Section 1. Identification

This product is considered an article. This Safety Data Sheet is written based on the encapsulated substance or mixture in this article.

1.1 Product identifier

Product name : Gas Clean Filter FID Kit 1/4 in, Part Number CP7995
Part no. (chemical kit) : CP7995
Part no. : Gas Clean Filter Hydrocarbon CP17972
          : Gas Clean Filter Oxygen CP17970
          : Gas Clean Filter Moisture CP17971
Validation date : 9/11/2018

1.2 Relevant identified uses of the substance or mixture and uses advised against

Material uses : Reagents and Standards for Analytical Chemistry Laboratory Use
                Gas Clean Filter Hydrocarbon 1 x 200 ml
                Gas Clean Filter Oxygen 1 x 200 ml
                Gas Clean Filter Moisture 1 x 200 ml

1.3 Details of the supplier of the safety data sheet

Supplier/Manufacturer : Agilent Technologies, Inc.
                       5301 Stevens Creek Blvd
                       Santa Clara, CA 95051, USA
                       800-227-9770

1.4 Emergency telephone number

In case of emergency : CHEMTREC®: 1-800-424-9300

Section 2. Hazards identification

This article, when used under reasonable conditions and in accordance with the directions for use, should not present a health hazard. The substance or mixture is encapsulated in this article. Only if released due to use or processing of the article in a manner not in accordance with the product’s directions for use it may present potential health and safety hazards.

2.1 Classification of the substance or mixture

OSHA/HCS status : Gas Clean Filter Hydrocarbon This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
                 Gas Clean Filter Oxygen This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
                 Gas Clean Filter Moisture This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

Classification of the substance or mixture

Gas Clean Filter Hydrocarbon
Comb. Dusts \hspace{1cm} COMBUSTIBLE DUSTS

Gas Clean Filter Oxygen
H332 \hspace{1cm} ACUTE TOXICITY (inhalation) - Category 4
H317 \hspace{1cm} SKIN SENSITIZATION - Category 1
H350 \hspace{1cm} CARCINOGENICITY - Category 1A
H402 \hspace{1cm} AQUATIC HAZARD (ACUTE) - Category 3
H412 \hspace{1cm} AQUATIC HAZARD (LONG-TERM) - Category 3

Date of issue : 09/11/2018
Section 2. Hazards identification

Gas Clean Filter Moisture

H350

CARCINOGENICITY - Category 1A

H372

SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) (lungs) - Category 1

Ingredients of unknown toxicity:

Gas Clean Filter Oxygen

Percentage of the mixture consisting of ingredient(s) of unknown dermal toxicity: 10 - 30%

Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: > 60%

Gas Clean Filter Moisture

Percentage of the mixture consisting of ingredient(s) of unknown dermal toxicity: > 60%

Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: > 60%

Percentage of the mixture consisting of ingredient(s) of unknown oral toxicity: > 60%

Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 100%

2.2 GHS label elements

Hazard pictograms:

Gas Clean Filter Oxygen

Gas Clean Filter Moisture

Signal word:

Gas Clean Filter Hydrocarbon - Warning

Gas Clean Filter Oxygen - Danger

Gas Clean Filter Moisture - Danger

Hazard statements:

Gas Clean Filter Hydrocarbon

No Code(s) - May form combustible dust concentrations in air.

H332 - Harmful if inhaled.

H317 - May cause an allergic skin reaction.

H350 - May cause cancer.

H412 - Harmful to aquatic life with long lasting effects.

Gas Clean Filter Oxygen

H350 - May cause cancer.

H372 - Causes damage to organs through prolonged or repeated exposure. (lungs)

Gas Clean Filter Moisture

H350 - May cause cancer.

Precautionary statements

Prevention:

Gas Clean Filter Hydrocarbon - Not applicable.

Gas Clean Filter Oxygen

P201 - Obtain special instructions before use.

P202 - Do not handle until all safety precautions have been read and understood.

P280 - Wear protective gloves. Wear eye or face protection. Wear protective clothing.

P271 - Use only outdoors or in a well-ventilated area.

P273 - Avoid release to the environment.

P261 - Avoid breathing dust.

P272 (OSHA) - Contaminated work clothing must not be allowed out of the workplace.

Gas Clean Filter Moisture

P201 - Obtain special instructions before use.

P202 - Do not handle until all safety precautions have been read and understood.

Date of issue: 09/11/2018
Section 2. Hazards identification

have been read and understood.
P280 - Wear protective gloves. Wear eye or face protection. Wear protective clothing.
P260 - Do not breathe dust.
P270 - Do not eat, drink or smoke when using this product.
P264 - Wash hands thoroughly after handling.

Response:
- Gas Clean Filter Hydrocarbon: Not applicable.
- Gas Clean Filter Oxygen: P308 + P313 - IF exposed or concerned: Get medical attention.
P304 + P340 + P312 - IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or physician if you feel unwell.
P302 + P352 + P363 - IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse.
P333 + P313 - If skin irritation or rash occurs: Get medical attention.

Gas Clean Filter Moisture:
P314 - Get medical attention if you feel unwell.
P308 + P313 - IF exposed or concerned: Get medical attention.

