

SAFETY DATA SHEET

QC-Plex

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Product name : QC-Plex
Part No. (Kit) : QC-0521.100
Part No. : PCR Mix I-1228
Taq DNA Polymerase I-1229

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses	
Analytical reagent. For Research Use Only. Not for use in diagnostic procedures.	
1.315 ml	
PCR Mix	4 x 0.325 ml
Taq DNA Polymerase	0.015 ml

1.3 Details of the supplier of the safety data sheet

Agilent Technologies Belgium
De Kleetlaan 5 bus 9
1831 Diegem
Belgium

e-mail address of person responsible for this SDS : pdl-msds_author@agilent.com

1.4 Emergency telephone number

Emergency telephone number (with hours of operation) : CHEMTREC®: +(44)-870-8200418

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Product definition : PCR Mix Mixture
Taq DNA Polymerase Mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Not classified.

Ingredients of unknown toxicity : Taq DNA Polymerase Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: 10 - 30%

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements

Signal word : PCR Mix No signal word.
Taq DNA Polymerase No signal word.

Hazard statements : PCR Mix No known significant effects or critical hazards.
Taq DNA Polymerase No known significant effects or critical hazards.

Precautionary statements

Date of issue/Date of revision : 30/08/2017

QC-Plex

SECTION 2: Hazards identification

Prevention	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.
Response	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.
Storage	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.
Disposal	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.
Hazardous ingredients	: Taq DNA Polymerase	Not applicable.
Supplemental label elements	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.
Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.
<u>Special packaging requirements</u>		
Tactile warning of danger	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.

2.3 Other hazards

Other hazards which do not result in classification	: PCR Mix Taq DNA Polymerase	None known. None known.
--	---------------------------------	----------------------------

SECTION 3: Composition/information on ingredients

3.1 Substances : PCR Mix Mixture
Taq DNA Polymerase Mixture

Product/ingredient name	Identifiers	%	Regulation (EC) No. 1272/2008 [CLP]	Type
Taq DNA Polymerase Glycerol	REACH #: Annex V EC: 200-289-5 CAS: 56-81-5	≥25 - ≤50	Not classified.	[2]
Poly(oxy-1,2-ethanediyl), .alpha.-[(1,1,3,3-tetramethylbutyl)phenyl]-.omega.-hydroxy-	CAS: 9036-19-5	<1	Skin Irrit. 2, H315 Eye Dam. 1, H318 Aquatic Chronic 2, H411 See Section 16 for the full text of the H statements declared above.	[1] [5]

Type

- [1] Substance classified with a health or environmental hazard
 [2] Substance with a workplace exposure limit
 [3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII
 [4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII
 [5] Substance of equivalent concern
 [6] Additional disclosure due to company policy

QC-Plex

SECTION 4: First aid measures

4.1 Description of first aid measures

Eye contact	: PCR Mix	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
	Taq DNA Polymerase	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: PCR Mix	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
	Taq DNA Polymerase	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: PCR Mix	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
	Taq DNA Polymerase	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: PCR Mix	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
	Taq DNA Polymerase	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
Protection of first-aiders	: PCR Mix	No action shall be taken involving any personal risk or without suitable training.
	Taq DNA Polymerase	No action shall be taken involving any personal risk or without suitable training.

4.2 Most important symptoms and effects, both acute and delayed

Potential acute health effects

Eye contact	: PCR Mix	No known significant effects or critical hazards.
	Taq DNA Polymerase	No known significant effects or critical hazards.
Inhalation	: PCR Mix	No known significant effects or critical hazards.
	Taq DNA Polymerase	No known significant effects or critical hazards.
Skin contact	: PCR Mix	No known significant effects or critical hazards.
	Taq DNA Polymerase	No known significant effects or critical hazards.
Ingestion	: PCR Mix	No known significant effects or critical hazards.
	Taq DNA Polymerase	No known significant effects or critical hazards.

Over-exposure signs/symptoms

Eye contact	: PCR Mix	No specific data.
	Taq DNA Polymerase	No specific data.
Inhalation	: PCR Mix	No specific data.
	Taq DNA Polymerase	No specific data.
Skin contact	: PCR Mix	No specific data.
	Taq DNA Polymerase	No specific data.

