

Section 2. Hazards identification

Prevention	: Genomic DNA Ladder	Not applicable.
	: Genomic DNA Sample Buffer	Not applicable.
Response	: Genomic DNA Ladder	Not applicable.
	: Genomic DNA Sample Buffer	Not applicable.
Storage	: Genomic DNA Ladder	Not applicable.
	: Genomic DNA Sample Buffer	Not applicable.
Disposal	: Genomic DNA Ladder	Not applicable.
	: Genomic DNA Sample Buffer	Not applicable.
Supplemental label elements	: Genomic DNA Ladder	None known.
	: Genomic DNA Sample Buffer	None known.

2.3 Other hazards

Hazards not otherwise classified	: Genomic DNA Ladder	None known.
	: Genomic DNA Sample Buffer	None known.

Section 3. Composition/information on ingredients

Substance/mixture	: Genomic DNA Ladder	Mixture
	: Genomic DNA Sample Buffer	Mixture

Ingredient name	%	CAS number
Genomic DNA Ladder Dimethyl sulfoxide	≤3	67-68-5

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

4.1 Description of necessary first aid measures

Eye contact	: Genomic DNA Ladder	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
	: Genomic DNA Sample Buffer	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Genomic DNA Ladder	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
	: Genomic DNA Sample Buffer	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: Genomic DNA Ladder	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
	: Genomic DNA Sample Buffer	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

Section 4. First aid measures

Ingestion	: Genomic DNA Ladder	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	Genomic DNA Sample Buffer	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

4.2 Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact	: Genomic DNA Ladder Genomic DNA Sample Buffer	No known significant effects or critical hazards. No known significant effects or critical hazards.
Inhalation	: Genomic DNA Ladder Genomic DNA Sample Buffer	No known significant effects or critical hazards. No known significant effects or critical hazards.
Skin contact	: Genomic DNA Ladder Genomic DNA Sample Buffer	No known significant effects or critical hazards. No known significant effects or critical hazards.
Ingestion	: Genomic DNA Ladder Genomic DNA Sample Buffer	No known significant effects or critical hazards. No known significant effects or critical hazards.

Over-exposure signs/symptoms

Eye contact	: Genomic DNA Ladder Genomic DNA Sample Buffer	No specific data. No specific data.
Inhalation	: Genomic DNA Ladder Genomic DNA Sample Buffer	No specific data. No specific data.
Skin contact	: Genomic DNA Ladder Genomic DNA Sample Buffer	No specific data. No specific data.
Ingestion	: Genomic DNA Ladder Genomic DNA Sample Buffer	No specific data. No specific data.

4.3 Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	:  Genomic DNA Ladder	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
	Genomic DNA Sample Buffer	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: Genomic DNA Ladder Genomic DNA Sample Buffer	No specific treatment. No specific treatment.
Protection of first-aiders	: Genomic DNA Ladder	No action shall be taken involving any personal risk or without suitable training.
	Genomic DNA Sample Buffer	No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

5.1 Extinguishing media

Suitable extinguishing media	: Genomic DNA Ladder	Use an extinguishing agent suitable for the surrounding fire.
	Genomic DNA Sample Buffer	Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: Genomic DNA Ladder	None known.
	Genomic DNA Sample Buffer	None known.

5.2 Special hazards arising from the substance or mixture

Specific hazards arising from the chemical	: Genomic DNA Ladder	In a fire or if heated, a pressure increase will occur and the container may burst.
	Genomic DNA Sample Buffer	In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: <input checked="" type="checkbox"/> Genomic DNA Ladder	Decomposition products may include the following materials: carbon dioxide carbon monoxide sulfur oxides
	Genomic DNA Sample Buffer	No specific data.

5.3 Advice for firefighters

Special protective actions for fire-fighters	: Genomic DNA Ladder	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	Genomic DNA Sample Buffer	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Genomic DNA Ladder	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	Genomic DNA Sample Buffer	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	: Genomic DNA Ladder	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
	Genomic DNA Sample Buffer	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

Section 6. Accidental release measures

For emergency responders	: Genomic DNA Ladder	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
	Genomic DNA Sample Buffer	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
6.2 Environmental precautions	: Genomic DNA Ladder	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
	Genomic DNA Sample Buffer	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
6.3 Methods and materials for containment and cleaning up		
Methods for cleaning up	: Genomic DNA Ladder	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	Genomic DNA Sample Buffer	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

7.1 Precautions for safe handling

Protective measures	: Genomic DNA Ladder	Put on appropriate personal protective equipment (see Section 8).
	Genomic DNA Sample Buffer	Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	: Genomic DNA Ladder	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
	Genomic DNA Sample Buffer	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Section 7. Handling and storage

7.2 Conditions for safe storage, including any incompatibilities

:  Genomic DNA Ladder

Store between the following temperatures: 2 to 8°C (35.6 to 46.4°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers.

Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Genomic DNA Sample Buffer

Store between the following temperatures: 2 to 8°C (35.6 to 46.4°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

7.3 Specific end use(s)

Recommendations

: Genomic DNA Ladder
Genomic DNA Sample Buffer

Industrial applications, Professional applications.
Industrial applications, Professional applications.

Industrial sector specific solutions

: Genomic DNA Ladder
Genomic DNA Sample Buffer

Not applicable.
Not applicable.

Section 8. Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

Ingredient name	Exposure limits
 Genomic DNA Ladder Dimethyl sulfoxide	AIHA WEEL (United States, 10/2011). TWA: 250 ppm 8 hours.

