Sensitivity DNA Markers <input checked="" type="checkbox"/> High Sensitivity DNA Gel Matrix <input checked="" type="checkbox"/> High Sensitivity DNA Dye <input type="checkbox"/> High Sensitivity DNA Ladder	Not applicable. Not applicable. P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337 + P313 - If eye irritation persists: Get medical advice or attention. Not applicable.
Storage	:	<input checked="" type="checkbox"/> High Sensitivity DNA Markers <input checked="" type="checkbox"/> High Sensitivity DNA Gel Matrix <input checked="" type="checkbox"/> High Sensitivity DNA Dye <input type="checkbox"/> High Sensitivity DNA Ladder	Not applicable. Not applicable. Not applicable. Not applicable.
Disposal	:	<input checked="" type="checkbox"/> High Sensitivity DNA Markers <input checked="" type="checkbox"/> High Sensitivity DNA Gel Matrix <input checked="" type="checkbox"/> High Sensitivity DNA Dye <input type="checkbox"/> High Sensitivity DNA Ladder	Not applicable. Not applicable. P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations. Not applicable.
Supplemental label elements	:	<input checked="" type="checkbox"/> High Sensitivity DNA Markers <input checked="" type="checkbox"/> High Sensitivity DNA Gel Matrix <input checked="" type="checkbox"/> High Sensitivity DNA Dye <input type="checkbox"/> High Sensitivity DNA Ladder <input checked="" type="checkbox"/> High Sensitivity DNA Gel Matrix <input type="checkbox"/> High Sensitivity DNA Dye <input type="checkbox"/> High Sensitivity DNA Ladder	None known. None known. None known. None known. Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 6.5% None known. None known. None known. None known.
Other hazards which do not result in classification	:	<input checked="" type="checkbox"/> High Sensitivity DNA Markers <input checked="" type="checkbox"/> High Sensitivity DNA Gel Matrix <input checked="" type="checkbox"/> High Sensitivity DNA Dye <input type="checkbox"/> High Sensitivity DNA Ladder	None known. None known. None known. None known.

Section 3. Composition/information on ingredients

Substance/mixture	:	<input checked="" type="checkbox"/> High Sensitivity DNA Markers <input checked="" type="checkbox"/> High Sensitivity DNA Gel Matrix <input checked="" type="checkbox"/> High Sensitivity DNA Dye <input checked="" type="checkbox"/> High Sensitivity DNA Ladder	Mixture Mixture Mixture Mixture
--------------------------	---	--	--

Ingredient name	% (w/w)	CAS number
High Sensitivity DNA Dye Dimethyl sulfoxide	80 - 100	67-68-5

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First-aid measures

Description of necessary first aid measures

Eye contact	: High Sensitivity DNA Markers	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
	High Sensitivity DNA Gel Matrix	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
	High Sensitivity DNA Dye	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. If irritation persists, get medical attention.
	High Sensitivity DNA Ladder	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: High Sensitivity DNA Markers	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
	High Sensitivity DNA Gel Matrix	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
	High Sensitivity DNA Dye	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
	High Sensitivity DNA Ladder	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: High Sensitivity DNA Markers	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
	High Sensitivity DNA Gel Matrix	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
	High Sensitivity DNA Dye	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.
	High Sensitivity DNA Ladder	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

Section 4. First-aid measures

Ingestion	: High Sensitivity DNA Markers	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	High Sensitivity DNA Gel Matrix	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	High Sensitivity DNA Dye	Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
	High Sensitivity DNA Ladder	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact	: High Sensitivity DNA Markers	No known significant effects or critical hazards.
	High Sensitivity DNA Gel Matrix	No known significant effects or critical hazards.
	High Sensitivity DNA Dye	Causes eye irritation.
	High Sensitivity DNA Ladder	No known significant effects or critical hazards.
Inhalation	: High Sensitivity DNA Markers	No known significant effects or critical hazards.
	High Sensitivity DNA Gel Matrix	No known significant effects or critical hazards.
	High Sensitivity DNA Dye	No known significant effects or critical hazards.
	High Sensitivity DNA Ladder	No known significant effects or critical hazards.
Skin contact	: High Sensitivity DNA Markers	No known significant effects or critical hazards.
	High Sensitivity DNA Gel Matrix	No known significant effects or critical hazards.
	High Sensitivity DNA Dye	No known significant effects or critical hazards.
	High Sensitivity DNA Ladder	No known significant effects or critical hazards.