QC-Plex

SECTION 4: First aid measures

Ingestion : PCR Mix No specific data.
 Taq DNA Polymerase No specific data.

4.3 Indication of any immediate medical attention and special treatment needed

Notes to physician : PCR Mix In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
 Taq DNA Polymerase Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific treatments : PCR Mix No specific treatment.
 Taq DNA Polymerase No specific treatment.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media : PCR Mix Use an extinguishing agent suitable for the surrounding fire.
 Taq DNA Polymerase Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media : PCR Mix None known.
 Taq DNA Polymerase None known.

5.2 Special hazards arising from the substance or mixture

Hazards from the substance or mixture : PCR Mix In a fire or if heated, a pressure increase will occur and the container may burst.
 Taq DNA Polymerase In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous combustion products : PCR Mix Decomposition products may include the following materials:
 carbon dioxide
 carbon monoxide
 nitrogen oxides
 phosphorus oxides
 Taq DNA Polymerase Decomposition products may include the following materials:
 carbon dioxide
 carbon monoxide

5.3 Advice for firefighters

Special precautions for fire-fighters : PCR Mix Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
 Taq DNA Polymerase Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters : PCR Mix Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.
 Taq DNA Polymerase Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

QC-Plex

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	: PCR Mix	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
	Taq DNA Polymerase	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
For emergency responders	: PCR Mix	If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
	Taq DNA Polymerase	If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

6.2 Environmental precautions

: PCR Mix	Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Taq DNA Polymerase	Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.3 Methods and material for containment and cleaning up

Methods for cleaning up	: PCR Mix	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
	Taq DNA Polymerase	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

6.4 Reference to other sections

: See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Protective measures	: PCR Mix	Put on appropriate personal protective equipment (see Section 8).
	Taq DNA Polymerase	Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	: PCR Mix	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
	Taq DNA Polymerase	Eating, drinking and smoking should be prohibited in areas

Date of issue/Date of revision : 30/08/2017

5/13

QC-Plex

SECTION 7: Handling and storage

where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

Storage	: PCR Mix	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.
	Taq DNA Polymerase	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

7.3 Specific end use(s)

Recommendations	: PCR Mix Taq DNA Polymerase	Industrial applications, Professional applications. Industrial applications, Professional applications.
Industrial sector specific solutions	: PCR Mix Taq DNA Polymerase	Not applicable. Not applicable.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

Product/ingredient name	Exposure limit values
Taq DNA Polymerase Glycerol	EH40/2005 WELs (United Kingdom (UK), 12/2011). TWA: 10 mg/m ³ 8 hours. Form: Mist

Recommended monitoring procedures : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

DNELs/DMELs

No DNELs/DMELs available.

QC-Plex

SECTION 8: Exposure controls/personal protection

PNECs

No PNECs available

8.2 Exposure controls

Appropriate engineering controls : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Individual protection measures

Hygiene measures : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection

Hand protection : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Environmental exposure controls : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance

Physical state	: PCR Mix Taq DNA Polymerase	Liquid. Liquid. [Clear. / solution]
Colour	: PCR Mix Taq DNA Polymerase	Not available. Colourless.
Odour	: PCR Mix Taq DNA Polymerase	Not available. Not available.
Odour threshold	: PCR Mix Taq DNA Polymerase	Not available. Not available.
pH	: PCR Mix Taq DNA Polymerase	Not available. Not available.
Melting point/freezing point	: PCR Mix Taq DNA Polymerase	Not available. Not available.
Initial boiling point and boiling range	: PCR Mix Taq DNA Polymerase	Not available. Not available.

