SAFETY DATA SHEET

Cloned Pfu DNA Polymerase AD, Part Number 600355

Section 1. Identification

1.1 Product identifier

Product name : Cloned Pfu DNA Polymerase AD, Part Number 600355

Part no. (chemical kit) : 600355

Part no. : Cloned Pfu DNA Polymerase AD 600355-51

10X Cloned Pfu Reaction Buffer AD 600157-82

Validation date : 7/20/2021

1.2 Relevant identified uses of the substance or mixture and uses advised against

Material uses : Analytical reagent.

Cloned Pfu DNA Polymerase AD 0.2 ml (500 U 2.5 U/µl)

10X Cloned Pfu Reaction Buffer AD 2 x 1 ml

1.3 Details of the supplier of the safety data sheet

Supplier/Manufacturer: Agilent Technologies, Inc.

5301 Stevens Creek Blvd Santa Clara, CA 95051, USA

800-227-9770

1.4 Emergency telephone number

In case of emergency : CHEMTREC®: 1-800-424-9300

Section 2. Hazards identification

2.1 Classification of the substance or mixture

OSHA/HCS status : Cloned Pfu DNA

Polymerase AD

10X Cloned Pfu Reaction

Buffer AD

This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR

1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and

other users of this product.

Classification of the substance or mixture

☑Ioned Pfu DNA Polymerase AD

H320 EYE IRRITATION - Category 2B

70X Cloned Pfu Reaction Buffer Percentage of the mixture consisting of ingredient(s)

AD of unknown hazards to the aquatic environment: 2%

2.2 GHS label elements

Signal word : Cloned Pfu DNA Polymerase AD Warning

10X Cloned Pfu Reaction Buffer No signal word.

AD

Hazard statements: Cloned Pfu DNA Polymerase AD H320 - Causes eye irritation.

10X Cloned Pfu Reaction Buffer No known significant effects or critical hazards.

Precautionary statements
Prevention : Cloned Pfu DNA Polymerase AD Not applicable.

: Cloned Pfu DNA Polymerase AD Not applicable. 10X Cloned Pfu Reaction Buffer Not applicable.

ΑD

Date of issue: 07/20/2021 1/16

Section 2. Hazards identification

Response	: 反 loned Pfu DNA Polymerase AD	P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337 + P313 - If eye irritation persists: Get medical advice or attention.
	10X Cloned Pfu Reaction Buffer AD	Not applicable.
Storage	: Cloned Pfu DNA Polymerase AD	Not applicable.
•	10X Cloned Pfu Reaction Buffer	Not applicable.
	AD	• •
Disposal	: Cloned Pfu DNA Polymerase AD	Not applicable.
-	10X Cloned Pfu Reaction Buffer AD	Not applicable.
Supplemental label	: Cloned Pfu DNA Polymerase AD	None known.
elements	10X Cloned Pfu Reaction Buffer	None known.
	AD	
2.3 Other hazards		
Hazards not otherwise	: Cloned Pfu DNA Polymerase AD	None known.
classified	10X Cloned Pfu Reaction Buffer AD	None known.

Section 3. Composition/information on ingredients

Substance/mixture	: Cloned Pfu DNA Polymerase AD	Mixture
	10X Cloned Pfu Reaction Buffer AD	Mixture

Ingredient name	%	CAS number
Cloned Pfu DNA Polymerase AD Glycerol	≥50 - ≤75	56-81-5
10X Cloned Pfu Reaction Buffer AD Dodecyldimethyl(3-sulphonatopropyl)ammonium Ammonium sulphate	≤3 ≤3	14933-08-5 7783-20-2

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

4.1 Description of necessary first aid measures

Eye contact : Cloned Pfu DNA Polymerase AD Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids.

Check for and remove any contact lenses.

Continue to rinse for at least 10 minutes. If irritation

persists, get medical attention.

10X Cloned Pfu Reaction Buffer

ΑD

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get

medical attention if irritation occurs.

Date of issue: 07/20/2021 **2/16**

Section 4. First aid measures

: Cloned Pfu DNA Polymerase AD Inhalation

Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

10X Cloned Pfu Reaction Buffer

AD

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

Skin contact : Cloned Pfu DNA Polymerase AD Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.

10X Cloned Pfu Reaction Buffer AD

Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get

medical attention if symptoms occur.

Ingestion : Cloned Pfu DNA Polymerase AD Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie,

belt or waistband.

10X Cloned Pfu Reaction Buffer

AD

Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

4.2 Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact

Inhalation

: Cloned Pfu DNA Polymerase AD

Causes eye irritation. 10X Cloned Pfu Reaction Buffer

AD

No known significant effects or critical hazards.

: Cloned Pfu DNA Polymerase AD

10X Cloned Pfu Reaction Buffer

AD

No known significant effects or critical hazards. No known significant effects or critical hazards.

