

SAFETY DATA SHEET

✓ MVP Total RNA - Human RAJI Cells - with and without PMA treatment, Part Number 540197

Section 1. Identification

Product identifier : ✓ MVP Total RNA - Human RAJI Cells - with and without PMA treatment
Part No. (Chemical Kit) : 540197
Part No. : MVP Total RNA, Human Raji Cells 540091-41
MVP Total RNA, Human Raji Cells, PMA-treated 540101-41

Relevant identified uses of the substance or mixture and uses advised against

Analytical reagent.

MVP Total RNA, Human Raji Cells 0.025 ml
MVP Total RNA, Human Raji Cells, PMA-treated 0.025 ml

Supplier/Manufacturer : Agilent Technologies Australia Pty Ltd
679 Springvale Road
Mulgrave
Victoria 3170, Australia
1800 802 402

Emergency telephone number (with hours of operation) : CHEMTREC®: (61)-290372994

Section 2. Hazard(s) identification

Classification of the substance or mixture

Not classified.

GHS label elements

Signal word : ✓ MVP Total RNA, Human Raji Cells No signal word.
MVP Total RNA, Human Raji Cells, PMA-treated No signal word.

Hazard statements : ✓ MVP Total RNA, Human Raji Cells No known significant effects or critical hazards.
MVP Total RNA, Human Raji Cells, PMA-treated No known significant effects or critical hazards.

Precautionary statements

Prevention : ✓ MVP Total RNA, Human Raji Cells Not applicable.
MVP Total RNA, Human Raji Cells, PMA-treated Not applicable.

Response : ✓ MVP Total RNA, Human Raji Cells Not applicable.
MVP Total RNA, Human Raji Cells, PMA-treated Not applicable.

Storage : ✓ MVP Total RNA, Human Raji Cells Not applicable.
MVP Total RNA, Human Raji Cells, PMA-treated Not applicable.

Disposal : ✓ MVP Total RNA, Human Raji Cells Not applicable.
MVP Total RNA, Human Raji Cells, PMA-treated Not applicable.

Section 2. Hazard(s) identification

Supplemental label elements : MVP Total RNA, Human Raji Cells Not applicable.
MVP Total RNA, Human Raji Cells, PMA-treated Not applicable.

Other hazards which do not result in classification : MVP Total RNA, Human Raji Cells None known.
MVP Total RNA, Human Raji Cells, PMA-treated None known.

Section 3. Composition and ingredient information

Substance/mixture : MVP Total RNA, Human Raji Cells Mixture
MVP Total RNA, Human Raji Cells, PMA-treated Mixture

CAS number/other identifiers

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First-aid measures

Description of necessary first aid measures

Eye contact : MVP Total RNA, Human Raji Cells Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
MVP Total RNA, Human Raji Cells, PMA-treated Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Inhalation : MVP Total RNA, Human Raji Cells Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
MVP Total RNA, Human Raji Cells, PMA-treated Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

Skin contact : MVP Total RNA, Human Raji Cells Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
MVP Total RNA, Human Raji Cells, PMA-treated Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

Ingestion : MVP Total RNA, Human Raji Cells Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
MVP Total RNA, Human Raji Cells, PMA-treated Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Section 4. First-aid measures

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact	: MVP Total RNA, Human Raji Cells	No known significant effects or critical hazards.
	: MVP Total RNA, Human Raji Cells, PMA-treated	No known significant effects or critical hazards.
Inhalation	: MVP Total RNA, Human Raji Cells	No known significant effects or critical hazards.
	: MVP Total RNA, Human Raji Cells, PMA-treated	No known significant effects or critical hazards.
Skin contact	: MVP Total RNA, Human Raji Cells	No known significant effects or critical hazards.
	: MVP Total RNA, Human Raji Cells, PMA-treated	No known significant effects or critical hazards.
Ingestion	: MVP Total RNA, Human Raji Cells	No known significant effects or critical hazards.
	: MVP Total RNA, Human Raji Cells, PMA-treated	No known significant effects or critical hazards.