8.2 Exposure controls

Appropriate engineering controls

: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Section 8. Exposure controls/personal protection

- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
- Skin protection**
- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance

Physical state	: Genomic DNA Ladder Genomic DNA Sample Buffer	Liquid. Liquid.
Color	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.
Odor	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.
Odor threshold	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.
pH	: Genomic DNA Ladder Genomic DNA Sample Buffer	8 8
Melting point	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.
Boiling point	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.
Flash point	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.
Evaporation rate	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.
Flammability (solid, gas)	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not applicable. Not applicable.
Lower and upper explosive (flammable) limits	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.
Vapor pressure	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.

Section 9. Physical and chemical properties

Vapor density	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.
Relative density	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.
Solubility	: Genomic DNA Ladder Genomic DNA Sample Buffer	Easily soluble in the following materials: cold water and hot water. Easily soluble in the following materials: cold water and hot water.
Partition coefficient: n-octanol/water	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.
Auto-ignition temperature	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.
Decomposition temperature	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.
Viscosity	: Genomic DNA Ladder Genomic DNA Sample Buffer	Not available. Not available.

Section 10. Stability and reactivity

10.1 Reactivity	: Genomic DNA Ladder Genomic DNA Sample Buffer	No specific test data related to reactivity available for this product or its ingredients. No specific test data related to reactivity available for this product or its ingredients.
10.2 Chemical stability	: Genomic DNA Ladder Genomic DNA Sample Buffer	The product is stable. The product is stable.
10.3 Possibility of hazardous reactions	: Genomic DNA Ladder Genomic DNA Sample Buffer	Under normal conditions of storage and use, hazardous reactions will not occur. Under normal conditions of storage and use, hazardous reactions will not occur.
10.4 Conditions to avoid	: Genomic DNA Ladder Genomic DNA Sample Buffer	No specific data. No specific data.
10.5 Incompatible materials	: Genomic DNA Ladder Genomic DNA Sample Buffer	May react or be incompatible with oxidizing materials. May react or be incompatible with oxidizing materials.
10.6 Hazardous decomposition products	: Genomic DNA Ladder Genomic DNA Sample Buffer	Under normal conditions of storage and use, hazardous decomposition products should not be produced. Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

11.1 Information on toxicological effects

Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Genomic DNA Ladder Dimethyl sulfoxide	LD50 Dermal	Rat	40000 mg/kg	-
	LD50 Oral	Rat	14500 mg/kg	-

Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
Genomic DNA Ladder Dimethyl sulfoxide	Eyes - Mild irritant	Rabbit	-	24 hours 500 milligrams	-
	Eyes - Mild irritant	Rabbit	-	100 milligrams	-
	Skin - Mild irritant	Rabbit	-	24 hours 500 milligrams	-
	Skin - Mild irritant	Rabbit	-	100 milligrams	-

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Long term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Potential chronic health effects

General	: Genomic DNA Ladder	No known significant effects or critical hazards.
	: Genomic DNA Sample Buffer	No known significant effects or critical hazards.
Carcinogenicity	: Genomic DNA Ladder	No known significant effects or critical hazards.
	: Genomic DNA Sample Buffer	No known significant effects or critical hazards.
Mutagenicity	: Genomic DNA Ladder	No known significant effects or critical hazards.
	: Genomic DNA Sample Buffer	No known significant effects or critical hazards.
Teratogenicity	: Genomic DNA Ladder	No known significant effects or critical hazards.
	: Genomic DNA Sample Buffer	No known significant effects or critical hazards.
Developmental effects	: Genomic DNA Ladder	No known significant effects or critical hazards.
	: Genomic DNA Sample Buffer	No known significant effects or critical hazards.
Fertility effects	: Genomic DNA Ladder	No known significant effects or critical hazards.
	: Genomic DNA Sample Buffer	No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Not available.

Section 12. Ecological information

12.1 Toxicity

Product/ingredient name	Result	Species	Exposure
Genomic DNA Ladder Dimethyl sulfoxide	Acute LC50 25000 ppm Fresh water	Daphnia - Daphnia magna - Neonate	48 hours
	Acute LC50 34000000 µg/l Fresh water	Fish - Pimephales promelas	96 hours
	Chronic NOEC 100 µl/L Marine water	Algae - Ulva lactuca	72 hours

Section 12. Ecological information

12.2 Persistence and degradability

Not available.

12.3 Bioaccumulative potential

Product/ingredient name	LogP _{ow}	BCF	Potential
Genomic DNA Ladder Dimethyl sulfoxide	-1.35	3.16	low

12.4 Mobility in soil

Soil/water partition coefficient (K_{oc}) : Not available.

12.5 Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

13.1 Waste treatment methods

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.

The information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

Section 14. Transport information

DOT / TDG / Mexico / IMDG / IATA : Not regulated.

Special precautions for user : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of MARPOL and the IBC Code : Not available.

Section 15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

U.S. Federal regulations : TSCA 8(a) CDR Exempt/Partial exemption: Not determined

Clean Air Act Section 112 : Not listed

(b) Hazardous Air Pollutants (HAPs)

Clean Air Act Section 602 Class I Substances : Not listed

Clean Air Act Section 602 Class II Substances : Not listed

DEA List I Chemicals (Precursor Chemicals) : Not listed

DEA List II Chemicals (Essential Chemicals) : Not listed