QC-Plex

SECTION 9: Physical and chemical properties

Flash point	: PCR Mix	Not available.
	Taq DNA Polymerase	Not available.
Evaporation rate	: PCR Mix	Not available.
	Taq DNA Polymerase	Not available.
Flammability (solid, gas)	: PCR Mix	Not applicable.
	Taq DNA Polymerase	Not applicable.
Upper/lower flammability or explosive limits	: PCR Mix	Not available.
	Taq DNA Polymerase	Not available.
Vapour pressure	: PCR Mix	Not available.
	Taq DNA Polymerase	Not available.
Vapour density	: PCR Mix	Not available.
	Taq DNA Polymerase	Not available.
Relative density	: PCR Mix	Not available.
	Taq DNA Polymerase	Not available.
Solubility(ies)	: PCR Mix	Not available.
	Taq DNA Polymerase	Not available.
Partition coefficient: n-octanol/water	: PCR Mix	Not available.
	Taq DNA Polymerase	Not available.
Auto-ignition temperature	: PCR Mix	Not available.
	Taq DNA Polymerase	Not available.
Decomposition temperature	: PCR Mix	Not available.
	Taq DNA Polymerase	Not available.
Viscosity	: PCR Mix	Not available.
	Taq DNA Polymerase	Not available.
Explosive properties	: PCR Mix	Not available.
	Taq DNA Polymerase	Not available.
Oxidising properties	: PCR Mix	Not available.
	Taq DNA Polymerase	Not available.

9.2 Other information

No additional information.

SECTION 10: Stability and reactivity

10.1 Reactivity	: PCR Mix	No specific test data related to reactivity available for this product or its ingredients.
	Taq DNA Polymerase	No specific test data related to reactivity available for this product or its ingredients.
10.2 Chemical stability	: PCR Mix	The product is stable.
	Taq DNA Polymerase	The product is stable.
10.3 Possibility of hazardous reactions	: PCR Mix	Under normal conditions of storage and use, hazardous reactions will not occur.
	Taq DNA Polymerase	Under normal conditions of storage and use, hazardous reactions will not occur.
10.4 Conditions to avoid	: PCR Mix	No specific data.
	Taq DNA Polymerase	No specific data.
10.5 Incompatible materials	: PCR Mix	May react or be incompatible with oxidising materials.
	Taq DNA Polymerase	May react or be incompatible with oxidising materials.

QC-Plex

SECTION 10: Stability and reactivity

10.6 Hazardous decomposition products : PCR Mix Under normal conditions of storage and use, hazardous decomposition products should not be produced.
 Taq DNA Polymerase Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Taq DNA Polymerase Poly(oxy-1,2-ethanediyl), . alpha.-[(1,1,3, 3-tetramethylbutyl)phenyl]-. omega.-hydroxy-	LD50 Oral	Rat	2800 mg/kg	-

Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
Taq DNA Polymerase Poly(oxy-1,2-ethanediyl), . alpha.-[(1,1,3, 3-tetramethylbutyl)phenyl]-. omega.-hydroxy-	Eyes - Severe irritant	Rabbit	-	1%	-

Sensitiser

Conclusion/Summary : Not available.

Information on likely routes of exposure : PCR Mix Not available.
 Taq DNA Polymerase Routes of entry anticipated: Oral, Dermal, Inhalation.

Potential acute health effects

Inhalation : PCR Mix No known significant effects or critical hazards.
 Taq DNA Polymerase No known significant effects or critical hazards.

Ingestion : PCR Mix No known significant effects or critical hazards.
 Taq DNA Polymerase No known significant effects or critical hazards.

Skin contact : PCR Mix No known significant effects or critical hazards.
 Taq DNA Polymerase No known significant effects or critical hazards.

Eye contact : PCR Mix No known significant effects or critical hazards.
 Taq DNA Polymerase No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Inhalation : PCR Mix No specific data.
 Taq DNA Polymerase No specific data.

Ingestion : PCR Mix No specific data.
 Taq DNA Polymerase No specific data.

Skin contact : PCR Mix No specific data.
 Taq DNA Polymerase No specific data.

Eye contact : PCR Mix No specific data.
 Taq DNA Polymerase No specific data.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Short term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Long term exposure

Potential immediate effects : Not available.

QC-Plex

SECTION 11: Toxicological information

Potential delayed effects : Not available.

