SAFETY DATA SHEET

SureGuide gRNA Control Kit - 20 Reactions, Part Number 5190-7718

Section 1. Identification

Product identifier : SureGuide gRNA Control Kit - 20 Reactions, Part Number 5190-7718
Part No. (Chemical Kit) : 5190-7718
Part No. : Control DNA Target 5190-7536
           Control gRNA 5190-7539

Relevant identified uses of the substance or mixture and uses advised against

Analytical reagent.

Control DNA Target  2 x 0.02 ml (20 µl  50 ng/µl)
Control gRNA  0.01 ml (10 µl  1 µM)

Supplier/Manufacturer : Agilent Technologies Australia Pty Ltd
                      679 Springvale Road
                      Mulgrave
                      Victoria 3170, Australia
                      1800 802 402

Emergency telephone number (with hours of operation) : CHEMTREC®: +(61)-290372994

Section 2. Hazard(s) identification

Classification of the substance or mixture

Not classified.

GHS label elements

Signal word : Control DNA Target No signal word.
              Control gRNA No signal word.

Hazard statements : Control DNA Target No known significant effects or critical hazards.
              Control gRNA No known significant effects or critical hazards.

Precautionary statements

Prevention : Control DNA Target Not applicable.
             Control gRNA Not applicable.

Response : Control DNA Target Not applicable.
           Control gRNA Not applicable.

Storage : Control DNA Target Not applicable.
          Control gRNA Not applicable.

Disposal : Control DNA Target Not applicable.
           Control gRNA Not applicable.

Supplemental label elements

Additional warning phrases : Control DNA Target Not applicable.
                           Control gRNA Not applicable.

Other hazards which do not result in classification : Control DNA Target None known.
                                                    Control gRNA None known.
### Section 3. Composition and ingredient information

<table>
<thead>
<tr>
<th>Substance/mixture</th>
<th>Control DNA Target</th>
<th>Control gRNA</th>
</tr>
</thead>
<tbody>
<tr>
<td>CAS number/other identifiers</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

**Description of necessary first aid measures**

#### Eye contact

- **Control DNA Target**: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
- **Control gRNA**: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

#### Inhalation

- **Control DNA Target**: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
- **Control gRNA**: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

#### Skin contact

- **Control DNA Target**: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
- **Control gRNA**: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

#### Ingestion

- **Control DNA Target**: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
- **Control gRNA**: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

**Most important symptoms/effects, acute and delayed**

**Potential acute health effects**

- **Eye contact**: Control DNA Target - No known significant effects or critical hazards.
- **Control gRNA**: No known significant effects or critical hazards.

- **Inhalation**: Control DNA Target - No known significant effects or critical hazards.
- **Control gRNA**: No known significant effects or critical hazards.

- **Skin contact**: Control DNA Target - No known significant effects or critical hazards.
- **Control gRNA**: No known significant effects or critical hazards.

- **Ingestion**: Control DNA Target - No known significant effects or critical hazards.
- **Control gRNA**: No known significant effects or critical hazards.

**Over-exposure signs/symptoms**

---

*Date of issue/Date of revision*: 03/01/2018  
*Date of previous issue*: 01/10/2015  
*Version*: 3
Section 4. First aid measures

**Eye contact**
Control DNA Target: No specific data.
Control gRNA: No specific data.

**Inhalation**
Control DNA Target: No specific data.
Control gRNA: No specific data.

**Skin contact**
Control DNA Target: No specific data.
Control gRNA: No specific data.

**Ingestion**
Control DNA Target: No specific data.
Control gRNA: No specific data.

**Indication of immediate medical attention and special treatment needed, if necessary**

**Notes to physician**
Control DNA Target: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Control gRNA: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

**Specific treatments**
Control DNA Target: No specific treatment.
Control gRNA: No specific treatment.

**Protection of first-aiders**
Control DNA Target: No action shall be taken involving any personal risk or without suitable training.
Control gRNA: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Firefighting measures

**Extinguishing media**

**Suitable extinguishing media**
Control DNA Target: Use an extinguishing agent suitable for the surrounding fire.
Control gRNA: Use an extinguishing agent suitable for the surrounding fire.

**Unsuitable extinguishing media**
Control DNA Target: None known.
Control gRNA: None known.

**Specific hazards arising from the chemical**
Control DNA Target: In a fire or if heated, a pressure increase will occur and the container may burst.
Control gRNA: In a fire or if heated, a pressure increase will occur and the container may burst.

**Hazardous thermal decomposition products**
Control DNA Target: No specific data.
Control gRNA: No specific data.

**Special protective actions for fire-fighters**
Control DNA Target: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Control gRNA: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters**
Control DNA Target: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
Control gRNA: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel:
- Control DNA Target: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
- Control gRNA: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.

For emergency responders:
- Control DNA Target: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
- Control gRNA: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions:
- Control DNA Target: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- Control gRNA: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and material for containment and cleaning up

Methods for cleaning up:
- Control DNA Target: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
- Control gRNA: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

Precautions for safe handling

Protective measures:
- Control DNA Target: Put on appropriate personal protective equipment (see Section 8).
- Control gRNA: Put on appropriate personal protective equipment (see Section 8).
Section 7. Handling and storage

**Advice on general occupational hygiene**

Control DNA Target: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Control gRNA: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

**Conditions for safe storage, including any incompatibilities**

Control DNA Target: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Control gRNA: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls and personal protection

**Control parameters**

**Occupational exposure limits**

None.

