

# SAFETY DATA SHEET

QC-Plex

## Section 1. Identification

**Product identifier** : QC-Plex  
**Part No. (Chemical Kit)** : QC-0521.100  
**Part No.** : PCR Mix I-1228  
 Taq DNA Polymerase I-1229

### Relevant identified uses of the substance or mixture and uses advised against

Analytical reagent.  
 For Research Use Only. Not for use in diagnostic procedures.  
 1.315 ml  
 PCR Mix 4 x 0.325 ml  
 Taq DNA Polymerase 0.015 ml

**Supplier/Manufacturer** : Agilent Technologies Belgium  
 De Kleetlaan 5 bus 9  
 1831 Diegem  
 Belgium

**Emergency telephone number (with hours of operation)** : CHEMTREC®: +(61)-290372994

## Section 2. Hazard(s) identification

### Classification of the substance or mixture

Not classified.

Taq DNA Polymerase Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: 10 - 30%

### GHS label elements

<b>Signal word</b>	: PCR Mix Taq DNA Polymerase	No signal word. No signal word.
<b>Hazard statements</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
<b><u>Precautionary statements</u></b>		
<b>Prevention</b>	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.
<b>Response</b>	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.
<b>Storage</b>	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.
<b>Disposal</b>	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.
<b>Supplemental label elements</b>	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.
<b>Other hazards which do not result in classification</b>	: PCR Mix Taq DNA Polymerase	None known. None known.

## Section 3. Composition and ingredient information

**Substance/mixture** : PCR Mix Mixture  
 Taq DNA Polymerase Mixture

### CAS number/other identifiers

Ingredient name	% (w/w)	CAS number
Taq DNA Polymerase	≥30 - ≤60	56-81-5
Glycerol		

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

### Description of necessary first aid measures

<b>Eye contact</b>	: PCR Mix	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
	Taq DNA Polymerase	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
<b>Inhalation</b>	: PCR Mix	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
	Taq DNA Polymerase	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
<b>Skin contact</b>	: PCR Mix	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
	Taq DNA Polymerase	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
<b>Ingestion</b>	: PCR Mix	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	Taq DNA Polymerase	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

**Eye contact** : PCR Mix No known significant effects or critical hazards.  
 Taq DNA Polymerase No known significant effects or critical hazards.

## Section 4. First aid measures

<b>Inhalation</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Skin contact</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Ingestion</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
<b><u>Over-exposure signs/symptoms</u></b>		
<b>Eye contact</b>	: PCR Mix Taq DNA Polymerase	No specific data. No specific data.
<b>Inhalation</b>	: PCR Mix Taq DNA Polymerase	No specific data. No specific data.
<b>Skin contact</b>	: PCR Mix Taq DNA Polymerase	No specific data. No specific data.
<b>Ingestion</b>	: PCR Mix Taq DNA Polymerase	No specific data. No specific data.

### Indication of immediate medical attention and special treatment needed, if necessary

<b>Notes to physician</b>	: PCR Mix  Taq DNA Polymerase	In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
<b>Specific treatments</b>	: PCR Mix Taq DNA Polymerase	No specific treatment. No specific treatment.
<b>Protection of first-aiders</b>	: PCR Mix  Taq DNA Polymerase	No action shall be taken involving any personal risk or without suitable training. No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

## Section 5. Firefighting measures

### Extinguishing media

<b>Suitable extinguishing media</b>	: PCR Mix  Taq DNA Polymerase	Use an extinguishing agent suitable for the surrounding fire. Use an extinguishing agent suitable for the surrounding fire.
<b>Unsuitable extinguishing media</b>	: PCR Mix Taq DNA Polymerase	None known. None known.
<b>Specific hazards arising from the chemical</b>	: PCR Mix  Taq DNA Polymerase	In a fire or if heated, a pressure increase will occur and the container may burst. In a fire or if heated, a pressure increase will occur and the container may burst.
<b>Hazardous thermal decomposition products</b>	: PCR Mix  Taq DNA Polymerase	Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides phosphorus oxides Decomposition products may include the following materials: carbon dioxide carbon monoxide