Section 4. First-aid measures

Ingestion	: High Sensitivity DNA Markers	No known significant effects or critical hazards.
	High Sensitivity DNA Gel Matrix	No known significant effects or critical hazards.
	High Sensitivity DNA Dye	No known significant effects or critical hazards.
	High Sensitivity DNA Ladder	No known significant effects or critical hazards.

Over-exposure signs/symptoms

Eye contact	: High Sensitivity DNA Markers	No specific data.
	High Sensitivity DNA Gel Matrix	No specific data.
	High Sensitivity DNA Dye	Adverse symptoms may include the following: irritation watering redness
	High Sensitivity DNA Ladder	No specific data.

Inhalation	: High Sensitivity DNA Markers	No specific data.
	High Sensitivity DNA Gel Matrix	No specific data.
	High Sensitivity DNA Dye	No specific data.
	High Sensitivity DNA Ladder	No specific data.

Skin contact	: High Sensitivity DNA Markers	No specific data.
	High Sensitivity DNA Gel Matrix	No specific data.
	High Sensitivity DNA Dye	No specific data.
	High Sensitivity DNA Ladder	No specific data.

Ingestion	: High Sensitivity DNA Markers	No specific data.
	High Sensitivity DNA Gel Matrix	No specific data.
	High Sensitivity DNA Dye	No specific data.
	High Sensitivity DNA Ladder	No specific data.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: High Sensitivity DNA Markers	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
	High Sensitivity DNA Gel Matrix	In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
	High Sensitivity DNA Dye	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
	High Sensitivity DNA Ladder	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific treatments	: High Sensitivity DNA Markers	No specific treatment.
	High Sensitivity DNA Gel Matrix	No specific treatment.
	High Sensitivity DNA Dye	No specific treatment.
	High Sensitivity DNA Ladder	No specific treatment.

Protection of first-aiders	: High Sensitivity DNA Markers	No action shall be taken involving any personal risk or without suitable training.
	High Sensitivity DNA Gel Matrix	No action shall be taken involving any personal risk or without suitable training.
	High Sensitivity DNA Dye	No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth

Section 4. First-aid measures

High Sensitivity DNA Ladder	resuscitation. No action shall be taken involving any personal risk or without suitable training.
-----------------------------	--

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media	: High Sensitivity DNA Markers	Use an extinguishing agent suitable for the surrounding fire.
	High Sensitivity DNA Gel Matrix	Use an extinguishing agent suitable for the surrounding fire.
	High Sensitivity DNA Dye	Use dry chemical, CO ₂ , water spray (fog) or foam.
	High Sensitivity DNA Ladder	Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: High Sensitivity DNA Markers	None known.
	High Sensitivity DNA Gel Matrix	None known.
	High Sensitivity DNA Dye	Do not use water jet.
	High Sensitivity DNA Ladder	None known.
Specific hazards arising from the chemical	: High Sensitivity DNA Markers	In a fire or if heated, a pressure increase will occur and the container may burst.
	High Sensitivity DNA Gel Matrix	In a fire or if heated, a pressure increase will occur and the container may burst.
	High Sensitivity DNA Dye	Combustible liquid. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. The vapor/gas is heavier than air and will spread along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back.
	High Sensitivity DNA Ladder	In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: High Sensitivity DNA Markers	No specific data.
	High Sensitivity DNA Gel Matrix	Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides sulfur oxides
	High Sensitivity DNA Dye	Decomposition products may include the following materials: carbon dioxide carbon monoxide sulfur oxides
	High Sensitivity DNA Ladder	No specific data.
Special protective actions for fire-fighters	: High Sensitivity DNA Markers	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	High Sensitivity DNA Gel Matrix	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or

Section 5. Fire-fighting measures

	High Sensitivity DNA Dye	without suitable training. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
	High Sensitivity DNA Ladder	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: High Sensitivity DNA Markers	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	High Sensitivity DNA Gel Matrix	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	High Sensitivity DNA Dye	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	High Sensitivity DNA Ladder	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	: High Sensitivity DNA Markers	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
	High Sensitivity DNA Gel Matrix	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
	High Sensitivity DNA Dye	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
	High Sensitivity DNA Ladder	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

