SAFETY DATA SHEET

SureSelect XT HS Enzymatic Fragmentation Kit, 16 Reactions, Part number 5191-4079

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
Product name: SureSelect XT HS Enzymatic Fragmentation Kit, 16 Reactions, Part number 5191-4079
Part no. (chemical kit): 5191-4079
Part no.
5X SureSelect Fragmentation Buffer 5191-4075
SureSelect Fragmentation Enzyme 5191-4076

1.2 Relevant identified uses of the substance or mixture and uses advised against
5X SureSelect Fragmentation Buffer 0.032 ml
SureSelect Fragmentation Enzyme 0.016 ml

1.3 Details of the supplier of the safety data sheet
Agilent Technologies Manufacturing GmbH & Co. KG
Hewlett-Packard-Str. 8
76337 Waldbronn
Germany
0800 603 1000
e-mail address of person responsible for this SDS: pdl-msds_author@agilent.com

1.4 Emergency telephone number
Emergency telephone number (with hours of operation): CHEMTREC®: +(44)-870-8200418

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
Product definition:
5X SureSelect Fragmentation Buffer Mixture
SureSelect Fragmentation Enzyme Mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]
Not classified.

Ingredients of unknown toxicity:
5X SureSelect Fragmentation Buffer Percentage of the mixture consisting of ingredient(s) of unknown dermal toxicity: 1 - 10%
SureSelect Fragmentation Enzyme Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: 1 - 10%

See Section 16 for the full text of the H statements declared above.
See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements

Date of issue/Date of revision: 31/05/2018
1/15
SECTION 2: Hazards identification

Signal word

5X SureSelect Fragmentation Buffer
SureSelect Fragmentation Enzyme

No signal word.

Hazard statements

5X SureSelect Fragmentation Buffer
SureSelect Fragmentation Enzyme

No known significant effects or critical hazards.

Precautionary statements

Prevention

5X SureSelect Fragmentation Buffer
SureSelect Fragmentation Enzyme

Not applicable.

Response

5X SureSelect Fragmentation Buffer
SureSelect Fragmentation Enzyme

Not applicable.

Storage

5X SureSelect Fragmentation Buffer
SureSelect Fragmentation Enzyme

Not applicable.

Disposal

5X SureSelect Fragmentation Buffer
SureSelect Fragmentation Enzyme

Not applicable.

Hazardous ingredients

5X SureSelect Fragmentation Buffer

Not applicable.

Supplemental label elements

5X SureSelect Fragmentation Buffer
SureSelect Fragmentation Enzyme

Safety data sheet available on request.

Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

5X SureSelect Fragmentation Buffer
SureSelect Fragmentation Enzyme

Not applicable.

Special packaging requirements

Tactile warning of danger

5X SureSelect Fragmentation Buffer
SureSelect Fragmentation Enzyme

Not applicable.

2.3 Other hazards

Other hazards which do not result in classification

5X SureSelect Fragmentation Buffer
SureSelect Fragmentation Enzyme

None known.

SECTION 3: Composition/information on ingredients

3.1 Substances

5X SureSelect Fragmentation Buffer
SureSelect Fragmentation Enzyme

Mixture

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[5] Substance of equivalent concern

[6] Additional disclosure due to company policy

**SECTION 4: First aid measures**

### 4.1 Description of first aid measures

**Eye contact**

- **5X SureSelect Fragmentation Buffer**: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
- **SureSelect Fragmentation Enzyme**: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

**Inhalation**

- **5X SureSelect Fragmentation Buffer**: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
- **SureSelect Fragmentation Enzyme**: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

**Skin contact**

- **5X SureSelect Fragmentation Buffer**: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
- **SureSelect Fragmentation Enzyme**: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

**Ingestion**

- **5X SureSelect Fragmentation Buffer**: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
- **SureSelect Fragmentation Enzyme**: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

<td>No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.</td>
</tr>
</tbody>
</table>

**Date of issue/Date of revision**: 31/05/2018
SECTION 6: Accidental release measures

For emergency responders:

5X SureSelect Fragmentation Buffer: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

SureSelect Fragmentation Enzyme: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

6.2 Environmental precautions:

5X SureSelect Fragmentation Buffer: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

SureSelect Fragmentation Enzyme: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

5X SureSelect Fragmentation Buffer: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

SureSelect Fragmentation Enzyme: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

6.3 Methods and material for containment and cleaning up:

Methods for cleaning up:

5X SureSelect Fragmentation Buffer: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

SureSelect Fragmentation Enzyme: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

6.4 Reference to other sections:

See Section 1 for emergency contact information.
See Section 8 for information on appropriate personal protective equipment.
See Section 13 for additional waste treatment information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling:

Protective measures:

5X SureSelect Fragmentation Buffer: Put on appropriate personal protective equipment (see Section 8).
SureSelect Fragmentation Enzyme: Put on appropriate personal protective equipment (see Section 8).