**Appropriate engineering controls**

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

**Environmental exposure controls**

**Individual protection measures**

**Hygiene measures**

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Section 8. Exposure controls and personal protection

**Eye/face protection**: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

**Skin protection**

**Hand protection**: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

**Body protection**: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Other skin protection**: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection**: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

Auto-ignition temperature
- Control DNA Target: Not available.
- Control gRNA: Not available.

Decomposition temperature
- Control DNA Target: Not available.
- Control gRNA: Not available.

Viscosity
- Control DNA Target: Not available.
- Control gRNA: Not available.

Decomposition temperature
- Control DNA Target: Not available.
- Control gRNA: Not available.

Section 10. Stability and reactivity

Reactivity
- Control DNA Target: No specific test data related to reactivity available for this product or its ingredients.
- Control gRNA: No specific test data related to reactivity available for this product or its ingredients.

Chemical stability
- Control DNA Target: The product is stable.
- Control gRNA: The product is stable.

Possibility of hazardous reactions
- Control DNA Target: Under normal conditions of storage and use, hazardous reactions will not occur.
- Control gRNA: Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid
- Control DNA Target: No specific data.
- Control gRNA: No specific data.

Incompatible materials
- Control DNA Target: May react or be incompatible with oxidising materials.
- Control gRNA: May react or be incompatible with oxidising materials.

Hazardous decomposition products
- Control DNA Target: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
- Control gRNA: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity
Not available.

Irritation/Corrosion
Not available.

Sensitisation
Not available.

Mutagenicity
Not available.

Carcinogenicity
Not available.

Reproductive toxicity
Not available.

Teratogenicity
Not available.

Specific target organ toxicity (single exposure)
Section 11. Toxicological information

Not available.

Specific target organ toxicity (repeated exposure)
Not available.

Aspiration hazard
Not available.

Information on likely routes of exposure

**Potential acute health effects**

**Eye contact**
- Control DNA Target: No known significant effects or critical hazards.
- Control gRNA: No known significant effects or critical hazards.

**Inhalation**
- Control DNA Target: No known significant effects or critical hazards.
- Control gRNA: No known significant effects or critical hazards.

**Skin contact**
- Control DNA Target: No known significant effects or critical hazards.
- Control gRNA: No known significant effects or critical hazards.

**Ingestion**
- Control DNA Target: No known significant effects or critical hazards.
- Control gRNA: No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

**Eye contact**
- Control DNA Target: No specific data.
- Control gRNA: No specific data.

**Inhalation**
- Control DNA Target: No specific data.
- Control gRNA: No specific data.

**Skin contact**
- Control DNA Target: No specific data.
- Control gRNA: No specific data.

**Ingestion**
- Control DNA Target: No specific data.
- Control gRNA: No specific data.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

**Short term exposure**

**Potential immediate effects**
- Not available.

**Potential delayed effects**
- Not available.

**Long term exposure**

**Potential immediate effects**
- Not available.

**Potential delayed effects**
- Not available.

**Potential chronic health effects**
- Not available.

**General**
- Control DNA Target: No known significant effects or critical hazards.
- Control gRNA: No known significant effects or critical hazards.

**Carcinogenicity**
- Control DNA Target: No known significant effects or critical hazards.
- Control gRNA: No known significant effects or critical hazards.

**Mutagenicity**
- Control DNA Target: No known significant effects or critical hazards.
- Control gRNA: No known significant effects or critical hazards.

**Teratogenicity**
- Control DNA Target: No known significant effects or critical hazards.
- Control gRNA: No known significant effects or critical hazards.

**Developmental effects**
- Control DNA Target: No known significant effects or critical hazards.
- Control gRNA: No known significant effects or critical hazards.

**Fertility effects**
- Control DNA Target: No known significant effects or critical hazards.
- Control gRNA: No known significant effects or critical hazards.
Section 11. Toxicological information

Numerical measures of toxicity

Acute toxicity estimates
Not available.

Section 12. Ecological information

Toxicity
Not available.

Persistence and degradability
Not available.

Bioaccumulative potential
Not available.

Mobility in soil
Soil/water partition coefficient (KOC): Not available.

Other adverse effects: No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

ADG / IMDG / IATA: Not regulated as Dangerous Goods according to the ADG Code.

Special precautions for user: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of Marpol and the IBC Code: Not available.

Date of issue/Date of revision: 03/01/2018
Date of previous issue: 01/10/2015
Version: 3
SureGuide gRNA Control Kit - 20 Reactions, Part Number 5190-7718

Section 15. Regulatory information

**Standard Uniform Schedule of Medicine and Poisons**
Not regulated.

**Model Work Health and Safety Regulations - Scheduled Substances**
No listed substance

**International regulations**

- **Chemical Weapon Convention List Schedules I, II & III Chemicals**
  Not listed.
- **Montreal Protocol (Annexes A, B, C, E)**
  Not listed.
- **Stockholm Convention on Persistent Organic Pollutants**
  Not listed.
- **Rotterdam Convention on Prior Informed Consent (PIC)**
  Not listed.
- **UNECE Aarhus Protocol on POPs and Heavy Metals**
  Not listed.