Potential chronic health effects

General	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
Carcinogenicity	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
Mutagenicity	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
Teratogenicity	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
Developmental effects	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.
Fertility effects	: PCR Mix Taq DNA Polymerase	No known significant effects or critical hazards. No known significant effects or critical hazards.

SECTION 12: Ecological information

12.1 Toxicity

Product/ingredient name	Result	Species	Exposure
Taq DNA Polymerase Poly(oxy-1,2-ethanediyl), . alpha.-[(1,1,3, 3-tetramethylbutyl)phenyl]-. omega.-hydroxy-	Acute EC50 210 µg/l Fresh water	Algae - Pseudokirchneriella subcapitata	96 hours
	Acute LC50 10800 µg/l Marine water	Crustaceans - Pandalus montagui - Adult	48 hours
	Acute LC50 8600 to 9800 µg/l Fresh water	Daphnia - Daphnia magna - Neonate	48 hours
	Acute LC50 7200 µg/l Fresh water	Fish - Oncorhynchus mykiss	96 hours

12.2 Persistence and degradability

Not available.

12.3 Bioaccumulative potential

Product/ingredient name	LogP _{ow}	BCF	Potential
Taq DNA Polymerase Poly(oxy-1,2-ethanediyl), . alpha.-[(1,1,3, 3-tetramethylbutyl)phenyl]-. omega.-hydroxy-	3.77	78.67	low

12.4 Mobility in soil

Soil/water partition coefficient (K_{oc}) : Not available.

Mobility : Not available.

12.5 Results of PBT and vPvB assessment

PBT : Not applicable.

vPvB : Not applicable.

12.6 Other adverse effects : No known significant effects or critical hazards.

Date of issue/Date of revision : 30/08/2017

10/13

QC-Plex

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product

- Methods of disposal** : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.
- Hazardous waste** : Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC.

Packaging

- Methods of disposal** : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.
- Special precautions** : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

SECTION 14: Transport information

ADR/RID / IMDG / IATA : Not regulated.

14.6 Special precautions for user : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

14.7 Transport in bulk according to Annex II of Marpol and the IBC Code : Not available.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU Regulation (EC) No. 1907/2006 (REACH)

Annex XIV - List of substances subject to authorisation

Annex XIV

None of the components are listed.

Substances of very high concern

Ingredient name	Intrinsic property	Status	Reference number	Date of revision
Taq DNA Polymerase Poly(oxy-1,2-ethanediyl), .alpha.-[(1,1,3,3-tetramethylbutyl)phenyl]-.omega.-hydroxy-	Substance of equivalent concern for environment	Recommended	ED/169/2012	2/10/2014

Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles : PCR Mix Not applicable.
Taq DNA Polymerase Not applicable.

Other EU regulations

Ozone depleting substances (1005/2009/EU)

Not listed.

Prior Informed Consent (PIC) (649/2012/EU)

Date of issue/Date of revision : 30/08/2017

11/13

QC-Plex

SECTION 15: Regulatory information

Not listed.

Seveso Directive

This product is not controlled under the Seveso Directive.

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

Montreal Protocol (Annexes A, B, C, E)

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

Inventory list

Australia	: Not determined.
Canada	: Not determined.
China	: Not determined.
Europe	: Not determined.
Japan	: Japan inventory (ENCS) : Not determined. Japan inventory (ISHL) : Not determined.
Malaysia	: Not determined.
New Zealand	: Not determined.
Philippines	: Not determined.
Republic of Korea	: Not determined.
Taiwan	: Not determined.
Thailand	: Not determined.
Turkey	: Not determined.
United States	: Not determined.
Viet Nam	: Not determined.

15.2 Chemical safety assessment : This product contains substances for which Chemical Safety Assessments might still be required.

SECTION 16: Other information

Indicates information that has changed from previously issued version.

Abbreviations and acronyms : ATE = Acute Toxicity Estimate
CLP = Classification, Labelling and Packaging Regulation [Regulation (EC) No. 1272/2008]
DNEL = Derived No Effect Level
EUH statement = CLP-specific Hazard statement
PNEC = Predicted No Effect Concentration
RRN = REACH Registration Number

Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Classification	Justification
Not classified.