Over-exposure signs/symptoms

Eye contact	: MVP Total RNA, Human Raji Cells	No specific data.
	: MVP Total RNA, Human Raji Cells, PMA-treated	No specific data.
Inhalation	: MVP Total RNA, Human Raji Cells	No specific data.
	: MVP Total RNA, Human Raji Cells, PMA-treated	No specific data.
Skin contact	: MVP Total RNA, Human Raji Cells	No specific data.
	: MVP Total RNA, Human Raji Cells, PMA-treated	No specific data.
Ingestion	: MVP Total RNA, Human Raji Cells	No specific data.
	: MVP Total RNA, Human Raji Cells, PMA-treated	No specific data.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: MVP Total RNA, Human Raji Cells	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
	: MVP Total RNA, Human Raji Cells, PMA-treated	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: MVP Total RNA, Human Raji Cells	No specific treatment.
	: MVP Total RNA, Human Raji Cells, PMA-treated	No specific treatment.
Protection of first-aiders	: MVP Total RNA, Human Raji Cells	No action shall be taken involving any personal risk or without suitable training.
	: MVP Total RNA, Human Raji Cells, PMA-treated	No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media : MVP Total RNA, Human Raji Cells Use an extinguishing agent suitable for the surrounding fire.

MVP Total RNA, Human Raji Cells, PMA-treated Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media : MVP Total RNA, Human Raji Cells None known.

MVP Total RNA, Human Raji Cells, PMA-treated None known.

Specific hazards arising from the chemical : MVP Total RNA, Human Raji Cells In a fire or if heated, a pressure increase will occur and the container may burst.

MVP Total RNA, Human Raji Cells, PMA-treated In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products : MVP Total RNA, Human Raji Cells No specific data.

MVP Total RNA, Human Raji Cells, PMA-treated No specific data.

Special protective actions for fire-fighters : MVP Total RNA, Human Raji Cells Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

MVP Total RNA, Human Raji Cells, PMA-treated Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters : MVP Total RNA, Human Raji Cells Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

MVP Total RNA, Human Raji Cells, PMA-treated Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel : MVP Total RNA, Human Raji Cells No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.

MVP Total RNA, Human Raji Cells, PMA-treated No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.

For emergency responders : MVP Total RNA, Human Raji Cells If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

MVP Total RNA, Human Raji Cells, PMA-treated If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Section 6. Accidental release measures

Environmental precautions	: MVP Total RNA, Human Raji Cells	Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
	MVP Total RNA, Human Raji Cells, PMA-treated	Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and material for containment and cleaning up

Methods for cleaning up	: MVP Total RNA, Human Raji Cells	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	MVP Total RNA, Human Raji Cells, PMA-treated	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

Precautions for safe handling

Protective measures	: MVP Total RNA, Human Raji Cells	Put on appropriate personal protective equipment (see Section 8).
	MVP Total RNA, Human Raji Cells, PMA-treated	Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	: MVP Total RNA, Human Raji Cells	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
	MVP Total RNA, Human Raji Cells, PMA-treated	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any incompatibilities	: MVP Total RNA, Human Raji Cells	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.
	MVP Total RNA, Human Raji Cells, PMA-treated	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until

Section 7. Handling and storage

ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls and personal protection

Control parameters

Occupational exposure limits

None.

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
- Skin protection**
- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Section 9. Physical and chemical properties

Appearance

- Physical state** : MVP Total RNA, Human Raji Liquid.
Cells
MVP Total RNA, Human Raji Liquid.
Cells, PMA-treated
- Colour** : MVP Total RNA, Human Raji Not available.
Cells
MVP Total RNA, Human Raji Not available.
Cells, PMA-treated