## Section 5. Firefighting measures

<b>Special protective actions for fire-fighters</b>	: PCR Mix	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
	Taq DNA Polymerase	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
<b>Special protective equipment for fire-fighters</b>	: PCR Mix	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
	Taq DNA Polymerase	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

<b>For non-emergency personnel</b>	: PCR Mix	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
	Taq DNA Polymerase	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
<b>For emergency responders</b>	: PCR Mix	If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
	Taq DNA Polymerase	If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
<b>Environmental precautions</b>	: PCR Mix	Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
	Taq DNA Polymerase	Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### Methods and material for containment and cleaning up

<b>Methods for cleaning up</b>	: PCR Mix	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	Taq DNA Polymerase	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an

## Section 6. Accidental release measures

inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

## Section 7. Handling and storage

### Precautions for safe handling

<b>Protective measures</b>	: PCR Mix  Taq DNA Polymerase	Put on appropriate personal protective equipment (see Section 8). Put on appropriate personal protective equipment (see Section 8).
<b>Advice on general occupational hygiene</b>	: PCR Mix  Taq DNA Polymerase	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
<b>Conditions for safe storage, including any incompatibilities</b>	: PCR Mix  Taq DNA Polymerase	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls and personal protection

### Control parameters

#### Occupational exposure limits

Ingredient name	Exposure limits
Taq DNA Polymerase Glycerol	<b>Safe Work Australia (Australia, 1/2014).</b> TWA: 10 mg/m <sup>3</sup> 8 hours.

**Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

## Section 8. Exposure controls and personal protection

**Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### Individual protection measures

**Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

### Skin protection

**Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

**Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

### Appearance

<b>Physical state</b>	: PCR Mix Taq DNA Polymerase	Liquid. Liquid. [Clear. / solution]
<b>Colour</b>	: PCR Mix Taq DNA Polymerase	Not available. Colourless.
<b>Odour</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>Odour threshold</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>pH</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>Melting point</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>Boiling point</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>Flash point</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>Evaporation rate</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>Flammability (solid, gas)</b>	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.
<b>Lower and upper explosive (flammable) limits</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>Vapour pressure</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.

## Section 9. Physical and chemical properties

<b>Vapour density</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>Relative density</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>Solubility</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>Partition coefficient: n-octanol/water</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>Auto-ignition temperature</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>Decomposition temperature</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.
<b>Viscosity</b>	: PCR Mix Taq DNA Polymerase	Not available. Not available.

## Section 10. Stability and reactivity

<b>Reactivity</b>	: PCR Mix Taq DNA Polymerase	No specific test data related to reactivity available for this product or its ingredients. No specific test data related to reactivity available for this product or its ingredients.
<b>Chemical stability</b>	: PCR Mix Taq DNA Polymerase	The product is stable. The product is stable.
<b>Possibility of hazardous reactions</b>	: PCR Mix Taq DNA Polymerase	Under normal conditions of storage and use, hazardous reactions will not occur. Under normal conditions of storage and use, hazardous reactions will not occur.
<b>Conditions to avoid</b>	: PCR Mix Taq DNA Polymerase	No specific data. No specific data.
<b>Incompatible materials</b>	: PCR Mix Taq DNA Polymerase	May react or be incompatible with oxidising materials. May react or be incompatible with oxidising materials.
<b>Hazardous decomposition products</b>	: PCR Mix Taq DNA Polymerase	Under normal conditions of storage and use, hazardous decomposition products should not be produced. Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Taq DNA Polymerase Glycerol	LD50 Oral	Rat	12600 mg/kg	-

#### Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
Taq DNA Polymerase Glycerol	Eyes - Mild irritant	Rabbit	-	24 hours 500 milligrams	-
	Skin - Mild irritant	Rabbit	-	24 hours 500 milligrams	-

## Section 11. Toxicological information

### Sensitisation

Not available.

### Mutagenicity

Not available.

### Carcinogenicity

Not available.

### Reproductive toxicity

Not available.

### Teratogenicity

Not available.

### Specific target organ toxicity (single exposure)

Not available.

### Specific target organ toxicity (repeated exposure)

Not available.

### Aspiration hazard

Not available.

**Information on likely routes of exposure** : PCR Mix : Not available.  
 Taq DNA Polymerase : Routes of entry anticipated: Oral, Dermal, Inhalation.