07/20/2021 Date of issue: 3/16

Section 4. First aid measures

: Cloned Pfu DNA Polymerase AD Skin contact No known significant effects or critical hazards.

10X Cloned Pfu Reaction Buffer No known significant effects or critical hazards.

AD

Ingestion Cloned Pfu DNA Polymerase AD No known significant effects or critical hazards.

10X Cloned Pfu Reaction Buffer No known significant effects or critical hazards.

AD

Over-exposure signs/symptoms

Eye contact : Cloned Pfu DNA Polymerase AD Adverse symptoms may include the following:

> irritation watering redness

10X Cloned Pfu Reaction Buffer No specific data.

AD

Cloned Pfu DNA Polymerase AD Inhalation No specific data.

10X Cloned Pfu Reaction Buffer No specific data.

AD

: Cloned Pfu DNA Polymerase AD Skin contact No specific data.

10X Cloned Pfu Reaction Buffer No specific data.

Ingestion Cloned Pfu DNA Polymerase AD No specific data.

10X Cloned Pfu Reaction Buffer No specific data.

AD

4.3 Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician : Cloned Pfu DNA Polymerase AD Treat symptomatically. Contact poison treatment

specialist immediately if large quantities have been

ingested or inhaled.

10X Cloned Pfu Reaction Buffer

AD

In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical

surveillance for 48 hours.

Specific treatments : Cloned Pfu DNA Polymerase AD No specific treatment.

10X Cloned Pfu Reaction Buffer No specific treatment.

Protection of first-aiders : Cloned Pfu DNA Polymerase AD No action shall be taken involving any personal risk

> or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth

resuscitation.

10X Cloned Pfu Reaction Buffer

AD

No action shall be taken involving any personal risk

or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

5.1 Extinguishing media

Suitable extinguishing : Cloned Pfu DNA Polymerase AD Use an extinguishing agent suitable for the media surrounding fire.

> 10X Cloned Pfu Reaction Buffer Use an extinguishing agent suitable for the AD

surrounding fire.

Unsuitable extinguishing media

Cloned Pfu DNA Polymerase AD 10X Cloned Pfu Reaction Buffer

None known. None known.

5.2 Special hazards arising from the substance or mixture

AD

Date of issue: 07/20/2021 4/16

Section 5. Fire-fighting measures

Specific hazards arising from the chemical

: Cloned Pfu DNA Polymerase AD

In a fire or if heated, a pressure increase will occur

and the container may burst.

10X Cloned Pfu Reaction Buffer

In a fire or if heated, a pressure increase will occur

and the container may burst.

Hazardous thermal decomposition products

: Cloned Pfu DNA Polymerase AD

Decomposition products may include the following

materials:

carbon dioxide carbon monoxide

10X Cloned Pfu Reaction Buffer AD

Decomposition products may include the following

materials: carbon dioxide carbon monoxide nitrogen oxides sulfur oxides

halogenated compounds

5.3 Advice for firefighters

Special protective actions for fire-fighters

: Cloned Pfu DNA Polymerase AD

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or

without suitable training.

10X Cloned Pfu Reaction Buffer

AD

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or

without suitable training.

Special protective equipment for fire-fighters

: Cloned Pfu DNA Polymerase AD

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive

pressure mode.

10X Cloned Pfu Reaction Buffer

ΑD

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive

pressure mode.

Section 6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

: Cloned Pfu DNA Polymerase AD

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate

personal protective equipment.

10X Cloned Pfu Reaction Buffer

ΑD

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

Date of issue: 07/20/2021 5/16

Section 6. Accidental release measures

For emergency responders : Cloned Pfu DNA Polymerase AD

10X Cloned Pfu Reaction Buffer AD

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

6.2 Environmental precautions: Cloned Pfu DNA Polymerase AD

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

10X Cloned Pfu Reaction Buffer

AD

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers,

waterways, soil or air).

6.3 Methods and materials for containment and cleaning up

Methods for cleaning up : Cloned Pfu DNA Polymerase AD

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

10X Cloned Pfu Reaction Buffer

ΑD

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

7.1 Precautions for safe handling

Protective measures : Cloned Pfu DNA Polymerase AD

Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

Deffer Det an area

10X Cloned Pfu Reaction Buffer

AD

AD

Put on appropriate personal protective equipment (see Section 8).

10X Cloned Pfu Reaction Buffer

Advice on general occupational hygiene

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove

Section 7. Handling and storage

contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

: Cloned Pfu DNA Polymerase AD

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

Ingredient name	Exposure limits
Ø loned Pfu DNA Polymerase AD	
Glycerol	OSHA PEL 1989 (United States, 3/1989). TWA: 5 mg/m³ 8 hours. Form: Respirable fraction TWA: 10 mg/m³ 8 hours. Form: Total dust OSHA PEL (United States, 5/2018). TWA: 5 mg/m³ 8 hours. Form: Respirable fraction TWA: 15 mg/m³ 8 hours. Form: Total dust
10X Cloned Pfu Reaction Buffer AD Dodecyldimethyl(3-sulphonatopropyl)ammonium Ammonium sulphate	None. None.