Section 6. Accidental release measures

For emergency responders	: High Sensitivity DNA Markers	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
	High Sensitivity DNA Gel Matrix	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
	High Sensitivity DNA Dye	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
	High Sensitivity DNA Ladder	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions	: High Sensitivity DNA Markers	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
	High Sensitivity DNA Gel Matrix	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
	High Sensitivity DNA Dye	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
	High Sensitivity DNA Ladder	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

Methods for cleaning up	: High Sensitivity DNA Markers	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	High Sensitivity DNA Gel Matrix	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	High Sensitivity DNA Dye	Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 6. Accidental release measures

High Sensitivity DNA Ladder Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

Precautions for safe handling

Protective measures

High Sensitivity DNA Markers Put on appropriate personal protective equipment (see Section 8).

High Sensitivity DNA Gel Matrix Put on appropriate personal protective equipment (see Section 8).

High Sensitivity DNA Dye Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Empty containers retain product residue and can be hazardous. Do not reuse container.

High Sensitivity DNA Ladder Put on appropriate personal protective equipment (see Section 8).

Advice on general occupational hygiene

High Sensitivity DNA Markers Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

High Sensitivity DNA Gel Matrix Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

High Sensitivity DNA Dye Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

High Sensitivity DNA Ladder Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Section 7. Handling and storage

<p>Conditions for safe storage, including any incompatibilities</p>	<p>High Sensitivity DNA Markers</p>	<p>Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.</p>
	<p>High Sensitivity DNA Gel Matrix</p>	<p>Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.</p>
	<p>High Sensitivity DNA Dye</p>	<p>Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.</p>
	<p>High Sensitivity DNA Ladder</p>	<p>Storage temperature: 4°C (39.2°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.</p>

Section 8. Exposure controls/personal protection

[Control parameters](#)

[Occupational exposure limits](#)

Section 8. Exposure controls/personal protection

Ingredient name	Exposure limits
High Sensitivity DNA Dye Dimethyl sulfoxide	AIHA WEEL (United States, 7/2018). TWA: 250 ppm 8 hours.

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.
- Individual protection measures**
- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.
- Skin protection**
- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

		High Sensitivity DNA Dye	Not available.
		High Sensitivity DNA Ladder	Not available.
Viscosity	:	High Sensitivity DNA Markers	Not available.
		High Sensitivity DNA Gel Matrix	Not available.
		High Sensitivity DNA Dye	Not available.
		High Sensitivity DNA Ladder	Not available.

Section 10. Stability and reactivity

Reactivity	:	High Sensitivity DNA Markers	No specific test data related to reactivity available for this product or its ingredients.
		High Sensitivity DNA Gel Matrix	No specific test data related to reactivity available for this product or its ingredients.
		High Sensitivity DNA Dye	No specific test data related to reactivity available for this product or its ingredients.
		High Sensitivity DNA Ladder	No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	:	High Sensitivity DNA Markers	The product is stable.
		High Sensitivity DNA Gel Matrix	The product is stable.
		High Sensitivity DNA Dye	The product is stable.
		High Sensitivity DNA Ladder	The product is stable.

Section 10. Stability and reactivity

Possibility of hazardous reactions	: High Sensitivity DNA Markers	Under normal conditions of storage and use, hazardous reactions will not occur.
	High Sensitivity DNA Gel Matrix	Under normal conditions of storage and use, hazardous reactions will not occur.
	High Sensitivity DNA Dye	Under normal conditions of storage and use, hazardous reactions will not occur.
	High Sensitivity DNA Ladder	Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: High Sensitivity DNA Markers	No specific data.
	High Sensitivity DNA Gel Matrix	No specific data.
	High Sensitivity DNA Dye	Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition. Do not allow vapor to accumulate in low or confined areas.
	High Sensitivity DNA Ladder	No specific data.
Incompatible materials	: High Sensitivity DNA Markers	May react or be incompatible with oxidizing materials.
	High Sensitivity DNA Gel Matrix	May react or be incompatible with oxidizing materials.
	High Sensitivity DNA Dye	Reactive or incompatible with the following materials: oxidizing materials
	High Sensitivity DNA Ladder	May react or be incompatible with oxidizing materials.
Hazardous decomposition products	: High Sensitivity DNA Markers	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
	High Sensitivity DNA Gel Matrix	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
	High Sensitivity DNA Dye	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
	High Sensitivity DNA Ladder	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
High Sensitivity DNA Dye Dimethyl sulfoxide	LD50 Dermal	Rat	40000 mg/kg	-
	LD50 Oral	Rat	14500 mg/kg	-