Storage:
- Gas Clean Filter Hydrocarbon: Not applicable.
- Gas Clean Filter Oxygen: P405 - Store locked up.
- Gas Clean Filter Moisture: P405 - Store locked up.

Disposal:
- Gas Clean Filter Hydrocarbon: Not applicable.
- Gas Clean Filter Oxygen: P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.
- Gas Clean Filter Moisture: P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.

Supplemental label elements:
- Gas Clean Filter Hydrocarbon: Keep container tightly closed. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Prevent dust accumulation.
- Gas Clean Filter Oxygen: None known.
- Gas Clean Filter Moisture: None known.

2.3 Other hazards

Hazard not otherwise classified:
- Gas Clean Filter Hydrocarbon: None known.
- Gas Clean Filter Oxygen: None known.
- Gas Clean Filter Moisture: None known.

Section 3. Composition/information on ingredients

This article, when used under reasonable conditions and in accordance with the directions for use, should not present a health hazard. The substance or mixture is encapsulated in the article. Only if released due to use or processing of the article in a manner not in accordance with the product’s directions for use it may present potential health and safety hazards.

Substance/mixture:
- Gas Clean Filter Hydrocarbon: Substance (encapsulated in article)
- Gas Clean Filter Oxygen: Mixture (encapsulated in article)
- Gas Clean Filter Moisture: Mixture (encapsulated in article)

Date of issue: 09/11/2018

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

4.1 Description of necessary first aid measures

**Eye contact**

**Gas Clean Filter Hydrocarbon**

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.

**Gas Clean Filter Oxygen**

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.

**Gas Clean Filter Moisture**

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.

**Inhalation**

**Gas Clean Filter Hydrocarbon**

Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

**Gas Clean Filter Oxygen**

Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the
Section 4. First aid measures

Gas Clean Filter FID Kit 1/4 in, Part Number CP7995

Skin contact:

Gas Clean Filter Hydrocarbon

Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.

Gas Clean Filter Moisture

Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.

Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.

Ingestion:

Gas Clean Filter Hydrocarbon

Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Section 6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Gas Clean Filter Hydrocarbon
No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing dust. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

Gas Clean Filter Oxygen
No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

Gas Clean Filter Moisture
No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

For emergency responders

Gas Clean Filter Hydrocarbon
If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Gas Clean Filter Oxygen
If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Gas Clean Filter Moisture
If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

6.2 Environmental precautions

Gas Clean Filter Hydrocarbon
Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Gas Clean Filter Oxygen
Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.

Gas Clean Filter Moisture
Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Section 6. Accidental release measures

6.3 Methods and materials for containment and cleaning up

Methods for cleaning up : Gas Clean Filter Hydrocarbon
Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.

Gas Clean Filter Oxygen
Move containers from spill area. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Place spilled material in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.

Gas Clean Filter Moisture
Move containers from spill area. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

7.1 Precautions for safe handling

Protective measures : Gas Clean Filter Hydrocarbon
Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing dust. Avoid the creation of dust when handling and avoid all possible sources of ignition (spark or flame). Prevent dust accumulation. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Electrical equipment and lighting should be protected to appropriate standards to prevent dust coming into contact with hot surfaces, sparks or other ignition sources. Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material. Empty containers retain product residue and can be hazardous. Do not reuse container.

Gas Clean Filter Oxygen
Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

Gas Clean Filter Moisture
Put on appropriate personal protective equipment
Section 7. Handling and storage

Advice on general occupational hygiene

Gas Clean Filter Hydrocarbon
Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Gas Clean Filter Oxygen
Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Gas Clean Filter Moisture
Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

Gas Clean Filter Hydrocarbon
Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Gas Clean Filter Oxygen
Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.
Section 7. Handling and storage

Gas Clean Filter Moisture

See Section 10 for incompatible materials before handling or use.

Store in accordance with local regulations. TWA: 0.025 mg/m³ 8 hours. Form: Respirable fraction  
NIOSH REL (United States, 10/2016).  
TWA: 0.05 mg/m³ 10 hours. Form: respirable dust |

#### 8.2 Exposure controls

**Appropriate engineering controls**  
Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

**Environmental exposure controls**  
Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

**Individual protection measures**

---

**Date of issue:** 09/11/2018
Section 8. Exposure controls/personal protection

Hygiene measures : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection

Hand protection : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

Body protection : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance

Physical state : Gas Clean Filter Hydrocarbon Solid. [Powder.]
Gas Clean Filter Oxygen Solid. [Granular solid.]
Gas Clean Filter Moisture Solid. [Granular solid.]

### Section 10. Stability and reactivity

**10.1 Reactivity**

- Gas Clean Filter Hydrocarbon: No specific test data related to reactivity available for this product or its ingredients.
- Gas Clean Filter Oxygen: No specific test data related to reactivity available for this product or its ingredients.
- Gas Clean Filter Moisture: No specific test data related to reactivity available for this product or its ingredients.