8.2 Exposure controls

Date of issue: 07/20/2021 **7/16**

Section 8. Exposure controls/personal protection

Appropriate engineering controls

Environmental exposure controls

- : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.

Skin protection

Hand protection

Themical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

Body protection

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection

: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection

Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 13. Disposal considerations

13.1 Waste treatment methods

Disposal methods

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Readily

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.

The information presented below only applies to the material as supplied. The identification based on characteristic (s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

Date of issue: 07/20/2021 13/16

Section 14. Transport information

DOT / TDG / Mexico / IMDG / : Not regulated.

IATA

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the

event of an accident or spillage.

Transport in bulk according

to IMO instruments

: Not available.

Section 15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

: TSCA 8(a) CDR Exempt/Partial exemption: Not determined U.S. Federal regulations

Clean Water Act (CWA) 311: Edetic acid

Clean Air Act Section 112

(b) Hazardous Air **Pollutants (HAPs)** : Not listed

Clean Air Act Section 602

Class I Substances

: Not listed

Clean Air Act Section 602

Class II Substances

: Not listed

DEA List I Chemicals

(Precursor Chemicals)

: Not listed

DEA List II Chemicals

: Not listed

(Essential Chemicals)

SARA 302/304

Composition/information on ingredients

No products were found.

SARA 304 RQ : Not applicable.

SARA 311/312

EYE IRRITATION - Category 2B Classification Cloned Pfu DNA Polymerase AD

> 10X Cloned Pfu Reaction Buffer Not applicable.

Composition/information on ingredients

Name	%	Classification
Cloned Pfu DNA Polymerase		
Glycerol	≥50 - ≤75	EYE IRRITATION - Category 2B
10X Cloned Pfu Reaction Buffer AD Dodecyldimethyl (3-sulphonatopropyl)ammonium	≤3	ACUTE TOXICITY (oral) - Category 4 ACUTE TOXICITY (dermal) - Category 4 ACUTE TOXICITY (inhalation) - Category 4 SKIN IRRITATION - Category 2 EYE IRRITATION - Category 2A
Ammonium sulphate	≤3	SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation) - Category 3 EYE IRRITATION - Category 2A

SARA 313

07/20/2021 Date of issue: 14/16

Section 15. Regulatory information

	Product name	CAS number	%
1 Office Conting	MX Cloned Pfu Reaction Buffer AD Ammonium sulphate	7783-20-2	≤3
Cupplici lictilication	MOX Cloned Pfu Reaction Buffer AD Ammonium sulphate	7783-20-2	≤3

SARA 313 notifications must not be detached from the SDS and any copying and redistribution of the SDS shall include copying and redistribution of the notice attached to copies of the SDS subsequently redistributed.

State regulations

Massachusetts : The following components are listed: GLYCERINE MIST

New York: None of the components are listed.

New Jersey : The following components are listed: GLYCERIN; 1,2,3-PROPANETRIOL

Pennsylvania: The following components are listed: 1,2,3-PROPANETRIOL

California Prop. 65

This product does not require a Safe Harbor warning under California Prop. 65.

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

Montreal Protocol

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

Inventory list

Australia : Not determined.
Canada : Not determined.
China : Not determined.
Europe : Not determined.

Japan : Japan inventory (ENCS): Not determined.

Japan inventory (ISHL): Not determined.

New Zealand : Not determined.
Philippines : Not determined.
Republic of Korea : Not determined.

Taiwan : All components are listed or exempted.

Thailand : Not determined.
Turkey : Not determined.
United States : Not determined.
Viet Nam : Not determined.

Date of issue: 07/20/2021 15/16

Section 16. Other information

History

Date of issue : 07/20/2021

Date of previous issue : 04/11/2019

Version : 6

Key to abbreviations : ATE = Acute Toxicity Estimate

BCF = Bioconcentration Factor

GHS = Globally Harmonized System of Classification and Labelling of Chemicals

IATA = International Air Transport Association

IBC = Intermediate Bulk Container

IMDG = International Maritime Dangerous Goods

LogPow = logarithm of the octanol/water partition coefficient

MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as

modified by the Protocol of 1978. ("Marpol" = marine pollution)

N/A = Not available UN = United Nations

Procedure used to derive the classification

Classification	Justification	
Øloned Pfu DNA Polymerase AD EYE IRRITATION - Category 2B	Calculation method	

Indicates information that has changed from previously issued version.