### Potential acute health effects

<b>Eye contact</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Inhalation</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Skin contact</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Ingestion</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.

### Symptoms related to the physical, chemical and toxicological characteristics

<b>Eye contact</b>	: PCR Mix Taq DNA Polymerase	No specific data. No specific data.
<b>Inhalation</b>	: PCR Mix Taq DNA Polymerase	No specific data. No specific data.
<b>Skin contact</b>	: PCR Mix Taq DNA Polymerase	No specific data. No specific data.
<b>Ingestion</b>	: PCR Mix Taq DNA Polymerase	No specific data. No specific data.

### Delayed and immediate effects as well as chronic effects from short and long-term exposure

#### Short term exposure

**Potential immediate effects** : Not available.

**Potential delayed effects** : Not available.

#### Long term exposure

**Potential immediate effects** : Not available.

**Potential delayed effects** : Not available.

#### Potential chronic health effects

## Section 11. Toxicological information

Not available.

<b>General</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Carcinogenicity</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Mutagenicity</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Teratogenicity</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Developmental effects</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
<b>Fertility effects</b>	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.

### Numerical measures of toxicity

#### Acute toxicity estimates

Not available.

## Section 12. Ecological information

### Toxicity

Product/ingredient name	Result	Species	Exposure
Taq DNA Polymerase Glycerol	Acute LC50 54000 mg/l Fresh water	Fish - Oncorhynchus mykiss	96 hours

### Persistence and degradability

Not available.

### Bioaccumulative potential

Product/ingredient name	LogP <sub>ow</sub>	BCF	Potential
Taq DNA Polymerase Glycerol	-1.76	-	low

### Mobility in soil

**Soil/water partition coefficient (K<sub>oc</sub>)** : Not available.

**Other adverse effects** : No known significant effects or critical hazards.

## Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spill material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

**ADG / IMDG / IATA** : Not regulated as Dangerous Goods according to the ADG Code .

**Special precautions for user** : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**Transport in bulk according to Annex II of Marpol and the IBC Code** : Not available.

## Section 15. Regulatory information

### Standard Uniform Schedule of Medicine and Poisons

Not regulated.

### Model Work Health and Safety Regulations - Scheduled Substances

No listed substance

### International regulations

#### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### Montreal Protocol (Annexes A, B, C, E)

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not listed.

#### Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

#### UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

### Inventory list

<b>Australia</b>	: Not determined.
<b>Canada</b>	: Not determined.
<b>China</b>	: Not determined.
<b>Europe</b>	: Not determined.
<b>Japan</b>	: <b>Japan inventory (ENCS):</b> Not determined. <b>Japan inventory (ISHL):</b> Not determined.
<b>Malaysia</b>	: Not determined.
<b>New Zealand</b>	: Not determined.
<b>Philippines</b>	: Not determined.
<b>Republic of Korea</b>	: Not determined.
<b>Taiwan</b>	: Not determined.
<b>Thailand</b>	: Not determined.
<b>Turkey</b>	: Not determined.
<b>United States</b>	: Not determined.
<b>Viet Nam</b>	: Not determined.

## Section 16. Any other relevant information

### History

**Date of issue/Date of revision** : 30/08/2017  
**Date of previous issue** : 07/07/2017.  
**Version** : 1.1

### Key to abbreviations

: ADG = Australian Dangerous Goods  
 ATE = Acute Toxicity Estimate  
 BCF = Bioconcentration Factor  
 GHS = Globally Harmonized System of Classification and Labelling of Chemicals  
 IATA = International Air Transport Association  
 IBC = Intermediate Bulk Container  
 IMDG = International Maritime Dangerous Goods  
 LogPow = logarithm of the octanol/water partition coefficient  
 MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)  
 NOHSC = National Occupational Health and Safety Commission  
 SUSMP = Standard Uniform Schedule of Medicine and Poisons  
 UN = United Nations

### Procedure used to derive the classification

Classification	Justification
Not classified.	

**References** : Not available.

✔ Indicates information that has changed from previously issued version.

### Notice to reader

**Disclaimer:** The information contained in this document is based on Agilent's state of knowledge at the time of preparation. No warranty as to its accurateness, completeness or suitability for a particular purpose is expressed or implied.