Irritation/Corrosion

Section 11. Toxicological information

Product/ingredient name	Result	Species	Score	Exposure	Observation
High Sensitivity DNA Dye Dimethyl sulfoxide	Eyes - Mild irritant	Rabbit	-	24 hours 500 mg	-
	Eyes - Mild irritant	Rabbit	-	100 mg	-
	Skin - Mild irritant	Rabbit	-	24 hours 500 mg	-
	Skin - Mild irritant	Rabbit	-	100 mg	-

Sensitization

Not available.

Mutagenicity

Conclusion/Summary : Not available.

Carcinogenicity

Conclusion/Summary : Not available.

Reproductive toxicity

Conclusion/Summary : Not available.

Teratogenicity

Conclusion/Summary : Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on the likely routes of exposure : High Sensitivity DNA Markers Not available.
 High Sensitivity DNA Gel Not available.
 Matrix
 High Sensitivity DNA Dye Routes of entry anticipated: Oral, Dermal, Inhalation.
 High Sensitivity DNA Ladder Not available.

Potential acute health effects

Eye contact : High Sensitivity DNA Markers No known significant effects or critical hazards.
 High Sensitivity DNA Gel No known significant effects or critical hazards.
 Matrix
 High Sensitivity DNA Dye Causes eye irritation.
 High Sensitivity DNA Ladder No known significant effects or critical hazards.

Inhalation : High Sensitivity DNA Markers No known significant effects or critical hazards.
 High Sensitivity DNA Gel No known significant effects or critical hazards.
 Matrix
 High Sensitivity DNA Dye No known significant effects or critical hazards.
 High Sensitivity DNA Ladder No known significant effects or critical hazards.

Skin contact : High Sensitivity DNA Markers No known significant effects or critical hazards.
 High Sensitivity DNA Gel No known significant effects or critical hazards.
 Matrix
 High Sensitivity DNA Dye No known significant effects or critical hazards.
 High Sensitivity DNA Ladder No known significant effects or critical hazards.

Section 11. Toxicological information

Ingestion	:	High Sensitivity DNA Markers	No known significant effects or critical hazards.
		High Sensitivity DNA Gel Matrix	No known significant effects or critical hazards.
		High Sensitivity DNA Dye	No known significant effects or critical hazards.
		High Sensitivity DNA Ladder	No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	:	High Sensitivity DNA Markers	No specific data.
		High Sensitivity DNA Gel Matrix	No specific data.
		High Sensitivity DNA Dye	Adverse symptoms may include the following: irritation watering redness
		High Sensitivity DNA Ladder	No specific data.
Inhalation	:	High Sensitivity DNA Markers	No specific data.
		High Sensitivity DNA Gel Matrix	No specific data.
		High Sensitivity DNA Dye	No specific data.
		High Sensitivity DNA Ladder	No specific data.
Skin contact	:	High Sensitivity DNA Markers	No specific data.
		High Sensitivity DNA Gel Matrix	No specific data.
		High Sensitivity DNA Dye	No specific data.
		High Sensitivity DNA Ladder	No specific data.
Ingestion	:	High Sensitivity DNA Markers	No specific data.
		High Sensitivity DNA Gel Matrix	No specific data.
		High Sensitivity DNA Dye	No specific data.
		High Sensitivity DNA Ladder	No specific data.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Long term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Potential chronic health effects

General	:	High Sensitivity DNA Markers	No known significant effects or critical hazards.
		High Sensitivity DNA Gel Matrix	No known significant effects or critical hazards.
		High Sensitivity DNA Dye	No known significant effects or critical hazards.
		High Sensitivity DNA Ladder	No known significant effects or critical hazards.
Carcinogenicity	:	High Sensitivity DNA Markers	No known significant effects or critical hazards.
		High Sensitivity DNA Gel Matrix	No known significant effects or critical hazards.
		High Sensitivity DNA Dye	No known significant effects or critical hazards.
		High Sensitivity DNA Ladder	No known significant effects or critical hazards.

