**1** Identification · Product identifier · Trade name: 2-Pentanone · Part number: WRK-155D · CAS Number: 107-87-9 · EC number: 203-528-1 · Index number: 606-007-00-0 · Application of the substance / the mixture Reagents and Standards for Analytical Chemical Laboratory Use · Details of the supplier of the safety data sheet · Manufacturer/Supplier: Agilent Technologies, Inc. 5301 Stevens Creek Blvd. Santa Clara, CA 95051 USA · Information department: Telephone: 800-227-9770 e-mail: pdl-msds author@agilent.com · Emergency telephone number: CHEMTREC®: 1-800-424-9300 2 Hazard(s) identification

# · Classification of the substance or mixture

GHS02 Flame

Flam. Liq. 2 H225 Highly flammable liquid and vapor.

GHS07

Acute Tox. 4 H302 Harmful if swallowed. Eye Irrit. 2A H319 Causes serious eye irritation.

· Label elements

• GHS label elements The substance is classified and labeled according to the Globally Harmonized System (GHS).

· Hazard pictograms

· Signal word Danger

- Hazard-determining components of labeling: pentan-2-one
- **Hazard statements** Highly flammable liquid and vapor. Harmful if swallowed.

| (Cond. of page 1) Causes serious eye irritation. Precautionary statements Keep away from heat/sparks/open flames/hot surfaces No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting/equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection. If swallowed: Call a poison center/doctor if you feel unwell. Rinse mouth. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. In case of fire: Use for extinction: CO2, powder or water spray. Store in a well-ventilated place. Keep cool. Dispose of contents/container in accordance with local/regional/national/international regulations. Classification system: NFPA ratings (scale 0 - 4) HeALM 2 Health = 2 Fire = 3 Reactivity = 0 Other hazards Results of PBT and vPVB assessment PBT: Not applicable. Composition/information on ingredients Chemical characterization: Substances CAS No. Description 107-87-9 pentam-2-one Identification number(\$) EC unuber: 203-22.81   |   |

### **4 First-aid measures**

#### · Description of first aid measures

· General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact: Immediately rinse with water.
- After eve contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

- · After swallowing: Immediately call a doctor.
- · Information for doctor:
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- · Indication of any immediate medical attention and special treatment needed

No further relevant information available.

### **5** Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents:
- CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- · For safety reasons unsuitable extinguishing agents: Water with full jet
- Special hazards arising from the substance or mixture No further relevant information available.
- · Advice for firefighters
- · Protective equipment: No special measures required.

| 6 Accidental release measures  |                    |
|--|--------------------|
| · Personal precautions, protective equipment and emergency procedures                            |                    |
| Wear protective equipment. Keep unprotected persons away.  |                    |
| • Environmental precautions: Do not allow to enter sewers/ surface or ground water.              |                    |
| • Methods and material for containment and cleaning up:  |                    |
| Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). |                    |
| Dispose contaminated material as waste according to item 13.                                     |                    |
| Ensure adequate ventilation.   |                    |
| · Reference to other sections  |                    |
| See Section 7 for information on safe handling.  |                    |
| See Section 8 for information on personal protection equipment.                                  |                    |
| See Section 13 for disposal information.   |                    |
| · Protective Action Criteria for Chemicals   |                    |
| · PAC-1:   |                    |
|  | 150 ppm            |
| · PAC-2:   |                    |
|  | 830 ppm            |

### 7 Handling and storage

#### · Handling:

· PAC-3:

- Precautions for safe handling No special precautions are necessary if used correctly.
- Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- · Requirements to be met by storerooms and receptacles: Store in a cool location.
- · Information about storage in one common storage facility: Not required.
- · Further information about storage conditions:

Keep receptacle tightly sealed.

Store in cool, dry conditions in well sealed receptacles.

• Specific end use(s) No further relevant information available.

### 8 Exposure controls/personal protection

• Additional information about design of technical systems: No further data; see item 7.

#### · Control parameters

· Components with limit values that require monitoring at the workplace:

#### 107-87-9 pentan-2-one

PEL Long-term value: 700 mg/m<sup>3</sup>, 200 ppm

REL Long-term value: 530 mg/m<sup>3</sup>, 150 ppm

TLV Short-term value: 529 mg/m<sup>3</sup>, 150 ppm

• Additional information: The lists that were valid during the creation were used as basis.

#### · Exposure controls

· Personal protective equipment:

### · General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Avoid contact with the eyes.

Avoid contact with the eyes and skin.

#### · Breathing equipment:

When used as intended with Agilent instruments, the use of the product under normal laboratory conditions and with standard practices does not result in significant airborne exposures and therefore respiratory protection is not needed.

Under an emergency condition where a respirator is deemed necessary, use a NIOSH or equivalent approved device/equipment with appropriate organic or acid gas cartridge.

#### · Protection of hands:

Although not recommended for constant contact with the chemicals or for clean-up, nitrile gloves 11-13 mil thickness are recommended for normal use. The breakthrough time is 1 hr. For cleaning a spill where there is direct contact of the chemical, butyl rubber gloves are recommended 12-15 mil thickness with breakthrough times exceeding 4 hrs. Supplier recommendations should be followed.

### date 03/25/2019

Reviewed on 03/25/2019

Trade name: 2-Pentanone

(Contd. of page 4)

· Material of gloves

For normal use: nitrile rubber, 11-13 mil thickness

For direct contact with the chemical: butyl rubber, 12-15 mil thickness

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

#### · Penetration time of glove material

For normal use: nitrile rubber: 1 hour

For direct contact with the chemical: butyl rubber: >4 hours

#### • Eye protection:

Tightly sealed goggles

# 9 Physical and chemical properties

### **10 Stability and reactivity**

· Reactivity No further relevant information available.

- · Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

### **11 Toxicological information**

· Information on toxicological effects

· Acute toxicity:

· LD/LC50 values that are relevant for classification:

**ATE (Acute Toxicity Estimate)** 

Oral LD50 1,600 mg/kg (rat)

107-87-9 pentan-2-one

- LD50 1,600 mg/kg (rat) Oral
- Dermal LD50 6,500 mg/kg (rabbit)

### Primary irritant effect:

• on the skin: No irritant effect.

- on the eye: Irritating effect.
- · Sensitization: No sensitizing effects known.
- · Additional toxicological information:

· Carcinogenic categories

· IARC (International Agency for Research on Cancer)

Substance is not listed.

· NTP (National Toxicology Program)

### **12 Ecological information**

- · Toxicity
- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- · Mobility in soil No further relevant information available.
- · Additional ecological information:
- · General notes:

Water hazard class 1 (Assessment by list): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- **vPvB:** Not applicable.
- · Other adverse effects No further relevant information available.

### **13 Disposal considerations**

- · Waste treatment methods
- · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- Recommendation: Disposal must be made according to official regulations.
