Section 1. Identification

1.1 Product identifier
Product name: 8211 ORP electrode with refilling solution, Part Number 5190-3999
Part No. (Chemical Kit): 5190-3999
Part No.: * ORP8211 electrode ORP8211
pH Reference solution 5190-0545
Validation date: 2015-08-25

1.2 Relevant identified uses of the substance or mixture and uses advised against
Material uses: Analytical chemistry.
  * ORP8211 electrode Electrodes.
  pH Reference solution 3 x 30 ml

1.3 Details of the supplier of the safety data sheet
Supplier/Manufacturer: Agilent Technologies, Inc.
5301 Stevens Creek Blvd
Santa Clara, CA 95051, USA
800-227-9770

1.4 Emergency telephone number
In case of emergency: CHEMTREC®: 1-800-424-9300

Note *: * This component is considered an article. Information provided is based on the encapsulated substance or mixture in this article.

Section 2. Hazards identification

2.1 Classification of the substance or mixture
OSHA/HCS status: * ORP8211 electrode
pH Reference solution

This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

Classification of the substance or mixture
* ORP8211 electrode
H320 SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2B

pH Reference solution
H320 SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2B

Ingredients of unknown toxicity: * ORP8211 electrode Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 1.5%

pH Reference solution Not applicable.

2.2 GHS label elements
Signal word
* ORP8211 electrode Warning
pH Reference solution Warning

Hazard statements
* ORP8211 electrode H320 - Causes eye irritation.
pH Reference solution H320 - Causes eye irritation.

Precautionary statements

Date of issue: 08/25/2015
Section 2. Hazards identification

**Prevention**
- *ORP8211 electrode*  
  P264 - Wash hands thoroughly after handling.
- *pH Reference solution*  
  P264 - Wash hands thoroughly after handling.

**Response**
- *ORP8211 electrode*
  - P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
  - P337 + P313 - If eye irritation persists: Get medical attention.
- *pH Reference solution*
  - P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
  - P337 + P313 - If eye irritation persists: Get medical attention.

**Storage**
- *ORP8211 electrode*  
  Not applicable.
- *pH Reference solution*  
  Not applicable.

**Disposal**
- *ORP8211 electrode*  
  Not applicable.
- *pH Reference solution*  
  Not applicable.

**Supplemental label elements**
- *ORP8211 electrode*  
  None known.
- *pH Reference solution*  
  None known.

2.3 Other hazards

**Hazards not otherwise classified**
- *ORP8211 electrode*  
  None known.
- *pH Reference solution*  
  None known.

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

4.1 Description of necessary first aid measures

**Eye contact**
- *ORP8211 electrode*
  - Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. If irritation persists, get medical attention.
- *pH Reference solution*
  - Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. If

Section 4. First aid measures

directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

4.2 Most important symptoms/effects, acute and delayed

Potential acute health effects

| Eye contact | * ORP8211 electrode | pH Reference solution | Causes eye irritation. Causes eye irritation. |
| Skin contact | * ORP8211 electrode | pH Reference solution | No known significant effects or critical hazards. |
| Ingestion | * ORP8211 electrode | pH Reference solution | No known significant effects or critical hazards. |

Over-exposure signs/symptoms

| Eye contact | * ORP8211 electrode | pH Reference solution | Adverse symptoms may include the following: irritation watering redness |
| Skin contact | * ORP8211 electrode | pH Reference solution | Adverse symptoms may include the following: irritation watering redness |
| Ingestion | * ORP8211 electrode | pH Reference solution | No specific data. |

4.3 Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician

| * ORP8211 electrode | pH Reference solution | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |

Specific treatments

| * ORP8211 electrode | pH Reference solution | No specific treatment. |

Protection of first-aiders

| * ORP8211 electrode | pH Reference solution | No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. |

Date of issue: 08/25/2015 4/15
Section 4. First aid measures
See toxicological information (Section 11)