Section 11. Toxicological information

Mutagenicity	:	High Sensitivity DNA Markers	No known significant effects or critical hazards.
		High Sensitivity DNA Gel Matrix	No known significant effects or critical hazards.
		High Sensitivity DNA Dye	No known significant effects or critical hazards.
		High Sensitivity DNA Ladder	No known significant effects or critical hazards.
Reproductive toxicity	:	High Sensitivity DNA Markers	No known significant effects or critical hazards.
		High Sensitivity DNA Gel Matrix	No known significant effects or critical hazards.
		High Sensitivity DNA Dye	No known significant effects or critical hazards.
		High Sensitivity DNA Ladder	No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Product/ingredient name	Oral (mg/kg)	Dermal (mg/kg)	Inhalation (gases) (ppm)	Inhalation (vapors) (mg/l)	Inhalation (dusts and mists) (mg/l)
High Sensitivity DNA Dye Dimethyl sulfoxide	14500	40000	N/A	N/A	N/A

Section 12. Ecological information

Toxicity

Product/ingredient name	Result	Species	Exposure
High Sensitivity DNA Dye Dimethyl sulfoxide	Acute LC50 25000 ppm Fresh water Acute LC50 34000000 µg/l Fresh water Chronic NOEC 100 µl/L Marine water Chronic NOEC 100 µl/L Fresh water	Daphnia - Daphnia magna - Neonate Fish - Pimephales promelas Algae - Ulva lactuca Daphnia - Daphnia magna - Juvenile (Fledgling, Hatchling, Weanling)	48 hours 96 hours 72 hours 21 days

Persistence and degradability

Product/ingredient name	Test	Result	Dose	Inoculum
High Sensitivity DNA Dye Dimethyl sulfoxide	OECD 301D Ready Biodegradability - Closed Bottle Test	31 % - Not readily - 28 days	-	-
Product/ingredient name	Aquatic half-life	Photolysis	Biodegradability	
High Sensitivity DNA Dye Dimethyl sulfoxide	-	-	Not readily	

Bioaccumulative potential

Section 12. Ecological information

Product/ingredient name	LogP _{ow}	BCF	Potential
High Sensitivity DNA Dye Dimethyl sulfoxide	-1.35	3.16	low

Mobility in soil

Soil/water partition coefficient (K_{oc}) : Not available.

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

TDG / IMDG / IATA : Not regulated.

Special precautions for user : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to IMO instruments : Not available.

Section 15. Regulatory information

Canadian lists

Canadian NPRI : None of the components are listed.

CEPA Toxic substances : None of the components are listed.

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

Montreal Protocol

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

Section 15. Regulatory information

UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

Inventory list

Australia	: Not determined.
Canada	: Not determined.
China	: Not determined.
Europe	: Not determined.
Japan	: Japan inventory (ENCS): Not determined. Japan inventory (ISHL): Not determined.
New Zealand	: Not determined.
Philippines	: Not determined.
Republic of Korea	: Not determined.
Taiwan	: Not determined.
Thailand	: Not determined.
Turkey	: Not determined.
United States	: Not determined.
Viet Nam	: Not determined.

Section 16. Other information

History

Date of issue/Date of revision	: 01/29/2021
Date of previous issue	: 12/02/2020
Version	: 6
Key to abbreviations	: ATE = Acute Toxicity Estimate BCF = Bioconcentration Factor GHS = Globally Harmonized System of Classification and Labelling of Chemicals HPR = Hazardous Products Regulations IATA = International Air Transport Association IBC = Intermediate Bulk Container IMDG = International Maritime Dangerous Goods LogPow = logarithm of the octanol/water partition coefficient MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution) N/A = Not available UN = United Nations

Procedure used to derive the classification

Classification	Justification
High Sensitivity DNA Dye FLAMMABLE LIQUIDS - Category 4 EYE IRRITATION - Category 2B	On basis of test data Calculation method

References : Not available.