Advice on general occupational hygiene:

5X SureSelect Fragmentation Buffer: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

SureSelect Fragmentation Enzyme: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities:

Storage:
SureSelect XT HS Enzymatic Fragmentation Kit, 16 Reactions, Part number 5191-4079

SECTION 7: Handling and storage

5X SureSelect Fragmentation Buffer

Storage temperature: -20°C (-4°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

SureSelect Fragmentation Enzyme

Storage temperature: -20°C (-4°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

7.3 Specific end use(s)

Recommendations:

Industrial sector specific solutions:

5X SureSelect Fragmentation Buffer

Industrial applications, Professional applications.

SureSelect Fragmentation Enzyme

Industrial applications, Professional applications.

No applicable.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

<table>
<thead>
<tr>
<th>Product/ingredient name</th>
<th>Exposure limit values</th>
</tr>
</thead>
<tbody>
<tr>
<td>SureSelect Fragmentation Enzyme</td>

<td></td>
</tr>
</tbody>
</table>

Recommended monitoring procedures:

If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

DNELs/DMELs

No DNELs/DMELs available.

PNECs

No PNECs available

Date of issue/Date of revision: 31/05/2018
SECTION 8: Exposure controls/personal protection

8.2 Exposure controls

Appropriate engineering controls: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Individual protection measures

Hygiene measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection

Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and chemical properties

SECTION 9: Physical and chemical properties

**Explosive properties**
- 5X SureSelect Fragmentation Buffer
- SureSelect Fragmentation Enzyme
- Not available.

**Oxidising properties**
- 5X SureSelect Fragmentation Buffer
- SureSelect Fragmentation Enzyme
- Not available.

9.2 Other information
No additional information.

SECTION 10: Stability and reactivity

10.1 Reactivity
- 5X SureSelect Fragmentation Buffer
- SureSelect Fragmentation Enzyme
- No specific test data related to reactivity available for this product or its ingredients.

10.2 Chemical stability
- 5X SureSelect Fragmentation Buffer
- SureSelect Fragmentation Enzyme
- The product is stable.

10.3 Possibility of hazardous reactions
- 5X SureSelect Fragmentation Buffer
- SureSelect Fragmentation Enzyme
- Under normal conditions of storage and use, hazardous reactions will not occur.

10.4 Conditions to avoid
- 5X SureSelect Fragmentation Buffer
- SureSelect Fragmentation Enzyme
- No specific data.

10.5 Incompatible materials
- 5X SureSelect Fragmentation Buffer
- SureSelect Fragmentation Enzyme
- May react or be incompatible with oxidising materials.

10.6 Hazardous decomposition products
- 5X SureSelect Fragmentation Buffer
- SureSelect Fragmentation Enzyme
- Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Date of issue/Date of revision: 31/05/2018
SECTION 12: Ecological information

12.6 Other adverse effects  : No known significant effects or critical hazards.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product
Methods of disposal : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

Hazardous waste : Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC.

Packaging
Methods of disposal : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

Special precautions : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spill material and runoff and contact with soil, waterways, drains and sewers.

SECTION 14: Transport information

ADR/RID / IMDG / IATA : Not regulated.

14.6 Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

14.7 Transport in bulk according to Annex II of Marpol and the IBC Code : Not available.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
EU Regulation (EC) No. 1907/2006 (REACH)
Annex XIV - List of substances subject to authorisation
Annex XIV
None of the components are listed.
Substances of very high concern
None of the components are listed.
Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles
5X SureSelect Fragmentation Buffer : Not applicable.
SureSelect Fragmentation Enzyme : Not applicable.

Other EU regulations
Ozone depleting substances (1005/2009/EU)
Not listed.

Date of issue/Date of revision : 31/05/2018
SECTION 15: Regulatory information

Prior Informed Consent (PIC) (649/2012/EU)
Not listed.

Seveso Directive
This product is not controlled under the Seveso Directive.

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals
Not listed.

Montreal Protocol (Annexes A, B, C, E)
Not listed.

Stockholm Convention on Persistent Organic Pollutants
Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)
Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals
Not listed.

Inventory list

Australia : Not determined.
Canada : Not determined.
China : All components are listed or exempted.
Europe : All components are listed or exempted.
Japan : Japan inventory (ENCS): Not determined.
         Japan inventory (ISHL): Not determined.
Malaysia : Not determined.
New Zealand : Not determined.
Philippines : Not determined.
Republic of Korea : Not determined.
Taiwan : All components are listed or exempted.
Thailand : Not determined.
Turkey : Not determined.
United States : All components are listed or exempted.
Viet Nam : Not determined.

15.2 Chemical safety assessment : This product contains substances for which Chemical Safety Assessments might still be required.

SECTION 16: Other information

Indicates information that has changed from previously issued version.

Abbreviations and acronyms

ATE = Acute Toxicity Estimate
CLP = Classification, Labelling and Packaging Regulation [Regulation (EC) No. 1272/2008]
DNEL = Derived No Effect Level
EUH statement = CLP-specific Hazard statement
PNEC = Predicted No Effect Concentration
RRN = REACH Registration Number

Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]