Section 5. Fire-fighting measures

5.1 Extinguishing media

Suitable extinguishing media:
- * ORP8211 electrode
- pH Reference solution

Unsuitable extinguishing media:
- * ORP8211 electrode
- pH Reference solution

5.2 Special hazards arising from the substance or mixture

Specific hazards arising from the chemical:
- * ORP8211 electrode
- pH Reference solution

Hazardous thermal decomposition products:
- * ORP8211 electrode
- pH Reference solution

5.3 Advice for firefighters

Special protective actions for fire-fighters:
- * ORP8211 electrode
- pH Reference solution

Special protective equipment for fire-fighters:
- * ORP8211 electrode
- pH Reference solution

Section 6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel:
- * ORP8211 electrode

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when

Date of issue: 08/25/2015
Section 6. Accidental release measures

pH Reference solution ventilation is inadequate. Put on appropriate personal protective equipment.
No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

For emergency responders: * ORP8211 electrode
If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

pH Reference solution Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.2 Environmental precautions

pH Reference solution Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.3 Methods and materials for containment and cleaning up

Methods for cleaning up: * ORP8211 electrode
Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

pH Reference solution Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

7.1 Precautions for safe handling

Protective measures: * ORP8211 electrode
Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

pH Reference solution Put on appropriate personal protective equipment

| * ORP8211 electrode Glycerol | OSHA PEL 1989 (United States, 3/1989). TWA: 5 mg/m³ 8 hours. Form: Respirable fraction  
TWA: 10 mg/m³ 8 hours. Form: Total dust |
| Potassium chloride | OSHA PEL (United States, 2/2013). TWA: 5 mg/m³ 8 hours. Form: Respirable fraction  
TWA: 15 mg/m³ 8 hours. Form: Total dust |
| pH Reference solution | None. |
| Potassium chloride | None. |

8.2 Exposure controls

**Appropriate engineering controls**

: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

**Environmental exposure controls**

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

**Individual protection measures**

**Hygiene measures**

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eye/face protection**

: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.

**Skin protection**

**Hand protection**

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

**Body protection**

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Other skin protection**

: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection**

: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

  pH Reference solution Not available.

- **pH**: *ORP8211 electrode* 6  
  pH Reference solution 6

- **Melting point**: *ORP8211 electrode* -25°C (-13°F)  
  pH Reference solution 0°C (32°F)

- **Boiling point**: *ORP8211 electrode* 110°C (230°F)  
  pH Reference solution 100°C (212°F)

- **Flash point**: *ORP8211 electrode* Not available.  
  pH Reference solution Not available.

- **Evaporation rate**: *ORP8211 electrode* Not available.  
  pH Reference solution Not available.

- **Flammability (solid, gas)**: *ORP8211 electrode* Not applicable.  
  pH Reference solution Not applicable.

- **Lower and upper explosive (flammable) limits**: *ORP8211 electrode* Not available.  
  pH Reference solution Not available.

- **Vapor pressure**: *ORP8211 electrode* Not available.  
  pH Reference solution Not available.

- **Vapor density**: *ORP8211 electrode* Not available.  
  pH Reference solution Not available.

- **Relative density**: *ORP8211 electrode* 1.1  
  pH Reference solution 1

- **Solubility**: *ORP8211 electrode* Easily soluble in the following materials: cold water and hot water.  
  pH Reference solution Easily soluble in the following materials: cold water and hot water.

- **Partition coefficient: n-octanol/water**: *ORP8211 electrode* Not available.  
  pH Reference solution Not available.

- **Auto-ignition temperature**: *ORP8211 electrode* Not available.  
  pH Reference solution Not available.

- **Decomposition temperature**: *ORP8211 electrode* Not available.  
  pH Reference solution Not available.

- **Viscosity**: *ORP8211 electrode* Not available.  
  pH Reference solution Not available.

Section 10. Stability and reactivity

10.1 Reactivity: *ORP8211 electrode* No specific test data related to reactivity available for this product or its ingredients.  
  pH Reference solution No specific test data related to reactivity available for this product or its ingredients.

10.2 Chemical stability: *ORP8211 electrode* The product is stable.  
  pH Reference solution The product is stable.
Section 10. Stability and reactivity

10.3 Possibility of hazardous reactions

* ORP8211 electrode

pH Reference solution

Under normal conditions of storage and use, hazardous reactions will not occur.