Section 9. Physical and chemical properties

Odour	: MVP Total RNA, Human Raji Cells	Not available.
	: MVP Total RNA, Human Raji Cells, PMA-treated	Not available.
Odour threshold	: MVP Total RNA, Human Raji Cells	Not available.
	: MVP Total RNA, Human Raji Cells, PMA-treated	Not available.
pH	: MVP Total RNA, Human Raji Cells	8
	: MVP Total RNA, Human Raji Cells, PMA-treated	8
Melting point	: MVP Total RNA, Human Raji Cells	0°C (32°F)
	: MVP Total RNA, Human Raji Cells, PMA-treated	0°C (32°F)
Boiling point	: MVP Total RNA, Human Raji Cells	100°C (212°F)
	: MVP Total RNA, Human Raji Cells, PMA-treated	100°C (212°F)
Flash point	: MVP Total RNA, Human Raji Cells	Not available.
	: MVP Total RNA, Human Raji Cells, PMA-treated	Not available.
Evaporation rate	: MVP Total RNA, Human Raji Cells	Not available.
	: MVP Total RNA, Human Raji Cells, PMA-treated	Not available.
Flammability (solid, gas)	: MVP Total RNA, Human Raji Cells	Not applicable.
	: MVP Total RNA, Human Raji Cells, PMA-treated	Not applicable.
Lower and upper explosive (flammable) limits	: MVP Total RNA, Human Raji Cells	Not available.
	: MVP Total RNA, Human Raji Cells, PMA-treated	Not available.
Vapour pressure	: MVP Total RNA, Human Raji Cells	Not available.
	: MVP Total RNA, Human Raji Cells, PMA-treated	Not available.
Vapour density	: MVP Total RNA, Human Raji Cells	Not available.
	: MVP Total RNA, Human Raji Cells, PMA-treated	Not available.
Relative density	: MVP Total RNA, Human Raji Cells	Not available.
	: MVP Total RNA, Human Raji Cells, PMA-treated	Not available.
Solubility	: MVP Total RNA, Human Raji Cells	Easily soluble in the following materials: cold water and hot water.
	: MVP Total RNA, Human Raji Cells, PMA-treated	Easily soluble in the following materials: cold water and hot water.
Partition coefficient: n-octanol/water	: MVP Total RNA, Human Raji Cells	Not available.
	: MVP Total RNA, Human Raji Cells, PMA-treated	Not available.

Section 9. Physical and chemical properties

Auto-ignition temperature	: MVP Total RNA, Human Raji Cells	Not available.
	MVP Total RNA, Human Raji Cells, PMA-treated	Not available.
Decomposition temperature	: MVP Total RNA, Human Raji Cells	Not available.
	MVP Total RNA, Human Raji Cells, PMA-treated	Not available.
Viscosity	: MVP Total RNA, Human Raji Cells	Not available.
	MVP Total RNA, Human Raji Cells, PMA-treated	Not available.

Section 10. Stability and reactivity

Reactivity	: MVP Total RNA, Human Raji Cells	No specific test data related to reactivity available for this product or its ingredients.
	MVP Total RNA, Human Raji Cells, PMA-treated	No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: MVP Total RNA, Human Raji Cells	The product is stable.
	MVP Total RNA, Human Raji Cells, PMA-treated	The product is stable.
Possibility of hazardous reactions	: MVP Total RNA, Human Raji Cells	Under normal conditions of storage and use, hazardous reactions will not occur.
	MVP Total RNA, Human Raji Cells, PMA-treated	Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: MVP Total RNA, Human Raji Cells	No specific data.
	MVP Total RNA, Human Raji Cells, PMA-treated	No specific data.
Incompatible materials	: MVP Total RNA, Human Raji Cells	May react or be incompatible with oxidising materials.
	MVP Total RNA, Human Raji Cells, PMA-treated	May react or be incompatible with oxidising materials.
Hazardous decomposition products	: MVP Total RNA, Human Raji Cells	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
	MVP Total RNA, Human Raji Cells, PMA-treated	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Not available.

Irritation/Corrosion

Not available.

Sensitisation

Not available.

Mutagenicity

Section 11. Toxicological information

Not available.

Carcinogenicity

Not available.

Reproductive toxicity

Not available.

Teratogenicity

Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on the likely routes of exposure : MVP Total RNA, Human Raji Cells Not available.
MVP Total RNA, Human Raji Cells, PMA-treated Not available.

Potential acute health effects

Eye contact : MVP Total RNA, Human Raji Cells No known significant effects or critical hazards.
MVP Total RNA, Human Raji Cells, PMA-treated No known significant effects or critical hazards.

Inhalation : MVP Total RNA, Human Raji Cells No known significant effects or critical hazards.
MVP Total RNA, Human Raji Cells, PMA-treated No known significant effects or critical hazards.

Skin contact : MVP Total RNA, Human Raji Cells No known significant effects or critical hazards.
MVP Total RNA, Human Raji Cells, PMA-treated No known significant effects or critical hazards.