**10.2 Chemical stability**

- Gas Clean Filter Hydrocarbon: The product is stable.
- Gas Clean Filter Oxygen: The product is stable.
- Gas Clean Filter Moisture: The product is stable.
Section 10. Stability and reactivity

10.3 Possibility of hazardous reactions:
- Gas Clean Filter Hydrocarbon: Under normal conditions of storage and use, hazardous reactions will not occur.
- Gas Clean Filter Oxygen: Under normal conditions of storage and use, hazardous reactions will not occur.
- Gas Clean Filter Moisture: Under normal conditions of storage and use, hazardous reactions will not occur.

10.4 Conditions to avoid:
- Gas Clean Filter Hydrocarbon: Avoid the creation of dust when handling and avoid all possible sources of ignition (spark or flame). Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material. Prevent dust accumulation.
- Gas Clean Filter Oxygen: No specific data.
- Gas Clean Filter Moisture: No specific data.

10.5 Incompatible materials:
- Gas Clean Filter Hydrocarbon: Reactive or incompatible with the following materials: oxidizing materials.
- Gas Clean Filter Oxygen: May react or be incompatible with oxidizing materials.
- Gas Clean Filter Moisture: May react or be incompatible with oxidizing materials.

10.6 Hazardous decomposition products:
- Gas Clean Filter Hydrocarbon: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
- Gas Clean Filter Oxygen: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
- Gas Clean Filter Moisture: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

#### Potential acute health effects

- **Eye contact**: Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the eyes.

- **Inhalation**: Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat and lungs. Harmful if inhaled.

- **Skin contact**: May cause an allergic skin reaction.

- **Ingestion**: No known significant effects or critical hazards.
Section 11. Toxicological information

**Symptoms related to the physical, chemical and toxicological characteristics**

**Eye contact**
- **Gas Clean Filter Hydrocarbon**: Adverse symptoms may include the following: irritation, redness.
- **Gas Clean Filter Oxygen**: No specific data.
- **Gas Clean Filter Moisture**: No specific data.

**Inhalation**
- **Gas Clean Filter Hydrocarbon**: Adverse symptoms may include the following: respiratory tract irritation, coughing.
- **Gas Clean Filter Oxygen**: No specific data.
- **Gas Clean Filter Moisture**: No specific data.

**Skin contact**
- **Gas Clean Filter Hydrocarbon**: No specific data.
- **Gas Clean Filter Oxygen**: Adverse symptoms may include the following: irritation, redness.
- **Gas Clean Filter Moisture**: No specific data.

**Ingestion**
- **Gas Clean Filter Hydrocarbon**: No specific data.
- **Gas Clean Filter Oxygen**: No specific data.
- **Gas Clean Filter Moisture**: No specific data.

**Delayed and immediate effects and also chronic effects from short and long term exposure**

**Short term exposure**
- **Potential immediate effects**: Not available.
- **Potential delayed effects**: Not available.

**Long term exposure**
- **Potential immediate effects**: Not available.
- **Potential delayed effects**: Not available.

**Potential chronic health effects**

**General**
- **Gas Clean Filter Hydrocarbon**: Repeated or prolonged inhalation of dust may lead to chronic respiratory irritation.
- **Gas Clean Filter Oxygen**: Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.
- **Gas Clean Filter Moisture**: Causes damage to organs through prolonged or repeated exposure.

**Carcinogenicity**
- **Gas Clean Filter Hydrocarbon**: No known significant effects or critical hazards.
- **Gas Clean Filter Oxygen**: May cause cancer. Risk of cancer depends on duration and level of exposure.
- **Gas Clean Filter Moisture**: May cause cancer. Risk of cancer depends on duration and level of exposure.

**Mutagenicity**
- **Gas Clean Filter Hydrocarbon**: No known significant effects or critical hazards.
- **Gas Clean Filter Oxygen**: No known significant effects or critical hazards.
- **Gas Clean Filter Moisture**: No known significant effects or critical hazards.

**Teratogenicity**
- **Gas Clean Filter Hydrocarbon**: No known significant effects or critical hazards.
- **Gas Clean Filter Oxygen**: No known significant effects or critical hazards.
- **Gas Clean Filter Moisture**: No known significant effects or critical hazards.

**Developmental effects**
- **Gas Clean Filter Hydrocarbon**: No known significant effects or critical hazards.
- **Gas Clean Filter Oxygen**: No known significant effects or critical hazards.
- **Gas Clean Filter Moisture**: No known significant effects or critical hazards.

### 12.5 Other adverse effects

No known significant effects or critical hazards.
Section 13. Disposal considerations

13.1 Waste treatment methods

Disposal methods: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.

The information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

Section 14. Transport information

This Safety Data Sheet is written based on the encapsulated substance or mixture in this article. Since the hazardous ingredient is encapsulated, the risk of exposure by inhalation, ingestion, skin contact and eyes contact is minimum.

DOT / TDG / Mexico / IMDG / IATA: Not regulated.

Special precautions for user: Transport within user’s premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of MARPOL and the IBC Code: Not available.

Section 15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

U.S. Federal regulations: TSCA 8(a) CDR Exempt/Partial exemption: Not determined
  Clean Water Act (CWA) 307: Copper oxide, Activated; nickel monoxide
  Clean Water Act (CWA) 311: Sulphuric acid