10.4 Conditions to avoid

* ORP8211 electrode

pH Reference solution

No specific data.

10.5 Incompatible materials

* ORP8211 electrode

pH Reference solution

May react or be incompatible with oxidizing materials.

10.6 Hazardous decomposition products

* ORP8211 electrode

pH Reference solution

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### Potential acute health effects

**Eye contact**
* ORP8211 electrode
Causes eye irritation.

**Inhalation**
* ORP8211 electrode
No known significant effects or critical hazards.

**Skin contact**
* ORP8211 electrode
No known significant effects or critical hazards.

**Ingestion**
* ORP8211 electrode
No known significant effects or critical hazards.

### Symptoms related to the physical, chemical and toxicological characteristics

**Eye contact**
* ORP8211 electrode
Adverse symptoms may include the following: irritation, watering, redness.

**Inhalation**
* ORP8211 electrode
No specific data.

**Skin contact**
* ORP8211 electrode
No specific data.

**Ingestion**
* ORP8211 electrode
No specific data.

### Delayed and immediate effects and also chronic effects from short and long term exposure

**Short term exposure**

**Potential immediate effects**
Not available.

**Potential delayed effects**
Not available.

**Long term exposure**

**Potential immediate effects**
Not available.

**Potential delayed effects**
Not available.
Section 11. Toxicological information

Potential chronic health effects

General: * ORP8211 electrode No known significant effects or critical hazards. pH Reference solution No known significant effects or critical hazards.

Carcinogenicity: * ORP8211 electrode No known significant effects or critical hazards. pH Reference solution No known significant effects or critical hazards.

Mutagenicity: * ORP8211 electrode No known significant effects or critical hazards. pH Reference solution No known significant effects or critical hazards.

Teratogenicity: * ORP8211 electrode No known significant effects or critical hazards. pH Reference solution No known significant effects or critical hazards.

Developmental effects: * ORP8211 electrode No known significant effects or critical hazards. pH Reference solution No known significant effects or critical hazards.

Fertility effects: * ORP8211 electrode No known significant effects or critical hazards. pH Reference solution No known significant effects or critical hazards.

12.4 Mobility in soil

Soil/water partition coefficient (K_{OC}) : Not available.

12.5 Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

13.1 Waste treatment methods

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.

The information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

Section 14. Transport information

Regulatory information

DOT / IMDG / IATA : Not regulated.

Section 15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

U.S. Federal regulations : United States inventory (TSCA 8b): All components are listed or exempted.

Clean Water Act (CWA) 307: Silver chloride

Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs) : Not listed

Clean Air Act Section 602 Class I Substances : Not listed

Date of issue : 08/25/2015
Section 15. Regulatory information

Clean Air Act Section 602 Class II Substances: Not listed

DEA List I Chemicals (Precursor Chemicals): Not listed

DEA List II Chemicals (Essential Chemicals): Not listed

SARA 302/304

Composition/information on ingredients

SARA 313 notifications must not be detached from the SDS and any copying and redistribution of the SDS shall include copying and redistribution of the notice attached to copies of the SDS subsequently redistributed.

State regulations

Massachusetts: The following components are listed: GLYCERINE MIST

New York: None of the components are listed.

New Jersey: The following components are listed: GLYCERIN; 1,2,3-PROPANETRIOL

Pennsylvania: The following components are listed: 1,2,3-PROPANETRIOL

California Prop. 65: No products were found.

Canada inventory: All components are listed or exempted.

International regulations

International lists

Australia inventory (AICS): All components are listed or exempted.

China inventory (IECSC): All components are listed or exempted.

Japan inventory: All components are listed or exempted.

Korea inventory: All components are listed or exempted.

Malaysia Inventory (EHS Register): Not determined.

New Zealand Inventory of Chemicals (NZIoC): All components are listed or exempted.

Philippines inventory (PICCS): All components are listed or exempted.

Taiwan inventory (CSNN): All components are listed or exempted.