Ingestion : MVP Total RNA, Human Raji Cells No known significant effects or critical hazards.
MVP Total RNA, Human Raji Cells, PMA-treated No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact : MVP Total RNA, Human Raji Cells No specific data.
MVP Total RNA, Human Raji Cells, PMA-treated No specific data.

Inhalation : MVP Total RNA, Human Raji Cells No specific data.
MVP Total RNA, Human Raji Cells, PMA-treated No specific data.

Skin contact : MVP Total RNA, Human Raji Cells No specific data.
MVP Total RNA, Human Raji Cells, PMA-treated No specific data.

Ingestion : MVP Total RNA, Human Raji Cells No specific data.
MVP Total RNA, Human Raji Cells, PMA-treated No specific data.

Section 11. Toxicological information

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Long term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Potential chronic health effects

Not available.

General	:	MVP Total RNA, Human Raji Cells	No known significant effects or critical hazards.
	:	MVP Total RNA, Human Raji Cells, PMA-treated	No known significant effects or critical hazards.
Carcinogenicity	:	MVP Total RNA, Human Raji Cells	No known significant effects or critical hazards.
	:	MVP Total RNA, Human Raji Cells, PMA-treated	No known significant effects or critical hazards.
Mutagenicity	:	MVP Total RNA, Human Raji Cells	No known significant effects or critical hazards.
	:	MVP Total RNA, Human Raji Cells, PMA-treated	No known significant effects or critical hazards.
Teratogenicity	:	MVP Total RNA, Human Raji Cells	No known significant effects or critical hazards.
	:	MVP Total RNA, Human Raji Cells, PMA-treated	No known significant effects or critical hazards.
Developmental effects	:	MVP Total RNA, Human Raji Cells	No known significant effects or critical hazards.
	:	MVP Total RNA, Human Raji Cells, PMA-treated	No known significant effects or critical hazards.
Fertility effects	:	MVP Total RNA, Human Raji Cells	No known significant effects or critical hazards.
	:	MVP Total RNA, Human Raji Cells, PMA-treated	No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Not available.

Section 12. Ecological information

Toxicity

Not available.

Persistence and degradability

Not available.

Bioaccumulative potential

Not available.

Section 12. Ecological information

Mobility in soil

Soil/water partition coefficient (K_{oc}) : Not available.

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

Regulatory information

ADG / IMDG / IATA : Not regulated as Dangerous Goods according to the ADG Code .

Special precautions for user : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code : Not available.

Section 15. Regulatory information

Standard Uniform Schedule of Medicine and Poisons

Not regulated.

Model Work Health and Safety Regulations - Scheduled Substances

No listed substance

Australia inventory (AICS) : All components are listed or exempted.

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

Montreal Protocol (Annexes A, B, C, E)

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Inform Consent (PIC)

Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

International lists

National inventory

Section 15. Regulatory information

Canada	: All components are listed or exempted.
China	: <input checked="" type="checkbox"/> All components are listed or exempted.
Europe	: All components are listed or exempted.
Japan	: All components are listed or exempted.
Malaysia	: <input type="checkbox"/> Not determined.
New Zealand	: <input checked="" type="checkbox"/> All components are listed or exempted.
Philippines	: <input checked="" type="checkbox"/> All components are listed or exempted.
Republic of Korea	: <input checked="" type="checkbox"/> All components are listed or exempted.
Taiwan	: <input checked="" type="checkbox"/> All components are listed or exempted.
United States	: All components are listed or exempted.

Section 16. Any other relevant information

History

Date of issue/Date of revision	: 15/10/2015
Date of previous issue	: 05/06/2013.
Version	: 3

Key to abbreviations	: ADG = Australian Dangerous Goods ATE = Acute Toxicity Estimate BCF = Bioconcentration Factor GHS = Globally Harmonized System of Classification and Labelling of Chemicals IATA = International Air Transport Association IBC = Intermediate Bulk Container IMDG = International Maritime Dangerous Goods LogPow = logarithm of the octanol/water partition coefficient MARPOL 73/78 = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution) NOHSC = National Occupational Health and Safety Commission SUSMP = Standard Uniform Schedule of Medicine and Poisons UN = United Nations
