**AGILENT HPLC COLUMNS NAVIGATOR**

**SMALL MOLECULE APPLICATIONS FOR PHARMA**

**START HERE WITH**

Poroshell 128 EC-C18 for Fast LC performance on any HPLC

Up to 50% less pressure than sub-2 µm; a total lab productivity enhancer

**HIGH pH**

**LOW pH**

**NEW**

**Poroshell HPM**

**1C C18 and EC-C18**

**Best all around – peak shape, efficiency, resolution, and lifetime**

**Poroshell 128**

**ZORBAX Eclipse Plus**

**ZORBAX C18, C8, Phenyl, CN**

**High performance over a wide pH range, based on Eclipse XDB**

**Poroshell 120**

**ZORBAX Eclipse XDB**

**Alternative selectivity to alkyl, phenyl, cyano phases**

**Poroshell 120 EC-C18, SB-C8, SB-CN, SB-Aq**

**Best for low pH mobile phases – great for method development**

**Poroshell 120**

**ZORBAX Eclipse XDB**

**Exceptional lifetime at low pH – no endcapping**

**Poroshell 120**

**ZORBAX SB-Aq**

**Orthogonal chemistries for polar compounds**

**Poroshell 120**

**ZORBAX SB-CN**

**Alternative selectivity to alkyl, phenyl, cyano phases**

**Poroshell 120**

**ZORBAX SB-Aq**

**Polar-ended to improve peak shapes for basic compounds at low end pH**

**Application Note 5991-3717EN.**
